

**Minutes of the shareholders' meeting - ordinary session
of Snam S.p.A. held on 24 April 2018**

The Ordinary Shareholders' Meeting of **Snam S.p.A.** began at 10:36 a.m. on 24 April 2018 in San Donato Milanese (MI), Piazza Santa Barbara no. 7, after the matters covered at the extraordinary session, reported in separate minutes, had all been dealt with.

The meeting was chaired by Carlo Malacarne, as Chair of the Board of Directors, and with the express consent of the shareholders' meeting Piergaetano Marchetti acted as the Secretary for the drafting of the minutes of the ordinary session, which will be signed by him and by the Chair.

The Chair declared that there were 2,017 members in attendance, in person or by proxy, for a total of 2,355,417,502 shares (amounting to 67.29% of the share capital) represented by the voting share capital. He therefore confirmed that the shareholders' meeting was validly constituted also for the ordinary session thereof.

The Chair recalled the information and communications already given out by the Chair or by the Secretary at the start of discussions of the extraordinary session, which apply to all shareholders' meetings and are reproduced below.

Preliminary communications made at the extraordinary session and referenced.

- In accordance with the current provisions, the call notice for the Meeting was published, in full, on the Company website on 23 March 2018, and on the same date a summary was published in the following newspapers: Il Sole 24 Ore, and, in English, in the Financial Times. The agenda was as follows:

Extraordinary session

(omissis)

Ordinary session

1. Snam S.p.A financial statement as at 31 December 2017. Consolidated financial statements as at 31 December 2017. Reports of the Directors, the Board of Statutory Auditors and the Independent Auditors. Related and consequent resolutions.
2. Allocation of the profits for the year and distribution of the dividend.
3. Authorisation to purchase and dispose of treasury shares, subject to revocation of the authorization granted by the Ordinary Shareholders' Meeting

of 11 April, 2017, for any part not yet implemented.

4. Consensual termination of the appointment as external auditor of the accounts and contextual conferral of the new appointment as external auditor of the accounts of the Company for the period 2018-2026.

5. Proposal to change the 2017-2019 long term share incentive Plan. Related and consequent resolutions.

6. Policy on compensation pursuant to article 123-ter of Legislative Decree no. 58 of 24 February 1998.

In addition to the Chairman, the Chief Executive Officer Marco Alverà and the following Directors were present: Sabrina Bruno, Francesco Gori, Yunpeng He, Lucia Morselli and Elisabetta Oliveri.

Leo Amato Chairman of the Board of Statutory Auditors and Massimo Gatto and Maria Luisa Mosconi, Standing Auditors, are also in attendance.

Directors Monica de Virgiliis and Alessandro Tonetti are absent for justifiable reasons.

Massimiliano Formetta e Marco Vavassori were also present, representing auditing firm EY S.p.A., appointed to undertake the independent audit of the Snam annual report and consolidated financial statements at 31 December 2017.

The share capital is 2,735,670,475.56 (two billion seven hundred and thirty five million six hundred and seventy thousand and four hundred and seventy five point fifty-six) euros, divided into 3,500,638,294 (three billion five hundred million six hundred and thirty eight thousand two hundred and ninety four) shares without par value.

The Secretary, with the consent of those in attendance, provided the following additional information:

- that an electronic voting system using a remote device had been adopted for the day's Shareholders' Meeting, with the intention of reducing the time taken for the scrutiny operations. In the case of any technical problems in relation to voting using the remote device, voting would be carried out by a show of hands.

- Those present would be provided with the necessary information on the correct use of the remote device, delivered at the time of registration. The organisers would transmit the short film explaining how to vote using the remote device.

- Those entitled to do so who were present in the room would be asked to express their vote using the specific remote voting devices provided to them when they registered.
- When asked to proceed to vote, the entitled person or their proxy should express their vote by pressing just one of the buttons on the remote device, labelled "for", "against" or "abstain". They should then immediately press the "ok" button. Until this last button has been pressed, the voter can change his or her vote, and the vote expressed will remain visible on the display until each voting session has ended.
- Votes may be expressed within 1 minute of the start of each voting session; after this period of time voting will be declared to have closed.
- In the case of those entitled to vote who are present in person or through a proxy, and proxies representing more than one entitled person, the details of their individual proxies, or the groups of proxies for which they are called on to express a vote, will appear in succession on the display of the device.
- If the remote device cannot be used for technical reasons, voting will take place by raising hands. Votes expressed in the room in ways other than those indicated will be void.
- Pursuant to art. 13 of legislative decree no. 196 of 2003 "*Code on the protection of personal data*", the personal data (first and last name, place of birth, residence and professional qualifications) of those attending the Shareholders' Meeting were and will be requested in the forms and within the limits connected to the obligations, tasks and purposes set out in current law; said data will be included in the minutes of the Shareholders' Meeting, after manual and automated processing, and could be the object of communication and dissemination, including abroad, also outside the European Union, in the forms and within the limits connected to the obligations, tasks and purposes set out in current law.
- The list of names of those entitled to attend the meeting, on their own account or as proxies, indicating the number of shares held by each, and the delegating shareholder if appropriate, was available to attendees and, accompanied by a list of the names of any persons who arrived after or left before each vote indicating the number of shares held by each, would be annexed to the minutes of the Shareholders' Meeting; Before each vote, the number of participants in the voting procedure doing so on their own account, or through proxies, would be communicated; after each vote, its outcome would be announced.
- As recommended by Consob, financial analysts, journalists and qualified experts were enabled to follow the proceedings of the Shareholders' Meeting.

- Pursuant to art. 5.2 of the Regulation, the Chairman's Office has been established, where Marco Reggiani, Rozemaria Bala and Stefano Sperzagni will be located.

The following was made known:

- that a system for the audio-visual recording of the proceedings was in operation in the room, solely for the purposes of assisting the preparation of the minutes,
- that the recording would be available, with a five minute delay, with the consent of the participants, on the Company website,
- that pursuant to art. 4 of the Regulations for the meetings of the shareholders of Snam S.p.A., no recording devices other than those stated, nor photographic or similar equipment of any kind, could be used in the premises in which the Shareholders' Meeting was taking place;
- that simultaneous translation from Italian to English was available (the headsets and transmitters for the translation were available at reception).

Pursuant to art. 7 of the Regulations:

- requests to speak could be submitted to the Chair's Office from the moment the Shareholders' Meeting was constituted until the moment debate on the corresponding item of the agenda was declared open;
- each entitled person could make a single speech on each item on the agenda; henceforth, the Chairman had set the maximum duration of each speech to five minutes on each topic debated; in this way, all those entitled to do would have an adequate amount of time to speak and express their opinion and the duration of the Shareholders' Meeting could be maintained within appropriate limits to respect all those present;
- response speeches were not permitted and, after debate had closed, only short declarations of voting intention were permitted, henceforth indicated by the Chairman to have a total duration of two minutes per subject, and he reserved the right to decide on any specific requests at the time.

The following was highlighted:

- If amendments to the resolutions formulated by the Board were proposed, or otherwise resolutions other than those formulated by the Board, the Board's resolution would be voted on first, and only if this resolution was rejected would the further resolutions be put to the vote.

- Similarly, if points of order that had not been scheduled for discussion were presented, and if the Chairman decided to put them to a vote, any proposals formulated by the Chairman would be voted on first, and only if these were rejected would the proposals of the attendees be put to the vote.
 - The proposals of the attendees would be put to the vote starting with the proposal presented by those who represent the highest percentage of capital. Only if the proposal put to the vote should be rejected, the next proposal, in order of capital represented, would be put to the vote.
- Regarding the day's Shareholders' Meeting, the requirements of civil law and of the regulations on regulated markets had been complied with.
- The Company had received no requests for the agenda to be supplemented or new proposals of resolutions, pursuant to the law and to art. 126-*bis* of the Consolidated Law on Financial Intermediation (CLF);
 - The entitlement to vote of those present had been verified, based on the circumstances known to the Company and the declarations made by those present. In any event those present are invited to report any deficiencies in entitlements to vote or exclusion from voting, or the existence of any shareholders' agreements, pursuant to the law, current regulations and Bylaws. This in relation to all votes. None of those in attendance made any reports to that effect.
- On 13 April 2018 the Company held 121,763,585 treasury shares, equal to 3.48% of the share capital.
- According to the information in the shareholder register on 13 April 2018 and from information received, those shareholders in direct or indirect possession of shares with voting rights that represented over 3% of the total shares issued, in addition to the Company which holds 3.48% of the treasury shares, were:
- Cdp Reti S.p.A.: 30.10%;
 - Romano Minozzi: 5.77%.
 - Blackrock: 4.662%;

The Company was aware of the following shareholders' agreement, published pursuant to law on the Company website:

- The shareholders' agreement between CDP, State Grid Europe Limited and State Grid International Development Limited, also regarding Snam, pursuant to art. 122 of the CLF and art. 130 of the Issuers' Regulations.

Regarding the questions formulated during the Shareholders' Meeting, the procedure would be: answers would be given after the conclusion of all the speeches on the item on the agenda and after any short pause needed to prepare the responses in a systematic way. At the end of the responses, the proposals on the agenda item would be put to the vote.

In relation to the right to put questions pursuant to art. 127-*ter* of Legislative Decree no. 58 of 1998 (referred to as CLF), no questions were received prior to the Shareholders' Meeting.

Pursuant to the law, the company had appointed Georgeson S.r.l., represented here by Lidia De Gasperis, as the subject ("*Representative*") on whom those entitled might confer a proxy with voting instructions on all or some of the proposals on the agenda. I invite the Representative to henceforth indicate, for each vote:

- the number of shares for which he did not intend to participate in voting pursuant to article 135-*undecies* of the CLF (non conferment of instructions), and to make the declarations required by the applicable law in the case in which, providing the preconditions were met, he intended to vote against the instructions he had received;
- any interests pursuant to art. 135-*undecies*, subsection 4, of the CLF.
- The Reports of the Board of Directors containing the proposed resolutions have been filed at the headquarters of the company, with Borsa Italiana S.p.A., and published on the Company website according to law, and have been sent to those who requested them. The printed file containing the aforementioned Reports, as well as the 2017 Annual Financial Report, the 2018 Compensation Report, the 2017 Corporate Governance and Ownership Structure Report, and the "*Business responsibility and social innovation - 2017 Sustainability Report*" (GRI-G4 compliant), were also distributed at the entrance to the meeting room.

Discussions

The Chair, in relation to the nature of the items on the agenda, proposed to discuss the items in points 1) and 2) together. Naturally the votes would be separate for each item on the agenda. Furthermore, concerning all agenda items, he proposed to omit the reading of the aforementioned documentation; the resolution proposals would however be read.

No-one took the floor.

The Chair moved on to the discussion of items 1) and 2) on the agenda of the Shareholders' Meeting: 1) *“Financial statements of Snam S.p.A for the year ending on 31 December 2017 Consolidated financial statements as at 31 December 2017. Reports of the Directors, the Board of Statutory Auditors and the Independent Auditors. Related and consequent resolutions”*; 2) *“Allocation of the profits for the year and distribution of the dividend”*.

The Secretary, at the request of the Chair, with the consent of those in attendance:

- informed those present that the booklet containing the Financial Statements of Snam S.p.A. as at 31 December 2017, the consolidated financial statements, the Directors' Report on operations - which includes the 2017 Consolidated non-financial statements - and the Reports of the Board of Statutory Auditors and of the Independent Auditors firm, as well as the proposals of the Board of Directors to the Shareholders' Meeting regarding the approval of the financial statements and the distribution of the dividend had been filed at the registered offices of the company, (and) at Borsa Italiana S.p.A. and published on the Company website on 29 March 2018;

- informed those present that the independent auditing firm EY S.p.A. has employed 600 hours for a fee of 46,200.00 euros for the independent audit of the financial statements and for periodic audits, 881 hours for a fee of 45,550.00 euros for auditing the consolidated financial statements and 452 hours for a fee of 30,500.00 euros for auditing the consolidated interim financial report;

- also informed those present that during the financial year 2017 the independent auditing firm EY S.p.A. did not propose any amendments or supplements as a result of exceptional or unforeseeable events.

At the request of the Chair, Marco Alverà, the Chief Executive Officer, outlined the letter to the Shareholders and Stakeholders reproduced below:

“Dear Shareholders and Stakeholders,

In 2017 Snam celebrated its 75th anniversary since it was established, during which time, through the methanisation of Italy, it has contributed to the industrial, economic and social growth of the country. Today Snam seeks to capitalise on these years of experience to guide the “energy transition,” which sees natural gas as a secure, flexible and sustainable source, a key pillar of a long-term decarbonisation strategy.

To this end, Snam is investing in research on decarbonisation, development and innovation, encouraging alternative uses of gas.

In 2017, it launched Snam 4 Mobility, a new company for sustainable transport, and in May the first framework agreement was signed with ENI to develop methane refuelling stations in Italy. Last June we connected the first biomethane plant to the network.

Transforming refuse and agricultural waste into gas will mean 10% of national consumption can be handled in a renewable way, increasing the value of the gas infrastructure over the long-term.

To be a leader in a world undergoing rapid change, we aim to be increasingly agile and efficient, optimize transversal processes and enhance specific expertise. This is the context in which the “Integra” project was completed in July 2017, which redesigned Snam’s organisational structure, representing a further step towards Snam operating from a “One Company” perspective. Thanks to the efficiency plan, to benefit end consumers, in 2017 we obtained operating cost savings of around 19 million euros, achieving and exceeding the objective set in the 2017 Plan.

Our aim is to be increasingly international also through Snam Global Solutions, a transversal business unit that represents an evolution for Snam in the market services area and a new opportunity to capitalize on our know-how abroad, with a contracts portfolio in place since 2017 worth around 64 million euros.

We seek to value the expertise of our personnel through the Snam Academy, a training institute for Snam’s people and the territory. Moreover, Fondazione Snam was set up in June, representing another lever to establish closer relations with the territory and better respond to the needs of the communities that host our infrastructures.

In a context in which gas consumption in Italy has risen for the twelfth consecutive quarter (+6.0% on 2016) and in which the regulatory context is essentially stable, with the extension of the fourth regulation period to 2019 for transmission, regasification and storage businesses, we have achieved very positive results that are better than expected. The adjusted operating profit amounts to 1,363 million euros, up by 27 million euros (+2.0%) on the corresponding value of 2016, also thanks to the reduction of operating costs which benefited from the savings obtained with the efficiency plan. The adjusted net profit totalled 940 million euros, up by 95 million euros (+11.2%) compared to the pro-forma adjusted net profit of 2016. Net cash flow from operations of 1,864 million euros allowed us to fully finance the requirements connected with net period investments of 1,441 million euros and generated free cash flow of 423 million euros. After making payment to shareholders of the 2016 dividend (718 million euros) and the cash flow deriving from the purchase of treasury shares (210 million euros), net financial debt recorded an increase of 494 million euros on 31 December 2016.

In October 2017 we successfully completed the buy-back on the bond market, for a total par value of 607 million euros with an average coupon of around 2.5% and a residual maturity of around 4.4 years. The purchase was largely financed by new bond issue with a nominal value of 650 million euros, a coupon of 1.375% and a duration of 10 years.

This transaction will allow Snam to continue optimizing the debt structure in terms of reducing the cost of the capital, extending the average maturity of the debt and reducing the refinancing risk. In addition to this, with the aim of optimising the debt structure and to support the total compensation for shareholders, as part of the share buyback programme, launched by Snam on 7 November 2016, on 31 December 2017 we bought back a total of 84,788,366 treasury shares (28,777,930 at 31 December 2016), amounting to 2.42% of

the share capital with respect to a total cost of 313 million euros (103 million euros at 31 December 2016).

In line with the provisions of the Strategic Plan, with the aim of improving the competitiveness and security of gas provisioning, in 2017 we invested 1,034 million euros in infrastructure in Italy, and 217 in equity investments with the acquisition of 100% of the share capital of Infrastrutture Trasporto Gas and 7.3% of Adriatic LNG, in addition to the 220 million euros invested during the year in TAP, the company that will handle the transmission in Europe of natural gas from the Caspian sea.

In the year that has just ended, we continued to operate with the utmost care in the environment and territory, maintaining values in line with previous years and avoiding a total of 82,780 tonnes of CO₂eq emissions thanks to actions that were put in place. We also reduced natural gas emissions (-3.2% compared to 2016) in line with the aim of a 10% reduction by 2021 (compared to 2016, the scope being equal). To confirm our ongoing efforts to enhance sustainability as an integral part of the business development model, Snam was confirmed onto the exclusive “A list” of the CDP (Carbon Disclosure Project); this index represents an important point of reference to guide investors towards companies with greater awareness of climate change issues, and Snam has been listed in it since 2012. Moreover, in September 2017, the Snam share was confirmed, for the ninth consecutive year, by RobecoSAM in the Dow Jones Sustainability World Index, the most important global stock index assessing social responsibility.

Looking to the future, which promises to be just as rich in challenges, we can confirm investments of around 5.2 million euros in infrastructure in Italy over the duration of the plan.

We want to be the leading company in the gas sector. This means becoming increasingly global, more innovative in the creation and management of new businesses, more efficient, stronger in terms of our expertise, closer to people and the territory, and greener and more renewable. We work on these objectives on a daily basis, spreading the spirit of entrepreneurship that will allow us to transform the challenges ahead into opportunities.

On the basis of the results achieved and the Company’s prospects, the Board of Directors intends to propose that the Shareholders’ Meeting approve the distribution of a dividend of 0.2155 euros per share, of which 0.0862 euros per share has already been distributed as an advance in January 2018, to confirm Snam’s commitment to ensuring attractive and sustainable compensation for shareholders over time.”

Upon invitation of the Chair, Leo Amato, Chairman of the Board of Statutory Auditors, and Massimiliano Formetta, Partner in EY S.p.A., read aloud the conclusions contained in the Report of the Board of Statutory Auditors to the Shareholders' Meeting pursuant to article 153 of Legislative Decree no. 58/1998 and article 2429 of the Italian Civil Code, and the concluding part of the Report of the Independent Auditors on the financial statements, respectively.

These conclusions are reproduced below.

Board of Statutory Auditors

“The Board of Statutory Auditors, based on the Financial Statements as at 31 December 2017, submitted to the Board of Directors on 13 March 2018, finds no reason, not even partial, to withhold its approval, and expresses its favourable opinion of the proposal for the allocation of profits and for the distribution of the dividend submitted by the Board of Directors, and invites you to resolve on this matter.”

Independent auditing firm

“In our opinion, the financial statements provide a truthful and correct representation of the consolidated financial position of Snam S.p.A. at 31 December 2017, and the profit and loss and cash flows for the fiscal year that ended on that date, comply with the International Financial Reporting Standards adopted by the European Union, as well as with the instructions issued implementing article 9 of Legislative Decree no. 38 dated 28 February 2005.

We have carried out the procedures indicated in audit principle (SA Italia) 720B in order to express an opinion on the coherence of the report on operations and some specific information contained in the report on corporate governance and ownership structure set out in subsection 4 of article 123-bis of Legislative Decree 58/98 of 24 February 1998, with the annual financial statements of Snam S.p.A. at 31 December 2016 and their compliance with provisions of law, as well as to issue a statement on any significant errors.

In our opinion, the report on operations and some specific information contained in the report on corporate governance and ownership structure mentioned above are coherent with the annual financial statements of Snam S.p.A. at 31 December 2017 and were prepared in compliance with the provisions of law.” With reference to the declaration pursuant to art. 14, subsection 2, letter e), of Legislative Decree no. 39 of 27 January 2010, issued on the basis of the knowledge and understanding of the business and the related context acquired during the statutory audit, we have nothing to report.”

Upon invitation of the Chair, the Secretary proceeded, with the consent of those present, to read the proposed resolutions of the Board of Directors regarding items 1) and 2) for today's Shareholders' Meeting and on the completion of the operations to be carried out by the Shareholders.

Agenda item 1 - Proposed resolution

“Dear Shareholders,

you are invited to approve the financial statements of Snam S.p.A. as at 31 December 2017, which show a profit of 677.325.425,97 euros.”.

Agenda item 2 - Proposed resolution

“Dear Shareholders,

you are invited to:

- o approve the financial statements as at December 31, 2017, which show a profit of 677,325,425.97 euros;*

- o *allocate the profit for the year of 677,325,425.97 euros, remaining after the distribution of an advance on the dividend for the 2017 fiscal year of 0.0862 euros per share resolved by the Board of Directors meeting of 6 November 2017, as follows:*
 - *to the shareholders as a dividend of 0.1293 euros per share to shares in circulation on the coupon payment date, excluding treasury shares in the Company portfolio on that date, as the balance of the advance on the dividend, using the Profit reserve from previous years and other available and distributable profit reserves until the total amount of the dividend is reached; The dividend related to the 2017 fiscal year therefore, between the advance and the balance, comes to 0.2155 euros per share;*
- o *pay out the dividend balance of 0.1293 euros per share, starting June 20, 2018, with an ex-dividend date of June 18, 2018 and record date of June 19, 2018.”.*

The following shareholders put down their names to speak and intervened on the first two items on the agenda.

Francesca Colombo for Etica SGR, recalled that Etica SGR, a company of the Banca Etica Group, was participating in the Shareholders' Meeting for the sixth consecutive year as an investor attentive to the company's economic and financial, as well as social and environmental, performance. With this in mind, she drew attention to some aspects of the corporate sustainability, with a view to ensuring purposeful dialogue that would last over time.

In terms of sustainability, Etica SGR first of all complimented the Executive Directors and Management for the results achieved and thanked the Investor Relations and CSR Departments for the various opportunities to meet organized last year.

She proposed some questions, with regard to which she asked the Company for its usual openness to a debate during ad hoc discussions with the corporate areas and at the locations deemed most suitable:

1. **Climate change (SDG 13).** Snam's undertaking in the “decarbonisation” process is recognized, as is the company's strong commitment to the fact that natural gas can play a strategic role in the fight against pollution and reducing atmospheric emissions. It is also known that the TAP project fits into this context.

In this regard, some aspects concerning the environmental impact of the project as a whole were highlighted. A “CEE bankwatch network” study showed that methane, given its exposure to high

pressure, is subject to leaks that generate significant climate-altering impacts, more damaging than CO₂; the study examined possible scenarios which revealed that in the majority of cases the methane emission levels could represent a problematic percentage in terms of environmental impact.

As the environmental impact issue is a significant matter that also involves Italy, Etica SGR asked whether Snam, also in collaboration with other associates, had launched a plan to assess the possible climate-altering emissions linked to the TAP Project, and what project had been initiated to reduce gas leaks that are damaging to the ecosystem through which the gas pipeline passes.

- 2. Human rights (SDG 8):** Etica SGR was pleased to learn about the increase, in 2017, in reputation checks conducted on suppliers, subcontractors and those participating in tender processes. Moreover, Etica SGR appreciated that new control indicators had been prepared to assess the performance of suppliers with respect to environmental and health and safety issues.

In light of this, Etica SGR asked Snam to:

- a) indicate the percentages pertaining to each area composing the new index rating (IR) and in particular the relative weight with regard to human rights and workers' rights;
- b) indicate how the "Human rights assessment" and "Supplier social assessment" processes are conducted, as provided by the respective GRI standards, also in light of the significant progress the Company is making in the human rights area.

- 3. Infrastructure (SDG 9).** In light of the launch of Snam4Mobility in 2017, dedicated to the development of a mobility system for methane-powered transportation, as per Snam's undertaking stated in the Business Plan to concentrate on innovations for the low emission economy, Etica SGR asked the Company to:

- a) indicate the investments that will be dedicated to Snam4Mobility activities in the next few years;
- b) indicate any additional projects Snam has to facilitate the development of Sustainable Cities.

4. Education (SDG 4). As the Company has always been attentive to innovative processes, she asked SNAM to what extent it considered Digitalisation strategic for its business model and, in particular, she asked to:

- a) know what investments had been made or were to be made for the dissemination of digitalisation, according to the approach adopted by SNAM;
- b) know which activities, in the name of “Digital Innovation,” would be decisive in the awarding of the 2018 MBO for the Chief Executive Officer.

In relation to agenda item 2 **Financial Statements (SDG 8)**. Etica SGR recognized that the Parent company had made a payout significantly higher than 70%, the threshold set by the SGR voting policy. Nevertheless, in light of the fact that the multi-year Dividend Policy appears sustainable, i.e. entirely financed by cash flows, and also that the debt optimisation seems to be well underway, Etica SGR stated it would vote in favour of the Agenda item, but it hoped, for the next few financial years, that Snam would set a more balanced payout at Parent company level. As always, it will be Etica SGR's duty to pay attention to how the policy evolves in the next few years in view of the investments made, the level of debt and the generation of cash.

Claudia Loizzi, acting as a proxy for the shareholder Germana Loizzi, judged 2017 a very positive year for SNAM. A solid investment plan and renewed attention to being an agile, innovative and efficient company made it possible to improve on the plan objectives presented last year, guaranteeing Shareholders dividends that would be more than satisfying. Moreover, these results were obtained in a historical and economic context that is still difficult, with a highly uncertain and confused political situation. The relevant events included the completion, on 13 October 2017, of the acquisition of 100% of the share capital of Infrastrutture Trasporto Gas S.p.A. and 7% of Adriatic Lng Srl. In this regard, she asked what results this transaction was expected to produce and, moreover, if there had also been a reduction in operating costs in 2017 and what had made this possible.

SNAM recognizes that the success of a company is measured by a combination of economic, environmental and social factors, which meet the requirements of all stakeholders, and sustainability is therefore an important value for your

company. She therefore asked how sustainability is broken down at operative level. In this regard, and with reference to what is happening at Sulmona, she recalled that in a note SNAM had confirmed that the structures are entirely underground and do not damage the territory in that they are low environmental impact, and that they do not involve health or safety risks to people. She asked for confirmation of this.

The update to SNAM's 2017-2021 strategic plan - continued Loizzi – confirms overall investments of around 5.2 billion euros over the plan period. In Italy, Snam will continue to invest to strengthen and expand the national network, which includes the Sardinia methanisation project, and to complete the reverse flow projects which make a two-way gas flow possible. Strengthening the investments also means making Italy more competitive. Hence the request to produce an overview of what has been done and in what direction Gas Italia's distribution in Italy is moving and the role of the innovations at strategic and even international level.

Having stated that it was chosen as a preferred investor in the tender for 66% of the Desfa Group, a transaction also appreciated by analysts, but that the importance of the tender is not so much economic as geopolitical, Loizzi asked for further details on this transaction. Lastly, Loizzi stated that she had been pleased to read that after a pilot phase Snam is speeding up Smart Working, involving 600 people who will be able to choose to work without going to the office for up to one day a week. This is a praiseworthy initiative which confirms Snam's dedication to its employees.

Mr Croce asked under what circumstances the fatal accident spoken of in the Report had occurred and what measures had been taken in its wake. As other accidents had been reported, he asked if they had been fatal, under what circumstances they had occurred and what measures had been taken.

With regard to the bonds as at 31 December 2017 he asked about

- the amount, the duration and the average rate of those on a fixed rate;
- the amount, the current average rate, the possible coverage with a swap of those on a variable rate.

He also asked what the bond issue plans (for renewal or new issue) in 2018 and 2019 are and if a change in the interest rate set by the ECB would have an effect on the prices.

Mr Croce also asked why Edison's stake in the Cavarzere plant had been acquired when only 20% of the potential of SNAM's plant in Panigaglia is being exploited.

He asked for clarifications on the effects on the financial statements of the depreciation and amortisation of treasury shares, given that the authorisation of new acquisitions was on the agenda.

Mr Croce recalled that the current Chair, who at the time was Chief Executive Officer, had made a statement in *Il Sole 24 Ore* on 24 May 2013 in which he said it was not in SNAM's interests, in that it was beyond its profile risk, to participate in the methane pipeline in the southern corridor as long as other shareholders were gas producers or distributors. Today, noted Mr Croce, SNAM has a 20% stake in TAP with an investment of over 200 million. He then asked what were the reasons for the change of strategy.

Mr Croce focused on the SNAM – ITALGAS demerger, observing how after the transaction the value of the respective share prices was almost aligned (3.94 SNAM and 3.97 Italgas). The performance then diversified; at the end of 2017 Italgas increased by 28%, while SNAM, despite its positive financial statements, rose by 3.5%. And even yesterday Italgas was essentially still maintaining the listing at the end of December, while SNAM had lost around 6% putting it below the post-demerger value. He asked what could be the reasons for this: the prices? Market reasons linked to the financial statements approach, or something else?

The Chair moved on to discuss item 3) *“Authorisation to purchase and dispose of treasury shares, subject to revocation of the authorization granted by the Ordinary Shareholders' Meeting of 11 April 2017, for any part not yet implemented”*.

The Secretary, at the request of the Chair, with the consent of those in attendance, read out the proposed resolution of the Board of Directors regarding item 3) for today's Shareholders' Meeting.

Agenda item 3 - Proposed resolution

“Dear Shareholders,

we therefore propose to approve the following resolution:

- 1. to revoke the previous resolution to authorise the purchase of treasury shares passed by the Shareholders' Meeting on 11 April 2017, for any part not yet implemented, as of the date of this resolution;*

2. *to authorise the Board of Directors, and for it the Chief Executive Officer, with the right to delegate said powers, to purchase treasury shares, in one or more tranches, for the duration of 18 months from today's date, for a maximum outlay of 500 million euros and up to the maximum limit of 134,564,883 shares without in any case exceeding 6.50 % of the share capital subscribed and freed up, taking into consideration the treasury shares already held by the Company, by using the procedures laid down in art. 144-bis, subsection 1, letter b) of the Issuer Regulation or with the procedures established by market practice admitted by Consob pursuant to art. 13 of EU Regulation 596/2014, pursuant to art. 144-Bis, subsection 1, letter d)-ter of the Issuer Regulation, or according to a different procedure than those listed above if allowed by article 132, subsection 3, CLF or by any other provision which is from time to time in force at the time of the transaction. The price for the transactions to purchase treasury shares should not exceed 5% or be below 5% of the reference price measured on the Electronic Share Market organised and managed by Borsa Italiana S.p.A. ("MTA" - Electronic Share Market) during the session held before each single transaction. In cases where the Company intends to support the liquidity of its shares according to the criteria established by the market practice under art. 180, subsection 1, letter c), of the CLF, concerning the activity supporting the market liquidity, accepted by Consob by means of resolution no. 16839 dated 19 March 2009, as amended or substituted over the duration of the authorisation, the purchase price will be established according to said admitted market practice. All the above must be carried out according to the report annexed to this resolution and for the purposes described therein;*
3. *to authorise the Board of Directors and for it the Chief Executive Officer, with the right to delegate said powers, to carry out (in one or more tranches, without any time limit and even before having completed the purchases) any transfer of all or part of the treasury shares of the Company purchased under this resolution and also of the treasury shares already held by the Company. As regards the sale, disposal and/or use of the treasury shares, the Board of Directors and for it the Chief Executive Officer is hereby appointed with the mandate, with right to delegate any third party, to decide from time to time the criteria for establishing the relevant consideration and/or procedure, terms and conditions for the use of the treasury shares held in the portfolio, having considered the actual procedure for performing them, the evolution of the share prices during the period preceding the transaction and according to the best interest of the Company, and said transactions shall be carried out both directly and through brokers, according to the domestic and EU laws and regulation. All the above must be carried out according to*

the report annexed to this resolution and for the purposes described therein.”.

As no one asked to speak, the Chair moved on to discuss item 4) on the agenda of the Shareholders' Meeting: *“Consensual termination of the appointment as external auditor of the accounts and contextual conferral of the new appointment as external auditor of the accounts of the Company for the period 2018-2026.”*

The Secretary, at the request of the Chair, with the consent of those in attendance, read out the conclusive part of the opinion of the Board of Statutory Auditors regarding the consensual termination of the appointment of external auditor of the accounts and of the proposed conferral of the new appointment as external auditor of the accounts of the Company for the period 2018-2026 contained in the Report of the Board of Directors, with regard to item 4) for today's Shareholders' Meeting.

Agenda item 4 - Proposed resolution

“The Board of Statutory Auditors of Snam S.p.A.:

- (i) gives its positive opinion on the consensual termination of the external auditing appointment conferred on the independent auditing firm EY S.p.A. by the Shareholders' Meeting of Snam S.p.A. on 27 April 2010, at the same time conferring the appointment as external auditor of Snam S.p.A., pursuant to (EU) Regulation 537/2014 concerning the specific requirements relating to the external auditing of the accounts of public-interest entities and Legislative Decree 39/2010 on external auditing of annual and consolidated accounts, for the duration of nine financial years, and specifically the financial years ending on 31 December from 2018 to 2026, on independent auditing firm PricewaterhouseCoopers S.p.A., with its registered office in Milan, Via Monte Rosa no. 91, tax code and VAT Number and Milan Business Register no. 12979880155, registered under no. 119644 of the Register of External Auditors held at the relevant Ministry, all in accordance with the terms and conditions, including financial, contained in the offer submitted by PWC and summarised in the proposal of the Board of Statutory Auditors, subject to resolution of the Shareholders' Meeting regarding the consensual termination of*

the appointment conferred on Ernst & Young S.p.A. and in any case in furtherance of this resolution;

- (ii) *proposes to confer a mandate on the Chief Executive Officer, with sub-delegation powers, to prepare and sign all documents and legal transactions inherent to both the formalisation of the consensual termination of the appointment as external auditor currently conferred on EY S.p.A. and the conferment of the new appointment as external auditor of the accounts on PwC, as well as to carry out any other deeds and/or to proceed to fulfil all obligations envisaged by current legislative and regulatory provisions.”.*

As no one asked to speak, the Chair moved on to the discussion of item 5) “*Proposal to change the 2017-2019 Long-Term Share Incentive Plan. Related and consequent resolutions*”.

The Chair, in this regard, stated that the information notice on the “*Long term share incentive plan 2017-2019 Amendment to point 1.2*”, prepared on the basis of the indications of art. 114-*bis* of Legislative Decree no. 58 of 24 February 1998 (“CLF”) and art. 84-*bis* of the Implementing Regulation of the CLF (adopted by Consob with resolution no. 11971 of 14 May 1999 and subsequent amendments), was filed at the registered offices of the company, at Borsa Italiana S.p.A. and published on the Company website on 23 March 2018. He also reminded the meeting that the document had been handed out at the entrance to the meeting room and sent to those who had requested it.

The Secretary, at the request of the Chair, with the consent of those in attendance, read out the proposed resolutions of the Board of Directors regarding item 5) on the agenda.

Agenda item 5 - Proposed resolution

“Dear Shareholders,

if you agree with the proposal we have made to you, we submit the following proposed resolution for your approval:

RESOLUTION

“The Shareholders’ Meeting of Snam S.p.A., meeting in ordinary session:

- *having acknowledged the proposal made by the Board of Directors; and*

- *having examined the information document prepared by the Board of Directors in accordance with article 84-bis of the Issuer Regulation,*

resolves

- *to approve, in accordance with and for the purposes of article 114-bis of the Legislative Decree no. 58 of 24 February 1998, n. 58, as subsequently amended and supplemented, the amendments to the 2017-2019 long-term share incentive plan resolved on, upon a proposal of the Compensation Committee, by the Board of Directors in the meeting held on 13 March 2018, under the terms and conditions stated in the Information Document attached to the Board of Directors' explanatory report, and namely the extension of participation in the Share Plan to other possible beneficiaries among the managers of the Company and its subsidiaries;*
- *to grant the Board of Directors the power to consider the above amendments approved in the text of the regulations of the aforementioned Plan, and all the necessary and appropriate powers to ensure the full and complete implementation of this resolution.”.*

Once the discussion had been opened, Mr Croce asked how the elimination in the Share Plan of the limit of twenty beneficiaries can be reconciled with the statement that the number of treasury shares to serve the plan will remain the same and if this means that each beneficiary will have fewer shares available.

The Chair then moved on to the discussion of item 6) “*Policy on compensation pursuant to article 123-ter of legislative decree no. 58 of 24 February 1998*”.

The Chair informed those present that the “*2018 Compensation Report*” was filed at the registered offices of the company, at Borsa Italiana S.p.A. and published on the Company website on 27 March 2018. He also reminded those present that the Report had been handed out at the entrance to the meeting room and sent to those who had requested it.

In the absence of the Chair of the Compensation Committee Monica de Virgiliis, the Chair passed the floor to the member of the Compensation Committee Elisabetta Oliveri, representing the Compensation Committee (also composed of the Director Alessandro Tonetti), for all possible further information on the presentation of the Report approved by the Board of Directors in its meeting on 13 March 2018, and on the principal activities

carried out by the Committee during 2017. Elisabetta Oliveri then made reference to the Report as follows:

“Dear shareholders, as in previous years, we bring to your attention the Compensation Report, with which we intend to assure you of the maximum transparency regarding the structure and quality of the compensation systems adopted by the Company, also in line with the provisions of the Consolidated Law on Finance which requires listed Companies to make their Compensation Report available to the public.

The Compensation Committee, which is made up, in addition to the undersigned, by the Chairwoman Monica de Virgiliis and Alessandro Tonetti, has undertaken to guarantee that the compensation system is aligned with international best practice and with European and Italian law, and with it to contribute to support and promote the development of the Company in coherence with its strategic plan.

In 2017, with the support of the relevant company departments, the usual engagement with stakeholders has intensified. In addition to the traditional verification of the shareholders' meeting results and the relative evidence, meetings were organised which proved to be useful for the improvement indications on the Compensation Policy and on the Report that illustrates it. Continuing along these lines, the Committee, in addition to its usual activity, over the last twelve months has been working to define an agreement on the settlement at the end of term of office for the Chief Executive Officer, on the basis of the criteria already used for the previous Chief Executive Officer.

The Committee has also worked on the implementation and accurate definition of the performances underlying the indicators of the long term share incentive plan and, with the aim of further aligning management's performances with the interests of shareholders, it also defined a proposal to amend the plan approved last year, on which today's Shareholders' Meeting is called to express its opinion, which includes extending the assignment of the long term share incentive plan to other possible beneficiaries among the managers of the Company. This amendment does not involve an increase of the share capital already made available, nor does it alter the duration of the plan or any other condition already defined last year.

The overall intent of the Snam compensation policy is to be a primary tool to attract, retain and motivate a management equipped with high professional qualities, recognising the responsibilities attributed to them, the results achieved and the quality of their contribution, promoting the creation of value over the medium and long term.”

The Chair thanked Elisabetta Olivieri, and the Secretary, at the request of the Chair and with the consent of those present, read out the proposed resolution of the Board of Directors regarding item 6) for today's Shareholders' Meeting.

Agenda item 6 - Proposed resolution

“Dear Shareholders,

You are asked to approve, in a not binding way, the section of the Report on Compensation referred to in the third paragraph of Article 123-ter of the CLF.”

The following shareholders intervened.

Francesca Colombo, for Etica SGR, expressed appreciation for the return to complete and clear information in the 2018 Compensation Report, which had led Etica SGR to cast its vote in favour. She therefore thanked the Compensation Committee for the intense work carried out in 2017, hoping that this path of transparency would continue.

In particular, Etica SGR was happy to learn that there were sustainability-linked parameters and to know their characteristics regarding both the short-term variable part and the long-term one.

Etica SGR asked about the willingness to announce the data relating to the GRI Disclosure 102-38 indicator, relating to the report on the total annual compensation of the most highly paid individual in the organisation in Italy with respect to the total annual average for all employees (excluding the most highly paid individual) in the same country.

Etica SGR, also in relation to the previous interventions, hoped that its considerations would be interpreted as a stimulus and moment for reciprocal enrichment as part of the dialogue established over the years between Etica SGR and SNAM.

She expressed thanks for the willingness to listen and for having paid attention to the requests made, and hoped that the rest of the meeting would continue smoothly.

Mr Croce asked how many strategic managers benefit from the stock option plan. He observed that table 36 on page 30 of the Report probably contains a mistake in indicating that the figures are in thousands of euros.

When no one else wished to speak, the Chair suspended the meeting at 11.33 a.m., which began again at 12.06 p.m. to allow the Chief Executive Officer to reply and respond.

In reply to questions from Etica SGR, the Chief Executive Officer observed the following.

Climate change/Management of emissions in relation to the TAP project

TAP is strongly committed to environmental protection, security and the populations that live close to the gas pipeline, in compliance with its ‘safety-first, zero-harm’ policy. The project complies not only with European and national regulations but also the international standards defined by the European Bank for Reconstruction and Development (EBRD) and the IFC - International Finance Corporation, which require the assessment of impacts to include the social component. SNAM, as a shareholder, but more generally as an operator on the market, is particularly active and committed to the E&S compliance of the project and promotes the ongoing raising of awareness about these matters in the committees and Boards of the project in which it participates.

Human rights in the supply chain

To assess and monitor the performance of the supply chain SNAM uses an index rating (IR) which assesses four areas:

- Compliance with technical requirements (Quality): 40%;
- health, safety and environment (HSE): 30%;
- compliance with timing (Punctuality): 10%;
- the relationship established with the supplier (behaviour): 20%.

With reference to the Health, Safety and Environment area – which accounts for 30% – matters relating to workers’ rights and human rights are also considered, such as accidents, personnel management by the contractor and subcontractor as well as the management of documentation relating to Health, Safety and Environment of our supply chain.

SNAM interacts with its suppliers in a transparent way and in full compliance with free competition and, once a supply relationship has been initiated, it involves them in processes aimed at improving performance. Meetings were also held with suppliers in 2017 as part of “Partners’ Day” to raise awareness and share values on key topics, such as innovation, sustainability and business ethics, and above all safety in the workplace, which he will return to.

With reference to human rights, suppliers were analysed in relation to work practices (aspects relating to health and safety), environmental criteria and human rights (ethical aspects such as the social security compliance certificate, known as “DURC”, child labour, forced labour, etc.). All qualified suppliers are analysed on Human Rights matters, regardless of the category to which they belong (Goods, Works and Services).

Infrastructures/Sustainable cities

SNAM plans investments of around 90 million euros to build around 300 gas refuelling stations in the next 8-9 years. In recent months there has been an increase in the requests for new CNG stations as the market players gradually see the benefits of these investments and decide to make them. What is important is not so much who is investing but that these investments are made, which help to speed up the decarbonisation of Italy and the development of sustainable mobility.

Moreover, Snam also promotes CNG mobility through additional initiatives such as:

- the signing of agreements with ENI, API, one of the main networks of petrol distributors, and the car manufacturers FCA and Iveco.
- the launch of a tender for 33 million euros to convert the company car fleet to natural gas.

the implementation of an integrated communication plan in collaboration with our partners to increase the perception of CNG as an alternative green fuel with excellent performances in terms of CO2 emissions and fine particles.

SNAM also promotes the development of the sustainable city through projects involving energy efficiency in existing buildings, in particular by integrating into them gas heat pumps and micro-cogeneration for single/family homes, condominiums, and small/medium enterprises, which allow a significant take-up of renewable energy from the environment and in any case, just like micro-cogeneration, they can be powered with biomethane enabling a further improvement in environmental performances.

The existing buildings (which represent real estate assets worth over 6 billion euros and 87% owned by natural persons) are for the most part equipped with

heating systems based on conventional boilers which are not very efficient, with heat emissions systems that use radiators.

A boiler project we are interested in is underway with the Municipality of Milan, which is launching a tender process to replace 3,509 boilers.

Education/Investments in Digitalisation

Digitalisation is one of the pillars of SNAM's strategy. The total value of investments in that area in the next five years amounts to around 35 million euros.

The most relevant include – in the gas transmission area – smart gas, which has already led to the introduction in companies of over 1,500 iPads, 1,200 of which are used by technicians to maintain the infrastructure on the territory and to plan activities.

In terms of staff processes, on the other hand, SNAM is working on passive cycle processes and invoicing through Robotic Process Automation, and in order to strengthen corporate engagement it is setting up a social networking system which will allow SNAM's personnel to communicate and collaborate in an unstructured way with respect to hierarchical lines.

SNAM is working to make work increasingly agile and to this end it has also enhanced the business applications, moving towards the digital workplace model and assessing ad hoc training courses for the company population. This is a step forward that has laid the groundwork to expand smart working to more than 600 people employed in San Donato Milanese and Milan.

As for activities that, under the name of “Digital Innovation,” make up a decisive part of the attribution of the 2018 MBO, the company's objective for 2018 is to activate inter-departmental teams which, by working in “simil-Agile” mode, will create prototypes of at least two of the projects mentioned above. This also applies to the sheet of the Chief Executive Officer.

Compensation Plan

Considering that as yet there is no defined method for calculating this ratio and that the GRI Disclosure 102-38 indicator also leaves wide margins for customisation in the actual application of the calculation, we can confirm that for 2017 the pay ratio for Snam was 1:17, with the analysis including the gross

annual compensation of all employees on a full-time contract uninterrupted in the year in reference.

In response to Mr Croce, the Chief Executive Officer spoke first about the accidents, a topic that for the Company comes before anything else, as this very topic was discussed first at the meetings of the Board and the Executive Committee.

On 4 November 2017 a fatal accident occurred involving a contractor's worker at the Cervignano-Mortara gas pipeline site in Landriano (PV). The causes are still being ascertained by the competent authorities. No SNAM employees are under investigation. The company promptly suspended that supplier for six months (expiry May 2018). The suspension meant no invitations to tenders and exclusion from the tender in progress.

In addition to all the training and awareness-raising activities, taking into account the seriousness of the accident and in line with the Company's Health and Safety Policy, a new project was recently launched (SNAM4SAFETY) which intends to trace and promote an evolutionary path of the safety culture both for SNAM's employees and its contractors. The project involves all units and personnel of SNAM and receives support from an external company specialised in the sector (Du Pont de Nemours Italiana). An initial analysis will be carried out on the state of the art and based on this an action strategy (roadmap) will be defined, to be implemented in a subsequent phase. The problem lies not so much in setting rules as in conduct, where even SNAM's standards come first with respect to similar operators. The weak link is the suppliers that must be involved – not only penalising them when accidents occur but also making them aware and having them participate in training activities.

In any case, each party asking to qualify as a SNAM procurement partner is subject to technical checks as well as highly detailed reputation checks, also in order to ensure maximum transparency with respect to the work conditions and safety of the people.

All the objective sheets for compensation also take and took into account the accident and safety culture aspect.

The bonds, including the convertible ones, amount to 8.6 billion (around 70% of the overall debt). They are all essentially fixed rate. 650 million in variable

rate bonds were brought back to a fixed rate by means of a swap. The average rate at the end of 2017 was 2.2%, with an average life of 4 to 8 years. The average rate has now lowered further to 2%, following a trend that has recorded a continuous rate reduction since 2012. 70 million are due to expire in 2018, and 819 million in 2019.

With reference to a question from the shareholder Mr Croce on the impact of a variation to the ECB rates, the Chief Executive Officer recalled that at the end of 2018 the WACC for the period 2019-21 will be updated in two ways:

- firstly, based on a risk free rate, it is updated on the basis of the ten-year rate of return in countries with an AA rating (France, Germany, the Netherlands and Belgium) in the period 1 October 2017 – 30 September 2018. At present no significant amendments are expected given that the spreads remain low;
- the second criterion is the country risk premium, which is updated on the basis of the average BTP – bund spread in the period 1 October 2017 – 30 September 2018 with respect to the value observed in the period 1 October 2014 – 30 September 2015. If the difference is lower than 20% it is not updated.

In this case too significant amendments are not expected given that September is around the corner and unless it soars over the summer.

As regards the regasification plants and the reasons why a stake in the Rovigo plant was acquired when Panigaglia is not being fully exploited, the Chief Executive Officer observed that, leaving aside the fact that Panigaglia has the same profitability regardless of how much gas it transmits, the two plants meet different use requirements. So, unlike Rovigo, large ships cannot access Panigaglia. Rovigo correlates to a specific supply contract and therefore it acts as a fixed importation channel for Italy, and it is also one of the most used regasification plants in Europe.

On the congruence between having a stake in TAP and the statements made in May 2013, the Chief Executive Officer observed how the situation has radically changed. At that time the Final Investment Decision had not been made by the consortium that would have supplied the gas for the TAP project, and gas producers were still involved in the project. At that time there was not sufficient clarity on the Ship or Pay contracts, which determine the profitability of those who invest in the infrastructure, and therefore investing at that time

would have resulted in a change to SNAM's risk profile. At the end of 2013, the definition of the Ship or Pay contracts and the change in the ownership structure due to divestments by producers in favour of infrastructural operators created the conditions for SNAM's investment in 2015.

On the performance of the SNAM and Italgas shares the Chief Executive Officer recalled that, with the demerger, each SNAM shareholder became a holder of “*pre-demerger Snam shares*” and separately a shareholder of Italgas, in the proportion of one SNAM share and one-fifth of an Italgas share for each share held in the old SNAM. The night before the demerger, one share of the old SNAM was worth € 4.58. Each SNAM share and one-fifth of an Italgas share are together worth € 4.86, 6% more. Moreover, this does not consider the dividends paid by the two companies in the period.

With respect to Snam's performance, after the demerger, the total shareholder return, which is what is looked at, and therefore the sum of the share performance and of the dividend, is around 9%: as such, it is higher or in line with European peers. The multiples Snam was trading at yesterday, with respect to the 2018 criteria, are 10.7 times the EBITDA and the profit ratio is 13.6 times; again in the high end of the reference sector. As regards Italgas, the stock market performance is very satisfying for SNAM, which has 13.5%, as it is for all shareholders. The expectations one has when a demerger is set in motion have been met, namely that a business with different characteristics has been successfully extracted thereby allowing it to grow, bringing satisfaction to all shareholders starting with SNAM, which is a shareholder of Italgas as are its own shareholders.

In response to Ms Loizzi and the acquisition of DESFA, the Chief Executive Officer recalled that DESFA is the Greek state-owned company undergoing privatisation which started over two years ago and is coming to an end. SNAM is the head of a European consortium with the Spanish company Enagas and the Belgian company Fluxys. The transaction has an interesting financial value and a highly interesting strategic value, not so much due to the Greek market in itself but because Greece is a transit country. As for the importance of two-way flows, SNAM, like the entire country system, wants Italy to progressively become a gas hub, both to increase the safety of the provisioning and, above all, to reduce the cost of bills. Europe today has a great disadvantage with

respect to the United States in terms of supply costs and Italy unfortunately pays more even with respect to other countries in northern Europe. The more it manages to become a gas hub and to export gas from Italy to more northerly countries the less gas will cost for families and above all for businesses, which are starting to recover, but they need gas to cost less and less in order to overcome the challenges and competition they face on a daily basis.

On the operating costs, the Chief Executive Officer recalled that the reduction of costs by around 20 million euros in 2017 had been possible thanks to a set of around 80 initiatives launched in 2016 which were expected to bring benefits of more than 10 million in 2017 and more than 25 million over the course of the plan. Therefore, the result obtained in 2017 is a preview of the achievement of these results which, together with the new initiatives identified, will bring at least 40 million in savings over the plan.

Two thirds of the 2017 savings relate to corporate and one third to operations. In particular: integration of dispatching and maintenance activities between transmission and storing, smart technologies.

On the creation of the transmission network in Sardinia, the Chief Executive Officer recalled how a priority objective for Sardinian families and businesses was to have access to methane given that at present LPG is used with heavier costs and environmental impacts. SNAM and SGI have announced convergence on the project presented by SNAM, and that the relative authorisation process is proceeding expediently. At the same time, the two companies are finalising the agreement to set up an operational joint venture which will implement and manage the new infrastructure. Given the urgency and strategic nature of the work, the Regulatory Authority for Energy Networks and the Environment has confirmed it is willing to fast track the appropriate assessments with respect to the normal evaluation process for ten-year plans. The investments come to around 300 million euros over the duration of the plan.

On how sustainability is broken down in operational terms, the Chief Executive Officer stated that SNAM has adopted a sustainability model that is strongly integrated with the business one. All the investments that have impacted or affected sustainability are assessed in order to clearly establish specific objectives and targets on climate change, environmental impact, territorial impacts and stakeholder management.

SNAM confirms the statements made on the absence of harm to people or damage to items in projects in central and southern Italy. Here communication is never enough: door-to-door calls in all communities in which it operates must be made in order to ensure that when gas is spoken about the reference is to the cleanest and safest primary energy source there is available. The instalments are underground, there is no visual impact, there is no sound impact, and no impact of any kind linked to emissions. The thrust systems, thrust plants or depressurisation plants installed involve ordinary gas combustion activities which have almost no impact, similar to those that a small to medium condominium would produce. So we will never tire of repeating and reassuring everyone that there are no reasons to worry. No authorities or scientists have established a link between methane emissions and damage to health in any country. What must be done urgently is to reduce the use of combustion oil in boilers and the use of coal in order to have cleaner and more sustainable air, and ideally also more cheaply, above all if the alternatives are oil and LPG.

Returning to Mr Croce's questions, the Chief Executive Officer stated that:

- the capacity of shares available for the plan has already been enhanced with a view to possibly increasing the number of beneficiary managers; in fact, in 2017, not all the shares available were used;
- 17 Senior Executives benefited from the 2017 share incentive plan, including the Chief Executive Officer, and they include all the Executives with strategic responsibilities;
- on page 30, table 3B, there is indeed a mistake in the unit of measurement which should say euros and not thousands of euros.

Mr Croce took the floor again to mention that he had also asked if there had been any other serious accidents and what the accounting effects were of the cancellation of treasury shares.

The Chief Executive Officer stated that there had been another serious accident involving a contractor and he recalled the announcements already made on the commitment to safety across the board.

On the effect of the cancellation of shares on the financial statements, the Chief Executive Officer reported that the treasury shares as at 31 December 2017 (also including those purchased in previous years and those left over

from the previous buy back plan) came to 85,915,616 for a total value of 318 million euros. The total average book cost was 3.699 euros per share (the average purchase price was therefore discounted by around 5% with respect to the average price of the period in which the purchases were made). The purchase of treasury shares is posted at the purchase price in a special reserve to reduce the net equity. As a result, the cancellation of shares has no effect on the net equity (a part of the reserves is cancelled and a negative reserve established at the time of purchase).

At this point, as no one else had asked to speak, the Chair declared the discussion closed and asked the Secretary to start the voting procedure on the various items discussed.

The Secretary invited those present not to leave the room for each vote and, again for each vote, invited them to report any deficiencies in entitlements to vote pursuant to the current law, company bylaws and regulations. No-one took the floor.

The outcome of the votes (12.35 p.m.) was as follows:

First vote: Agenda item 1

2,017 shareholders were present or represented, for a total of 2,355,417,502 shares (67.29% of the share capital)

For: 2,350,411,736 shares

Abstained: 5,005,766 shares

Against: none

The proposal was approved by a majority.

Second vote: Agenda item 2

The numbers present remained the same.

For: 2,352,569,881 shares

Against: 2,818,697 shares

Abstained: 28,924 shares

The proposal was approved by a majority.

Third vote: Agenda item 3

The numbers present remained the same.

For: 2,328,188,183 shares

Against: 26,955,518 shares

Abstained: 273,801 shares

The proposal was approved by a majority.

Fourth vote: **Agenda item 4**

The numbers present remained the same.

For: 2,341,645,745 shares

Against: 13,657,833 shares

Abstained: 113,924 shares

The proposal was approved by a majority.

Fifth vote: **Agenda item 5**

The numbers present remained the same.

For: 2,261,552,124 shares

Against: 92,846,394 shares

Abstained: 283,801 shares

Not voting: 735,183 shares

The proposal was approved by a majority.

Sixth vote: **Agenda item 6**

The numbers present remained the same.

For: 2,254,579,513 shares

Against: 79,275,096 shares

Abstained: 20,827,710 shares

Not voting: 735,183 shares

The proposal was approved by a majority.

All as detailed in the annexes.

Having proclaimed the result and there being no other business to discuss, the

Chair declared the Shareholders' meeting closed at 12.47 p.m..

The Secretary

The Chair
