Each slate shall contain and expressly indicate at least 2 (two) directors considered as per applicable laws and the Corporate Governance Code of Borsa Italiana S.p.A.. The slates containing 3 (three) or more candidates may not be composed of candidates only from the same gender (male or female); these slates should include a number of candidates of the under-represented gender to guarantee the composition of the Board of Directors in accordance with legal and regulatory provisions in relation to gender equality (male or female) rules, rounded upwards.

Each slate must include as an attachment, at the risk of ineligibility: (i) the curriculum vitae of the candidates; (ii) a declaration in which all the candidates accept the candidature, and attest, under their own responsibility, that no grounds for ineligibility and incompatibility exist, as well as the existence of the requirements prescribed by applicable law for the office of director of the Company and including the declaration on the possession of the independence requirements; (iii) the identity of the shareholders who have submitted the slates and the total percentage of shares held; (iv) any additional or differing declaration, information, and/or documents provided for by applicable law and regulations.

Each Shareholder may not - even through a nominee or a trust - submit, or contribute to submitting, more than one slate or vote upon different slates. Moreover, each candidate may be included only in one slate, under penalty of ineligibility.

At the end of the voting process, the candidates of the two slates that have obtained the highest number of votes shall be elected, on the basis of the following criteria: (i) from the slate obtaining the majority of votes cast (the "**Majority Slate**"), a number of directors equal to the total number of the members to be appointed less 3 (three) shall be taken; and (ii) from the slate obtaining the second highest number of votes cast (the "**Minority Slate**") and not linked even indirectly with the Shareholders that submitted or voted the slate that achieved the highest number of votes, 3 (three) directors shall be taken, including at least one independent director, according to the progressive order of the candidates on the slate.

If the Majority Slate, or the Minority Slate, depending on the case, does not contain a sufficient number of candidates in order to appoint the number of Directors required for each of them based on the aforementioned criteria, the remaining directors to be elected shall be taken from the other slate, i.e. either the Minority or the Majority Slate depending on the case - in the progressive order in which they appear.

Consideration is not taken of the slates which have not obtained at least half of the votes required for the presentation of slates.

Should two slates receive the same number of votes, a second vote of the entire Shareholders' Meeting shall

decide, with the candidate being elected by means of a simple majority of the votes.

If, at the end of the vote, the legal and regulatory provisions applicable from time to time on (male and female) gender parity (including rounding up to the next whole number if the implementation of gender quotas does not result in a whole number), the replacement mechanisms detailed below shall apply.

A) The last of the candidates that would have been elected from the Majority Slate and belonging to the most represented gender shall be replaced with the first of the non-elected candidates taken from the same slate and belonging to the least represented gender.

B) Where the replacement under letter A) above does not allow the achievement of the minimum threshold set out by the legal and regulatory provisions applicable from time to time to gender parity (including rounding up to the next whole number if the implementation of gender quotas does not result in a whole number), the last of the candidates that would have been elected in the Minority Slate and belonging to the over-represented gender shall be replaced with the first non-elected candidate taken from the same slate belonging to the under-represented gender.

C) Where the replacements under letters A) and B) above do not allow the achievement of the minimum threshold set out by legal and statutory regulations applicable from time to time on gender parity (including rounding up to the next whole number if the application of gender quotas does not result in a whole number), the second-last candidate that would have been elected from the Majority Slate and belonging to the over-represented gender shall also be replaced, and so on, from the bottom of the ranking, considering only the candidates that would have been elected taken from the aforementioned slate.

Where, as a result of the mechanism detailed above, no independent director is appointed from the Majority Slate, the last non-independent candidate elected from the Majority Slate shall be replaced by the first independent candidate not elected from the aforementioned slate, in progressive order, without prejudice in any case to the compliance with the gender parity provided for by legal and/or regulatory provisions as applicable. If, based on the aforementioned mechanism, no independent director is appointed from the Minority Slate, the same procedure shall be followed, *mutatis mutandis*.

Where only one slate is presented, the Shareholders' Meeting will vote on that slate and, where this slate receives the majority of the votes, all the members of the Board of Directors will be taken from this slate in accordance with applicable law and regulations, including gender equality regulations (rounded upwards where resulting in a fraction).

In the absence of slates, or where only one slate is presented and this slate does not receive the majority of the votes, or where the number of directors elected based on the slates presented is below the number of members to be elected, or where the entire Board of Directors need not be re-elected, or where it is not possible for whatever reason to proceed with the nomination of the Board of Directors as per this article, the members of the Board of Directors will be appointed by the Shareholders' Meeting through ordinary majority, without application of the slate voting mechanism, subject to the obligation to maintain the minimum number of independent directors established by law and in accordance with applicable law and regulations in relation to gender equality.

In the event that, for whatever reason, one or more directors are no longer sitting, the Board of Directors will proceed with co-option, where possible, from among the non-elected candidates from the slate from which the director leaving office had been elected, according to the progressive numbering of the slate, while maintaining the obligation of a minimum number of independent directors as established by law and these by-laws and in accordance with the applicable law and regulations on gender equality quotas.

In the event of termination of office, for any reason, of more than half of the directors elected by the

Shareholders' Meeting, the entire Board shall be deemed to lapse with effect from the moment in which the Board of Directors has been renewed and the directors still in office will urgently call the shareholders' meeting for the election of the new Board of Directors.

On the Report approval date, the Board had not adopted a succession plan for executive Directors.

4.2.2. Diversity policies

In accordance with Article 123-*bis*, paragraph 2, letter d-*bis*, of the Income Tax Law introduced through Legislative Decree 254/2016, setting the requirement that the Corporate Governance and Ownership Structure Report should provide information on the adoption of the Corporate Boards Diversity Policy, the Board of Directors of Avio on March 15, 2018 adopted the “Corporate Board Diversity Policy”.

Avio recognises and welcomes the benefits from diversity in all forms, including gender, age, qualifications, expertise and training and professional background. The Policy sets out the criteria and instruments adopted by AVIO to ensure an appropriate level of diversity on its Corporate Boards in accordance with the applicable regulations, the provisions of the By-Laws and the internal regulations.

The Policy seeks to (i) guarantee greater awareness with regards to the needs and requirements of the stakeholders, (ii) make the decision-making process more efficient and extensive; (iii) improve the quality of discussion among the Corporate Boards on the basis of general strategic or specific technical expertise; (iv) enable the members of the Corporate Boards to constructively discuss management’s decisions.

Avio closely focuses on the issues of diversity and inclusion irrespective of that set out in the primary regulation.

4.2.3 Maximum number of offices permitted in other companies

At the Report approval date, the Board of Directors has not defined the general criteria relating to the maximum number of offices of administration and control in other companies that may be considered compatible with the proper carrying out of their duties as directors of Avio. This is as it was considered appropriate to leave it up to the individual Directors to assess such compatibility.

The Board’s self-assessment process for 2017 confirmed the positive assessment in terms of the functioning of the Board and its Committee, also with regards to this aspect.

The company intends to comply with the recommendations contained in Application Criterion 1.C.2 of the Self-Governance Code, relating to the obligation of the members of the Board of Directors to accept the office of director only when they believe they can dedicate the necessary time to diligently carry out their duties, also taking into account their work and professional commitments and offices held in financial, banking and insurance companies or companies of significant size listed on regulated markets (including abroad).

4.4.2 Chairman of the Board of Directors

On April 10, 2017, the Board appointed Mr. Roberto Italia as the Chairman of Avio’s Board of Directors.

The Chairman of Avio's Board of Directors is not a controlling Shareholder of the Issuer.

4.4.3 Executive Committee

As per Article 12.2 of the By-Laws, the Board may delegate part of its powers to an executive committee, determining the limits of the powers of attorney as well as the number of the members and the operating methods, appointing one or more Chief Executive Officers and granting relevant powers to them, without prejudice to the fact that the delegated bodies shall report to the Board of Directors and the Board of Statutory Auditors on a quarterly basis.

As per Article 2389 of the Civil Code, the remuneration of the Executive Committee members is to be decided by the Shareholders’ Meeting.

At the Report approval date, an Executive Committee had not been established.

4.4.4. Reporting to the Board of Directors

The Chief Executive Officer reported to the Board at each board meeting, on the activities carried out in accordance with the powers conferred by the Board. In particular, the Chief Executive Officer at each Board meeting and regardless of the time period since the last meeting, briefed upon the activities carried out and the main operations executed by the company and its subsidiaries, even where not requiring prior approval by the Board of Directors.

4.5 OTHER EXECUTIVE DIRECTORS

At the Report approval date, there were no Executive Directors in addition to the Chief Executive Officer, as referred to in Application Criterion 2.C.1 of the Self-Governance Code. None of the Executive Directors therefore i) hold the office of chief executive officer or executive chairman in a strategic subsidiary of the Issuer or ii) hold management positions at the Issuer, in a strategic subsidiary or in the parent company.

4.6 INDEPENDENT DIRECTORS

On December 1, 2016, the Shareholders' Meeting of Space2 appointed with effect from the Effective Merger Date, 4 (four) directors considered independent as per Article 148, paragraph 3 of the CFA, in addition to Application Criterion 3.C.1 of the Self-Governance Code.

In accordance with this criterion, on April 10, 2017, as announced to the market on the same date, the Board assessed the independence as per Article 148, paragraph 3 of the CFA and Article 3 of the Self-Governance Code of the non-executive members of the Board of Directors.

Subsequently, this check was made, on an annual basis, on March 15, 2018.

The Board of Statutory Auditors confirmed the correct application of the assessment criteria and procedures adopted by the Board to evaluate the independence of its members.

In 2017, Avio's independent directors met by themselves in the absence of the other directors on December 20, 2018 to consider the following matters:

1. Adequacy of the number of independent directors;
2. Considerations on the contribution of the independent directors to the work of the Board of Directors.

4.7 LEAD INDEPENDENT DIRECTOR

At the Report approval date, the Board did not appoint any Independent Director as Lead Independent Director pursuant to Application Criterion 2.C.3 of the By-Laws, given that the

circumstances that require his/her appointment pursuant to the Corporate Governance Code did not apply.

5. PROCESSING OF CORPORATE INFORMATION

The company has adopted the following policies: (i) Inside Information Processing Policy; and (ii) Internal Dealing Conduct Code, as latterly updated by the Board of Directors respectively on December 21, 2017 and September 13, 2017.

Copies of both codes are available on the website www.avio.com, "Corporate Governance" section.

The Inside Information Processing Policy governs, in compliance with the Regulation (EC) No. 596/2014 of the European Parliament and Council of April 16, 2014 concerning market abuse and the relative delegative and executive regulations (the **MAR Regulation**): (i) the management and handling of inside information, as well as the procedures to be complied with, both inside and outside the company, in order to disclose the aforementioned information; and (ii) the creation and management of the list of individuals who, due to their work or professional activities or duties performed, have access to inside information on an occasional or regular basis ("Insider Register").

This also incorporates some Consob recommendations on the management of insider information contained in the Guidelines published by Consob on September 13, 2017, with particular reference to the identification of "relevant information". "Relevant information" is that which, in the Issuer's opinion, is relevant since it can, subsequently, become insider information, with the consequent preliminary mapping of the types of relevant information that they circulate with the Issuer, and thereafter, in order to be able to monitor the circulation of "relevant information", the establishment of a special register (the "Relevant Information List" or "RIL") in which, for each piece of "relevant information", persons having access to it are listed.

The internal dealing code of conduct regulates disclosure obligations in respect of Consob, the Issuer and the public, and the rules of conduct connected to the execution of transactions involving financial instruments issued by the Issuer, by persons who exercise administrative, control or management functions at the Issuer and by persons closely connected to them (as defined by Art. 19 of the MAR Regulation).

The essential elements of the insider information processing policy and the internal dealing code of conduct, applicable at the Report's date of approval, are briefly illustrated below.

Inside information processing policy

Definition of inside information

Insider Information is taken to mean information: (i) of a precise nature, namely that (a) such refers to a set of circumstances which exists or may reasonably be expected to come into existence or an event which has occurred or may reasonably be expected to occur, and (b) is specific enough to enable conclusions to be drawn on the possible effect of the set of

circumstances or event referred to in subparagraph (a) on the prices of the financial instruments issued by the company (as identified by the applicable regulation); (ii) that has not been made public; (iii) that directly or indirectly concerns the Issuer or the companies directly or indirectly controlled by the Issuer or the Financial Instruments of the Issuer; and (iv) that, if made public, may have a significant effect on the prices of the Financial Instruments of the Issuer or that a reasonable investor would use as one of the elements on which to base investment decisions.

In this regard, in the case of an extensive process undertaken to achieve, or which results in, a particular circumstance or a particular event, this future circumstance or future event, in addition to the interim steps taken as part of the process linked to the achievement or the occurrence of the circumstance or future event, may be considered as information of a precise nature;

Addressees of the Inside Information Processing Policy

Those required to comply with the procedures outlined in the Inside Information Processing Policy are: (i) the members of the administrative and control bodies, in addition to employees of the company and the subsidiaries (ii) any natural or legal persons who, because of their work or professional activities or duties, have access on a regular or occasional basis to significant and/or inside information concerning the company and its subsidiaries.

Processing of significant information and inside information

The Policy's addressees - as identified above - must maintain the complete confidentiality of the significant and/or inside information of which they are aware. All inside information must be processed with the necessary care to ensure that its circulation within the company does not threaten its confidential nature, unless such is announced to the market according to the means established by the Policy and the applicable regulation. The same obligation applies to the processing of significant information, until it is disclosed to the public according to the manner prescribed by the Policy and the applicable procedure (as becoming inside information or as considered by the competent bodies of the company as necessary or appropriate), or until it no longer may be considered as significant.

Subject to Article 184 and subsequent of the CFA, in addition to Articles 14 and 15 of the MAR Regulation, the addressees may not: (a) acquire, sell or otherwise execute operations on Financial Instruments issued by the company (including the cancellation or amendment of orders where the order has been sent before the interested party came into possession of Inside Information), on their own behalf or on behalf of third parties, directly or indirectly, utilizing Inside Information; (b) advise or induce others, on the basis of Inside Information, to carry out any operations at point (a); (c) communicate to third parties Inside Information outside of the normal exercise of their duties, profession, function or office; in particular it is absolutely prohibited to provide interviews to press organisations or declarations in general which contain inside information concerning the company and its subsidiaries, not yet communicated to the market as per the Policy. The communication to third parties of advice or inducements as per letter (b) is considered as unlawful communication of Inside Information where the person

communicating the advice or inducement knows or should know that such is based on Inside Information.

The Board of Directors of Space2 on January 19, 2017 appointed as disclosure officer for the Inside Information Processing Policy, with effect from the Effective Merger Date, Mr. Giorgio Martellino. This appointment was confirmed by the Issuer's Board of Directors on April 10, 2017

The Board of Directors, in addition, established the Insider Register and the RIL, setting out the policy for the maintenance of these lists and appointing the Disclosure Officer as the person responsible for its maintenance and updating in order to ensure easy consultation and the simplified extraction of data.

The RIL is managed according to the means established for the Insider Register, with a number of adjustments (and remaining in the register until the significant information no longer qualifies as Confidential).

Internal Dealing Policy

In accordance with the provisions of the MAR Regulation and the CFA and the relative executive regulations, the Internal Dealing Policy imposes upon the “Managers” and the “Covered Persons” stringent communication obligations to the Issuer and Consob with regards to transactions concerning company shares (or other associated financial instruments (the “**Significant Transactions**”), carried out by, or on behalf of, such persons and/or closely related persons, excluding transactions whose overall amount does not reach Euro 20,000 by year-end (the “**Relevant Amount**”). In particular, once the Relevant Amount is exceeded:

- with regards to Managers and closely related persons thereto, all of the transactions subsequently carried out by year-end should be communicated;
- with regards to Covered Persons and closely related persons thereto, transactions whose total value does not exceed Euro 20,000 by year-end need not be disclosed.

As per the Internal Dealing Policy:

- “**Managers**” are:
 - (a) the members of the Board of Directors and of the Board of Statutory Auditors of the Issuer;
 - (b) all senior executives of the company who, although not belonging to the bodies at letter (a) above, have regular access to inside information concerning directly or indirectly the company and have the power to adopt management decisions which affect the future development and prospects of the company;

- **“Covered Persons”** are: any persons with a holding, calculated as per Article 118 of the Issuers’ Regulation, of at least 10% of the company’s voting share capital, in addition to any other person with a controlling position at the company;

The Managers and the closely related persons are required to communicate to Consob the Significant Transactions carried out by them or on their behalf within 3 working days from the execution of such transactions. The Covered Persons communicate to Consob and publish the information concerning Significant Transactions carried out by them or closely related persons thereto by the end of the fifteenth day of the month subsequent to the transaction’s execution.

Where the Managers and the Covered Persons intend to utilise the company to communicate to Consob the Significant Transactions, they should inform the company of such, respectively, within 2 working days from the execution date of the transaction and by the end of the tenth day subsequent to the transaction’s execution. The company communicates to the public the Significant Transactions communicated to them, respectively, by 3 working days from the transaction’s execution and by the end of the open trading day subsequent to that in which they received the information from the Covered Persons.

Finally, the Internal Dealing Policy prohibits Managers from executing - on their own behalf or on behalf of third parties, directly or indirectly, transactions on Avio financial instruments and associated financial instruments in the 30 calendar days before the announcement (“black-out period): (i) of the preliminary results (or, where the company does not approve the preliminary results, the statutory financial statements and the consolidated financial statements); (ii) the half-year report; (iii) additional periodic financial disclosure to the annual and half-year financial report.

The Board of Directors approved the appointment of General Counsel Mr. Giorgio Martellino as the Internal Dealing Policy contact person.

6. INTERNAL COMMITTEES TO THE BOARD OF DIRECTORS

In accordance with the Self-Governance Code, which recommends that listed companies appoint internal committees to the Board of Directors, with expertise regarding specific matters, Article 12.2 of the By-Laws assigns the Board of Directors the option to set up internal committees with consultation, proposal or control functions, in accordance with the applicable legislative and regulatory provisions.

At the Report approval date, a Risk Control and Sustainability Committee set up by the Issuer was in office as per Article 7 of the Self-Governance Code, whose functioning is governed by the regulation adopted with Board of Directors motion of May 11, 2017 and latterly amended by Board of Directors motion of September 13, 2017, in order to assign to the Committee oversight in addition with regards to non-financial activities.

Complying with the recommendations of the Self-Governance Code in terms of its composition and as per the Internal Committee regulation, at the Report approval date, the Risk Control and Sustainability Committee of the Issuer comprises the following independent directors: Monica Auteri (Chairperson), Donatella Sciuto and Vittorio Rabajoli.

In addition, after assessing the company's organisational requirements, the operating methods and the size of its Board of Directors, the company deemed it appropriate to establish the Appointments and Remuneration Committee, with effect from the Effective Merger Date, as well as, on a voluntary basis, the Investments Committee and the Strategic Activities Committee.

The Board of Directors meeting of April 10, 2017 resolved:

- – to appoint as members of the Appointments and Remuneration Committee until the approval of the 2019 Annual Accounts, Messrs. Maria Rosaria Bonifacio and Giovanni Gorno Tempini, both independent directors, in addition to Mr. Stefano Ratti, appointing Mr. Gorno Tempini as chairman;
- to set up the Investments Committee. The Board of Directors on September 13, 2017 appointed to the Investments Committee the Chief Executive Officer, Giulio Ranzo, the Director Luigi Pasquali (also Chairman) and the Independent Director Giovanni Gorno Tempini;
- to appoint Giulio Ranzo, Chief Executive Officer, Donatella Sciuto, independent director, and Stefano Ratti, to the Strategic Activities Committee until the approval of the 2019 Annual Accounts, appointing Mr. Giulio Ranzo as Chairman;

Regulations for internal committees to the Board of Directors provide that meetings are to be minuted, that the committee's chairman is to provide information to the next appropriate Board meeting and that, in addition to the Board of Statutory Auditors, other external parties including other members of the Board of Directors or of the Avio structure, may participate in meetings by invitation and for individual items on the agenda.

At the Report approval date, none of the functions of one or more committees provided for by the Code had been reserved to the Board as a whole, under the co-ordination of the Chair (Application Criterion 4.C.2 of the Code).

The main features of the committees comprising Avio's governance structure at the Report approval date are described below.

7. APPOINTMENTS AND REMUNERATION COMMITTEE

On January 19, 2017, the Space2 Board of Directors, as per the recommendations of the Self-Governance Code, resolved, with effect from the Effective Merger, to establish an Appointments and Remuneration Committee, incorporating it into the Remuneration Committee. The decision to merge the two committees was taken for organisational reasons internal to the company and at the point in time at which the functions performed by the Appointments Committee did not justify the establishment of an *ad hoc* committee given that, to-date, no difficulties had been encountered or envisaged by shareholders to propose suitable candidates to ensure that the Board's composition conforms to the Code's recommendations.

In 2017, the Appointments and Remuneration Committee met on six occasions (average meeting duration of approx. 1 hour and 25 minutes). During the current year, the Committee met once. The meeting attendance percentage of Committee members is reported in the table at the bottom of Section 4.2 of this Report.

The Chairman of the Board of Statutory Auditors, the Chief Executive Officer, the General Counsel, in addition to consultants supporting the company on specific projects reviewed by the Committee, usually attended the Appointments and Remuneration Committee meetings, on its invitation.

The Appointments and Remuneration Committee, therefore, was assigned both the duties and functions provided for by Article 5 of the Self-Governance Code with respect to the appointment of directors, and the duties and functions pursuant to Article 6 of the Self-Governance Code with respect to their remuneration.

In accordance with the regulation governing the functioning of the Appointments and Remuneration Committee, it comprises three non-executive directors, the majority of whom independent as per the applicable regulation and the Self-Governance Code, from among whom the Chairperson is selected.

The following appointment duties are assigned to the Appointments and Remuneration Committee:

- a) draws up opinions for the Board of Directors in relation to the size and composition of the Board and expresses recommendations on the managerial and professional roles whose presence on the Board of Directors is considered beneficial;
- b) assists the Board of Directors with the annual self-assessment process of the Board and its committees, pursuant to the Self-Governance Code;
- c) taking into consideration the results of this self-assessment, assists the Board of Directors in providing guidelines to the Shareholders - before the appointment of the new Board of Directors - on the managerial and professional profiles whose presence is considered beneficial;
- d) formulate opinions to the Board of Directors in relation to (i) guidelines on the maximum number of offices in administrative or control bodies of other companies listed on regulated markets, in holding, banking, insurance or large enterprises that can be considered to be compatible with an effective performance of the office of director of the company, taking into account board members' participation in committees established within the Board, and (ii) any problematic cases related to the application of competition restrictions envisaged for directors by Art. 2390 of the Civil Code, if the shareholders' meeting has authorised any general and pre-emptive departure from the competition restrictions to meet organisational needs;
- e) Where it is necessary to replace the Chairman of the Board of Directors or the Chief Executive Officer, and submit proposals and evaluations to the Board of Directors (to this end, by also making use of external consultants), so that the latter can take the

necessary decisions in this regard provided, however, that any opinions expressed by the Committee in relation to the identification of a candidate to hold office as Chief Executive Officer must be in compliance with the provisions set out in Prime Minister's Decree of 24/11/2016;

- f) in the case of co-opting, where it is necessary to replace Independent Directors, proposes candidates for the position of Independent Director to the Board of Directors;
- g) supports the Board of Directors with necessary investigation activities to establish a plan for the succession of executive directors;
- h) subject to the provisions of letters (e), (f) and (g) above, supports the Board of Directors if the latter, in compliance with applicable legislation and the provisions of the By-Laws, intends to submit a slate for the renewal of the Board;
- i) as per Article 12.3 of the By-Laws and subject to the remit of the Strategic Activities Committee for the appointment of a manager responsible for strategic activities (the "**Strategic Activities Manager**"), draws up for the Chief Executive Officer opinions on the appointment and revocation of the company's managers that report directly to the Chief Executive Officer and the chief executive officers of Group companies.

The Appointments and Remuneration Committee also carries out the following remuneration related duties:

- a) draws up for the Board of Directors proposals upon the remuneration policy of Senior Directors and Executives;
- b) periodically evaluates the adequacy, the overall consistency and the concrete application of the remuneration policy of senior directors and executives of the company, utilising for this latter the information provided by the Chief Executive Officer and draws up for the Board of Directors related proposals;
- c) presents proposals or expresses opinions to the Board of Directors on the remuneration of executive directors and other senior directors in office, as well as establishing the performance objectives related to the variable component of this remuneration and monitors the application of the decisions adopted by the Board verifying, in particular, the achievement of the performance objectives;
- d) reviews in advance the annual remuneration report to be made available to the public as per the applicable regulation;
- e) reports to the Shareholders' Meeting called to approve the financial statements - through the Chair of the Committee or another member appointed by the latter - upon the means to perform their duties, with respect to remuneration-related tasks attributed to the Committee.

The Appointments and Remuneration Committee may access all information and departments necessary for the undertaking of its duties and may also utilise external consultants within the limits of the budget established by the Board of Directors, except in the case where it acts as the Related Party Transactions Committee and must express itself on a "significant transaction" (as defined in accordance with the RPT Policy). In this case, no expenditure limits are applicable pursuant to the applicable regulations and the RPT Policy.

In line with the recommendations of Article 6.C.6 of the Self-Governance Code, no director participates in meetings of the Appointments and Remuneration Committee in which proposals are formulated to the Board of Directors concerning directors' remuneration.

The Committee is also attributed, with respect to remuneration issues only, the duties allocated to the committee responsible for related party transactions pursuant to the RPT Policy. For transactions with significant related parties, where the committee does not include at least three independent directors, the controls at Article 14 of the RPT Policy apply.

8. RISK CONTROL AND SUSTAINABILITY COMMITTEE

In accordance with the Risk Control and Sustainability Committee regulation, the Risk Control and Sustainability Committee comprises at least three non-executive directors, the majority of whom independent as per the Self-Governance Code; the Chairperson of the Committee is chosen from among these latter members. Furthermore, at least one member of the Risk Control and Sustainability Committee must have adequate accounting and financial experience, to be evaluated by the Board of Directors on appointment.

In 2017, the Risks Control and Sustainability Committee met on six occasions (average duration of 1 hour and 30 minutes approx.). During the current year, the Committee met once. The meeting attendance percentage of Committee members is reported in the table at the bottom of Section 4.2 of this Report.

The entire Board of Statutory Auditors is consistently invited to attend the business of the Risk Control and Sustainability Committee.

11. DIRECTOR REMUNERATION

With regards to the information concerning this section, reference should be made to the relevant parts of the Remuneration Report published in accordance with Article 123-ter of the CFA.

12. INTERNAL CONTROL AND RISK MANAGEMENT SYSTEM

The Board of Directors, having consulted the Risks and Control Committee:

- defined, in drafting the strategic, industrial and financial plans, the nature and level of risk compatible with the strategic objectives of the issuer, including in their assessments all risks considered significant with regard to the sustainability of the medium/long-term operations of the Issuer;
- defined the guidelines of the internal control and risk management system, so that the main risks connected to the Issuer and its subsidiaries are correctly identified, as well as adequately measured, managed and monitored, in addition to determining the criteria of compatibility of these risks in line with the strategic objectives of the company;
- evaluated, at least annually, the compliance of the internal control and risk management system with the particular characteristics of the company and the risk profile assumed, as well as its efficacy.

For the purposes of the above evaluations, in the year 2017 the Control and Risks Committee has particularly examined:

- the results of risk assessment activities performed by the Risk Management office;
- the outcomes of audit activities carried out by the internal audit office, based on a previously-examined audit plan, after consultation with the Board of Statutory Auditors and the Director in charge of the internal control and risk management system;
- the results of meetings with the independent audit firm;
- the Supervisory Board’s reports on the Organisation, Management and Control Model in relation to the profiles as per Legislative Decree 231/2001.

During the meeting of December 21, 2017, the Chairman of the Control and Risks Committee also reported to the Board of Directors on the examination and assessment of the updated mapping of business risks, with an identification of relative plans to contain these risks. The Board approved the Risk Assessment Plan at the same meeting after having examined, *inter alia*, the above information.

The internal control and risk management system of the Avio Group concerns the set of rules, procedures and organisational structures which enable the identification, measurement, management and monitoring of the principal risks. This system is integrated into the more general organisational and corporate governance structures adopted by the issuer and gives due consideration to benchmark models and existing best practices at national and international level. The internal control and risk management system contributes to conducting business in line with the objectives defined by the Board of Directors, favouring the undertaking of fully knowledgeable decisions. This ensures the safeguarding of company assets, the efficiency and efficacy of the corporate processes, in addition to the reliability of disclosure to the corporate boards and the market and compliance with law and regulations, in addition to the By-Laws and the internal procedures.

In creating its internal control and risk management system, the Avio Group focused extensively on best practice and in particular the “Enterprise Risk Management-Integrated Framework” (“ERM Integrated Framework”) international standard, drawn up and updated by the US “Committee of Sponsoring Organizations of the Treadway Commission” (COSO) body; this framework is known also as the “COSO Report” or “COSO ERM”.

The structural elements of the internal control and risk management environment are the Ethics Code, which sets out the key values and principles of the company’s ethical approach, in addition to the conduct rules; the system of powers and duties through general and special powers of attorney, as per the assigned responsibilities; the company operating procedures; the IT systems supporting both operating and production activities and the accounting and financial processes. In terms of compliance, the company has adopted an Organisational Model as per Legislative Decree 231/2001, which has been continuously updated, and a control system as per Law 262/2005 for financial disclosure (for further details, reference should be

made to that outlined in terms of the “Principal characteristics of the risk management and internal control system in relation to the financial disclosure process”).

Principal characteristics of the risk management and internal control system in place in relation to financial disclosure (as per Article 123-bis, paragraph 2, letter b) of the CFA)

The internal control and risk management system of the company on financial reporting is defined as the set of activities to identify and evaluate actions or events whose occurrence or absence could partially or totally compromise the achievement of the financial information’s objectives of integrity, accuracy, reliability and timeliness. It forms part of the overall internal control and risk management system.

This system aims to guarantee that the administrative – accounting procedures adopted and their application are adequate to ensure the reliability and accuracy of the financial disclosure and the appropriateness of the financial statement preparation process in producing timely and reliable accounting and financial information, in accordance with applicable accounting standards.

The internal control and risk management system on financial disclosure is created in line with the frameworks, as commonly accepted and issued by the *Committee of Sponsoring Organizations of the Treadway Commission* – COSO Report, integrated in terms of the IT aspects by the *Control Objectives for Information Technology* – COBIT, and is periodically assessed and reviewed in terms of the controls put in place to minimise risks to the company.

The administrative-accounting procedures take into account that in the analysis of risk errors occur, whether intentional or not, in the processes for the drafting of financial disclosure. Therefore, for the creation of this system the risk areas which could arise in terms of compromising the reliability of the financial disclosure are identified and assessed.

On the basis of the identification and the assessment of the risk areas, the components of the internal control system with regards to financial disclosure were analysed through:

- a comprehensive summary analysis at the level of the main Group companies in particular in terms of the control elements with regards to the reliability of financial disclosure;
- an analysis for each operating process, concerning the significant financial statement accounts for financial disclosure purposes, through a correlation matrix considering the objectives identified regarding the process activities and the associated controls.

In accordance with the applicable regulation, the features of the system adopted, with particular regard to (a) the risk management and internal control phases in relation to the financial disclosure process and (b) the roles and functions involved and the means for coordinating the relative parties, are outlined below.

Phases of risk management and internal control in relation to Financial Disclosure

The internal control system is divided into the following macro-phases:

- a) identification and assessment of risks on financial reporting;
- b) identification of the control of identified risks;
- c) verification of the operability of the control and risk management system;
- d) monitoring and development of the control system.

(a) Identification and assessment of risks on financial reporting:

Risks are identified with regards to the financial statement declarations (existence and occurrence, completeness, rights and obligations, valuations and recording, presentation and disclosure) and other control objectives, such as - for example - compliance with the authorisation limits, the segregation of incompatible duties, controls on physical safety and the existence of assets, documentation and traceability of transactions. The identification of risks includes also the risk of fraudulent activities, i.e. intentional acts undertaken to falsely represent the economic-equity-financial situation at financial statement level or to misappropriate company assets.

(b) Identification of the control of identified risks:

On the basis of the risk assessment, specific control activities were identified to mitigate risk, broken down into the following macro-categories:

- controls applicable to the entire organisation (Group/company) which, as common and applicable across the entire organisation subject to assessment, are structural elements of the internal control system on financial disclosure (“Entity Level Controls”);
- specific process level controls (“Process Level Control”);
- controls on the functioning and management of the IT systems (“IT General Control”).

(c) Check on the functioning of the internal control and risk management system:

In order to verify and guarantee the operability of the internal control system on financial disclosure, specific monitoring activities on the operation of controls are in place, both by the “process owners” and by third parties independent of the operability of the processes (Internal Audit). Fraud prevention controls are among the controls monitored.

(d) Monitoring and development of the control system:

In order to ensure adequate monitoring of the system, the “design” of its components are subject to systematic assessment and, in any case, on the occurrence of significant events. The operability of the controls indicated by the administrative-accounting system procedures is assessed half-yearly through specific tests.

Any deficiencies both in the design and operability of the controls are reported to the process owners and to the Executive Officer for financial reporting to plan remedy actions - whose effective implementation is verified.

The Executive Officer for financial reporting, together with the Chief Executive Officer, issues the declaration required by Article 154-*bis*, paragraph 5 of the CFA.

Roles and Functions involved

The internal control and risk management system involves, each for their specific remit:

- 1) The Board of Directors, which directs and assesses the System's adequacy, and has identified:
 - (i) the director in charge of the creation and maintenance of an effective Internal Control and Risk Management System (the Director in charge of the Internal Control and Risks Management System), and
 - (ii) the Control, Risks and Sustainability Committee, with the duty to support, with appropriate investigative activities, the evaluations and decisions of the Board of Directors concerning the Internal Control and Risk Management System, in addition to those concerning the approval of the relative periodic financial reports;
- 2) the internal audit manager, appointed to verify if the internal control and risk management system is functional and adequate;
- 3) Other roles and corporate functions with specific tasks in terms of internal control and risk management;
- 4) the Board of Statutory Auditors, which oversees the efficacy of the internal control and risk management system.

Article 154-*bis* of the CFA envisages the introduction of the "executive officer for financial reporting" within the corporate organisation of companies with listed shares. Appointed by the Board of Directors in agreement with the Chief Executive Officer, he is responsible for designing, implementing, and approving the Accounting and Administrative Control Model, as well as for assessing its application by issuing a statement concerning the interim, annual and consolidated financial statements.

The Executive Officer is also responsible for drawing up suitable administrative and accounting procedures for the preparation of the annual and consolidated financial statements and for providing subsidiaries, considered as relevant for the preparation of the Group's consolidated report, with instructions for performing appropriate assessments of their own accounting control systems.

12.1 EXECUTIVE DIRECTOR IN CHARGE OF THE INTERNAL CONTROL AND RISK MANAGEMENT SYSTEM

In order to ensure compliance with the recommendation at Principle 7.P.3 of the Self-Governance Code, the Board of Directors appointed on January 19, 2017, with effect from the Effective Merger Date, Giulio Ranzo as the director in charge of the creation and maintenance of an effective internal control and risk management system (the “**Director in charge**”). On January, 19, 2017, the Space2 Board of Directors appointed Mr. Francesco Libri as Internal Audit Manager with effect from the Effective Merger Date, to perform the activities referred to in application criterion 7.C.5 of the Self-Governance Code. On April 10, 2017, the Issuer's Board of Directors, on the proposal of the Director in charge of the internal control and risk management system, confirmed this appointment, also evaluating the suitability of the related remuneration and ensuring that he has the appropriate resources to fulfil his responsibilities. However, this appointment is subject to the condition, in accordance with application criterion 7.C.1 of the Self-Governance Code, of obtaining the favourable opinion of the Risk Control and Sustainability Committee issued in the meeting of May 2, 2017 and with the subsequent acknowledgement of the Issuer's Board of Directors in the meeting of May 11, 2017.

The internal audit function, under the responsibility of Mr. Libri, is not connected to any operational area and reports hierarchically to the Board of Directors.

The duties of the internal audit manager are the following:

12.3. ORGANISATIONAL MODEL AS PER LEGISLATIVE DECREE 231 OF 2001

At the Report approval date:

- Space2 adopted on November 9, 2015 an organisation, management and control model as per Legislative Decree No. 231/2001 (“**231 Model**”);

- the Board of Directors of the Issuer on April 10, 2017 appointed, for three financial years from that in which the Merger becomes effective, Messrs. Alessandro De Nicola, Raoul Francesco Vitulo and Giorgio Martellino as the company’s Supervisory Board, in accordance with the first paragraph, letter b) and the fourth paragraph of Article 6 of Legislative Decree No. 231/2001, assigning them the duties, lines of reporting and powers indicated in the 231 Model adopted by the company;
- the Italian subsidiaries of Avio, ELV S.p.A. and SE.CO.SV.IM. adopted, respectively, on November 25, 2008 and April 11, 2008, the first version of its organisation, management and control model, subsequently both updating to the “*October 2015 3rd version*” adopted by motion of their Corporate Boards respectively on March 15, 2016 and January 28, 2016, with (i) ELV S.p.A. appointing its Supervisory Board as Francesco Libri, Cristina Marabottini and Giorgio Martellino (the latter resigning on September 7, 2017), and (ii) SE.CO.SV.IM. S.r.l. establishing a single person supervisory board as Francesco Libri;
- with regards to the overseas subsidiaries of Avio, the Board of Directors of the incorporated company approved at the meeting of September 23, 2008 adoption of the “*231 Guidelines for the Group overseas companies*”, subsequently updated to its 2nd Version of April 2015 with motion of October 2, 2015, recommending to them adoption and application of these guidelines.

Following the Merger, the 231 Model was subsequently updated through Board motion of June 28, 2017, with Avio’s admission to listing on the MTA’s STAR Segment and the subsequent corporate reorganisation and regulatory changes.

The updating activity was mainly divided into two main macro-phases:

- a) risk analysis and suggestions (as is analysis and gap analysis);
- b) revision and updating of the 231 Model’s General Section and Special Section 2-*bis* concerning corruption between private individuals, the inclusion of the new Special Part 11 dedicated to administrative market abuse crimes and offences and, in general, the 231 Model’s regulatory update.

The result of the analysis described was followed by:

- the updating of the Gap Analysis document in view of the results of the risk assessment performed, as well as the updating of the document in which the company’s sensitive activities are mapped out (“Risk Mapping”), which was carried out in collaboration with BDO Italia S.p.A.;
- the revision of the Model’s General Section to adapt it to the corporate governance changes adopted by the company in accordance with the Self-Governance Code and the Supervisory Board’s new composition;

- the preparation of the new Special Section 11 concerning administrative market abuse crimes and offences;
- the revision of the Special Section 2-*bis* concerning corruption offences between private individuals;
- the inclusion in each Special Section of a brief description of offences mentioned in each;
- the revision of the Avio Group’s Code of Conduct;
- the updating of the Supervisory Board’s Regulations.

The new 231 Model and its annexes were approved by the Supervisory Board that met on June 5, 2017 and subsequently liaised with the Board of Statutory Auditors which took note of the work performed without raising any objections.

The 231 Model comprises a General Section and 10 Special Sections.

The General Section essentially concerns the Supervisory Board and the communication of information to this latter, in addition to the reporting of the Supervisory Board to the corporate boards; the training of personnel, circulation of the 231 Model within and outside the company and the system governing non-compliance with the model’s provisions.

The Special sections relating to a similar number of offences envisaged in the decree and abstractly applicable to the corporate environment are: "Offences in relations with Government Departments, Crimes against the Administration of Justice and Organised Crime"; "Corporate Crimes"; "Crimes for the Purpose of Terrorism or the Subversion of the Democratic Order"; "Crimes against Individuals and Crimes relating to Immigration and Alien Status"; "Transnational Offences"; "Crimes of Manslaughter or Serious Personal Injury or Grievous Bodily Harm committed in violation of the rules on occupational health and safety"; "Environmental Offences"; "Crimes against Industry and Commerce and Copyright Infringement Offences"; "Computer Crimes and Unlawful Processing of Data"; "Self-laundering Crimes".

A presentation on the 231 Model adopted by the company may be viewed on the company’s website: www.avio.com.

12.4 INDEPENDENT AUDIT FIRM

The independent audit firm KPMG S.p.A., appointed by the Space2 Shareholders’ Meeting of June 17, 2015, agreed to the early advance resolution of the audit appointment, in view of the organisational and business structure of Avio following the merger.

The Board of Directors on May 24, 2017 therefore called the Ordinary Shareholders’ Meeting to approve the early resolution of the audit appointment and the simultaneous assignment of the new audit appointment.

On June 15, 2017, the Shareholders' Meeting of the company therefore appointed, for financial years 2017-2025, the Independent Audit Firm Deloitte & Touche S.p.A..

At the Report approval date, in addition to the Risk Control and Sustainability Committee, the Director in charge of the Internal Control and Risk Management System and the Internal Audit Manager, no other roles or functions with specific internal control and risk management duties have been set up.

12.6 COORDINATION OF THE PARTIES INVOLVED IN THE INTERNAL CONTROL AND RISK MANAGEMENT SYSTEM

The company specified in detail, in the Avio and Group Internal Control and Risk Management Guidelines, the roles and duties of those involved in the internal control and risk management system, in addition to the means for the coordination of those involved.

In this regard, it should be noted that the company promotes meetings between these different parties for the coordination and exchange of information. In particular, the entire Board of Statutory Auditors is consistently invited to participate at the Risk Control and Sustainability meetings, and moreover, the Director in charge of the Internal Control and Risk Management System, the Internal Audit Manager, the CFO, representatives of the Independent Audit Firm and members of the Legal and Corporate Affairs Department participated at some meetings for individual items on the agenda, on the invitation of the Committee's Chairman.

With the same purpose of coordination on matters of common interest, the company's Board of Statutory Auditors, the Risks Control and Sustainability Committee and the Supervisory Board, as per Legislative Decree 231/01, organised and held joint meetings during the financial year.

Finally, the Board of Statutory Auditors periodically meets with the Executive Officer for financial reporting, the Independent Audit Firm and the various company functions affected by the processes and procedures that must be specifically audited by the Board of Statutory Auditors, including those relating to the internal control and risk management system.

13. DIRECTORS INTERESTS AND RELATED PARTY TRANSACTIONS

At the Report approval date, the Issuer has put in place a Related Parties Transactions Policy, in compliance with Article 2391-*bis* of the Civil Code and the RPT Regulation, adopted by the Board of Directors on January 19, 2017, subsequently updated with Board of Directors' motion of September 13, 2017, having received the favourable opinion of the Risk Control and Sustainability Committee with regards to the consistency of the text with the new RPT Regulation entering into force on April 6, 2017.

The Related Parties Policy, the full text of which may be viewed on the company's website www.avio.com in the "Corporate Governance" section, defines the guidelines and criteria for identifying Related Party Transactions and outlines roles, responsibilities and operating procedures aimed to ensure suitable reporting transparency and relative procedural and substantive correctness for these transactions.

In particular, the RPT Policy:

- governs transactions executed by Avio directly, or through subsidiaries, with counterparties defined as "Related Parties" in accordance with the RPT Regulation;
- defines "Related Party Transactions" as those involving the transfer of resources, services or obligations between Avio (or its subsidiaries) and Related Parties, regardless of whether a price is charged. This includes for example: (i) mergers, spin-offs for incorporation or non-proportional spin-offs, where carried out with Related Parties; (ii) all decisions relating to the allocation of remuneration or benefits, in any form, to members of the corporate boards and Senior Executives; and (iii) company share capital increases excluding the option right;
- distinguishes between "Minor Transactions", "Significant Transactions", "Less Significant Transactions" and "Ordinary Transactions" as follows:
 - (a) "Minor Transactions": Related Party Transactions with a maximum amount to be borne by the Issuer of not in excess, for each transaction, (i) Euro 100,000 where the Related Party is a physical person; or (ii) Euro 500,000 where the Related Party is a legal entity;
 - (b) "Significant Transactions": Transactions where at least one of the thresholds indicated at Annex 3 of the Related Parties Policy, applicable according to the specific Transaction, is exceeded by more than 5%. Where Avio is controlled by a listed company, the above limit of 5% is reduced to 2.5% for transactions undertaken with a listed parent company or with related parties of this latter which in turn are related to Avio;
 - (c) "Less Significant Transactions": Related Party Transactions other than Significant Transactions and Minor Transactions.
 - (d) "Ordinary Transactions": Related Party Transactions which: (i) are part of the ordinary operations or the related financial activities of the Issuer and/or of its subsidiaries; and (ii) are concluded at conditions in line with those usually applied to unrelated parties for transactions of a similar nature, size and risk or based on regulated tariffs or prices, or corresponding to those undertaken with parties with which Avio and/or its subsidiaries are obliged by law to contract at a set price.

Article 13 of the RPT Policy establishes that it does not apply in the cases of the exemptions established under the RPT Regulation, subject to the conditions set out therein, and, in particular: (i) to the Shareholders' motions referred to in the first paragraph of Article 2389 of

the Civil Code, concerning the remuneration of the members of the Board of Directors, or any decisions on the remuneration of the senior directors included in the total amount previously determined by Avio's Shareholders' Meeting pursuant to Article 2389, third paragraph, of the Civil Code; (ii) to the Shareholders' motions referred to in Article 2402 of the Civil Code pertaining to the remuneration payable to members of the company's Board of Statutory Auditors; (iii) to Minor Transactions. In addition, subject to the disclosure obligations under the RPT Regulation and the relative circumstances, the Policy does not apply to (a) financial instrument-based remuneration plans approved by the Shareholders' Meeting of the company in accordance with Article 114-*bis* of the CFA and the relative executory operations; (b) motions, other than those at paragraph (i) above considering the remuneration of Senior Directors, in addition to other Senior Executives (at the conditions established by the RPT Policy), (c) Ordinary Transactions concluded at Market or Standard conditions; and (d) Transactions with or between Subsidiaries, even jointly-held, by the company, in addition to Transactions with associates of the company, where other related parties of the company do not have a significant interest (as defined by the RPT Policy) in the subsidiaries or associates acting as counterparties in the transaction.

With specific regards to the means for the approval and execution of individual categories of Related Party Transactions, the RPT Policy makes a distinction between:

- (a) Significant Transactions, in relation to which the RPT Policy establishes, among other issues, that: (i) the approval of these transactions lies within the exclusive competence of the Board of Directors; (ii) the Chief Executive Officer ensures the involvement during negotiations and investigations of a Committee comprising at least 3 independent directors, possibly with the same membership of the Risk Control and Sustainability Committee or the Appointments and Remuneration Committee, according to the type of Related Party Transaction; (iii) the Board of Directors considers the transaction having received a prior favourable reasoned opinion from the above Committee with regards to the interest of the Issuer in completion of the transaction, in addition to the benefit and substantial correctness of the relative conditions, subject to the option for the Board of Directors to approve the Significant Transaction also in the presence of a contrary opinion of the above-stated Committee, on condition that its completion is authorised by the Shareholders' Meeting through the "whitewash" mechanism set out in the RPT Policy; and
- (b) Minor Transactions, in relation to which the RPT Policy establishes, among other issues, that (i) the Board of Directors or the Executive Bodies, depending on the case, approve these transactions following receipt of the reasoned and non-binding opinion of a Committee comprising Directors, the majority of whom independent (possibly with the same membership as the Risk Control and Sustainability Committee or the Appointments and Remuneration Committee, according to the type of Related Party Transaction); and (ii) the Chief Executive Officer ensures that there is an adequate flow of information to this Committee.

Where, with regards to a certain transaction, the Risk Control and Sustainability Committee (or, depending on the case, the Appointments and Remuneration Committee) does not satisfy the composition requirements under the RPT Regulation, the equivalent controls under the RPT

Policy in line with the RPT Regulation are applied, including the replacement, on the basis of age, with other directors on the Board and in possession of these requirements.

In accordance with Article 10, paragraph 1 of the RPT Procedure, during the period between the Effective Merger Date and the approval of the financial statements for the second year subsequent to that in which the Merger becomes effective, Avio may apply to Significant Transactions the policy established for Minor Transactions, subject to the obligation to publish a disclosure document in accordance with Article 5 of the RPT Regulation.

With regards to related party transactions carried out in 2017, reference should be made to the company's financial statements.

14. APPOINTMENT OF STATUTORY AUDITORS

The Board of Statutory Auditors is composed of 3 (three) statutory auditors and 2 (two) alternate auditors, elected by the shareholders' meeting on the basis of slates presented by shareholders, in accordance with the procedures set out below, subject to any differing and additional provisions provided for by mandatory laws or regulations.

Slates for the election of statutory auditors may be presented by shareholders who, at the time of presentation of the slate, hold - alone or together with other shareholders - a shareholding that is at least equal to that determined by Consob in accordance with applicable laws and regulations (equal, at the Report approval date, to 4.5% of Avio's share capital).

Ownership of the minimum shareholding is determined according to the shares that are registered in favour of the shareholder on the day in which the slates are filed with the issuer; certification can also be presented subsequent to the filing provided that it is within the deadline for the publication of the slates.

The slates are filed at the registered office and subsequently published in accordance with the methods and the deadlines provided for by applicable law.

The slates must include the names of one or more candidates for the position of auditor and one or more candidates for the position of alternate auditor. The names of the candidates are divided between each section (statutory auditors section, alternate auditors section) by progressive numbering and in any event with a number not exceeding the board members to be elected. The slates, if they contain, in both sections, a number of candidates equal to or greater than 3 (three), must contain a number of candidates in both sections to ensure that the composition of the Board of Statutory Auditors, both for statutory auditors and alternate auditors, complies with the legal and regulatory provisions that are in force in relation to gender equality (male and female), provided that if the application of the criterion for the gender equality quota does not result in a full number, this should be rounded up to the next unit.

The following documents must be attached to each slate, at the risk of ineligibility: (i) information on the identity of shareholders who have presented them, with an indication of the total percentage of shares held; (ii) a declaration by shareholders other than those who hold, even jointly, a controlling or majority shareholding, attesting to the absence of any relationship

with these latter in accordance with applicable law; (iii) detailed information about the personal and professional characteristics of the candidates, as well as a declaration by the candidates certifying that they meet the statutory requirements, and acceptance of the candidature, accompanied by a list of administrative and control positions held with other companies; (iv) any additional or differing declaration, information, and/or documents provided for by applicable law and regulations.

Individual Shareholders, shareholders belonging to the same group or members of a shareholder agreement pursuant to Article 122 of the CFA, may not present or be involved in the presentation, even through nominees or trust companies, of more than one slate or vote on other slates; in addition, each candidate may only be present on one slate, at the risk of being declared ineligible.

In the case where only one slate is filed at the expiry date of the term for presentation of the slates, or slates are only presented by related shareholders pursuant to the applicable directives, slates can be presented up to the third day subsequent to such date. In this case, the percentage threshold established for the presentation of the slate is reduced by half.

The procedure for electing statutory auditors is as follows: (i) from the slate that obtained the largest number of votes (“**Majority Slate**”) taken in the progressive order in which they appear in the slate, 2 (two) statutory auditors and one alternate auditor; (ii) from the slate that obtained the second largest number of votes and are not connected, even indirectly, with the shareholders who presented or voted for the Majority Slate in accordance with the applicable provisions and taken in the progressive order in which they appear on the slate, the third statutory auditor will be chosen (“**Minority Statutory Auditor**”), who will chair the Board of Statutory Auditors, and the second alternate auditor (“**Minority Alternate Auditor**”).

In the case of an equal number of votes between one or more slates from which the Board of Statutory Auditors is elected, a fresh ballot shall take place, considering only the slates receiving the same number of votes and, in any case, ensuring compliance with the gender parity regulation (including rounding up to the next full number where application of the gender parity rule does not produce a full number).

Where the result of voting does not satisfy the applicable gender equality law and regulations that are in force (including the rounding up to the next unit if the application of the criterion for the gender equality quota does not result in a full number), the candidate for the office of standing or alternate auditor from the most represented gender elected as last in progressive order from the Majority Slate will be excluded and will be replaced by the next candidate for the office of standing or alternate auditor from the same slate belonging to the other gender.

Where only one slate is presented, the Shareholders’ Meeting will vote on that slate and, where this slate receives the majority of the votes, 3 (three) statutory auditors and 2 (two) alternate auditors will be taken from this slate in accordance with applicable law and regulations, including gender parity regulations, which includes rounding up where necessary in relation to the under-represented gender.

They are appointed for a period of (3) three years (and may be re-elected), which concludes on the date of the Shareholders’ Meeting called for the approval of the financial statements

relating to the final year in office.

Subject to compliance with the applicable law and regulations in force in relation to gender equality, in cases where, for whatever reason, (i) a statutory auditor from the Majority Slate leaves office, the alternate auditor elected from the Majority Slate will take their place, (ii) a Minority Statutory Auditor leaves office, they will be replaced by the Minority Alternate Auditor who will assume the Chair. Where the replacements made pursuant to this Article do not permit the formation of a Board of Statutory Auditors that complies with the applicable regulations on gender parity, he/she shall be replaced by the alternate auditor from the other slate, where this enables a composition in line with applicable gender parity regulations, provided that the Minority Statutory Auditor may only be replaced by the Minority Alternate Auditor.

In the absence of slates, or where it is not possible for whatever reason to appoint the Board of Statutory Auditors with the procedures provided for in this Article, the three standing auditors and the two alternate auditors will be appointed by the shareholders' meeting through the majority provided for by law, in accordance with the laws and regulations in force also in relation to the gender equality quota (including the rounding up to the next unit if the application of the criterion for the gender equality quota does not result in a full number).

17. SHAREHOLDERS' MEETINGS

As per Article 8 of the By-Laws, the Shareholders' Meeting deliberates upon matters reserved to it by law and the By-Laws. Resolutions of Shareholders' Meetings, taken in accordance with the law and of these By-Laws, are binding on all shareholders. The Shareholders' Meeting meets in single call and is constituted and passes motions by statutory majority, except where otherwise indicated in the call notice.

As per Article 8 of the By-Laws, the Related Party Transactions Policy of the company may establish (i) that the Board of Directors approves the "significant transactions", as defined by the RPT regulation, despite an opinion to the contrary issued by the Independent Directors Committee responsible for issuing an opinion on the above-mentioned transactions, provided that the execution of such transactions are authorised by the Shareholders' Meeting in

As per Article 10 of the By-Laws, those with voting rights have a right to attend the Shareholders' Meeting. The right to attend the Shareholders' Meeting and the right to vote is verified by a notice to the company, made by the authorised intermediary in accordance with law, based on the accounting records at the end of the seventh trading day prior to the date fixed for the Shareholders' Meeting in single call, and submitted to the company in accordance with law.

Those with Shareholders' Meeting voting rights may be represented by a proxy appointed in writing or by means of an electronic document signed in compliance with the applicable regulation. The proxy notification to the company may be sent by Registered Letter or electronically by means of a message addressed to the certified email address indicated in the notice itself or by using the appropriate section of the company's website, according to that indicated in the call notice.

For each Shareholders' Meeting, the company may designate, through notification in the call notice, a person to whom shareholders can confer proxy, with voting instructions on all or some of the proposals on the agenda, in the terms and manner provided by law.

The Shareholders' Meeting is chaired by the Chairman of the Board of Directors, or, in his/her absence or impediment, the eldest Vice Chairperson where appointed or, in his/her absence or impediment, the eldest Chief Executive Officer present, where appointed, or, in his/her absence or impediment, an individual appointed by the Shareholders' Meeting. The Chairman shall be assisted by a Secretary, even a non-director and/or non-shareholder, elected on his proposal by a majority of those present. In the Extraordinary Shareholders' Meeting and, in any case, when the Chairman considers it appropriate, the functions of the Secretary shall be carried out by a Notary appointed by the Chairman.

The Shareholders' Meeting may be held with participants located in several places, near or far, linked by audio/video, provided that they comply with the collegial approach and the principles of good faith and equal treatment of shareholders, and in particular provided that: (a) the Chairman of the Shareholders' Meeting is able to verify the identity and the legitimacy of the participants, direct the proceedings of the meeting, note and announce the results of the vote; (b) the person taking the minutes is able to adequately observe the events of the Shareholders' Meetings that are to be minuted (c) the participants are able to follow the discussion and vote simultaneously on the matters on the agenda; (d) this method is provided for in the call notice of the Shareholders' Meeting which states, in addition, the places to be attended. The meeting shall be considered to have been held in the place where there are, simultaneously, the Chairman and the person taking the minutes.

On June 17, 2015, in compliance with the recommendations of application criterion 9.C.3. of the Self-Governance Code, the Shareholders' Meeting of Space2 approved the adoption of a Shareholders' Meeting regulation governing the Shareholders' Meeting's business and permitting an orderly and efficient hosting of such meetings, guaranteeing at the same time each shareholder the right to take the floor on matters under discussion, as suggested by the Self-Governance Code. This Shareholders' Meeting regulation shall remain in force also subsequently to the Effective Merger Date.

The Shareholders' Meeting regulation, among other matters, establishes that:

- (i) the chairperson may adopt any measure considered necessary to guarantee the correct execution of Shareholders' Meeting's business and the exercise of voting rights by attendees;
- (ii) in the discussion of such matters and proposals, the Chairperson, where a majority of the share capital is not in opposition, may follow a different order of consideration from that stated in the formal notice of the meeting and may call for some or all of the matters on the agenda to be discussed together;
- (iii) the chairperson conducts the discussion, giving the floor to directors, to statutory auditors and any parties so requesting. The chairperson, prior to initiating the discussion, outlines for each point any questions received before the Shareholders' Meeting and any responses provided. Those holding the right to vote and the bondholders' joint representative may request the floor on only one occasion for each matter on the agenda, making observations and requesting information. Those persons entitled to vote may also draw up proposals. Requests to contribute may be made from the constitution of the shareholders' meeting until the time at which the chairperson has not declared the discussion of the matter closed. In order to ensure the orderly conduct of the meeting, the Chairperson has the power to determine, at the opening of or during the discussion of individual matters, a deadline for the submission of requests to contribute. The chairperson establishes the manner in which contribution requests are made and the order in which they are heard. The Chairperson and, on his invitation, those assisting him/her respond to speakers at the end of all contributions under discussion, or after each contribution, taking account also of any questions drawn up by shareholders before the Shareholders' Meeting, which have not been responded to by the company. Those who have requested the floor have the right to a brief reply;
- (iv) before voting commences, the chairperson readmits to the Shareholders' Meeting any persons excluded during the discussion in accordance with the regulation;
- (v) the Chairperson shall decide the order in which the proposals on the individual matters on the agenda are put to the vote, generally giving priority to those formulated by the Board of Directors.

In 2017, the Shareholders' Meeting met on June 15, 2017, in single call, with the attendance of approx. 46.18% of the share capital, approving the 2016 Annual Accounts and the mutual resolution of the audit appointment and the simultaneous appointment of a new auditor. The

Shareholders' Meeting also expressed its consultative vote on the first section of the Remuneration Report.

The Board of Directors, through the Chairperson, at the above Shareholders' Meeting (at which, in addition to the Chairman, the following Directors were present: Messrs. Giulio Ranzo, Donatella Sciuto and Vittorio Rabajoli and Statutory Auditors, Riccardo Raul Bauer, Chairman, Claudia Mezzabotta and Maurizio Salom, Statutory Auditors) reported on the activities carried out and scheduled, also following the submission of questions by a number of shareholders. The document containing the statutory financial statements and consolidated financial statements, together with the accompanying reports, in addition to the reports of the Directors on the matters on the agenda, were provided on entry in order to ensure Shareholders of adequate disclosure with regards to the matters necessary to take into consideration, with due consideration, for the decisions to be taken. This documentation, together with the results of voting, was also made available and may be accessed on the company website www.avio.com, Investors Section, Shareholders' Meetings, 2017.

The Appointments and Remuneration Committee decided not to report to the Shareholders' Meeting upon the means of exercise of its functions, considering that this information has already been outlined in the Remuneration Report made available to the shareholders before the Shareholders' Meeting.

In 2017, there were no significant changes in the market capitalisation of the shares of the company or in the composition of its shareholders, such as to consider it necessary to assess the possibility to propose to the Shareholders' Meeting changes to the By-Laws in relation to the percentages established for the exercise of the shares and to the protection of minority shareholders.

On this occasion the Board of Directors, taking account of the recommendations, decided - with regards to the pre-Board meeting information, the assessments of the independence requirement and the Board review activities - to not undertake further initiatives to those currently implemented or underway, in compliance with these and, with regards to the other
