## Summary of Results

EXOR Group closed the first half of 2018 with a consolidated profit of €741 million; the first half of 2017 ended with a consolidated profit of €916.3 million. The decrease of €175.3 million is attributable to a reduction in the share of the profit of investments of €80 million, a lower net financial income of €76.9 million and other net negative changes of €18.4 million.

At 30 June 2018, the consolidated equity attributable to owners of the parent amounted to €11,415 million, with a net increase of €610.2 million, compared to €10,804.8 million at 31 December 2017. The increase derived principally from the consolidated net profit (€741 million), partially offset by the payment of dividends (€82.4 million), the net impact resulting from the adoption of IFRS 9 and IFRS 15 (€32.9 million) and net change in reserves (€15.5 million).

The consolidated net financial position of the Holdings System at 30 June 2018 is a negative €3,139.5 million and reflects a positive change of €24.2 million compared to the negative financial position of €3,163.7 million at 31 December 2017. The positive change was primarily due to the dividends from investments (€122.4 million) and sales and redemptions (€26.7 million), partially offset by the payment of dividends (€82.4 million), investments (€11.2 million) and other net changes (€31.3 million).
