Provaglio d'Iseo (BS), 02 August 2018 – The Board of Directors of Gefran S.p.A. met today under the chairmanship of Maria Chiara Franceschetti at the Company's headquarters in Provaglio d'Iseo (BS) to approve the results at 30 June 2018.

Revenues in the first half of 2018 amounted to EUR 70.260 million, compared to EUR 65.050 million in the first half of 2017, registering EUR 5.210 million growth (a rate of +8%), with growth in all areas, led by the excellent performance of plastic and lift applications and generated primarily by original equipment manufacturers (OEM).

The breakdown by **geographical region** saw double-digit growth over the first half of 2017 in Italy (+11.9%) and Asia (+12.2%), with good results in the European Union (+8.7%) thanks to the positive trend in the sectors the Gefran Group serves. Sales in the Americas were down, particularly in South America (-11%), penalised by the exchange rate.

GEFRAN

The breakdown of **revenues by business area** shows growth in all business areas: +8.5% for sensors, +8.4% for automation components and +10.3% for motion control.

Added value for the first six months of 2018 was EUR 46.747 million (EUR 42.793 million at 30 June 2017), equivalent to 66.5% of revenues (65.8% in the same period in 2017). The EUR 3.954 million increase on the first half of the previous year was mainly due to an increase in volumes.

Other operating costs at 30 June 2018 amounted to EUR 12.373 million, an increase over the first half of 2017, when they were EUR 11.328 million. They have stayed at the same percentage of revenues (17.6% in the first half of 2018 and 17.4% in the first half of 2017).

Personnel costs at 30 June 2018 were EUR 23.164 million, compared with EUR 22.407 million on the same date in 2017; the increase was due to new employees joining the Group.

The increase in operating costs and personnel costs reflects the investments in projects to support growth under the three-year plan.

EBITDA for the first half amounted to EUR 11.210 million (EUR 9.058 million in the first half of 2017) and reached 16% of revenues (13.9% at 30 June 2017), registering an increase of EUR 2.152 million due to the combined effect of added value and revenue growth.

EBIT was positive in the first half of 2018, and amounted to EUR 8.122 million (11.6% of revenues), compared with an EBIT of EUR 6.091 million for the same period of 2017.

Losses from assets held for sale in the first half of 2018 were EUR 0.875 million including the fiscal effect, as assets pertaining to know-how in the photovoltaic business, the sale of which had been under negotiation, were written off entirely. The company's directors decided to write off the asset when the potential buyer declined the option to buy.

Group net profit in the first half of 2018 was EUR 4.061 million, compared with a profit of EUR 4.443 million in the same period of 2017; the decrease was a result of assets held for sale.

Working capital was EUR 24.909 million at 30 June 2018, compared with EUR 21.067 million at 31 December 2017, an overall increase of EUR 3.842 million.

Shareholders' equity at 30 June 2018 was EUR 68.879 million, compared with EUR 69.911 million at 31 December 2017. The change was primarily a result of the positive annual result, totalling EUR 4.061 million, absorbed by distribution of EURO 5.040 thousand in dividends in May 2018.

Net financial position at 30 June 2018 was a negative EUR 9.122 million, down EUR 4.342 million since 31 December 2017.

Net financial debt comprises short-term cash and cash equivalents of EUR 1.538 million and medium-/long-term debt of EUR 10.660 million.

This **change in net financial position** was mainly due to positive cash flows from ordinary operations (EUR 7.220 million), absorbed by technical investments (EUR 4.826 million), payment of dividends (EUR 5.040 million) and payment of taxes (EUR 2.852 million).

The Group's Chief Executive Officer Alberto Bartoli commented on the results: "Performance was excellent in the half that just ended, with results in terms of sales and margins in excess of expectations and the start of the announced three-year plan for investment in technical and human capital, which we expect to improve our competitiveness in the future. A number of sectors the Group serves are beginning to show signs of slowing down, as expected. This trend, combined with the increase in operating costs resulting from implementation of the investment plan, will be reflected in the results of the second half of the year, though we still expect performance to be satisfactory. In view of these considerations, we confirm that growth of revenues and profit margins in 2018 will be in line with that of the previous year."

Pursuant to paragraph 2 of article 154-bis of the Consolidated Law on Finance, Fausta Coffano, the executive in charge of financial reporting, declares that the information contained in this press release accurately represents the figures contained in the Group's accounting records.

Please note that auditing of the abbreviated half-yearly Consolidated Financial Statements at 30 June 2018 has not yet been completed.

The Half-yearly Financial Report at 30 June 2018 is available at the company's headquarters and at Borsa Italiana S.p.A. and can also be viewed in the "investor relations/reports and financial statements" section of the company's website (www.gefran.com), and on the website (www.emarketstorage.com) managed by Spafid Connect S.p.A..

This press release contains some "alternative performance indicators" not included in the IFRS accounting principles, whose meaning and content, in line with recommendation ESMA/2015/1415 of 5 October 2015, are illustrated below.

Specifically, the alternative indicators used in the report on the income statement are:

- Added value: the direct margin resulting from revenues, including only direct material, gross of other production costs, such as personnel costs, services and other sundry costs;

- **EBITDA**: operating result before depreciation, amortisation and impairment. The purpose of this indicator is to present the Group's operating profitability before the main non-monetary items;

- **EBIT**: operating result before financial management and taxes. The purpose of this indicator is to present the Group's operating profitability.

Alternative indicators used in the report on the reclassified statement of financial position are:

- Net non-current assets: the algebraic sum of the following items in the statement of financial position:

- Goodwill
- Intangible assets
- Property, plant, machinery and tools
- Equity investments valued at equity
- Equity investments in other companies
- Receivables and other non-current assets
- Deferred tax assets

- Working capital: the algebraic sum of the following items in the statement of financial position:

- Inventories
- Trade receivables
- Trade payables
- Other assets
- Tax receivables
- Current provisions
- Tax payables
- Other liabilities

- Net invested capital: the algebraic sum of fixed assets, working capital and provisions;

- Net financial position: the algebraic sum of the following items:

- Medium-to-long-term financial payables
- Short-term financial payables
- Financial liabilities for derivatives
- Financial assets for derivatives
- Cash and cash equivalents and short-term financial receivables
