13-Year Revenue Evolution

A Wide Product-Mix

In order to maintain its leading position and increase the penetration of market, Cembre had sensibly enlarged the range of products offered through:

- **Research activities** mainly focused on the development of innovative products for the sectors with the highest growth potential (rail transportation, civil and industrial plant engineering),
- **Improvement and update of existing products** to get them easier to use and more efficient in their performances,
- **Introduction of complementary products** (e.g. cable markers).

Electrical Connectors: 8.7% increase in Sales

Electrical Connectors:	1 st Quarter 2015	1 st Quarter 2014	Δ

Cembre's Revenue and Profitability Trend (€ '000)

2015 and onwards...

Cembre focused on these targets:

Increase of turnover thanks to:

- A strengthening of Cembre competitive advantage by developing new products and continuous product range renewing by an intense R&D activity,
- An higher penetration in the foreign markets, especially in the US,
- A commercial commitment focus on high growing potential products.

Cost management by a better operative efficiency obtained from economies of scale and process innovations;

Enforcing the **manufacturing structure** by investing in high-tech, highly-automated machinery:

- The purchase of the 13,500 m² industrial area next to its plant (dec – 2011), by investing €9.7 mn (Brescia plant and offices today cover a floor-space of 51,000 m² while the total plant area reached 121,000 m²), this area will be dedicated to production enforcement.

2015 and onwards...

- The construction of a new 4,800 m² industrial building which is the new logistic center. This center includes an automated warehouse with 16-metre-high shelves. The construction started in March 2012, and the new automatic warehouse is operative since January 2013. This warehouse is 3 times more efficient, and has a 50% increase in end-product capacity warehousing.
