- Consolidated profit for the year of 803 million euro, the highest ever reported, up 19.8% on the 671 million euro posted at 31 December 2017
- Consolidated total income of 1,682 million euro (+7.2% on 31 December 2017)
- Operating profit of 1,217 million euro (+9.8% on 31 December 2017)
- Fourth quarter 2018 shows robust growth in commissions from customers
- CET1 ratio at 10.2%, including the portion of 2018 profit to be allocated to reserves
- Total Capital Ratio of 14.2% both with and without the transitional model for mitigating the impact of FTA of IFRS 9

Milan, 5 February 2019 - The Board of Directors of Banca IMI, the investment bank of Intesa Sanpaolo Group, led by CEO **Mauro Micillo** and General Manager **Massimo Mocio**, has approved the separate and consolidated financial statements as at 31 December 2018 in a meeting held today and chaired by **Gaetano Miccichè**.

The end-of-year final balance recorded a consolidated profit for the year of **803 million** euro. The result, the highest in Banca IMI's history, increased by nearly 20% with respect to the 671 million euro reported at 31 December 2017 driven by revenues that were characterized by a robust level of net interest income and by steady growth in customer commissions during the year owing to important structured finance and investment banking transactions.

Total income stands at **1,682 million** euro (+7.2%). **Capital Markets** assets contributed **1,290 million** euro and **Structured Finance** and **Investment Banking** assets contributed **392 million** euro.

Operating profit reached **1,217 million** euro (+9.8% compared to 31 December 2017) thanks to the total income's performance, against a moderate growth in operating costs (465 million euro, +0.9%).

The **cost/income ratio** continued to improve, falling to **27.7%** compared to the previous 29.4%.

Impairment losses, provisions, and **other operating expenses**, including contributions to the Resolution Funds, accounted for a total of **23 million** euro.

Total assets exceed **165 billion** euro, up from 148 billion euro as at 31 December 2017.

Risk-Weighted Assets increased to 30.1 billion euro from the previous 27.5 billion euro as at 30 September 2018. This growth is equally due to the requirements for credit risk and market risk.

Own funds for regulatory purposes as at 31 December 2018 amounted to **4,278 million** euro (3,650 million euro at 30 September 2018). The amount already takes account of the portion of profit allocated to reserves as part of Banca IMI S.p.A.'s efforts to strengthen its capital base.

In compliance with the approach adopted by the Intesa Sanpaolo Group, their calculation implements the option of mitigating the impact of first-time-adoption of the new IFRS 9 with regard to the impairment share accounted for (the "static" approach). Thus, the **Total Capital Ratio** reached **14.22%**.

In compliance with the provisions set out in (EU) Regulation 2017/2395 of 12 December 2017, information regarding own funds for regulatory purposes and prudential ratios of Banca IMI, both with and without application of the transitional rules set out in the regulation, are provided below.
