Acumbamail is strategic to reinforce MailUp Group’s presence in Spanish-speaking Countries and entry-level client segments which are not served by MailUp offer. In detail, Acumbamail operates in the email marketing field, providing a complete suite of Spanish language solutions enabling clients to generate newsletters, email marketing campaigns and transactional messages on a freemium basis. This model involves a free entry level access and use of the platform, which evolves into paying upon reaching certain usage thresholds, thus capturing small-volume clients serving limited amounts of recipients.

With a population in excess of 500 mln and a growing Internet penetration rate, Spanish-speaking markets (Spain and Latin America) represent one of the fastest-growing landscapes of the international digital economy.

MailUp Group (MAIL) is the result of technological research and entrepreneurial success of MailUp S.p.A., the parent company that developed a digital cloud computing platform used by SMEs and large corporations to communicate with customers via email and SMS. Upon establishing itself as a leader in the ESP industry, MailUp boasts a constant growth path both organically and through acquisitions: Acumbamail (Spanish and Latam markets), Globase (Nordics market), and Agile Telecom (wholesale SMS market). The brand portfolio is completed by BEE, an email editor launched in 2017 as a complementary business line, already covering thousands of customers worldwide. Today, MailUp Group is a leading European player in the field of marketing technologies, serving 20,700+ customers in 100+ countries.
