1^Quarter 2017 Results

Testo del comunicato

Vedi allegato.

THE BoD APPROVES THE FIRST QUARTER 2017 RESULTS

STABLE REVENUES IN THE SPECIAL FOUNDATIONS SECTOR BUT ONGOING WEAKNESS IN THE OIL & GAS SECTOR

Total revenues: Euro 237 million

EBITDA: Euro 11.8 million (EBITDA margin of 5%)

Result for the period attributable to the Group: a loss of Euro 18.6 million

Net debt: Euro 543.8 million

Order portfolio: Euro 732.5 million of which 73% to be completed in 2017

Significant special foundations contracts in Asia and the Middle East

Cesena, 15 May 2017 - The Board of Directors of TREVI - Finanziaria Industriale S.p.A., the Parent Company of the TREVI Group, one of the world leaders in special foundations engineering and in the manufacture of machinery for special foundations and for drilling, approved the results for the first quarter 2017.

In the first quarter 2017, **TOTAL CONSOLIDATED REVENUES** were **Euro 237 million**, a decrease compared to the figure of **Euro 264.6 million** for the first quarter of the previous financial year. The decline in revenues reflected the weakness of the Oil & Gas segment and, in particular, Drillmec. This segment contributed 19% of total revenues compared to 29% in the first quarter of the previous financial year. Revenues in the special foundations segment were stable, accounting for 81% of total revenues compared to 71% in the same quarter of 2016, and were boosted by new and important contracts that will continue throughout 2017.

The overall decrease in first quarter 2017 Group revenues is attributable to the Oil & Gas segment where the worldwide crisis continues and is causing difficulties for companies operating in this sector. The decrease was mainly due to the Drillmec Division that was affected by a stop to work on the contract to supply three drilling plants in Bolivia for YPF following the unexpected cancellation of the contract by the client.

The drop in volumes, together with lower profitability from the different mix of contracts in the Special Foundations Division, was also reflected in the **EBITDA** of **Euro 11.8 million** (5% of total revenues), down from Euro 35.7 million in the first quarter 2016 (13.5% of total revenues).

As a result of the above and also due to a prudent provision made for the aforementioned Drillmec contract, **there was a net operating loss of Euro 7.6 million**, a decrease compared to the operating profit of Euro 18.6 million in the first quarter 2016.

The NET RESULT of the GROUP was a loss of Euro 18.6 million (a loss of Euro 8.4 million in first quarter 2016).

GROUP NET EQUITY was Euro 446.7 million compared to Euro 472.4 million at year-end 2016.

TOTAL NET DEBT was Euro 543.8 million compared to Euro 440.7 million at 31 December 2016.

At 31 March 2017, in compliance with IAS 10 and in continuation of the process shown in the consolidated statement of financial position at 31 December 2016, since the Group had failed to meet one of the financial covenants (Net Debt/ EBITDA) in the contracts for the banks loans at 31 December 2016, the Directors reclassified in current debt the sum of Euro 292 million, which was the total of all the loans for which one of the financial covenants had not been met; however, it should be noted that by 12 April 2017, the Company had received waiver agreements from all the banks that had given it loans and, therefore, from that date, financial debt was once again classified according to the maturity terms of each individual contract.

SEGMENT ANALYSIS

SPECIAL FOUNDATIONS DIVISION

Total revenues in the first quarter 2017 in the Special Foundations Division, which includes Trevi S.p.A., Soilmec S.p.A. and their respective subsidiaries and associates, was **Euro 194.3 million**, more or less in line with the figure for the same period of the previous financial year.

The **EBITDA was Euro 18.1 million, a margin of 9.3% of sales compared to 17.2% in the first quarter of the previous financial year.** The drop in the gross operating margin was due to lower volumes, in particular from the Trevi Division in Nigeria and Venezuela, and to the partial completion of contracts in the water business unit of Soilmec.

Net debt was Euro 194.9 million and had increased Euro 77.9 million compared to the figure at year-end 2016, which is in line with the typical seasonality of the business.

TREVI

The first quarter 2017 consolidated revenues of this Division were **Euro 150.5 million, an increase of 4.4%** compared to the figure for the same period of the previous financial year (Euro 144 million).

The growth was mainly from the Middle East and reflected the contribution of the Mosul Dam project in Iraq, which is now fully operational, and the Salipazari Port project in Istanbul, Turkey.

SOILMEC

The first quarter 2017 consolidated revenues of the Soilmec Division were **Euro 46.9 million** (-11.9% year-on-year) but exceeded the budget figures for the period.

The decrease mainly reflects the business flows in **Africa, Latin America** and the **Far East**.

OIL & GAS SEGMENT

The growth outlook remains uncertain for this segment and, given the continued unfavourable trends in the energy sector, the Group continued with the important process of restructuring this sector to improve efficiency and decrease costs.

In the first quarter 2017, this segment had total revenues of Euro 46 million, compared to Euro 80.3 million in the first quarter of the previous financial year, a decrease of 42.7%.

This decrease was a direct consequence of the negative performance of the Drillmec Division caused by stagnation in the market and the stalling of the contract to supply three drilling plants to Bolivia following cancellation of the contract by the client YPFB.

As a result of the lower revenues, the Segment had negative **EBITDA** in the first quarter of Euro **7 million** (EBITDA of Euro 1.4 million at 31 March 2016).

Net debt was Euro 358.7 million, a deterioration of approximately Euro 27 million compared to the figure at 31 December 2016.

Drillmec

The first quarter 2017 revenues were **Euro 17.7 million**, a decrease of approximately Euro 37 million compared to the same quarter of 2016. This decrease was due to the completion of some important contracts during 2016, the continuing weakness of the Oil & Gas market, which hampered the acquisition of new orders, and the interruption in work for the contract for YPFB. The operating profitability reflected the drop in revenues.

Currently, the main markets for this Division are in the **Far East, Eastern Europe and Africa**.

Petreven

Whilst the market sector in which it operates remains in crisis, the Division is working to return to profitability by using its competitive advantages that are its solid client relationships and avant-garde fleet. It is also implementing efficiency measures and optimising its cost base in order to offset the reduction in margins and cash flows.

The Petreven division had an **increase in revenues of 8% to Euro 28.4 million** in the first quarter 2017, compared to Euro 26.3 million at 31 March 2016.

The Division is currently active in South America and is working for the leading Oil majors and Oil nationals.

The Group order portfolio was Euro 732.5 million compared to Euro 956.4 million at 31 December 2016; the decrease of Euro 223.9 million (-23.4%) compared to the figure at year-end

2016 was mainly because this figure is prudently shown net of the contract with YPFB in Bolivia for approximately Euro 121.4 million, following cancellation of the contract at the request of the client. It should also be remembered that the figure for the first quarter 2016 included the important Mosul (Iraq) contract acquired in that period.

Orders acquired in the first quarter 2017 totalled approximately Euro 131.4 million.

The Managing Director, Stefano Trevisani, commented “The first quarter 2017 results confirm the solidity of the Special Foundations Division, which had good growth in the Middle East. However, the difficulties in the Oil & Gas Division persist. In particular, without prior warning, Drillmec received a “notice of cancellation” for the contract to supply three drilling plants to Bolivia. The client, Yacimientos Petroliferos Fiscales Bolivianos (YPFB), cancelled the contract citing “force majeure” but without providing any further reasons for this decision. The Company has taken all necessary steps to protect its rights and interests under the contract and, at the same time, is working on the order portfolio to increase the existing backlog and reduce the impact on 2017.”

About TREVI Group:

Trevi Group is a worldwide leader in the field of soil engineering (special foundations, tunnel excavation, soil consolidation and the building and marketing of special rigs and equipment relevant to this engineering sector); the Group is also active in the drilling sector (oil, gas and water) both in the production of plant and the supply of services, and it also builds automated underground car parks. The Group was established in Cesena in 1957 and today has more than 30 branches and is present in over 80 countries. Its success is due to the vertical integration of the main divisions making up the Group: the Trevi Division that supplies special services in the field of soil engineering;; the Petreven Division active in oil drilling services;; the Soilmec Division that produces and develops plant and machinery for soil engineering;; and the Drillmec division that produces and develops drilling rigs (oil, gas and water).

The parent company has been listed on the Milan stock exchange since July 1999.

The key financial figures for 2016 are: Total revenues of € 1080.5 million, EBITDA of €75.7 million (margin of 7%), a negative EBIT of €38 million, and a Group Net Loss of €86.4 million. Further information can be found on the website:
