Significant events in the period

In July R&L AG - the payment specialist firm of Be Group in Germany – has renewed their contract with the German Central Bank (Deutsche BundesBank) to further support the project of evolving payment infrastructure in the German and European environments. The amount of the new contract – which will cover two years - is Eur 1 mln.

In September Be has signed an international Partnership Agreement with Murex, a leader in Capital Markets solutions. Through this agreement, Be becomes one of European partners of Murex and aims to boost its market share in the professional services area at a domestic and international level.

In September Be has been selected by one of the European Systemically Important Financial Institutions (SIFI) to support the management of Capital Markets ICT infrastructure. The 2017-2020 assigned contract, with a total value of €/mln 11, strengthens Be positioning in a strategic area of the Financial industry. The contract includes the development activity of the infrastructure platform (over 8,000 servers and 400 hypervisors) for the next 3 years.

On September 25, 2017 Be has completed the merger of its subsidiaries operating in ICT and BPO segments, establishing - through the integration of such companies - a new entity having a combined revenue of Eur 40 mln and 450 employees, servicing the growing demand for system integration, technology solutions and process digitalisation. The merger act is due, to the effects of the civil proceedings, from October 1st, 2017.

Significant facts after the period

In October Be signed an important assignment in cooperation with other leading consulting company, aimed to support Friuli Venezia Giulia Region and the Autonomous Provinces of Trento and Bolzano in monitoring projects financed by ERDF (European Regional Development Fund) and ESF (European Social Fund). The signed Framework Agreement will directly involve Be for activities in the amount of € 1.1 mln and allows Be to launch the Advisory Unit for the Public Sector.

Possible evolution of the operations

In light of the results recorded by Be in the first nine months of the year, it is reasonable to confirm the scenario of consolidation of our market positioning and, more in general, the targets for the period 2017-2019.
