## EXPERT SYSTEM: revenues increase more than 50% to € 12.9 million in H1 2018

**Modena, 10 September 2018**

[Expert System S.p.A.](#), having concluded the Board of Directors meeting held today, announces the sales results for the first half of 2018, recording growth of over 50% compared to the first half of 2017 (€ 8.4 million), reaching € 12.9 million in revenues.

*"This excellent result is in line with our growth plan", observed **Stefano Spaggiari, Expert System CEO**, "and confirms that the efforts made in terms of investments, global expansion, and innovation strategies designed for partners and customers allowed us to strengthen our competitive advantage and establish the uniqueness of the Cogito® platform worldwide. It is deeply satisfying to see our vision and execution recognized in a market such as Artificial Intelligence, which is increasingly characterized by its extraordinary potential for development."*

The revenue growth for the first half of 2018 decidedly amplifies the positive results that had already been posted by Expert System at the end of 2017 (+15.4%). With more than 20 years of experience in the field of Artificial Intelligence technologies, hundreds of active projects in various market sectors, and a global presence with offices in Italy, US, UK, Germany, France, Spain and Canada, **Expert System is the largest European Group** and one of the **few global leaders** to be simultaneously among the 8 top vendors in Artificial Intelligence for Text Analytics ("The Forrester Wave™: AI-based Text Analytics Platforms, Q2 2018") and in the top 13 for Insight Search ("Gartner Magic Quadrant for Insight Engines, 2018").

The final consolidated results will be reported on September 28, 2018, following the approval from the Board of Directors of the Group's Consolidated Half-Yearly Financial Report.

### Expert System

Leader in the market for cognitive computing and text analytics, Expert System offers the most innovative artificial intelligence solutions for process automation and information management. Through its Cogito® technology, based on the combination of semantic understanding and machine learning, we ensure that partners and customers obtain the strategic knowledge to accelerate decision-making processes and maximize ROI: from customer care to compliance, from risk profile management to security and intelligence. The group has offices in Italy, France, Spain, Germany, UK, USA, and Canada, and its primary customers include the following businesses and governmental organizations: Zurich Group, Lloyd's of London, Intesa Sanpaolo, Chevron, Eni Group, the US Department of Agriculture and Department of Justice, the French Ministry of the Interior and Ministry of Economy and Finance, Wolters Kluwer, Ely Lilly, Sanofi, etc. The company has been listed on the AIM market of Borsa Italiana since 2014 (EXSY:MIL).
