PRESS RELEASE

BANCA IMI: FINAL RESULTS AS AT 30 SEPTEMBER 2018 APPROVED

- Consolidated total income of 1,326 million euro (+23.5% on 30 September 2017)
- Operating profit of 980 million euro (+32.4% on 30 September 2017)
- Consolidated profit for the period of 602 million euro compared to 422 million euro as at 30 September 2017 (+42.7%)
- Third quarter 2018 shows solid growth in commissions from customers
- Total Capital Ratio of 13.3% both with and without the transitional model for mitigating the impact of FTA of IFRS 9

Milan, 06 November 2018 - The Board of Directors of Banca IMI, the investment bank within the Intesa Sanpaolo Group, led by CEO Mauro Micillo and General Manager Massimo Mocio, has approved the separate and consolidated financial statements as at 30 September 2018 in a meeting held today and chaired by Gaetano Miccichè.

At the end of a summer quarter characterised by a marked increase in the risk premium on Italian government bonds, the balance for the nine months shows a consolidated net profit of **602 million** euro. The figure shows an increase of more than 40% compared to 422 million as at 30 September 2017 thanks to the rise in revenues, which were supported by profits from financial transactions (+55% with respect to the comparable period) and increasing net interest income. Commissions from customers involved in large structured finance and investment banking transactions rose in the third quarter.

Total income stands at 1,326 million euro (+23.5%). Capital Markets contributed 1,073 million euro and Structured Finance and Investment Banking contributed 253 million euro.

Operating profit reached 980 million euro (+32.4% compared to 30 September 2017) thanks to the total income's performance, against a moderate growth in operating costs (346 million euro, +3.8%).

The **cost/income ratio** improved significantly, falling to **26.1%** compared to the previous 31.1%.

Impairment losses, provisions and other operating expenses accounted for 85 million euro. This amount includes contribution charges of 58 million to the Resolution Fund.

Total **assets** exceed **167 billion** euro up from 148 billion euro as at 31 December 2017.

Risk Weighted Assets increased to 27.5 billion euro from the previous 25.2 billion euro as at 30 June 2018, particularly in relation to market risks.

Own funds as at 30 September 2018 equal **3,650 million** euro and do not consider in any way the financial result currently being generated.

In compliance with the approach adopted by the Intesa Sanpaolo Group, their calculation implements the option of mitigating the impact of IFRS 9 for the portion of impairment recognised on the first-time adoption of the new standard (the "static" approach). Thus, the **Total Capital Ratio** reached **13.26**%.

In compliance with the provisions set out in (EU) Regulation 2017/2395 of 12 December 2017, information regarding own funds and prudential ratios of Banca IMI, both with and without application of the transitional rules set out in the regulation, are provided below.
