Digital Trust

DIGITAL TRUST

Digital Trust: a European single market

- Digital Trust: certification by a recognized authority (according to EU law) of a person's identity or the execution of documents via digital methods (internet/online, mobile, usb key, smart card, etc.), w/the possibility of registering the date & time when such documents are executed. Certified identification may include legal execution of contracts or other agreements or enable internal procedures to be digitalized and thereby executed in a rapid and verifiable manner.
- Digital signatures permit highly secure digital preservation of the relative document(s) for very long periods (10+ years) at very low marginal costs (especially compared to the archiving of physical documents).

eIDAS

- eIDAS stands for EU Regulation No. 910/2014 on electronic Identification And trust Services for electronic transactions in the European internal market
- eIDAS has created standards for which electronic signatures, electronic seals, timestamps and other authentication mechanisms enable electronic transactions with the same legal standing as transactions performed on paper
- The eIDAS Regulation came into effect in July 2016
- As per **eIDAS** provisions, Infocert is a recognized Certification Authority in Italy and therefore in the entire EU

Digital Trust: digitally certified signatures

- E-signatures are a central aspect of the digitalization of administrative procedures, such as:
 - procurement,
 - personnel hiring,
 - banking and insurance applications
 - account openings, credit applications; and even
 - tax return declarations, government permits or licenses.
- Sizeable efficiencies can be achieved through reduced processing time, savings in postage/courier/administrative fees, and shortening of customer acquisition time.
- E-signatures can improve customer onboarding experiences and increase completion rates even eliminating lag time altogether.
- The objective of eIDAS is to simplify and support the uniform use of digital signatures across borders throughout the European Union.
- With the introduction of eIDAS, InfoCert received the certification of Qualified Trust Service Provider
 for its Digital Trust services in Europe. To maintain such status, InfoCert is continuously audited and
 controlled. Further, as an EU Certification Authority, InfoCert delivers trusted solutions assuming the
 full legal risk of digital transactions for its European customers.

Digital Trust: cutting edge products for Enterprises

From 1st January 2018 the Group has adopted the IFRS 15 Accounting Principle "Revenue from Contracts with Customers" and the Accounting Principle IFRS 9 "Financial Instruments", which required modifications of the accounting policies and changes to the amounts reported. The comparative 2017 data have not been restated. As a result the Income Statement variations evidenced on the following page are prejudiced, even if not in a material manner, as a result of the different accounting treatment bases.

The analysis of the Business Units of the following pages utilized, instead, 2018 data that does not reflect the application of IFRS 15 and IFRS 9. The analysis therefore compares 2018 Q1 data and 2017 Q1 data on a "2017 IFRS" basis, and therefore they have been compiled on a comparable basis.

¹The comparative data for First Quarter 2017 have been restated as a consequence of the completion in First Half 2017 of the activities to identify the fair value of the assets and liabilities of the Visura Group, which was fully consolidated starting from 1 July 2016. It is also noted that starting from the Half Year Consolidated Financial Statements of 2017 the provisions to the Agents' Supplementary Indemnity Fund for Customers (FISC) has been reclassified from "Provisions" to the item "Costs for services"; in order to ensure better comparability of results, these reclassifications were also made to the comparative balances for First Quarter 2017.

²The Adjusted Net Result excludes non-recurring components and the amortisation of the intangible assets recognised upon the allocation of the price paid for business combinations, net of tax effect, as evidenced in the following slide.

To guarantee a truer comparison with the results of the first three months of 2017, the data of the first three months of 2018 are exhibited in the column "1st Quarter 2018 IFRS 2017" i.e. without the application of the international accounting principles IFRS 9 and 15. The columns Change and Change IFRS 2017 % compare therefore Q1 2018 IFRS 2017 with Q1 2017 (IFRS 2017).

It must be further noted that this table exhibits the economic results by business segment excluding non-recurring items (represented by non-recurring personnel costs equal to € 380,000 in the first three months of 2017).

Greater detail on the consolidated results and the single business units are available in the Interim Report on Operations.

Digital Trust

InfoCert:

- Revenues +5.2% (Q1 2018 vs. 2017 Q1)
 - Mass market (PEC, Standardized products) increased
 - Enterprise market: TOP growing, particularly well outside Italy with significant investment today that will produce increased marginality tomorrow
- Camerfirma acquisition, first but not last acquisition of CA to create a pan-European Authentication leader

Visura:

Commercial synergies with InfoCert with professional and business associations and with micro-businesses/artisans

Sixtema:

➤ Lower marginality weighs on BU total figures

Highlights – Credit Information & Management Net of Non-recurring items

Innolva (new name for Assicom Ribes):

- Revenues flat Q1 vs. 2017
- New Website
- Database investment completed
- New Products in development that utilize the completed database

RE Valuta:

- Revenues up marginally as contracts with existing clients confirmed and new clients (primarily the cooperative banking sector) won
- > Lower marginality vs. Innolva

BU results

➤ Margins up 1.4 percentage points to 22.1%, improving as cost synergies being realized

Innovation & Marketing Services

Co.Mark:

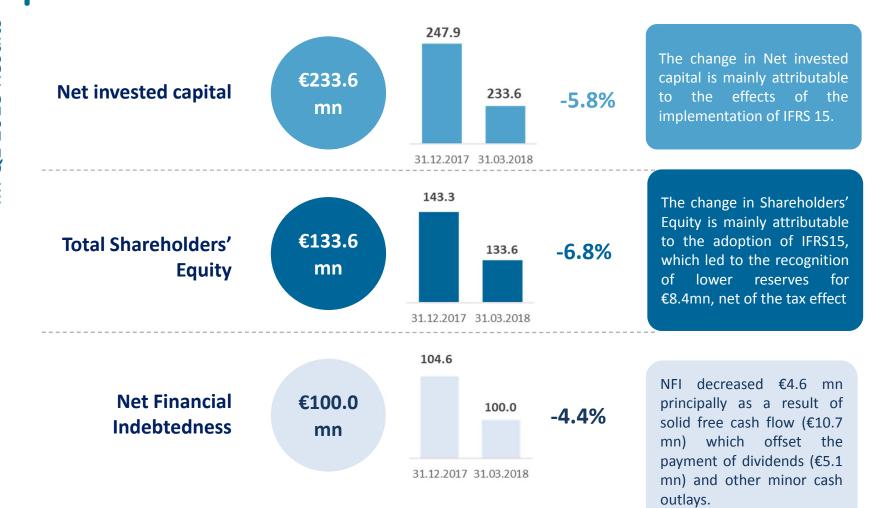

- Revenues +0.9% vs. strong Q1 in 2017
- New clients / contracts signed with the MISE (Ministry for Economic Development) voucher incentives
 - Consequently, revenue growth should be more positive starting from Q2
- EBITDA: -5% due to investments to support future growth in Italy and Spain

Warrant Group

- Revenues €6.7 mn
- ➤ EBITDA: €1.2 mn (Margin = 17.3%)
- ➤ Both data are sensibly higher than 2017 data (when Warrant was not a part of the Tecnoinvestimenti Group
- ➤ The First Quarter results reflect the company's business model, which is structured so that the first months of the year are focused on the initiation of the application process and in the remainder of the fiscal year the consequent/subsequent encashment and reporting of the variable fees (success fees), with growing positive effects on revenues and marginality

Investment Case: looking forward

1Q 2018 Results on track

- Revenues and profitability growing in line with expectations
- Operating cash flow of € 14.8 million
- Warrant Group contribution to Group results, as a result of its business model, will increase throughout the year
- Net financial debt improved by 4.4% thanks to strong free cash flow

Winning strategy to be continued

- Tecnoinvestimenti is focusing on integrating the Group companies and maximizing internal growth opportunities and synergies.
- At the same time, Tecnoinvestimenti is executing its strategy to reinforce
 the Group through acquisitions of service businesses that can support
 the value chain for companies and financial institutions

Investment case: Why Tecnoinvestimenti

1. TECN is a dynamic, solid company that is growing rapidly

- TECN is market leader in expanding businesses such as Digital Trust and Temporary Export Management
- TECN management actively manages its businesses to extract industrial synergies and maximize profitability/cash flow

2. TECN has a proven track record of disciplined external growth

- Targets: solid operational business fundamentals, strategic fit, positive cash flow/EBITDA, proven operating record
- Price paid must be rational; Put/Call/Earn Outs are used to keep management and incentivize continued top performance.

3. TECN has a prudent financial structure

- Net Financial Indebtedness = €100.0 m, of which €65.2 mn is related to the purchase of the minority stakes in companies (of which €55.7 mn are not interest bearing liabilities)

4. TECN: free cash flow is solid and increasing

- 2018 1st Quarter Operating Cash Flow = €14.8 m
- 2018 1st Quarter Free Cash Flow = €10.7m

Tecnoinvestimenti Group

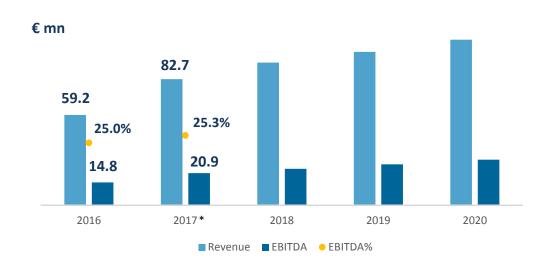

Business Plan 2018-2020 approved by the BoD

Note: 2017 data reflect definitive results.

SBU Digital Trust (2/2) 2018-2020 Business Plan

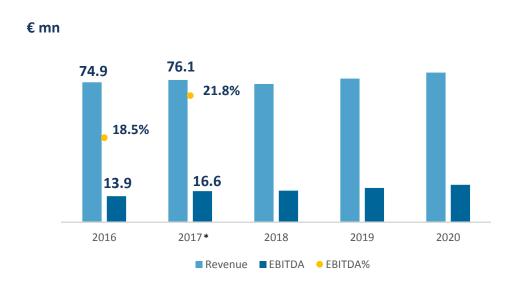

- Revenues will grow at almost double figures
- The EBITDA will increase more rapidly

- The InfoCert Group targets significant growth in revenues (almost double-digit), in line with the trend of recent years. Enterprise Solutions (DTS) aims for double-digit growth.
- Sixtema, revenues are expected to grow moderately, on average
- Visura 2018-2020 Plan characterized by a substantial stability, compared to 2017

^{*}Note: 2017 data reflect definitive results.

SBU Credit Information & Management (2/2) 2018-2020 Business Plan

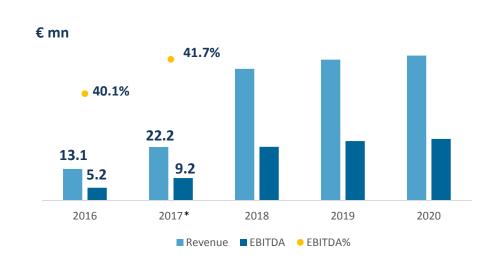

- Revenues: recurring business revenues will be almost stable in 2018 and subsequently will grow slightly
- EBITDA: slight growth in the EBITDA margin

- The 2018-2020 Plan for Innolva is based on the following assumptions:
- Modest growth in revenues is assumed after 2018.
- assume a decrease in the incidence on revenues for data acquisition and legal advisory
- Labour costs, marketing costs and costs related to the IT structure are assumed to increase.
- Governance costs decrease significantly.
- **REValuta**'s 2018-2020 Plan is characterized by:
- sustained growth in revenues in 2018 due to a successful marketing campaign in 2017
- By 2020, a more modest growth in revenues is assumed
- No change in margins

^{*}Note: 2017 data reflect definitive results.

SBU Innovation & Marketing Services (2/2) 2018-2020 Business Plan

- Revenues: 2018 revenues will grow with the scope of consolidation and the consolidation of the 12 month results of Warrant Group, as well as due to sustained growth of Co.Mark's business
- EBITDA will follow the trend of revenues

Co.Mark Group:

- revenue growth of 10+%, w/growth concentrated in 2018 and 2019 driven by an increase in the number of orders managed on average during the year. ~46% contracts refer to non-MISE (Ministry of Economic Development) projects, <10% from incentive policies of the MISE;
- Circa 30% of the 2018 and 2019 revenues refer to backlog
- Operating costs remain stable or proportional to revenues, with the exception of personnel costs (up in 2018)

Warrant Group:

- 2017 Revenues pro-forma grew 50+%
- Relative to Pro forma 2017 moderate growth expected in 2018-2020

^{*}Note: 2017 data reflect definitive results.

 marginality (in a more marked fashion than revenues; note: Q1 2018 EBITDA of 17.3%)

Acquisition of Warrant Group: Main contractual elements

The total compensation for 70% of the capital of WG, which had a Net Financial Position equal to zero upon closing, was set at a maximum of €33.9 million, as follows:

- €25.7 million paid at closing;
- o An additional €2.83 million paid post-approval of the 2017 financial results of WG;
- o €5.3 million to be paid in instalments over the next 5 years.

The other 30% of capital is subject to **put & call options** and to be paid upon the approval of the 2018 and 2019 financial results, respectively. Such amounts will be subject to the achievement of agreed upon objectives relating to WG's EBITDA.
