Section I

1. INTRODUCTION

The Company defines and applies a general remuneration policy aimed at attracting, motivating and retaining human resources with the professional qualifications required in order to productively pursue the objectives of the Nice Group.

This policy has been defined as a result of a clear and transparent process, in which the Shareholders' Meeting, the Board of Directors, the Board of Statutory Auditors and the Remuneration Committee play a central role.

Pursuant to article 17.9 of the Articles of Association, Directors are entitled to compensation for the duration of their office, determined by the Shareholders' Meeting at the time of appointment, also with an overall amount established according to article 2389, paragraph 3, of the Italian Civil Code. This compensation may also consist of a fixed part and a variable part, the latter based on the achievement of specific objectives. The Articles of Associations also envisage that the remuneration of Directors with specific offices shall be established by the Board of Directors based on the opinion of the Board of Statutory Auditors.

As required by the Stock Market Regulation for the achievement and maintenance of STAR status, the Company has also appointed a Remuneration Committee.

The policies for both fixed and variable remuneration for directors with specific offices are proposed each year by the Remuneration Committee and submitted for approval to the Company's Board of Directors, with the favourable opinion of the Board of Statutory Auditors.

2. OBJECTIVES

The remuneration policy applied by the Company aims to ensure competitiveness within the core market and an adequate performance assessment, as well as ensuring that executive directors' interests are in line with the pursuit of the primary objective, which is to create value for the shareholders over the medium and long term, through the creation of a strong bond between compensation and individual performances. The principles underlying the remuneration policy applied by the Company, the objectives pursued and the remuneration policy itself are in line with the compensation policy applied by the Company in the past.

3. THE REMUNERATION COMMITTEE

At the date of this Report, the Remuneration Committee consisted of directors Antonio Bortuzzo and Emanuela Paola Banfi. Both members are non-executive and independent.

The Remuneration Committee is responsible for making proposals to the Board of Directors (in the absence of the people directly involved if they are members of the Committee) regarding the remuneration of the Chief Executive Officer and those Directors with specific offices and also, on the advice of the Chief Executive Officer, regarding the remuneration criteria for managers with strategic responsibilities.

The Remuneration Committee also has the task of formulating proposals for the implementation of specific management stock option plans, intended as incentive and loyalty tools deemed appropriate for attracting and motivating human resources with suitable experience and at a suitable level. In particular, the Committee makes proposals to the Board of Directors on the most appropriate incentives system and monitors the evolution and implementation over time of the plans approved by the Shareholders' Meeting upon proposal by the Board.

During 2017, and in particular during the Board of Directors' meeting held on 28 February 2017, the Remuneration Committee submitted to the Board its proposals for the CEO's and executive directors' fixed remuneration on a *pro rata temporis* basis, as well as the criteria for determining the variable remuneration for the year 2017, pursuant to the remuneration policy agreed with the Chairman. The Committee's remuneration proposals were fully agreed and approved by the Board of Directors during the above-mentioned meeting.

In carrying out its functions, the Remuneration Committee was able to access all information and company departments necessary to carry out its tasks, and did not require external consultants but instead made use of internal functions.

4. POLICIES

As required by the Stock Market Regulation to issuers listed on the STAR segment, the remuneration policy of the Company provides that a significant portion of the remuneration of executive directors and managers with strategic responsibilities be of a motivational nature, through the payment of a consideration based on the achievement of individual and/or company objectives.

It is hereby noted that the fixed part of the directors' remuneration was determined at the ordinary Shareholders' Meeting held on 22 April 2016, which resolved to award a gross annual fee of Euro 105,000, on a *pro rata* basis, to be divided among the members of the Board of Directors.

As regards the remuneration of the directors vested with special offices and executives with strategic responsibilities, the Board of Directors at its meeting of 28 February 2017 undertook to determine the specific criteria and parameters aimed at ensuring that: (i) a significant portion of the remuneration is linked to the financial results achieved by the Issuer and/or the

achievement of specific objectives previously announced by the Board of Directors; and (ii) it is such so as to ensure that the interests of Executive Directors and executives with strategic responsibilities are aligned with the pursuit of the primary objective of creating shareholder value in the medium to long term.

The remuneration policy for Directors with specific offices and managers with strategic responsibilities approved by the Board of Directors consists of three elements, in addition to the fixed remuneration established by the Shareholders Meeting for all Directors:

- a) a fixed component remunerating each individual for the specific offices held;
- b) a variable component, with a pre-established maximum amount for each Director and manager, connected to short-term company objectives (MBO – Management By Objectives). These objectives are: Sales, EBITDA and Net Financial Position of the group as defined in the 2017 budget that were approved by the Board of Directors. In addition to the aforementioned objectives, some individuals may be assigned additional objectives. Each objective shall affect no more than 40% of the total amount of the variable component of the emolument paid;
- c) a variable component, with a pre-established maximum amount for each Director and manager, connected to medium-/long-term corporate objectives (LTIP – Long Term Incentive Plan).

The gross annual compensation of non-executive directors shall not be tied to the attainment of economic results by the Company but shall instead be based on the commitment requested of each of them for the performance of their office.

5. COMPENSATION FOR THE OFFICE OF DIRECTOR

On 13 May 2016, the Board of Directors resolved, among other things, to distribute to the members of the Board of Directors the compensation decided by the Shareholders' Meeting of 22 April 2016 of an overall gross annual amount of Euro 105,000. In particular, in its meeting of 13 May 2016, the Board of Directors established a fixed annual gross fee of Euro 12,500 for each of the Directors, except for Director Antonio Bortuzzo, for whom a fixed annual fee of Euro 17,500 was set, including the Euro 5,000 for his position as lead independent director.

6. COMPENSATION ENVISAGED FOR MEMBERSHIP OF COMMITTEES

The remuneration policy approved by the Issuer does not provide other insurance, social security and pension benefits in addition to those required, other than those stated in this Report with reference to the Chairman of the Board of Directors Mr. Lauro Buoro and Chief Executive Office Mr Roberto Griffa.

12. REMUNERATION POLICY ADOPTED FOR INDEPENDENT DIRECTORS AND FOR THE EXECUTION OF SPECIFIC DUTIES. DEFERRED PAYMENT SYSTEMS

1. At the date of this Report, the Company had not adopted any remuneration policy for independent directors.
2. With regard to the remuneration policy adopted for directors with specific positions:
 - (i) On 13 May 2016, the Board of Directors established that it will pay a fee of Euro 5,000 to the lead independent director.

- (ii) On 28 February 2017, the Board of Directors set the compensation payable to directors with specific offices for 2017 at the gross amount of Euro 950,500.00 (nine hundred and fifty thousand five hundred), this being the overall amount of the fixed compensation on a pro rata basis.
 - (iii) Finally, as indicated in paragraph 4, on 28 February 2017, the Board of Directors determined the specific criteria and objectives on which to base the payment of the variable part of the remuneration for directors with specific offices for the Year 2017. The Board of Directors set the compensation payable to directors with specific offices for 2017 at the gross amount of Euro 485,500.00 (four hundred and eighty five thousand five hundred), this being the overall amount of the variable compensation on a “*pro rata temporis*” basis.
3. At the date of this Report, a long-term incentive plan is effective: the Company will grant variable remuneration based on the achievement of medium-/long-term objectives.
