

PRESS RELEASE

RETELIT AND GO INTERNET: 5G HIGH SPEED CONNECTIVITY AGREEMENT REACHED

Milan, July 4, 2018 - GO internet, a provider of 4G and 4.5G LTE, and Retelit, one of Italy's leading data services and infrastructure providers, have signed a 5-year agreement for the provision of high speed fibre optic ultra-broadband connectivity and dedicated bandwidth to prepare the GO internet network for the advent of 5G.

Retelit's ultra-broadband transport service, as highly versatile and scalable according to specific requirements, will handle the bandwidth demands to prepare the current GO internet 4.5G network and to adjust to the 5G standard.

"The partnership with Retelit allows us to prepare the 4.5G network for the shift to 5G" stated Alessandro Frizzoni, Chief Executive Officer of GO internet. "Retelit is a qualified, reliable and professional partner and we are fully confident that they will provide the ultra fast connectivity necessary to connect our base radio stations to the fiber optic backbone".

Federico Protto, Chief Executive Officer of Retelit stated: *"We are highly satisfied with this partnership with GO Internet and to be in a position to offer our customers the high speed connectivity which we believe supports the economic and industrial growth of our regions. We consider GO Internet as one of the best and most dynamic Italian ICT enterprises. Ultra-broadband and connectivity are fundamental pillars for the key innovations of today's industrial revolution, from Industry 4.0, to IoT, to artificial intelligence, up to 5G and the cloud".*

Retelit Group

Retelit is a major Italian provider of data and infrastructure services to the telecommunications market and has been listed on the Milan Stock Exchange since 2000, joining the STAR segment on September 26, 2016. The company's fiber optic infrastructure at March 31, 2018 covers approx. 12,500 kilometers (equivalent to approx. 231,000 KM of fiber-optic cables, of which 68,000 located in MAN), connecting 9 Urban Networks and 15 Data Centers across Italy. It has over 3,583 On-Net sites, of which 2,371 customer sites, 710 telecommunication towers, 447 cabinets and 40 Data Centers reached. The Retelit network also extends beyond Italy with connections to the largest European PoP's, including Frankfurt, London, Amsterdam and Paris. Retelit is a member of AAE-1 (Africa-Asia-Europe-1), the submarine cable system connecting Europe to Asia through the Middle East, reaching 19 Countries, from Marseille to Hong Kong, owning a landing station in Bari. These valuable assets make Retelit a perfect technological partner for TLC and ICT operators and businesses, providing on demand a complete range of high-quality, reliable and safe solutions. Services range from ultra-broadband fiber optic internet connection to the Cloud and network and VPN services to colocation solutions, with approx. 10,500 square meters of equipped and secure fiber optic connected spaces, for the outsourcing of Data Center services and the satisfaction of disaster recovery and business continuity needs. Retelit's Carrier Ethernet services are in addition Metro Ethernet Forum (MEF) certified.
