**San Donato Milanese, 30 July 2018** – The Board of Directors of Cerved Group S.p.A. (MTA: CERV, the “**Company**” and previously Cerved Information Solutions S.p.A.) – the largest information provider and credit servicer in Italy – today approved the Semiannual Report as of 30 June 2018.

Marco Nespolo, Chief Executive Officer of the Group, commented:

*“In the first half of 2018 the Group achieved strong growth rates, with Revenues increasing +12.3%, Adjusted EBITDA +11.9% and Adjusted Net Income +11.8%. We remain confident in the expected growth rates for the year in progress.”*

*“At the divisional level, Credit Information registered growth rates in Revenues and Adjusted EBITDA in line with prior years, also thanks to the recovery of the corporate segment following a soft first quarter, and to the constant growth of the financial institutions segment. The Credit Management division continues to be the Group’s growth engine, particularly following the onboarding of NPLs from the Atlante and REV funds, and the consolidation of the newly acquired credit servicing platforms from Banca MPS and Banca Popolare di Bari.”*

*“The results for the first half of 2018 confirm the financial solidity of the Group, with a leverage ratio of 2.7x last twelve month Adjusted EBITDA, and despite the payment of Euro 52 million in dividends and cash outflows of approx. Euro 82 million for acquisitions. The Board of Directors also approved to execute a share buyback program for up to Euro €30 million over the next 6 months, in order to service the LTIP scheme and in compliance with the objectives approved by the Shareholders’ Meeting.”*

## Analysis of Consolidated Revenues

In the first half of 2018 the Group's revenues increased by 12.3%, reaching Euro 223.0 million compared to Euro 198.6 million in the first half 2017.

The Credit Information division grew by 3.0% thanks to the positive contribution of both business segments. The Corporate segment grew by 3.4% compared to the first half of 2017, mainly thanks to the positive performance of the field sales network, which made further progress on its growth and customer consolidation. The Financial Institutions segment confirmed the performance of previous quarters, growing by 2.4%; this was mainly driven by the strong demand for appraisals in the real estate segment and the positive contribution of new product launches within the Analytics segment.

The Credit Management division grew by 44.6%. Such growth is mainly related to the underlying organic growth of the business, with the balance deriving from the contribution of the special servicing contracts for NPLs under the industrial partnership with Banca Popolare di Bari (finalized at the end of 2017), and also the partnership with Banca MPS for the servicing of future flows of non-performing loans.

The Marketing Solutions division contracted by 3.0% in the first half of 2017 due to temporary delays in selected projects, and despite growth in sales generated by the field sales network.
