**PRESS RELEASE**

**IMMSI GROUP: INTERMARINE ORDER BOOK GROWS TO AROUND  
200 MILLION EURO THANKS TO NEW CONTRACTS**

*Milan, 29 November 2018* - Immsi S.p.A. (IMS.MI) said that its subsidiary **Intermarine** had **increased its order book** as a result of **new orders**. **The value of current contract work in progress** is approximately **200 million euro**.

**Intermarine** is a shipbuilder active in the **military and civil sectors**.

In the military sector, Intermarine is one of the **leading world designers, builders and outfitters of Minehunters**, special military vessels characterised by high-level operational and technical features. These extremely advanced and sophisticated vessels are the result of a long process by which the basic Intermarine design is perfected and tailored to the specific needs of the individual customer. Intermarine has already built 44 Minehunters, in 9 different configurations, for the Navies of 8 countries, including the USA, Finland, Australia and Italy.

In the **military sector**, Intermarine vessel production also includes **patrol boats in composite material and aluminium** for search and rescue operations, notably **high-speed multipurpose boats (UNPAV)**, versatile and modern vessels that are also used to control maritime traffic and ensure security where there is a threat of asymmetric warfare.

**In the civil sector**, Intermarine produces **Fast Ferries** up to a maximum length of 70 metres, for the transportation of passengers and vehicles, and **hydrofoils** for passenger transport.
