PRESS RELEASE

ESG RATING: WIIT AMONG THE WORLD'S TOP 50 SUSTAINABLE SOFTWARE AND SERVICES COMPANIES

Milan, 20th April 2022 – WIIT S.p.A. ("WIIT" or the "**Company**"; ISIN IT0005440893; WIIT.MI), one of the main European players in the market of Cloud Computing services for enterprises, focused on the provision of continuous Hybrid Cloud and Hosted Private Cloud services for critical applications, a company listed on the Euronext STAR Milan segment of the Euronext Milan market, organized and managed by Borsa Italiana S.p.A., is positioned among the 50 best sustainable companies in the software and services sector, according to the **ESG Rating** elaborated by Sustainalytics.

The ESG Rating (or Sustainability Rating) is a synthetic evaluation that certifies the soundness of an organization related to its **environmental, social and governance performance** (and is to be considered complementary to traditional ratings defined exclusively on the basis of economic and financial indicators).

Since its listing, WIIT has embarked on a path of ecological transition with the aim of being included in the best sustainability indexes and of attracting investment from the financial community, which is looking with growing interest at these issues, differentiating itself in the panorama of Software and Services companies.

In order to consolidate its ESG commitment and to best seize the opportunities arising from the ecological transition, in 2020 the Group has launched an annual sustainability performance assessment process assisted by Sustainalytics, one of the most important ESG rating agencies worldwide.

According to Sustainalytics, WIIT, thanks to its effective management of material sustainability issues, demonstrates a low risk profile with respect to the possibility of suffering significant impacts deriving from non-financial factors. In addition to not having been subject to controversy in the ESG area, **WIIT stood out for its high performance in the corporate governance area, receiving a rating of 14.8, equal to an ESG Risk "Low"**, the second degree of a 5-level scale ranging from negligible ("Negligible") to high ("High"). The result of the rating places WIIT's Sustainability Report in line with the best market practices, sign of a strong responsibility towards stakeholders. For this reason **WIIT has been recognized as an ESG Industry Top Rated company** by Sustainalytics, **or rather one of the world's top 50 companies in the Software & Services sector.**

"The recognition obtained by ESG Industry Top Rated is a tangible demonstration of how, thanks to the commitments made in recent years, WIIT is becoming an increasingly central player in the Cloud and ICT sector," says **WIIT CEO Alessandro Cozzi**. "The ambition is to continue the path started 3 years ago, integrating sustainability within our business model and reaching as soon as possible the 18 objectives formalized in the Group's ESG Plan 2030."

WIIT S.p.A.

WIIT S.p.A., a company listed on the Euronext Star Milan ("STAR") segment, is a leader in the Cloud Computing market. The company has a pan-European footprint and is present in key markets, such as Italy and Germany, positioning itself among the leading players in the provision of innovative Hosted Private and Hybrid Cloud

WIIT

THE PREMIUM CLOUD

technology solutions. WIIT operates 15 of its own Data Centres – 3 in Italy, 2 of which are Tier IV-certified by the Uptime Institute, and 12 in Germany – and has 6 SAP certifications at the highest specialisation levels. Its end-to-end approach enables the company to provide its partner companies with customised, high value-added services with the highest security and quality standards for the management of critical applications and business continuity, while guaranteeing maximum reliability in the management of the main international application platforms (SAP, Oracle and Microsoft).
