Press release

GO internet reaches 28,762 active customers, +39% on 2014

Gubbio, 30th September 2015 – GO internet S.p.A. reaches 28,762 active customers as of 30th September 2015, 39% more than the number registered in 2014.

“Customers data as of 30th September 2015 show a solid expansion. The company’s growth is supported by the launch of the new 4G LTE service as well as by the constant acquisition of new sites to expand the network coverage, especially after GO signed an important site lease agreement of three years with EI Towers, a leader in Italy in the operation of infrastructures used in radio and television broadcasting. Moreover, the Italian Communication Authority (Agcom) published a consultation on the 3.6-3.8 Ghz band which could be offered in a tender over the next few months. This opportunity could allow the Company to extend its coverage to other Italian regions other than Marche and Emilia Romagna” said Flavio Ubaldi, Chief Operating Officer and Head of Sales of the Company.

Tomorrow at 10:45 am GO internet will participate at the Investor Day, a conference organized by Banca Popolare di Vicenza in Milan. The company will discuss the new data on the acquisition of customers and the interim financial results as of 30th June 2015. The new research conducted by the independent London house Edison Investment Research will be available as well. The research can also be downloaded at http://www.gointernet.it/Company/Investor_Relations.aspx
