The Board of Directors of Ansaldo STS (STS.MI) has approved today the Interim Consolidated Management Report of the Group at 31 March 2016 and unanimously congratulated the CEO for the significant results achieved not only in the first quarter of 2016, but during all its management.

The Chief Executive Officer and General Manager, Stefano Siragusa, thanking the Board of Directors for support and appreciation, recalled that "the results are about the entire management team and all the colleagues who, with passion and determination, welcomed the innovative transformation project V2A launched almost three years ago. Ansaldo STS, in just three years, has further strengthened its economic, financial and patrimonial situation: new orders grew by 160%, revenues by about 20%, net result of approximately 80% and cash generation of about 90%.

The Company has achieved levels of efficiency and effectiveness never reached before without penalizing its own future and that of its resources: Research and Development costs increased by about 30%, and due also to this profitability of the Company has grown by about one percentage point. This technological strengthening will allow Ansaldo STS, their professionals, but also Customers and Shareholders all to look with confidence to the future".

#### Key events of the reporting period

To be reminded that on 24 February 2015, Hitachi Ltd. and Finmeccanica S.p.A. communicated their signing of a binding contract for Hitachi's purchase of Finmeccanica's entire investment in Ansaldo STS S.p.A., equal to approximately 40% of its share capital, and AnsaldoBreda S.p.A.'s current business except for certain revamping activities and specific residual contracts. As a result, on 2 November 2015, Finmeccanica S.p.A. executed the sale of its investment in Ansaldo STS (80,131,081 shares for 40.07% of its share capital) to Hitachi Rail Italy Investments S.r.I., wholly owned by Hitachi Ltd.. Accordingly, Hitachi Ltd. became the company's controlling shareholder pursuant to article 2359.1.2 of the Italian Civil Code and article 93 of the Consolidated Finance Act. On 21 December 2015, the company's board of directors verified that it was managed and coordinated by Hitachi Ltd. in accordance with article 2497 and subsequent articles of the Italian Civil Code.

On 2 November 2015, following the sale of the above shares, the legal conditions materialised obliging Hitachi Rail Italy Investments S.r.l., Hitachi Ltd.'s subsidiary, to launch a public tender offer for all the company's remaining ordinary shares (119,869,919 shares equal to 59.93% of its share capital) pursuant to articles 102 and 106.1-bis of the Consolidated Finance Act (the "public tender offer"). The offer period ended on 14 March 2016. 12,832,398 Ansaldo STS S.p.A. ordinary shares, equal to 6.416% of its share capital, were tendered to the offer. Therefore, at 21 March 2016, the date on which the consideration was paid to the holders of

said shares and the latter were concurrently transferred to the offeror, Hitachi Rail Italy Investments S.r.l.'s investment in Ansaldo STS S.p.A. was equal to 46.482% of its share capital.

As Hitachi Rail Italy Investments S.r.I.'s investment in Ansaldo STS S.p.A. did not reach 90% of its share capital, the conditions for exercising the purchase obligation pursuant to article 108.2 or article 108.1 of the Consolidated Finance Act and the purchase right pursuant to article 111 of the Consolidated finance act did not materialise.

Subsequently, Hitachi Rail Italy Investments S.r.l. acquired other 8,581,223 Ansaldo STS S.p.A. ordinary shares as a result of which its investment therein is now equal to 50.772% of its share capital. More information about the tender offer is provided in the communications and documentation made available to the public pursuant to the relevant legislation on the company's website page <a href="http://www.ansaldo-sts.com/en/investor-relations/public-tender-offer">http://www.ansaldo-sts.com/en/investor-relations/public-tender-offer</a>.

Lastly, on 30 March 2016, Chairperson of the Board of Directors Alistair Dormer, Deputy chairperson Karen Boswell and Chief executive officer and General manager Stefano Siragusa resigned from their offices held in Ansaldo STS S.p.A..

Due to the resignations of Chairperson Alistair Dormer, Deputy chairperson Karen Boswell and Chief executive officer Stefano Siragusa (which followed those handed in by directors Barbara Poggiali and Ryoichi Hirayanagi and the co-option of directors Alessandra Piccinino and Mario Garraffo pursuant to article 2386 of the Italian Civil Code), the board members appointed by the shareholders in their meeting of 2 November 2015 lost their majority. Therefore, the resignations of Chairperson Alistair Dormer, Deputy chairperson Karen Boswell and Chief executive officer Stefano Siragusa will become effective upon re-appointment of the board pursuant to article 2385.1 of the Italian Civil Code.

Following these resignations and the consequent loss of majority by the directors appointed on 2 November 2015, pursuant to article 16.8 of the company by-laws, the board of directors of Ansaldo STS S.p.A. has convened an ordinary shareholders' meeting on 13 May 2016 in order to appoint, inter alia, a new Board of Directors.

In March 2016, the Ansaldo STS – Stadler consortium won contracts to upgrade the Glasgow metro. These include the supply of 17 new trains, driverless Communication Based Train Control (CBTC) signalling technology, platform screen doors and depot equipment, as well as the related maintenance support services to upgrade the 10.5 km long twin metro lines and 15 stations of the Glasgow metro system.

This project has a total value of GBP 203.2 million. Ansaldo STS's share amounts to GBP 104.3 million.

Note:

The *management* of Ansaldo STS also assesses the financial performance of the group and the business units using certain indicators that are not defined by the IFRS.

As required by CESR recommendation CESR/05 - 178b the components of each of the indicators are defined below:

**EBIT:** earnings before interest and taxes, before any adjustment. EBIT excludes gains or losses on unconsolidated equity investments and securities, as well as any gains or losses on sales of consolidated equity investments, which are classified under "financial income and expense" or "share of profits (losses) of equity-accounted investees" if related to equity-accounted investments".

Adjusted EBIT: is the EBIT as described above, net of the following items (where applicable):

- any impairment of goodwill;
- amortisation of the portion of purchase price allocated to intangible assets acquired as part of business combinations, pursuant to IFRS 3;
- restructuring costs in relation to defined and significant plans;
- other income or expenses not of an ordinary nature, i.e., related to particularly significant events unrelated to ordinary activities.

Free Operating Cash Flow (FOCF): this indicator is the sum of cash flows from (used in) operating activities and cash flows from (used in) investing and disinvesting in property, plant and equipment, intangible assets and equity investments, net of cash flows from acquisitions or sales of equity investments which are deemed "strategic" due to their nature or importance. The reclassified statement of cash flows set out in paragraph 2.3 shows how FOCF is calculated for the current and previous years.

**Economic Value Added (EVA):** is the difference between EBIT net of income taxes and the cost of the average invested capital of the current reporting period and the corresponding period of the previous year measured on the basis of the weighted average cost of capital (WACC).

Net Working Capital: is operating working capital less other current assets and liabilities.

Net Invested Capital: is the sum of non-current assets, non-current liabilities and Net Working Capital.

**Net Financial Position or Debt:** is the calculation method which complies with paragraph 127 of the CESR/05-054b recommendations implementing Regulation (EC) No. 809/2004.

**New orders**: the sum of the contracts agreed with customers during the reporting period which meet the contractual requirements to be recorded in the orders book.

**Order backlog:** is the difference between new orders and revenue for the period (including any change to contract work in progress). This difference is added to the backlog for the previous period.

Headcount: is the number of employees recorded in the register on the last day of the reporting period.

Return on Sales (R.O.S.): the ratio of EBIT to revenue.

**Return on Equity (R.O.E.):** is the ratio of the profit or loss for the year to the average amount of equity at the reporting date and the previous year reporting date.

Research and Development Expenses: total expenses incurred for research and development, both expensed and sold. Research expense taken to profit or loss usually relates to "general technology", i.e., aimed at gaining scientific knowledge and/or techniques applicable to various new products and/or services. Sold research expenses represent those activities commissioned by customers and for which there is a specific sales order and which is to be treated exactly like an ordinary order (sales contract, profitability, invoicing, advances, etc.) for accounting and management purposes.
