AQUAFIL S.P.A. MARKET WARRANT EXERCISE

CONVERSIONS OCCURRED IN FEBRUARY 2018

Arco (TN), March 16, 2018 - Aquafil S.p.A. (**Aquafil** or the **Company**) [ECNL IM] informs that, pursuant to the Aquafil S.p.A. Market Warrants Regulation, at the conclusion of the first Exercise Period of *Market Warrant* Aquafil S.p.A. (**Warrant**), relating February 2018, n. 1,431,090 Warrant have been exercised, corresponding to n. 36,.220 Aquafil ordinary shares, for a total consideration of € 36,222.00.

On conclusion of the exercise period, the total number of Aquafil outstanding shares increased from 50,720,078 to the current 50,756,300. In particular, ordinary shares increased from 43,324,058 to 43,360,280. The number of Class B and C shares remains unchanged.

Founded in 1965, **Aquafil** is one of the main players, in Italy and worldwide, in the production of synthetic fibers, particularly for Polyamide 6 applications. The Group is present in three continents with a workforce of over 2,700 at production sites in Italy, Germany, Scotland, Slovenia, Croatia, USA, Thailand and China. For further information: www.aquafil.com

Aquafil is a pioneer in the circular economy also thanks to the ECONYL® regeneration system, an innovative and sustainable process able to create new products from waste and give life to an endless cycle. The Nylon waste is collected in locations all over the world and includes industrial waste but also products (such as fishing nets and rugs) that have reached the end of their useful life. Such waste is processed so as to obtain a raw material (caprolactam) with the same chemical and performance characteristics as those from fossil sources. The polymers produced from ECONYL® caprolactam are distributed to the Group's production plants, where they are transformed into BCF yarn and NTF yarn.
