TESMEC GROUP RECEIVED FINAL AWARD OF RFI TENDER FOR THE SUPPLY OF 88 MULTIPURPOSE RAILWAY VEHICLES.

Total value of the three lots is Euro 91.8 million

Grassobbio (Bergamo - Italy), 16 December 2016 – **Tesmec S.p.A.** (MTA, STAR: TES), at the head of a group leader in the market of infrastructures related to the transport and distribution of energy, data and materials, announces that its subsidiary Tesmec Service S.r.l. has definitively awarded the public tender launched by RFI - Rete Ferroviaria Italiana S.p.A., the Italian Railways Group responsible for the overall management of the national railway network, for the supply of 88 multipurpose railway vehicles for the maintenance of the Italian railway network.

It is thus confirmed what announced by the Commission during a public meeting held on September 16, 2016 at the Purchasing Department of RFI in Rome and consequently communicated by Tesmec Group on the same date.

The total value of the tender amounts to around **Euro 91.860 million** and the supply, to be completed within 4 years and inclusive of a full maintenance service for a period of six years, is divided as follows:

- Lot n. 1: 26 multipurpose railway vehicles with 2 axles;
- Lot n. 2: 42 multipurpose railway vehicles with bogies;
- Lot n. 3: 20 multipurpose railway vehicles with bogies.

This first result has been achieved thanks to the high technological level of railway solutions of Tesmec Group which has been the key to the positive assessment.

Following the final award, RFI must therefore carry out the standard verification procedure on Tesmec Service S.r.l. with reference to the possession of the legal requirements and proceed with the drafting of the final contract.

Tesmec Group

Tesmec Group is leader in designing, manufacturing and selling of systems, technologies and integrated solutions for the construction, maintenance and efficiency of infrastructures related to the transport and distribution of energy, data and material. In details, the Group is active in the following sectors: 1) **transmission and distribution power lines** (stringing equipment for the installation of conductors and the underground cable laying, electronic devices and sensors for the management, monitoring and energy automation); 2) **underground civil infrastructures** (high powered tracked trenchers for linear excavation of oil, gas and water pipelines, telecommunication networks and drainage operations; surface miners for bulk excavation, quarries and site preparation; specialized digging services); 3) **railway lines** (railway equipment for the installation and maintenance of the catenary and for special applications, e.g. snow removal from track; new generation power unit).

The Group, established in 1951 and led by Chairman & CEO Ambrogio Caccia Dominioni, relies on more than 600 employees and has the production plants in Italy - in Grassobbio (Bergamo), Endine Gaiano (Bergamo), Sirone (Lecco), Monopoli (Bari), in the USA, in Alvarado (Texas) and in France, in Durtal. In addition, following the recent acquisition of Bertel, SGE and CPT, Tesmec Group has three new production plants in Italy, respectively in Fidenza, Padua and Patrica (FS). The Group also has a global commercial presence through foreign subsidiaries and sales offices in USA, South Africa, Russia, Qatar, Bulgaria, China and France.

The know-how achieved in the development of specific technologies and solutions, and the presence of engineering teams and highly skilled technicians, allow Tesmec to directly manage the entire production chain: from the design, production and sale of machinery, to all pre-sales and post-sales. All product lines are developed in accordance with the ISEQ (Innovation, Safety, Efficiency and Quality) philosophy, with environmental sustainability and energy conservation in mind.
