(1) Other include United Kingdom, USA, Poland, Russia and Iceland

Includes 15.1 M€ of non-recurring connected to assets acquired in Belgium

## Other

- **United Kingdom** – Improvement in the waste management revenue and EBITDA due to higher volumes of waste processed at the subsidiary Quercia (+40%)
- **United States** - Higher revenue from sales of concrete products

## Denmark

- Positive overall growth due to the residential, commercial and public sector. Domestic volumes of grey cement increased 2.8% with slight increase in prices
- RMC volumes slightly up with positive pricing
- Solid developments of exports for white cement (+7%) – driven by France and Poland – and for grey cement (+11%), especially to subsidiaries in Norway and Iceland.

## Norway

- Government investment, new housing and low interest rates support the construction sector, with upturn in all regions of presence except for the south of the country
- RMC volumes increased 10% yoy, with prices up 2%

## Sweden

- Construction market growth of 10%
- Sales of RMC and aggregates increased by over 12% driven in particular by the residential market in the South (greater presence of the Group)

## Belgium / France

- Consolidation for 12 months in 2017 of CCB group (from 25 Oct 2016)
- Positive performance of cement and RMC sales, supported by good weather
- Aggregates volumes growth in Belgium – mainly to RMC and asphalt markets - and in France – due to road construction projects

<i>EBITDA Margin %</i>	<i>18.8%</i>	<i>17.5%</i>	

Includes 10.1 M€ of non-recurring items due to the revaluation of non-core lands

## Egypt

- Revenue of 36.4 M€ (45.2 in 2016), down due to the depreciation of EGP (-83% vs. avg. 2016)
- Revenue in local currency increased 47.2%
  - overall cement volumes up 7.3%
  - higher sales volumes of cement on the domestic market (+10.2%) with an increase in average sales prices in local currency
  - export volumes up 4.6%, especially to Saudi Arabia, Russia and Jordan, with average sales prices in dollars falling in all principal markets.
- Negative impact of FX on EBITDA of 9.6 M€
- Increase in fuel costs on the international markets and increase in plant maintenance costs.

## Turkey

- Revenue of 193.1 M€ (214.9 M€ in 2016) due to the depreciation of TRY (-23% vs. avg. 2016)
- Revenue in local currency increased by 10.8%
  - cement volumes improved significantly in 2H 2017, with volumes for the year up 4.6% yoy both in the domestic market and in exports, after the early part of 2017 affected by adverse weather conditions, delays on some key construction projects, strong competition and the uncertain political situation in the country
  - Domestic cement prices in local currency were up, sustained by the start of anticipated infrastructure projects in the regions of Eastern Anatolia, Marmara (motorway bridges, canal bridges and canals) and the Aegean (residential, commercial and infrastructural investments) – where the Group has plants.
  - RMC volumes fell by 17% due to the deferral of a number of projects due to political uncertainty, adverse weather conditions and the increase in steel prices
- **Waste management:**
  - Sureko (industrial waste): improvement of revenue and profitability due to the increase in volumes sent to landfill, higher production of RDF and supplies of alternative fuels to Group's cement plants and an increase in volumes received for temporary storage, despite a decrease in recycled ferrous materials and packaging.
  - Hereko (Istanbul's solid urban waste): reorganisation under process to improve profitability and product quality. This led to a reduction in processed volumes (~ 75%) but 2017 ended with a notable improvement in results.

## Malaysia (white cement)

- Sales volumes of white cement and clinker were up 4% overall vs 2016
  - on the domestic market, albeit insignificant, were down 4% with averages prices in local currency slightly up,
  - exports of cement and clinker increased by about 5%, mainly due to higher volumes in Vietnam, Australia, Philippines and Japan, although exports to Singapore and South Korea were lower
- Export prices of clinker and cement are generally decreasing due to the product mix and strong competition on international markets.
- Depreciation of MYR (-6% vs avg. 2016)
- Higher costs for fuel, electricity and raw materials costs, higher fixed costs for production employees, maintenance and operating following technical problems in the kiln in the first half of the year

## China (white cement)

- Revenue in local currency were up over 9% thanks to the increase in the volumes of white cement sold on the domestic market (+12%), plus a favourable trend in prices (+9% in local currency).
  - Exports were insignificant in the period and mainly directed to South Korea and Hong Kong, down 29% with falling dollar prices.
- EBITDA benefitted from the positive trend in prices on the domestic market, only partially offset by the increase in variable costs connected to the higher price of fuel on international markets, plus the increase in fixed costs for employees and maintenance.
- Depreciation of CNY (-4% vs avg. 2016)

# Strategy - Divestment of the Italian business

## Transaction

- On September 19<sup>th</sup>, 2017 Cementir Holding signed an agreement with Heidelberg / Italcementi to sell all Italian assets and activities
- Enterprise Value = 315 M€ on a cash and debt-free basis
- Closing on 2 Jan. 2018

## Rationale

- The Transaction represents a strategic opportunity for Cementir to:
  - take advantage of the consolidation ongoing on the Italian cement industry and benefit from current valuation environment
  - take other opportunities abroad

## Financial impacts

- In 2017 Cementir Italia Group achieved:
  - revenue of 148 M€
  - EBITDA of negative 3.7 M€
- Cash-in of 315 M€ on 2 January 2018

# Lehigh White Cement Company - Acquisition of a further 38.75% stake

## Transaction

- On February 14<sup>th</sup>, 2018 Cementir Holding signed an agreement with Heidelberg / Lehigh Cement Company to acquire an additional 38.75% stake in Lehigh White Cement Company (LWCC)
- Cash consideration = 106.6 M\$ on a cash and debt-free basis
- Closing on 29 March 2018
- Final stake of 63.25% (Cemex 36.75%)

## Rationale

- LWCC is the leading supplier and distributor of white cement in the US
- Reinforce the group's position as global leader in white cement, directly managing assets
- Take advantage of our global presence and expertise to fully exploit the product offering and consolidate LWCC customer base

## Overview

- LWCC is the leading supplier of white cement in the US
- Operates 2 **cement plants**, located in Waco TX and York PA, with a total capacity of **255,000 tons** per year
- A distribution network of over 40 terminals across the US which distribute manufactured and imported cement from its partners in all North America
  - The terminal in Tampa FL is owned by Cementir

Neither the Company nor any of its representatives shall accept any liability whatsoever (whether in negligence or otherwise) arising in any way in relation to such information or in relation to any loss arising from its use or otherwise arising in connection with this presentation. The Company is under no obligation to update or keep current the information contained in this presentation and any opinions expressed herein are subject to change without notice. This document is strictly confidential to the recipient and may not be reproduced or redistributed, in whole or in part, or otherwise disseminated, directly or indirectly, to any other person.

•The information contained herein and other material discussed at the presentation may include forward-looking statements that are not historical facts, including statements about the Company’s beliefs and current expectations. These statements are based on current plans, estimates and projections, and projects that the Company currently believes are reasonable but could prove to be wrong. However, forward-looking statements involve inherent risks and uncertainties. We caution you that a number of factors could cause the Company’s actual results to differ materially from those contained or implied in any forward-looking statement. Such factors include, but are not limited to: trends in company’s business, its ability to implement cost-cutting plans, changes in the regulatory environment, its ability to successfully diversify and the expected level of future capital expenditures. Therefore, you should not place undue reliance on such forward-looking statements. Past performance of the Company cannot be relied on as a guide to future performance. No representation is made that any of the statements or forecasts will come to pass or that any forecast results will be achieved.

•By attending this presentation or otherwise accessing these materials, you agree to be bound by the foregoing limitations.
