On 15 March 2022, the Company approved the Sustainability Report for the Business Year also containing the information required by the regulation for the NFD, which will be published in a separate report from the Directors’ Report.

As specifically dealt with in Section 12, the Board of Directors encourages engagement with the shareholders and other stakeholders relevant to the Issuer.

During the course of the business year, the Board of Directors carried out the activities in relation to the frameworks in the above points a., b., c., e. and f..

With regard to point g. above, in 2018 the Company adopted a Procedure for the management of insider and confidential information and, in 2020, a Regulation for the management of media relations. See Section 5 for detailed information in this regard.

During the course of the Business Year, the Board of Directors also:

- did not deem it necessary to draw up reasoned proposals to submit to the Shareholders' Meeting for defining a system of corporate governance more functional to the business needs;

4.2 Appointment and replacement

(ex art. 123 bis, para. 1, subsection 1) CLF)

The appointment and replacement of Directors are disciplined by the Corporate By-Laws and the laws and regulations in force on the matter.

Art. 13 of the Corporate By-Laws provides that the members of the Board of Directors are elected on the basis of lists of candidates.

Should there be more than one list, one of the members of the Board of Directors must be from the list which obtained the second highest number of votes.

Only those shareholders who, either individually or together with others, hold a total number of shares with the right to vote representing at least 2.5% of the share capital have the right to submit lists. This percentage of shares may be otherwise established or recalled by the mandatory dispositions of the law or regulatory dispositions.²

Shareholders, and also shareholders linked by control or connection relations pursuant to the Civil Code, may not submit or vote for more than one list, even through an intermediary individual or trust company. Candidates may only be listed on one list, on penalty of being ineligible.

² The Consob resolution no. 28 dated 30 January 2020 established for MARR that the lesser quota provided by the Corporate By-Laws holding firm, the shareholding quota required for the submission of lists of candidates for election to the administrative and auditing bodies for 2020 is 1.0%.

The candidates included in the lists must be listed by progressive number and possess all the suitability requirements provided by the law.

The lists must indicate which of the candidates are in possession of the independence requirements established by the law and regulations in force. The candidate listed as number one in the progressive order must also be in possession of the independence requirements.

The lists which contain three or more candidates must also include candidates of different genders so as to ensure that the composition of the Board of Directors respects that provided by the laws and regulations in force concerning gender equality.

The lists submitted must be filed at the company headquarters at least twenty-five days prior to the date of the first call of the Shareholders' Meeting and this must be mentioned in the notification of call. In order to legitimise the submitted lists, an appropriate communication issued by the authorised brokers, proving the ownership of the shareholding in the company determined with regard to the shares registered in the name of the shareholders on the day on which the lists are filed at the Company, has to be provided to the Company. The communication may also be received subsequently to deposit, as long as it is produced within the deadline laid down for the publication of the lists by the Company.

The declarations in which individual candidates accept their candidatures and certify, under their own responsibility, the possession of the prescribed requirements must be filed with each list. Candidates who do not observe the above rules shall be deemed ineligible.

The lists are available to the public at the company headquarters, the company website and in the other methods provided by the applicable regulatory dispositions at least twenty-one days prior to the meeting.

The election of the members of the Board of Directors is carried out as follows:

- (i) all but one of the Directors to be elected will be taken from the list obtaining the highest number of votes, on the basis of the progressive order in which the candidates are listed on the list;
- (ii) in compliance with the legal dispositions, one director is elected from the list obtaining the second highest number of votes, who may not be connected in any way, even indirectly, with the shareholders who submitted or voted for the list obtaining the highest number of votes, on the basis of the progressive order in which the candidates are listed in the list.

That outlined above holding firm, in the case in which more than one list has obtained the same number of votes, the majority list shall be considered to all effects to be that voted for by the most shareholders and, in the case of parity, the list filed first.

The same rules are applicable in the case in which several minority lists have obtained the same number of votes.

For the purposes of dividing the Directors to be elected, lists which obtained a percentage of votes of less than half of that required for the submission of lists shall not be taken into account.

If only one list is submitted, or if the minority lists submitted have not obtained a percentage of votes equal to at least half of that provided in the above paragraph, the members of the Board of Directors will be taken from the only valid list.

Should the laws in force concerning gender equality not have been respected after the above voting and operations, the candidate of the most represented gender elected last in progressive order from the list obtaining the highest number of votes shall be replaced by the first candidate of the less represented gender not elected from the same list according to the progressive order.

Lastly, should this procedure not ensure the respect of the laws in force on gender equality, the replacement shall be made by majority resolution of the Shareholders' Meeting, after the presentation of candidatures from individuals of the less represented gender.

Should the candidates elected by the above methods not ensure the appointment of the minimum number of directors in possession of the requisites of independence foreseen by the applicable laws in relation to the overall number of directors, the non-independent candidate elected last in progressive order from the list obtaining the highest number of votes shall be replaced by the first candidate – in possession of the legal requisites of independence – according to the progressive order not elected from the same list, or otherwise by the first independent candidate according to the progressive order not elected from the other lists, taking into account the number of votes obtained by each list, as long as in respect of the laws in force concerning gender equality.

Should said procedure not ensure that the Board of Directors does not include the minimum number of directors in possession of the legal requisites of independence foreseen by the law, replacement shall be made by resolution of the Shareholders' Meeting with the legal majorities, after presentation of candidatures in possession of said requisites, always in respect of the laws in force concerning gender equality.

If no lists have been presented within the required deadline or no list has been found to be admissible, the Shareholders' Meeting shall proceed, at the Chairman's invitation, to appoint the Directors by resolution passed by the majority of voters, in any case safeguarding the appointment of the minimum number of directors in possession of the legal requisites of independence required by the laws in force at the time and in respect of the laws in force concerning gender equality.

Art. 14 of the Corporate By-Laws establishes that should one or more Directors step down from office during the business year, the procedure pursuant to art. 2386 of the Civil Code will be followed, according to that indicated below:

(i) the Board of Directors will appoint replacements from the names on the list which the Directors no longer in office were included in and the Shareholders' Meeting will reach a decision, with the legal majority required, respecting the same principle;

(ii) should there be no candidates left on the list from which the directors were elected, the Board of Directors will appoint replacements without observing that indicated in point (i) above, and the Shareholders' Meeting will reach a decision on the basis of the majority required by the law.

In any event, the replacement of the board members stepping down is done by the Board of Directors, ensuring the respect of the laws and regulations in force concerning gender equality.

However, should the majority of the Directors appointed by the Shareholders' Meeting resign or step down from office for any other reason, the entire Board of Directors shall be deemed to have resigned and an urgent meeting of the Shareholders' Meeting shall be called for the appointment of the new Board by the Directors still in office, who in the meantime may carry out everyday management activities.

As regards the information on the role of the Board of Directors and its internal committees in the processes of self-evaluation, appointment and succession of the directors, see the following Section 7.

Diversity criteria and policies in the composition of the Board and the company workforce

Although the Company has not adopted a specific policy in terms of diversity with regard to aspects such as age, gender composition, training and professional careers and the composition of the administration and management bodies, it has taken these matters substantially into account in defining the positions and identifying the candidates suited to filling the role of Director.

As confirmation of this, in the Reports and proposals to the Directors on the items of the agenda of the shareholders' meeting on 28 April 2020, the Board of Directors proposed the following recommendation in this regard to the shareholders' meeting, concerning, among other things, the composition of the Board of Directors:

"in addition to proper gender representation, which is envisaged by the law, we believe it would be opportune to maintain the current diversity in terms of skills, professional specialisations, managerial history and knowledge of the various aspects of the everyday business".

Consequently, the current composition of the Board of Directors, in addition to ensuring gender equality, has an adequate level of "diversity", enabling, as a result of the personal and professional characteristics of each of the members, an adequate and detailed examination of the various questions normally raised for their attention, taking into account the dimensions, structure and reference market of the Company.

Regarding the company workforce, the Company has adopted a Human Resource Management Policy aimed at pursuing the development and valorisation of its collaborators based on merit, effective skills and capacity and potential, taking attitude and aspirations into account, in full respect of the criteria of impartiality and equity, with no discrimination on the grounds of ethnicity, religious beliefs, language, political opinions and gender.

MARR also promotes the respect of the criteria of Social Responsibility laid down by regulation SA 8000 (social Accountability) within its workforce and in the supply chain, as well as that defined by the Company's Code of Ethics.

⁶ Mrs. Marinella Monterumisi also acted as a standing auditor of the Company from 28 April 2011 to 28 April 2014.

Maximum number of positions held in other companies

As envisaged in the Code for Large Companies, the Board of Directors has expressed its own opinion regarding the maximum number of management and auditing positions held in other listed companies or companies of significant dimensions that can be considered compatible with the effective performance of the role of Director of the Company, taking into account the commitment required by the position in question.

This orientation, included in the Regulation for the functioning of the Board of Directors adopted in 2020, provides that:

- a) in addition to their position in the company, an executive director should not hold
 - i) the office of executive board member in another listed company or a company of significant dimensions with a net equity in excess of 5 billion Euros;
 - ii) the office of non-executive board member or statutory auditor in more than three of the aforementioned companies;
- b) in addition to their position in the company, a non-executive director should not hold
 - i) the office of executive director in more than one listed company or in more than two companies of significant dimensions with a net equity in excess of 5 billion Euros;
 - ii) the office of non-executive director or auditor in more than ten of the aforementioned companies.

The offices held in other companies in the MARR Group are excluded from the maximum limit.

The current Board of Directors complies with the above criteria.

The following are the names of the members of the Board of Directors who held offices in other listed companies or companies of significant dimensions during the Business Year:

4.4 Functioning

(ex art. 123 bis, para. 2, subsection d) CLF)

On 28 September 2020, the Board of Directors adopted the “Regulation for the functioning of the Board of Directors” in order to discipline the functioning of the Board itself, including taking the minutes of meetings and the procedures for the management of disclosure of information to the directors.

The Regulation on the functioning of the Board of Directors provides that, prior to each meeting of the Board, the Chairman, with the support of the Secretary, ensures that the Directors and Statutory Auditors are provided all the information necessary for them to intervene with awareness on the matters being resolved. Specifically, the documentation concerning the items being discussed and resolved on the by Board of sent with suitable advance notice, which is usually at least 3 days prior to the meeting, except

when specific circumstances do not allow; in such an eventuality, the documentation is sent as soon as it is available.

Should the Chairman deem it opportune, in exceptional cases and when brought on by urgency, the documentation concerning the matters to be resolved on can be provided directly during the course of the meeting.

Further documentation not strictly concerning the items to be discussed and resolved on by the Board may be provided in the timeframes and methods deemed most opportune by the Chairman.

During the course of the year, the aforementioned deadline for sending the documentation for Board meetings was respected.

The information provided is integrated and, when deemed opportune, replaced by that illustrated during the course of the Board meeting, thereby ensuring that the Board members reach decisions with awareness.

The support documentation for meetings of the Board is prepared by the competent corporate departments and subsequently made available to each Director and Statutory Auditor according to the instructions of the Chairman on a "reserved area" of the Company website, managed by the Secretary to guarantee reserved access for Directors and Statutory Auditors only.

The Regulation on the functioning of the Board of Directors also provides that the discussions, decisions reached and any dissent or contrary vote of the Board members be included in the minutes signed by the Chairman and Secretary. As soon as the minutes are available, they are sent in draft form to the Board members and Statutory Auditors by the Secretary in agreement with the Chairman for observations to be made. Having integrated these observations, if any, into the text within the deadline indicated by the Secretary, in accordance with the Chairman, in the dispatch notification, the final version of the minutes is then transcribed into relative corporate book, after informing the Directors and Statutory Auditors, and made available in the "reserved section".

The regularity of board meetings is ensured by the requirement of at least 4 meetings annually. The annual calendar of corporate events, with the scheduled dates of the meetings for the approval of the draft annual financial statements, the half-yearly financial report and the interim quarterly management reports is notified to the market and made available on the Company's website.

9 meetings of the Board of Directors were held in the business year. 5 meetings have been scheduled for 2022, 2 of which have already been held, including that for the approval of the draft annual and consolidated financial statements as at 31 December 2021 and this Report.

The average duration of the meetings was 110 minutes and, considering the emergency caused by the COVID-19 epidemic, were held giving the choice of the Directors to attend by videoconference.

Participation in the meetings of the Board of Directors by the Directors was always assiduous, as shown by the attendance percentages (see Annex A).

Lead Independent Director

Given that the Chairman is not the main person responsible for the management of business activities, nor the person controlling the Company, it was not necessary to appoint a Lead independent director. relations with means of information and authorising the publication of press releases and the distribution of press information.

Said procedures and regulations are available for consultation on the Company website www.marr.it/corporate-governance.

6. INTERNAL COMMITTEES OF THE BOARD

(ex art. 123 bis, para. 2 subsection d) CLF)

In its meeting on 28 April 2020, in compliance with the Code, the Board of Directors decided to:

- form a Control and Risk Committee;
- attribute the functions of the Remuneration Committee and Nomination Committee to the entire Board of Directors, in order to simplify corporate governance.

In previous years, the Board had adopted suitable regulations governing the functioning of its committees, including the methods of taking minutes of meetings and the procedures for managing disclosure of information to their members, specifying the terms for the prior dispatch of information and the methods of ensuring the confidentiality of the data and information provided, in order to not prejudice the promptness and completeness of the flow of information.

Specifically, the Regulation for the Control and Risk Committee, updated in the meeting on 19 February 2021, provides that:

- the Chairman of the Board of Statutory Auditors and another statutory auditor designated by them are members of the Committee; the other members of the Board of Statutory Auditors may also attend the meetings;
- the Chairman of the Board of Directors is invited to attend, so that he may coordinate with the Board itself and the other independent directors, so that they are fully informed on the activities of the committee itself;
- the Committee has the right to invite the Company management to its meetings for in-depth information on each item being discussed;
- the documentation to be prepared by the Company management is made available to all of the members and participants at least 3 days prior to the meeting.

As stated above, the functions of the Remuneration Committee and Nomination Committee have been reserved for the entire Board, constituted by mainly independent directors (5 independent according to the CLF and 3 also according to the Code). The Board dedicates adequate time during the course its meetings for the functions typically attributed to the same committees.

The following Sections and Annex B contain more information on the internal committees of the Board.

7. SELF-ASSESSMENT AND SUCCESSION OF THE DIRECTORS – NOMINATION COMMITTEE

(ex art. 123 bis, para. 2 subsection d), CLF)

7.1 Self-assessment and succession of the directors

The Board of Directors of MARR, a Concentrated Ownership Company, consistently with the proportionality measures provided by the Code, conducts a self-assessment every three years prior to renewal, concerning the dimensions, composition and concrete functioning of the Board itself and its internal committees.

The last self-assessment was conducted during the Board meeting on 14 November 2019.

The Chairman of the Board of Directors, assisted by the Corporate Affairs Office, was the internal subject responsible for the preliminary part of the self-assessment process.

The Board of Directors expressed its own assessment:

- a) comparing some elements concerning dimension, composition and functioning with that encountered in other listed companies, the most up-to-date version of the statistical data processed by Assonime being taken as the reference point for this assessment;
- b) analysing the results of the questionnaire distributed to all members of the Board and its Committees.

On this occasion, the Board positively assessed the dimensions, composition and functioning of the Board itself and its internal committees.

In its meeting on 25 February 2022, the Board agreed to conduct the next self-assessment by the end of the current year and, also on the basis of what emerged from the benchmark activities, it decided to:

- conduct the self-assessment using a suitable questionnaire to be submitted to the directors with the aim of identifying the areas of strength and criticalities in terms of dimensions, composition and functioning of the Board of Directors in office.
- entrust to the Secretary of the Board and the Chairman of the CRC the duty of preparing the proposal of the contents of the perimeter of the questionnaire, which will be finalised after hearing the opinion of the Chairman of the Board of Directors and sent to the directors and statutory auditors for observations and additions. The data collected will be used to prepare a summary document, completed with the observations and suggestions made, in aggregate form and not traceable to any individual replies;
- submit the summary document to the Board of Directors during its meeting on 14 November 2022 as an item on the Agenda; the Board will then discuss it and make any further comments necessary, which will be taken into consideration in preparing the final assessment document.

In view of the most recent renewal of the body, in 2020, the Board of Directors expressed its opinion on the quantitative and qualitative composition, which was deemed optimal, also taking into account the outcome of the above-mentioned self-assessment. This opinion was included in the illustrative report on the item on the agenda concerning the appointment of the Board of Directors and published on the Company website, together with the notice of call of the Shareholders' Meeting.

In the context of the activities carried out to fully adjust the corporate governance to the Code, as required for Large Companies, the Board of Directors, acting as the Nomination Committee, also defined during the course of the year a plan for the succession of the Chief Executive Officer. Taking into account the importance and delicacy of the matter, the Board decided on a gradual approach involving an initial phase enabling it to deal with any emergency to ensure management continuity and leaving any more radical intervention to a later phase.

In the initial phase, which satisfies the requirements of the Code, the Board decided that, in the event of advance termination or impediment, even temporary (estimable as at least one quarter), in carrying out his duties, the Chief Executive Officer will be replaced on an interim basis by the Chairman of the Board of Directors, supported by one or two executives close to the Chief Executive Officer. The latter will be identified with the majority shareholder and will be conferred proxies for the time necessary for return from temporary absence or to enable the Board of Directors, acting as Nomination Committee in the event that said Committee is not specifically formed, to identify and appoint the new Chief Executive Officer .

During the business year, the Board of Directors also ascertained the existence of adequate procedures for the succession of the top management, after hearing the opinion of the Human Resources Director of the Company in this regard.

7.2 Nomination Committee

Composition and functions of the Appointment Committee (ex art 123-bis, para. 2, subsection d), CLF)

In its meeting on 28 April 2020, the Board of Directors, in respect of the dispositions of the Code for Concentrated Ownership Companies and with a view to simplifying corporate governance, attributed the duties of the Appointment Committee to the entire Board of Directors, coordinated by the Chairman of the Board of Directors himself.

Functions of the Nomination Committee

Consistently with the provisions of the Code, the Board of Directors dedicates time during its meetings to carry out the functions of the Nomination Committee and carries out the following activities:

- b) definition of the optimum composition of the management body and its committees;
- c) identification of the candidates for the position of director in the event of co-opting;
- d) preparing, updating and implementing the plan for the succession of the CEO.

During the business year, the Board of Directors, acting as Nomination Committee:

- began to define a plan for the succession of the Chief Executive Officer;
- identified Mr. Paolo Ferrari as the candidate for the position of director following the resignation of Mr. Vincenzo Cremonini.

8. REMUNERATION OF DIRECTORS – REMUNERATION COMMITTEE

8.1 Remuneration of Directors

Remuneration policy

Since 2011, the Board of Directors has defined the Remuneration Policy for the directors, the directors invested with specific positions and the managers with strategic responsibilities (Remuneration Policy).

On 15 January 2020, on proposal by the Remuneration and Nomination Committee, the Board of Directors defined a Remuneration Policy which was approved by the Shareholders' Meeting on 28 April 2020, pursuant to art. 123-ter paragraph 2-bis of the CLF and is currently in force.

On 25 February 2022, the Board of Directors defined a new Remuneration Policy, prepared by the Board acting as Nomination Committee (constituted exclusively by 6 non-executive directors, mostly independent, 5 of them according to the CLF and 3 also according to the Code). The new Remuneration Policy will be submitted for approval by the Shareholders' Meeting called on 28 April 2022 pursuant to art. 123-ter, paragraph 3-bis of the CLF.

The new Remuneration Policy will come into effect on 1 January 2023 and, with regard to the Board of Directors and the Board of Statutory Auditors, on the date of the first Shareholders' Meeting called to appoint said bodies after 1 January 2023.

The current and new versions of the Remuneration Policy represent a significant tool for management, this being intended as the top management and the beneficiaries of the Remuneration Policy, aimed at:

- contributing towards the corporate strategy and pursuing the long-term interests and sustainability of the Company;
- attracting, keeping and motivating individuals with the skills and professionalism required for their role in the Company;
- aligning the interests of the management team to those of the shareholders and other significant stakeholders by pursuing the sustainable success of the Company;
- encouraging the creation of value for the Shareholders, also in the medium/long-term.

Remuneration of the executive directors and top management

The Remuneration Policy provides the following criteria for the executive directors⁷ and the managers with strategic responsibilities, consistently with that stated in the Code:

- a) the fixed component and the variable component are suitably balanced on the basis of the strategic objectives and risk management policy of the Company, also taking into account the sector of activity in which it operates and the characteristics of the business activities performed on a daily basis; the variable part is a significant part of the total remuneration;
- b) there are maximum thresholds imposed for the variable components;
- c) the performance objectives – in other words the economic results and any other specific objectives on which the payment of the variable components is based – are predetermined, measurable and related to the creation of added value for the shareholders in the medium and long-term; they are

⁷ Following the renewal of the Board of Directors on 28 April 2020, the Chief Executive Officer remains the only executive director.

consistent with the strategic objectives of the Company and aimed at encouraging sustainable success, also including non-financial qualitative parameters;

- d) regarding the payment of a significant part of the variable component, there will be an adequate time delay with respect to the time of accrual, consistently with the characteristics of the company's business and the related risk profiles. The Company may request the full or partial return of the variable remuneration components paid (or to withhold the delayed amounts) solely from the executive directors, determined on the basis of the any blatantly incorrect data;
- e) there are no indemnities provided for the termination of employment of the director in question.

In addition to the above, the new Remuneration Policy provides that the variable component for the executive directors is also based on long-term incentive plans, consistently with the strategic objectives of the Company, aimed at encouraging sustainable success and strengthening the link between variable remuneration and the long-term results of the Company and further aligning the management interests with those of the shareholders.

Specifically:

- a) encouraging the creation of medium/long-term value for the shareholders;
- b) ensuring growth rates consistent with those in the Business Plan;
- c) maintaining levels of profitability and financial management in line with those in the Business Plan;
- d) stimulating the achievement of the non-financial and sustainability objectives (ESG).

Remuneration plans based on shares

There are currently no incentive plans involving company shares in favour of the Chief Executive Officer, the other Directors and the Managers of the Company.

Remuneration of the non-executive directors

The remuneration of the non-executive directors is not linked to the economic results of the Company and is suited to the skills, professionalism and commitment required for the duties attributed to them on the Board.

Accrual and payment of variable remuneration

The achievement of the short and medium-term objectives is verified by the Board of Directors acting as the Remuneration Committee and the payment of the amounts due is consequently decided by the Board of Directors during the approval of the draft Financial Report for the year in question.

Indemnities to the directors in the event of resignation, dismissal or termination of employment as a result of a public purchase bid (ex art. 123-bis, paragraph 1, subsection i), CLF)

There are no agreements between the Company and the Directors providing for indemnities in the case of resignation, revocation or dismissal without just cause or if their working relations cease following a public purchase bid.

Further details concerning the remuneration of the directors and the remuneration policy in force and that currently being adopted are provided in the Report on remuneration and payments made, approved by the Shareholders' Meeting over the years according to art. 123-ter of the CLF and available on the Company website.

8.2 Remuneration Committee

Composition and functioning of the Remuneration Committee (ex art. 123-bis, paragraph 2, subsection d) CLF)

Following the renewal of the positions, on 28 April 2020, the Board of Directors, in respect of the dispositions of the Code and with a view to simplifying corporate governance, attributed the functions of the Remuneration Committee to the entire Board of Directors, coordinated by the Chairman of the Board of Directors itself.

During the course of 2021, the Board of Directors performed the functions of the Remuneration Committee on 4 occasions, giving time for discussion in its own Board meetings.

As provided by the Code, the Chief Executive Officer did not take part in the meetings of the Board acting as the Remuneration Committee, in which proposals regarding his own remuneration were made and approved. Therefore, only the 6 non-executive directors, mostly independent as required by the Code for Large Companies (5 independent according to the CLF and 3 also according to the Code) attended these meetings.

The Human Resources Manager attended the meeting of the Board of Directors acting as the Remuneration Committee on 12 November 2021, on invitation by the Chairman, and presented the organizational structure of the Company, identifying the key positions and the personnel policies in terms of encouraging equal treatment and opportunities between genders and providing information on the plans for the succession of the top management.

The attendance of the Human Resources Manager was an initiative aimed at providing more awareness of the Company, its structure and the corporate dynamics and their evolution by both the Board of Directors and the Board of Statutory Auditors. The CEO also attended on this occasion.

The Board of Statutory Auditors actively participated in the meetings in which the Board of Directors acted as the Remuneration Committee, giving its opinion on the items discussed when required.

Functions of the Remuneration Committee

The Code assigns the following functions to the Remuneration Committee, and to the Board of Directors when it performs its functions:

- prepares the remuneration policy;

- submits proposals and expresses opinions to the Board of Directors on the remuneration of the executive directors and the other directors who fill specific positions and also on the establishment of the performance goals related to the variable component of such remuneration;
- monitors the application of remuneration policy, specifically verifying the effective achievement of the performance goals;
- periodically assesses the adequacy, overall consistency and concrete application of the policy for the remuneration of the directors and top management.

During the course of the year, the Board assuming the functions of the Remuneration Committee met to:

- determine, verifying the effective achievement of the performance objectives, the short-term variable remuneration due to the Chief Executive Officer in 2020;
- schedule the activities envisaged in performing the functions of the Remuneration Committee;
- assigned the short-term objectives (for 2022) for the variable component of the remuneration due to the Chief Executive Officer.

It also asked the Human Resources Manager for an opinion on the above matters.

In performing its functions, the Committee has the possibility of accessing corporate information and departments to carry out its activities, the use of external consultants being deemed unnecessary.

9. INTERNAL AUDIT AND RISK MANAGEMENT SYSTEM – CONTROL AND RISK COMMITTEE

The Board of Directors has over time defined the guidelines for the internal audit and risk management system (SCIQR) constituted by the rules, procedures and organizational structures aimed at the effective and efficient identification, measurement, management and monitoring of the main risks, in order to contribute towards sustainable success and consistently with the Company's strategies.

The Company defined the guidelines by applying the ERM (Enterprise Risk Management) model.

The internal audit and risk management system enables:

- i. risk management consistent with the objectives defined by the Board of Directors;
- ii. decisions to be made with awareness;
- iii. the safeguarding of the corporate equity;
- iv. the effectiveness/efficiency of the corporate processes;
- v. the reliability of the financial information;
- vi. respect of the laws, regulations and procedures in force.

Supervision of the MARR SCIQR is on several levels, each of them assigned its own duties, roles, tools and responsibilities:

- governance of the SCIQR is the duty and responsibility of the Board of Directors, which defines its guidelines and assesses its adequacy and effectiveness;

- operating aspects are assigned to the Chief Executive Officer who, pursuant to Recommendation 34 of the Code, identifies the main corporate risks and makes the guidelines defined by the Board executive, constantly verifying the adequacy and effectiveness of the SCIGR and adapting it to the operating dynamics and conditions of the Company and the legislative and regulatory framework;
- supervision of the SCIGR is the duty and responsibility of other corporate entities and bodies which audit the accounts, assess the suitability of the Organizational Model and supervise the adequacy and effectiveness of the SCIGR by monitoring the status of the audit system and suggesting corrective action for any shortcomings encountered.

The SCIGR has 3 levels of control:

- 1) the first level is the duty and responsibility of the operating lines/structures;
- 2) the second level is the duty and responsibility of functions independent and distinct from the operating ones and is constituted by all of the transversal risk control activities and compliance. Consequently, the high level of specialisation of the single areas involved in risk management are not attributed to an ad hoc structure but are carried out together by the following internal functions:
 - Manager responsible for preparing the accounts documents ex Law 262/05
 - GDPR Team
 - Quality Assurance and Control Manager
 - Human Resources Manager
 - Corporate and Legal Affairs Manager
 - Investor Relation Department
 - IT Services Manager
 - Corporate committees
 - Management (Authorised)
- 3) the third level is the duty and responsibility of the Internal Audit department.

In its meeting on 12 November 2021, the Board of Directors, supported by the Control and Risk Committee, positively assessed the adequacy, effectiveness and effective functioning of the internal audit system.

The Board reviewed the main references of the SCIGR, the main actors, responsibilities and the levels of supervision and expressed its assessment in this regard, considering the findings made during the activities carried out by the subjects involved in the SCIGR, also in the annual coordination meeting.

On 15 December 2021, the Board of Directors updated and integrated the guidelines of the SCIGR, after the identification of the main corporate risks by the CEO, as envisaged by Recommendation 34 a) of the Code.

Information concerning the system of risk management and internal auditing in relation to the process of financial information

(ex art. 123 bis, para. 2 subsection b) CLF)

Introduction

The system of risk management should not be considered separately from the internal auditing system in relation to the process of financial information, in as much as they both constitute elements of the same system.

This system is aimed at ensuring the truthfulness, accuracy, reliability and punctuality of I information provided to the Corporate Bodies and the financial markets.

In fulfilment of paragraph 3 of art. 154 bis of the CLF, the Manager responsible for preparing the company's financial reports has prepared adequate management and accounting procedures for the drafting of the annual and consolidated financial statements and all other financial communications.

The above-mentioned procedures have been implemented on the basis of the Internal Control – Integrated Framework model issued by the Committee of Sponsoring Organizations of the Treadway Commission (CoSO Report), which is the reference model generally accepted at an international level.

Description of the main characteristics of the risk management and internal auditing system in relation to the process of financial information

a. Existing phases of the risk management and internal auditing system in relation to the process of financial information

The model provides for the identification of those risks which could compromise the effectiveness and efficiency of the processes, the reliability of economic and financial information and the respect of laws and regulations, and subsequently the identification of the activities aimed at reducing these risks.

The risks concerning economic and financial information identified by the Company concern the following categories:

- - The existence and occurrence of events: assets, liabilities and the title of ownership exist on a given date. The transactions registered represent events which actually occurred during a given period.
- - Completeness: all the transactions and other events and circumstances occurring during a given period, or which should have been reported in this period, are registered once and once only.
- - Assessment/Reporting: the assets, liabilities, revenues and costs are accounted for the correct amount in compliance with the appropriate and pertinent accounting principles. The transactions are mathematically exact, correctly summarised, registered in the accounts books and documented.
- - Rights and Obligations: the assets recorded in the financial statements derive from an acquired right, and all ongoing obligations must be reflected in the liabilities.
- - Presentation and Information: the information contained in the financial statements is correctly described and classified. There is an internal coherence of all the components of the financial statements.

The Company has formalised some auditing activities aimed at reducing the aforementioned risks in the context of significant processes. The significant processes are those involving the management of transactions significant in terms of accounting in a significant area of the financial statements and the

framework for the definition of these areas and processes is reviewed annually. The following have been identified as significant processes:

- liabilities cycle;
- assets cycle;
- warehouse inventory;
- closing of financial statements and consolidation.

In addition to this, the complexity of the area of the financial statements in question is assessed with reference to its contents, the organisational aspects, information system and the inherent risk.

In particular, the assessment of the risk inherent to the area in question is conducted in consideration of the following factors:

- whether it is susceptible to errors or has recently been rectified;
- whether it is due to the application of complex or recently modified accounting principles;
- whether it is characterised by complex transactions such as to require the intervention of an expert to assess it;
- whether it includes assessments which are the result of estimates characterised by a high level of subjectivity;
- whether it concerns corporate assets subject to theft, loss or undue appropriation;
- whether it refers to complex or anomalous transactions undertaken in proximity of the end of the business year;
- whether it summarises transactions that are not included in ordinary processing.

The auditing activities carried out in this framework are based on policies and procedures adopted by the Company and spread to all levels of the company workforce. The auditing activities include auditing of transactions significant in accounting terms, of the IT systems, physical checks of equipment, supplies, securities and other assets. The duties are also divided among several subjects in order to reduce the risk of errors and irregularities.

The model provides for the predisposition of adequate flows of information among the subjects involved in the internal auditing system. In this specific case, the communication of procedures to those involved, the exchange of information among those with a role in the corporate governance model, reporting on the status of progress of any enhancements to the auditing system and reporting on any anomalies that may be found in monitoring activities.

Lastly, the model provides for the performance of verifications as to the effective application of the procedures and, in particular, the auditing of the above through the performance of specifically identified tests on an ongoing basis throughout the business year.

On conclusion of this process, the outcome of the auditing activities is reported to the Manager responsible for preparing the corporate accounting documents, and by the latter to the Chief Executive Officer.

b. Roles and functions

The proper functioning of the system requires the identification of specific roles to which the various phases are assigned. Specifically, the planning phase is the competence of the Manager responsible for preparing the company's financial reports and shared with the Chief Executive Officer. 9.7 Coordination between the subjects involved in the internal auditing and risk management system

In its meeting on 15 March 2021, the Board of Directors attributed the coordination of the subjects involved in the internal auditing and risk management system, provided by Principle XX and Recommendation 33 letter e) of the Code of Corporate Governance, to the same Auditing Body, in order to maximise the efficiency of the system itself, reduce the duplication of activities and ensure the effective performance of its own duties, also taking into account that the Board of Statutory Auditors has already been attributed the function of supervisory board ex Legislative Decree 231/2001, with the legal support of one member of the Legal Affairs Office of the Company to act as secretary.

In this regard, it must be stated that during the course of the business year, a plenary meeting was held, coordinated by the Board of Statutory Auditors, attended by all of the subjects involved in the internal audit and risk management system, specifically, in addition to said Board of Statutory Auditors: the Chairman of the Board of Directors, the CEO, the Control and Risk Committee, the Manager responsible for preparing the company's financial reports, the Manager responsible for the internal audit department, the Manager of the Quality Assurance and Control Department and the referents of the independent auditing firm.

10. INTERESTS OF DIRECTORS AND TRANSACTIONS WITH RELATED PARTIES

In fulfilment of that disposed by the Consob Regulation containing dispositions concerning transactions with related parties, since 2010, the Board of Directors approved, with the favourable opinion of the Control and Risk Committee, the Procedure for the discipline of transactions with related parties ("TRP Procedure").

The complete text of the TRP Procedure is available on the Company website www.marr.it/corporate-governance.

The TRP Procedure identifies the Control and Risk Committee, composed exclusively of non-correlated independent directors, as the body carrying out the functions envisaged by the TRP Procedure itself.

Should there not be a sufficient number of non-correlated independent directors on the Control and Risk Committee, the TRP Procedure provides for the formation of an ad hoc committee, composed exclusively of non-correlated independent directors and, should this not be possible, the functions of the Committee are carried out by the Board of Statutory Auditors.

The TRP Procedure determines the criteria for identifying the transactions that must be approved by the Board itself, after hearing the opinion of the Control and Risk Committee, and provides operating solutions that facilitate the identification and proper management of situations in which a director is a bearer of interest on their own behalf or that of others.

In the framework of the TRP Procedure, during the course of the year, the Control and Risk Committee ascertained that the ordinary infra-group transactions are conducted under market or standard conditions. These verifications were discussed in 4 meetings of the Control and Risk Committee and properly minuted. The Chairman of the Committee informed the first subsequent meeting of the Board of Directors in this regard.

11. BOARD OF STATUTORY AUDITORS

11.1 Appointment and replacement

The Corporate By-Laws provide that the Shareholders' Meeting appoint the Board of Statutory Auditors, composed of three standing auditors, in respect of the legal and regulatory dispositions in force from time to time concerning gender equality, and designate the Chairman. The Shareholders' Meeting also appoints two replacement auditors, one of each gender, as per the law.

Auditors remain in office for three business years and step down on the date of the Shareholders' Meeting called for the approval of the financial statements for the third business year of their term of office.

Other mandatory legal or regulatory procedures holding firm, those who are not in possession of the honour and professional requirements established by the applicable regulations or those who are standing auditors in another 5 listed companies may not be appointed as Auditors.

Those to whom clauses of ineligibility or withdrawal are applicable pursuant to the law and regulations in force or who are not in possession of the necessary requirements may not be appointed as Auditors, and if appointed will step down from office.

Auditors are appointed by voting from lists, in order to ensure that one standing and one replacement auditor are appointed from a minority list.

The lists contain a number of candidates not in excess of the number of members to be elected, listed in progressive order. Each candidate may be represented on one list only, on penalty of ineligibility.

The lists which contain three or more candidates must also include candidates of different genders in order to ensure that the composition of both the standing auditors and the replacement auditors respects that provided by the laws and regulations in force concerning gender equality.

Shareholders who individually or jointly with other shareholders represent at least 2.5% of the shares bearing the right to vote in ordinary Shareholders' Meeting, or representing the lower percentage that may be established by or recalled in mandatory legal and regulatory dispositions⁸ have the right to submit lists.

⁸ The Consob resolution no. 28 dated 30 January 2020 established for MARR that, the eventual lesser quota provided by the By Laws holding firm, the holding quota required for submitting the lists of candidates for election to the management and auditing bodies should be for 2020 of 1.0%.

Two standing auditors and one replacement auditor will be taken from the list obtaining most votes, in the progressive order in which they are listed on the list.

The third standing auditor and the other replacement auditor will be taken from the second of the lists in decreasing order of number of votes obtained. In the case of parity of votes, the eldest candidates on the two or more lists obtaining the same number of votes shall be elected as standing and replacement auditors.

Should, on completion of the voting and operations described above, the composition of the Board of Statutory Auditors not enable the respect of that provided by the laws and regulations in force concerning gender equality for both categories of standing auditors and replacement auditors, taking into account the order of listing in the respective category, the last person elected from the list obtaining the most votes belonging to the most represented gender shall be replaced by the first candidate not elected from the same list and the same category belonging to the less represented gender.

Lastly, should this procedure not ensure the respect of the laws and regulations in force concerning gender equality, the replacement shall be made by deliberation of the Shareholders' Meeting with the relevant majority, after the submission of candidatures by individuals of the less represented gender.

The Chairman of the Board of Statutory Auditors will be appointed by the Shareholders' Meeting from among the Auditors elected from the minority list.

Should only one list of candidates be submitted, all the standing auditors and replacement auditors will be appointed from this list and the Chairman will be the first candidate on the list.

Should a standing auditor be replaced, the replacement auditor from the same list as the auditor to be replaced will take over.

When the Shareholders' Meeting needs to appoint the standing and/or replacement Auditors required for the expansion of the Board of Statutory Auditors, the following occurs:

i) (i) should a standing and/or replacement auditor from the list obtaining the highest number of votes need to be replaced, the Shareholders' Meeting will decide on the basis of the majorities of the law without being bound to the list;

ii) (ii) Should it be necessary to appoint the Auditors from the list obtaining the second highest number of votes and is not related, even indirectly, according to that established by the legal and regulatory dispositions in force to the shareholder who submitted, were involved in submitting or voted for the list obtaining the highest number of votes, the Shareholders' Meeting proceeds on the basis of the relative majority, where possible choosing from the candidates in the minority lists. Should this not be possible, the Shareholders' Meeting will do so on the basis of a majority vote as per the law, it holding firm that the ascertainment of the results from the latter casting of votes shall not include the votes of shareholders who, according to the statements made as per the laws in force, possess the relative majority of the votes that can be cast at Shareholders' Meeting, even indirectly or jointly with other shareholders adhering to a significant intra-company agreement pursuant to article 122 of Legislative Decree 58/1998, and neither shall shareholders who control, are controlled by or are subject to the control of same.

New appointees shall step down at the same time as those already in office.

The procedures for replacement and appointment must in any event ensure the respect of the laws and regulations in force concerning gender equality.

11.2. Composition and functioning

(ex art. 123 bis, para. 2, subsection d) CLF)

On 28 April 2020, the Shareholders' Meeting appointed the Board of Statutory Auditors by voting from lists according to that established by the Corporate By-Laws and in respect of the applicable legal and regulatory dispositions.

Taking into account that the right submit lists is due to the Shareholders who, either individually or with others, are in possession of a total number of shares bearing voting rights representing at least 1.0% of the share capital, two lists were submitted within the terms provided:

- the first was submitted by the majority shareholder "Cremonini S.p.A.", the owner of a total of 33,544,533 shares amounting to 50.42% of the share capital;
- the second was submitted by a group of minority shareholders, owners of a total of 2,307,068 shares amounting to 3.47% of the share capital.

The share capital represented in the shareholders' meeting, and which all voted for the appointment of the directors by selection from lists, amounted to 82,08% of the share capital. The list submitted by the majority shareholder "Cremonini S.p.A." obtained the favourable votes of 54.00% of the share capital in attendance, while that submitted by the group of minority shareholders obtained the favourable votes of 27.84%.

Criteria and policies on diversity (ex art. 123-bis paragraph 2, subsection d –bis) CLF)

Although the Company has not adopted a specific policy on diversity with regard to aspects such as age, gender, education and work experience for the composition of the Board of Statutory Auditors, this has been taken substantially into account in identifying the candidates for the position of statutory auditor.

As described in more detail in point 11.1 in this Report, the Company has provided for the election within the Board of Statutory Auditors of members of the less represented gender in the measure provided by the law.

On the current Board of Statutory Auditors, one-third of both the statutory and alternate members of the Board of Statutory Auditors belonged to the less represented gender.

Independence

As already stated in point 4.7, the Board of Directors has defined the quantitative and qualitative criteria to assess the significance of the relevant circumstances pursuant to the Code for assessing the independence of the directors. As envisaged by the Code, the members of the Board of Statutory Auditors are subject to the independence requirements of the directors in addition to the dispositions of art. 148 of the CLF.

The Board of Statutory Auditors assessed the independence of its members during the first meeting after its appointment, notifying the outcome in a communication sent to the market. During the course of the year, the Board of Statutory Auditors assessed that its members were still in possession of the independence requirements. These assessments took into consideration all of the information provided by each member of the Board of Statutory Auditors, assessing all of the circumstances that appear to compromise the independence identified in the CLF and the Code.

Remuneration

The amount of the annual fees due to the Statutory Auditors is determined by the Shareholders' Meeting as a result of their independence, although the possibility of setting a maximum all-inclusive limit for the entire Board is not excluded.

The remuneration of the Statutory Auditors is commensurate to the commitment required, the relevance of their role and the dimensional and sectoral characteristics of the Company.

Management of interests

In compliance with the Code, any member of the Board of Statutory Auditors who, on their own behalf or that of others, has an interest in a specific transaction by the Company must promptly and in detail inform the other Statutory Auditors and the Chairman of the Board of Directors of the nature, terms, origin and range of their interest.

12. RELATIONS WITH SHAREHOLDERS

Access to information

The Board of Directors will ensure that access to information concerning the Company which is of significance to its shareholders is made as timely and easy as possible, so as to enable the latter to exercise their rights properly and with due awareness. The company has set up a section on its website (<http://www.marr.it/it/investor-relations>), which is easily identifiable and accessible, in which it has made available the abovementioned information.

The structure of *Investor Relation Department* ("IR"), which is managed by Mr. Antonio Tiso (e-mail: atiso@marr.it tel: +39 0541 746803), *Investor Relator Manager*, has the duty to provide continuing and professional working relations with its shareholders and with institutional investors and the market in general.

Shareholder engagement

On 19 February 2021, the Board of Directors, on proposal by the Chairman in agreement with the Chief Executive Officer, approved a Policy for the management of dialogue with the shareholders and other stakeholders; said Policy is available to the public on the Company website www.marr.it/corporate-governance.

The Company has for some time adopted operating methods with the aim of ensuring constant dialogue with the shareholders, the financial investors, the socially responsible investors, the analysts and operators on the financial market in general.

These activities, described in the "Policy for the management of dialogue with the shareholders and other stakeholders", are continuously developed and made more systematic to enable the exhaustive and prompt spreading of information on the Company's activities.

Consequently, the flow of information to the investors and the market is primarily guaranteed: by periodical press releases, at least coinciding with the corporate disclosure obligations, meetings with the financial analysts and constant updating of the information available on the Company website and its social network.

Specifically:

1. the relations with all of the shareholders, the operators on the financial market and the analysts involve the IR, who also ensures the availability on the Company website of all of the useful information (reports, relative operations, procedures and operating regulations), also to the public, to assess and monitor the trends and governance of the Company;
2. the relations of the information bodies are coordinated by the manager of the IR activities, with the support of a press office advisor. The latter is responsible for promoting the distribution of the press releases and their contents so that the non-professional investors can also see the periodical results of the Company;
3. IR itself periodically (and in any event whenever periodical disclosure is compulsory) organises meetings with the investors and analysts, which the Chief Executive Officer also usually attends. The presentations prepared for these meetings are also available to the public on the relative pages of the Company website. Furthermore, in its activities, the IR abides by that contained in the "Guide for Market disclosure" published by Borsa Italiana S.p.A.. The activities of the IR are planned according to a suitable annual working plan submitted to the Board of Directors, which is followed-up by periodical updating sessions on the work carried out with the Board itself;

4. the Company also publishes on its website all of the information, including the documents concerning the shareholders' meetings and the relative minutes, that is useful for the better and full understanding of the activities and trends of the Company itself. Also, in the "Sustainability" section of the website, the activities carried out and results achieved in the various ESG sectors are illustrated and the Consolidated Non-Financial Declarations are also available, as is the Sustainability Report since 2021.
5. to increase awareness of the brand and its recognisability, the Company has started a programme for increasing its organised presence on two specific social networks, with two different but complementary targets.

On 6 September 2021, the Board of Directors integrated the Shareholder Engagement Policy with the intention of encouraging, in compliance with the laws in force, direct interaction between the investors and board members through Shareholder-Director Engagement ("S-D- Engagement").

To simplify any engagement requests, inspired by the best practices, the Company has identified the initial contacts for the receipt of requests for S-D_ Engagement regarding matters of corporate governance and/or business, specifically:

- the Secretary of the Board of Directors for corporate governance matters;
- the Investor Relator Manager for business matters.

The contacts are listed on the Company website www.marr.it/investor-relations/SD-engagement-contacts.

In implementing the scheduled Investor Relation activities, in 2021 the Company met with 139 shareholders (119 in 2020), of 96 overseas (80 in 2020), 13 of them met for the first time (14 in 2020).

13. SHAREHOLDERS' MEETINGS

(ex art. 123 bis, paragraph 2 subsection c) CLF)

Shareholders' Meetings are called by the Board and may also be called outside the corporate headquarters, as long as they are held in Italy. The notification of call containing the date, time and place of the meeting, the list of the items to be discussed and the other information required by the legal and regulatory dispositions in force must be published within the terms of the law on the Company website and in the other methods provided by the applicable regulations.

Legitimacy to attend Shareholders' Meeting and the right to cast votes is attested by a communication addressed to the Company, made by the broker, in compliance with their own accounting documents, in favour of those who have the right to vote.

This communication is made by the broker on the basis of the findings at the end of the accounting day of the seventh day of market trading prior to the date established for the Shareholders' Meeting. Credit and debit registrations made in the accounts subsequently to said deadline do not affect the legitimacy to exercise voting rights in the Shareholders' Meeting.

The communication must be received by the Company within the deadlines provided by the applicable regulations. Legitimacy to attend and vote holds firm should the communication be received after the deadline, as long as it is received before the start of the Shareholders' Meeting proceedings.

Those who have the right to vote may be represented in Shareholders' Meeting pursuant to the law. Proxies can be conferred by electronic means in compliance with the applicable regulations.

The electronic dispatch of proxies may be done using electronic mail, according to the methods indicated in the notification of call for the Shareholders' Meeting.

In order to encourage and facilitate the best possible attendance of Shareholders' Meeting by the shareholders, the Board of Directors is extremely careful in choosing the date, place and time of the meetings.

As far as possible, all the Directors and Statutory Auditors, and in particular the Directors who, on the basis of their duties, may make a useful contribution to the general proceedings, attend the meetings.

In 2005, the Company adopted a set of "Regulations for Shareholders' Meetings" which discipline the orderly and functional proceeding of ordinary and extraordinary Shareholders' Meeting of the Company, guaranteeing the right of each Shareholder to take the floor for the items on the agenda and to express their own opinions. The Regulations are available on the Company website www.mar.it/corporate-governance.

The Regulation for Shareholders' Meetings state that the Chairman establishes the methods of requesting interventions and the order of the interventions.

The Chairman, and, on invitation, those assisting him, respond to the speakers at the end of their interventions on the items to be discussed, or after each intervention.

Those requesting the floor have the right to a brief response.

Taking the scope and significance of the items included in the agenda into account, and also the number of people requesting the floor, the Chairman determines the duration of interventions and responses in advance, in order to ensure that the meeting may conclude its discussions in one meeting.

The Chairman asks speakers to finish before the expiry of the timeframe for their interventions or responses.

Once the interventions, replies and responses are finished, the Chairman declares the meeting closed.

The Board has reported during Shareholders' Meetings, through the Directors' Report on Operations, contained in the Annual, Financial Report, in order to ensure that the shareholders are properly informed on the relevant matters so that they can make the decisions required of the Shareholders' Meeting with due awareness.

Because of the COVID-19 pandemic, as a result of the exceptional regulations contained in Decree Law 18 of 17 March 2020, converted with amendments into Law 27 of 24 April 2020, and subsequent extensions, intervention by the shareholders in the Shareholders' Meeting has been exclusively through the Representative Designated by the Company, pursuant to article 135-undecies of Legislative Decree 58 of 24 February 1998 (CLF), in the form of the company Computershare S.p.a..

The Directors, Statutory Auditors and the Designated Representative, and the other subjects legitimised pursuant to the law, were able to intervene in Shareholders' Meetings by means of telecommunications allowing them to be identified.

14. FURTHER CORPORATE GOVERNANCE PRACTICES

(ex art. 123-bis, paragraph 2, subsection a), second part CLF)

The Company does not have any further corporate governance practices beyond the scope of the obligations of the laws and regulations in force.

15. CHANGES SINCE THE CLOSURE OF THE REFERENCE BUSINESS YEAR

There have been no changes to the corporate governance structure of MARR since the end of the 2021 business year.

16. CONSIDERATIONS ON THE LETTER BY THE CHAIRMAN OF THE CORPORATE GOVERNANCE COMMITTEE

The letter dated 3 December 2021 by the Chairman of the Corporate Governance Committee has been brought to the attention of all of the members of the Board of Directors and the Board of Statutory Auditors.

Also, the contents of the communication were a specific item on the agenda for the meeting of the Board of Directors on 25 February 2000, attended by the Board of Statutory Auditors.

The matter was discussed at length and the following is a summary of the considerations made during the Board meeting.

The main novelties of the Code were reviewed, with specific regard to the concept of proportionality in its application for large and concentrated ownership companies, which the Company is fully compliant with.

The recommendations of the Chairman of the Corporate Governance Committee for 2021 and the initiatives undertaken by the Company for their implementation were then recalled.

Lastly, the recommendations for 2022, summarised in the following points, were discussed individually:

- **Encouraging stakeholder engagement** also through the definition of a suitable engagement policy. As already stated in the Report (Section 12), the Company has adopted a specific policy approved by the Board of 19 February 2021, updated on 6 September 2021 and published on the Company website;

- **Approach to proportionality**, subject of particular focus by the Company, which declines its own governance on the basis of the status of large concentrated ownership company, as explained in depth in the Report (see also Section I);
- **Pre-Board meeting information**, topic given ample space in the Regulation for the functioning of the Board of Directors and actively involving the Chairman in ensuring the adequacy and completeness of information.
- **Clear and transparent remuneration policy**, principle which has always been the reference point in defining the Company's remuneration policy, latterly also in the Remuneration policy approved on 25 February 20922 by the Board of Directors and submitted for approval by the Shareholders' Meeting on 28 April 2022.

Lastly, it must be pointed out that through a working group composed of the interested internal departments, the Company participated in the "Call for evidence" activated in September 2020 by CONSOB in the framework of non-financial reporting and concluded in May 2021 with the publication of the outcome of the consultation.
