precisely the one that has given us the greatest satisfaction with a 37.8% increase in turnover, thus confirming the soundness of the strategy in place, aimed at expanding the values and the reference world of the brand. Very positive was also the turnover result of the Lancel Maison, which increased by 26.3% and was, within the Group, the least affected by the pandemic. The growth of the DOS channel was particularly important for all three brands, starting with The Bridge's + 80.4%, confirming the trend of a consumer return to in-store purchases. The solid cash generation and the positive net financial position complete a picture that allows us, even in times of great uncertainty, to be positive about the future performance of the three brands”.
