**PRESS
RELEASE**

**June net inflows: €620 million
(€3,820 million YTD)**

**Net inflows of managed products: €621
million (€3,437 million YTD)**

Milan, 11 July 2017 – Banca Generali's **net inflows** amounted to **€620 million** in June, bringing the YTD total to **€3,820 million** and thus setting a new record for the period (+31% compared to the first half of the previous year).

In June, net inflows continued to be fully generated by managed and insurance products (**€621 million**), totalling **€3.4 billion YTD (+102% YoY)** and accounting for 90% of total net inflows. Thanks to the level of customisation and protection they offer, financial and insurance **wrapper solutions** continued to be high in demand, totalling net inflows of **€510 million in June and €2,806 million YTD**.

In addition, **Funds and Sicavs** also performed well in June, reporting net inflows of **€140 million for the month** and nearing one billion YTD (€979 million).

Chief Executive Officer Gian Maria Mossa stated: *"We are very satisfied with the strong appreciation that households continue to show to us. The risk and volatility containment approach and the diversification opportunities offered by our wrappers of products enhance our professionals' advisory service allowing them to provide customised solutions to their customers, as shown by the doubling of net inflows of managed products compared to the previous year. We will soon introduce new managed products in our offering, which makes us very optimistic about the objectives for the coming months."*
