Press release

GO internet reaches 31,356 active customers, +36% on 2014

Gubbio, 4th January 2016 – GO internet S.p.A. reaches 31,356 active customers as of 31st December 2015, 36% more than the number registered in 2014.

“In 2015 we recorded a constant growth thanks to a business model characterized by one of the most competitive offers on the market, a simple product and by the exclusive “try & buy” formula which allows potential customers to try the product for free at home. The growth was also supported by the launch of the new LTE service and by an advantageous environment which sees many households abandoning the landline. According to Agcom’s Quarterly Monitoring, during the last twelve months there has been a national decrease of 170.000 ADSL landlines. We are also expanding the network coverage and are interested in the awarding of the 3.6-3.8 GHz frequencies which may help us increase the number of regions where we can develop our business. Agcom has just published a deliberation on the awarding of these frequencies” said Flavio Ubaldi, Chief Operating Officer and Head of Sales of GO internet.
