

Bologna - 24 March 2022

This document has been prepared by Unipol Gruppo S.p.A. and by UnipolSai Assicurazioni S.p.A. solely for information purposes in the context of the presentation of its FY21 results.

Maurizio Castellina, Senior Executive responsible for drawing up the corporate accounts of Unipol Gruppo S.p.A. and UnipolSai Assicurazioni S.p.A., declares, in accordance with Article 154-bis, para 2, of the 'Consolidated Finance Act', that the accounting information reported in this document corresponds to the document contents, books and accounting records.

The content of this document does not constitute a recommendation in relation to any financial instruments issued by the companies or by other companies of the Group, nor it constitutes or forms part of any offer or invitation to sell, or any solicitation to purchase any financial instruments issued by the companies or by other companies of the Group, nor it may be relied upon for any investment decision by its addressees.

Unless otherwise specified, all figures reported in this presentation refer to the Unipol Group.

- Thematic investments: + 41% compared to 2020
- Investments for combatting climate change and for protection of the environment and of terrestrial, marine and freshwater ecosystems: +50% compared to 2020

### Management of Environmental Impacts

2021 ESG Indicators

#### Monitoring of the Scope 1 and Scope 2 Emissions

- 100% of the electricity supply in Italy coming from renewable source (as from May 2021 start of the renewable energy supplies in Serbia)
- **ISO50001** certified energy management system
- Use of technologies to maximise energy savings in new buildings and renovations of existing buildings

- Reduction by 10.5% in CO<sub>2</sub> emissions from property in 2021: total 33.863 t CO<sub>2</sub> eq
- Reduction in the average CO<sub>2</sub> emission per employee to 2.8 t, down by 35% over 2018 (vs Plan target of -7% in the period 2019-2021)

#### Monitoring of the Scope 3 Emissions (examples)

7,592 t CO<sub>2</sub> eq Emissions linked to employees' homeworking b

904,724 t CO<sub>2</sub> eq Total induced emissions corporate investmens portfolio (Scope 1, Scope 2 and other direct emissions)

6,548,666 t CO<sub>2</sub> eq generated by customers' travel with electronic devices (vs 5,759,805 t CO<sub>2</sub> eg in 2020)

218,880 t CO<sub>2</sub> eq generated by **Unipol**Rental LTR vehicles

<sup>&</sup>lt;sup>b</sup> Calculated according to the methodology described in the «Homeworking emissions whitepaper» drawn up in November 2020 by EcoAct, Lloyds Banking Group and NatWest Group

<sup>&</sup>lt;sup>a</sup> These results are due partly to the different way of using buildings following the pandemic. For a better understanding of the impact of the pandemic on the emission trend, it has been estimated the amount of emission linked to the employee homeworking
