### Significant events in the period

In July 2016 Be acquired 51% of IQUII, Digital Company" created in 2011 and specialized in developing web and mobile applications, designing "wearable solutions" and managing Internet of Things. IQUII also has significant knowledges in Social Media management, Integrated Marketing and Digital PR.

This acquisition will enable Be to convey on a specialized player all the development activities in the digital environment (web and mobile) requested by the customers. The price for the acquisition of 51% of the shares was defined as equal to € 400,000. The parties have also established two consequent put/call options to acquire a further 29% by 2021 and to achieve, in 2025, 100% of the capital with the acquisition of the remaining share capital.

### Significant facts after the period

In October Be has been awarded, as Parent Company of a Temporary Grouping of Enterprises, a multi-year European competition for the provision of IT services in the period 2016 - 2019 with Cassa Depositi e Prestiti S.p.A. (CDP). The contract, whose total value is Eur 7.4 million - more than Euro 4.8 mln to be delivered by Be over the next 36 months - is about to launch highly innovative projects with a Big Data approach. The contract also includes all the evolutionary activities in the digital innovation context, on CDP platforms.

### Possible evolution of the operations

In light of the positive results recorded by Be in the third quarter of the year, it is reasonable to confirm the growth trend - in revenues and profits - also for the year end and, more in general, the new targets for the period 2017-2019 communicated to the market on 15 September 2016.
