At the request of the Chair, Marco Alverà, the Chief Executive Officer, outlined the letter to the Shareholders and Stakeholders reproduced below:

“Dear Shareholders and Stakeholders,

2018 was a particularly good year for Snam, not only in terms of the results obtained, which went beyond expectations, but also for the new initiatives launched that take the company into an increasingly innovative zone, leading the energy transition and paying close attention to the people and communities in which it operates

In March 2018, we launched the new brand identity. “Energy to inspire the world” is the message around which Snam’s strategic repositioning is hinged, in an increasingly global market that is characterised by the transformation of energy and environmental scenarios.

In this context, the central role played by our energy infrastructures is confirmed, also in terms of the greater imports into Europe, the new uses of natural gas and the growing awareness of the essential role played by gas infrastructures within the energy transition.

In 2018, we consolidated our regulated business, also through the completion of the acquisition, through a European consortium, of DESFA, the Greek national natural gas infrastructures operator. This operation is strategic to the development of the southern corridor, for the diversification of gas sources and routes.

In 2018, we also launched new businesses aimed at fostering decarbonisation, allowing Snam to play a key role in the energy transition.

Snam has acquired control over IES Biogas, a leading Italian company in the development of biogas and biomethane plants, and of Enersi Sicilia, the company authorised to develop an infrastructure for the production of biomethane from municipal solid waste in the province of Caltanissetta, which will supply the surrounding municipalities with an all-renewable solution

to the disposal problem. Biomethane will be increasingly important in Italy and Europe, as a renewable source that is highly sustainable in economic terms, able to use existing transmission and storage infrastructures.

The investment in the biomethane segment adds to those made in sustainable mobility, in particular, with the acquisition of Cubogas, leader in technological solutions for natural gas vehicle refuelling stations. In total, as at 31 December 2018, 50 CNG/L-CNG, biomethane and bio LNG refuelling stations had been contracted (of which 34 with ENI). A framework agreement has been stipulated with the API Group, for the development of around 200 new natural gas and biomethane refuelling plants. The promotion of natural gas and renewable sources in the automotive segment also underlies the strategic agreement stipulated with SEAT in November.

We have invested in the energy efficiency segment with the acquisition of control over TEP Energy Solution, one of the main Italian ESCOs, whose mission is to make its clients more competitive through the reduction of energy spending.

Studies on power-to-gas technology and hydrogen, including the HYREADY project, supplement and enhance the development of new businesses.

This is the Snam of the future - Snamtec - Tomorrow's energy company - high-tech leader in renewable sources, which is increasingly inter-connected with the territory. Snamtec includes investments dedicated to these matters worth more than 850 million euro during the 2019-2022 plan.

To become leaders in a rapidly changing world, we seek to operate in an increasingly agile and efficient manner, to optimise transversal processes whilst enhancing specific skills. It is in these terms that we have focussed on an agile organisational model that, thanks to a shorter decision-making chain, with one less hierarchical level, guarantees quicker decision-making.

The Snam Institute has also been established, with three key goals: to cultivate the technical know-how of Snam, accrued in almost 80 years of experience, causing it to grow over time, to develop managerial skills and to foster an organisational culture that is open to change and business innovation.

As part of the efficiency plan launched during the second half of 2016, we have simplified the processes and organisation, for example through the integration of maintenance, transmission and storage activities. This plan has made it possible to improve quality and time-to-market and to cut costs by around 17 million euro (36 million euro cumulatively for the period 2016-2018). Overall, the efficiency plans' target has been raised further to more than 60 million euro in 2022.

As regards the services dedicated to international operators in the gas segment, Snam Global Solutions is gradually expanding its contracts portfolio, supporting the group development strategy and capitalising on our know-how abroad.

In July, upon completion of an international tender called by Albgaç, the Albanian gas market infrastructural operator, for the selection of a qualified partner, an equity investment was established that will provide the services connected with the operation and maintenance (O&M) of the Albanian stretch of the TAP gas pipeline and which opens up the future to further potential technical collaborations for the development of the local gas market.

In the second half of 2018, a Memorandum of Understanding was signed with State Grid International Development, a 100% subsidiary of SGCC, and with the Beijing Gas Group, to investigate collaboration opportunities in China in the biogas and biomethane segments, for R&D and plants development, sustainable mobility and storage.

In a context of rising gas consumption (net of climate effects and the availability of the French nuclear power stations), and a general stability of the regulatory environment, with the extension of the fourth regulatory period up to 2019 for the transport, regasification and storage businesses, we have achieved very positive results that surpass our expectations. The operating profit in the adjusted configuration comes to 1,405 million euro, up 42 million euro (+3.1%) on the corresponding figure of 2017, also thanks to savings obtained with the Efficiency Plan, which made it partly possible to absorb the increase in operating costs, mainly due to the change in the consolidation scope. The adjusted net profit totalled 1,010 million euro, up by 70 million euro (+7.4%) compared to the adjusted net profit of 2017. The net cash flow from operations (1,826 million euro) allowed us to entirely finance net investments for the period, including equity investments. This flow and the collection deriving from the repayment by TAP of the shareholders' loan (371 million euro, net of the portions disbursed by Snam during the year), have made it possible to generate free cash flow of 1,161 million euro. Net financial debt, after payment to shareholders of the 2017 dividend (731 million euro in balance and interim), and cash flow deriving from the purchase of treasury shares (426 million euro) stands at 11,548 million euro, in line with the figure recorded as at 31 December 2017 (11,550 million euro).

As confirmation of the importance attributed to sustainability, we have finalised the transformation into a sustainable loan of the 3.2 billion euro in syndicate credit facilities with a bonus/malus mechanism on margins paid, linked to the achievement of specific ESG - Environment, Social and Governance - KPIs and published the Climate Action Bond Framework, which defines the criteria for the future issue of bonds aimed at financing investments in environmental sustainability. In December 2018, we successfully completed

the buy-back on the bond market, for a total nominal value of approximately 538 million euro, partly financed through a new bond issue at more advantageous conditions.

This transaction shall enable Snam to continue along the virtuous path of optimisation of its debt structure in terms of reducing the cost, extending average maturity and reducing refinancing risk. In addition to this, with the aim of further optimising and supporting the total remuneration of shareholders, as part of the share buy-back programme, in 2018 we bought back a total of 113,881,762 treasury shares, equal to 3.28% of the share capital.

In line with the provisions of the strategic plan, and with a view to improving the competitiveness and security of gas procurement, in 2018 we invested 882 million euro in infrastructures in Italy and 205 million euro in equity investments, including the acquisition of the stake in DESFA and investments in TAP, the company that will be carrying the natural gas from the Caspian Sea into Europe.

The commitment to ESG topics, now integrated for some years into the strategic decision-making process, also continues. The validity of the actions set and the performance that followed, have enabled us to be included in numerous sustainability indices, including some of the most prestigious, like the Dow Jones Sustainability World Index and the FTSE4Good, as well as to come in high up in the ESG ratings of MSCI, Sustainalytics and Vigeo.

Snam's governance aims to guarantee efficiency and transparency in its business operations. With the 2018 renewal of the partnership with Transparency International, Snam sought to confirm its commitment to the fight against corruption and also re-confirm, both nationally and internationally, its best practices in terms of business ethics and transparency

In terms of the safety of employees and contract workers, a reduction has been recorded in both the frequency and severity accident index, as further evidence of Snam's constant commitment toward developing and promoting the protection of health and safety at work, not only within the company but also in respect of its suppliers.

We continue to operate paying close attention to the environment and the territory and with increasing awareness of climate change aspects. The Company has set itself a target of reducing its natural gas emissions by 25% by 2025, with reference to 2016 values. In line with this objective, this year's results recorded a reduction in natural gas emissions of 7.9% on 2016. In these terms, September 2018 saw Snam also adhere to the Task Force on Climate Related Financial Disclosure (TCFD).

2018 was also an important year for the Snam Foundation, which celebrated its first birthday. With new projects and initiatives, the Foundation is now entering full operation.

This represents another lever to cultivate closer relations with the territory and better respond to the needs of the communities that host our infrastructures.

In looking to the future, the new strategic plan announced last November marks out a route that will allow Snam to continue to grow and create significant value for shareholders, making the most and staying one step ahead of market evolutions and helping reduce CO2 emissions, improve air quality and limit energy costs. More specifically, we aim to promote the development in Italy and elsewhere, not only of biomethane but also of all other activities involved in the energy transition.

With the new investments made in the network, the focus on new technologies, the development of new businesses and sustainable finance initiatives, 2022 Snam will be increasingly innovative, efficient and take a leading role in the energy transition in Italy and throughout Europe.

On the basis of the results achieved and the Company's prospects, the Board of Directors intends to propose that the Shareholders' Meeting approve the distribution of a dividend of 0.2263 euros per share, of which 0.0905 euros per share has already been distributed as an advance in January 2019, to confirm Snam's commitment to ensuring attractive and sustainable remuneration for shareholders over time.

Upon invitation of the Chair, Leo Amato, Chairman of the Board of Statutory Auditors, and Giulio Grandi, Partner in *PricewaterhouseCoopers S.p.A.*, read aloud the conclusions contained in the Report of the Board of Statutory Auditors to the Shareholders' Meeting pursuant to article 153 of Legislative Decree No. 58/1998 and article 2429 of the Italian Civil Code, and the concluding part of the Report of the Independent Auditors on the financial statements, respectively.

These conclusions are reproduced below.

“The Board of Statutory Auditors, based on the Financial Statements as at 31 December 2018, submitted to the Board of Directors on 18 February 2019, finds no reason, not even partial, to withhold its approval, and expresses its favourable opinion of the proposal for the allocation of profits and for the distribution of the dividend submitted by the Board of Directors, and invites you to resolve on this matter.”

“In our opinion, the financial statements provide a truthful and correct representation of the consolidated financial position of the Company at 31 December 2018, and the profit and loss and cash flows for the fiscal year that ended on that date, comply with the International

Financial Reporting Standards adopted by the European Union, as well as with the instructions issued implementing article 9 of Legislative Decree no. 38/2005.

We have carried out the procedures indicated in audit principle (SA Italia) 720B in order to express an opinion on the coherence of the report on operations and some specific information contained in the report on corporate governance and ownership structure set out in subsection 4 of article 123-bis of Legislative Decree 58/98, with the annual financial statements of Snam S.p.A. at 31 December 2018 and their compliance with provisions of law, as well as to issue a statement on any significant errors.

In our opinion, the report on operations and some specific information contained in the report on corporate governance and ownership structure mentioned above are coherent with the annual financial statements of Snam S.p.A. at 31 December 2018 and were prepared in compliance with the provisions of law. With reference to the declaration pursuant to article 14, subsection 2, letter e) of Legislative Decree 39/10, issued on the basis of the knowledge and understanding of the business and the related context acquired during the statutory audit, we have nothing to report.

The directors of Snam S.p.A. are responsible for preparing the non-financial statement pursuant to Legislative Decree no. 254 of 30 December 2016. We have checked that the directors have approved the non-financial statement. Pursuant to article 3, subsection 10, of Legislative Decree no. 254 of 30 December 2016, this statement is subject to separate certification of compliance on our part.”

Upon invitation of the Chair, the Secretary proceeded, with the consent of those present, to read the proposed resolutions of the Board of Directors regarding items 1) and 2) for today's Shareholders' Meeting and on the completion of the operations to be carried out by the Shareholders.

Agenda item 1 - Proposed resolution

*“Dear Shareholders,
you are invited to approve the financial statements of Snam S.p.A. as at 31 December 2018, which show a profit of 721.367.934,26 euros”.*

Agenda item 2 - Proposed resolution

*“Dear Shareholders,
you are invited to:*

- *approve the Financial Statements as at 31 December 2018, ended with a profit of 721.367.934,26 euros;*
- *allocate the profit for the year of 721,367,934.26 euros, remaining at 422,641,831.36 after the distribution of an advance on the dividend for the 2018 fiscal year of 0.0905 euros per share resolved by the Board of Directors meeting of 06 November 2018, as follows:*
 - *to the shareholders as a dividend of 0.1358 euros per share to shares in circulation on the coupon payment date, excluding treasury shares in the Company portfolio on that date, as the balance of the advance on the dividend, using Other available and distributable profit reserves until the total amount of the dividend is reached. The dividend related to the 2018 fiscal year therefore, between the advance and the balance, comes to 0.2263 euros per share;*
- *pay out the dividend balance of 0.1358 euros per share, starting from 26 June 2019, with an ex-dividend date of 24 June 2019 and record date of 25 June 2019”.*

The Chair opened the discussion.

The following shareholders intervened.

Rodinò, after congratulating the company on the results achieved, asked how the gas market is moving, and whether an overall picture could be given of the European situation, considering the expected increase in gas demand in the Americas and China, and the growing role of renewable energy, more efficient technologies, and the gradual transition from fossil sources to natural gas. The shareholder went on to ask for information about the trial currently taking place in Contursi Terme involving the injection of hydrogen into the transmission network, and in particular on the future prospects for this technology. He also asked how the world gas market will change in view of the discovery of the new field in the Eastern Mediterranean and, finally, what the trend had been over the first two months of 2019.

Loizzi, after having commented that the results were even better than the guidance given to the market, expressed his satisfaction with the growth in profits and dividends. The new plan, the shareholder observed, was well-structured. He asked what its fundamental principles were and whether the 5% target for dividend growth could be confirmed. He then asked what the objectives of the Snam Tech programme were, and what the investments planned in the business plan were directed at. Furthermore, he asked whether

details could be given about the biomethane production infrastructure projects and what the potential future developments might be for the Group's internationalisation. The shareholder concluded his intervention asking what the significant increase in activities at the LNG terminal in Panigaglia was due to.

Bonati, for Etica SGR, made and summarised the intervention transcribed below.

“Climate change (SDG 8 – Just transition): we are aware of the significance of energy transition for Snam, particularly in relation to the 2019-2022 Strategic Plan.

Etica Sgr supports the position stated in the 2018 publication by the Grantham Research Institute on Climate Change and Environment and the London School of Economics and the Hauser Institute for Civil Society at Harvard Kennedy School, which discusses the subject of “just transition”, i.e. one that also considers the social repercussions, above all on employees, of a new economic model that is committed to generating a lower environmental impact.

We are aware that Snam also considers the subject of the “just transition” to be among its areas of interest with a view to ensuring more efficient management of the financial risks deriving from climate change, which can also include social inequalities within a company.

With this in mind, we ask whether you would be willing to organise a meeting dedicated to the theme of Just Transition in which we would like to investigate two corporate areas interconnected with climate change; in particular:

The projects and investments planned for the purpose of retraining staff, in the context of the business transformation, to work in the new areas of business connected with climate change;

The projects and investments for managing any lay-offs in the context of the business reorganisation needed to adapt to the new areas of business connected with decarbonisation.

Management of emissions (mitigation)

Climate change (13): Etica Sgr wishes to congratulate Snam for adopting the recommendations of the Task Force on Climate-related Financial Disclosure (TCFD) of the Financial Stability Board, and for the consequent publication of the first edition of the document “Snam for the future – Financial Disclosure on Climate Change 2018”. This document has clarified the strategy being pursued by the Group as a whole and the scenarios developed, also regarding the risks and opportunities of climate change.

In relation to the decarbonisation objectives, and in view of the implementation of a so-called low carbon energy strategy, we would like:

To know whether an updated target has been set for the indicator relating to “Production of electricity from photovoltaic plants”, already exceeded in 2018, and, if so, what it is;

To receive an update on the achievement of the objectives for Cogeneration/Trigeneration Plants (relative to transmission) and Improving the Energy Efficiency of Buildings.

Human rights in the supply chain

Human rights (SDG 8): Etica Sgr is talking to Snam about the issue of human rights along the supply chain, in particular we appreciate the commitment that the company continues to demonstrate in this area and the results achieved regarding responsible supply chain management.

To develop this dialogue, we would like to ask if the requirement for SA8000 certification (in addition to the existing environmental, health and safety and quality certification requirements) is expected to be added to the requirements to be fulfilled during the supplier verification phase.

Furthermore, Etica Sgr appreciates the new Supply Chain Policy introduced since the end of 2018. In this respect, we would like to know what investments are planned for the formalisation of Snam's commitment to involving social enterprises (and/or local consortia) in the supply chain, with a view to promoting the employment of the weaker and more disadvantaged members of society, and if this commitment will be translated into quantifiable and achievable objectives within a certain time horizon and for the different business areas.

BoD Sustainability

Board of Directors (SDG 8): in relation to the issue of sustainability governance, Etica Sgr wishes to congratulate Snam for its commitment to carrying out an induction programme on aspects relevant for directors and auditors, which also includes ESG areas, that are significant or material for the company, in compliance with the provisions of the Corporate Governance Code.

In this context, we would like to know:

Whether the Board Induction programme is expected to continue in 2019 with the addition of ESG areas for members of the company bodies being renewed at this shareholders' meeting;
Whether the guidelines governing the activities of the Board include elements relating to ESG aspects that are relevant to the company and the Group;

Whether the process of assessing or self-assessing the activities of the Board also includes elements relating to ESG areas relevant for the company and the Group.

Topic: Dividends

Financial Statements (SDG 8). Etica Sgr notes that the Parent company payout is significantly higher than 70%, the threshold set by the SGR engagement policy. However, in

light of the fact that the multi-year Dividend Policy appears to be entirely financed by cash flows and that the debt optimisation seems to have begun, Etica Sgr will vote IN FAVOUR of the item on the Agenda. In this regard, we would like to ask the company to comment on the dynamic of the dividend, which according to the Strategic Plan is set to double, in terms of the dividend per share, by 2022, in relation to the expected dynamic of company debt.

The Chair moved on to discuss item 3) “*Authorisation to purchase and dispose of treasury shares, subject to revocation of the authorization granted by the Ordinary Shareholders' Meeting of 24 April 2018, for the part not yet implemented*”.

The Secretary, at the request of the Chair, with the consent of those in attendance, read out the proposed resolution of the Board of Directors regarding item 3) for today’s Shareholders' Meeting.

Agenda item 3 - Proposed resolution

“Dear Shareholders,

As regards the sale, disposal and/or use of the treasury shares, the Board of Directors and for it the Chief Executive Officer is hereby appointed with the mandate, with right to delegate any third party, to decide from time to time the criteria for establishing the relevant consideration and/or procedure, terms and conditions for the use of the treasury shares held in the portfolio, having considered the actual procedure for performing them, the evolution of the share prices during the period preceding the transaction and according to the best interest of the Company, and said transactions shall be carried out both directly and through brokers, according to the domestic and EU laws and regulation. All the above must be carried out according to the report annexed to this resolution and for the purposes described therein".

As no one asked to speak, the Chair moved on to discuss item 4) on the agenda of the Shareholders' Meeting: "Policy on remuneration pursuant to article 123-ter of Legislative Decree no. 58 of 24 February 1998".

He reported that the "2019 Remuneration Report" was filed at the registered offices of the company, at Borsa Italiana S.p.A. and published on the Company website on 5 March 2019. I would also remind you that the Report was delivered to you at the entrance to the meeting room and has been sent to those who requested it.

The Chair of the Compensation Committee Monica de Virgiliis, in representing the Compensation Committee (also made up of the Directors Elisabetta Oliveri and Alessandro Tonetti), made the following report to the shareholders' meeting:

“Dear shareholders, as in previous years, we bring to your attention the Remuneration Report , with which we intend to assure you of the utmost transparency regarding the structure and quality of the remuneration systems adopted by the Company, also in line with the provisions of the Consolidated Law on Finance which requires listed Companies to make their Remuneration Report available to the public.

The Remuneration Committee, which is made up, in addition to the undersigned, by Elisabetta Oliveri and Alessandro Tonetti, has undertaken to guarantee that the remuneration system is aligned with international best practice and with European and Italian law, and with it to contribute to support and promote the development of the Company in coherence with its strategic plan.

In 2018, the Remuneration Report received a large percentage of favourable votes. This reinforced the Remuneration Committee’s commitment to presenting the Board of Directors with the adjustments deemed most appropriate to guarantee that the document produced will be in line with national and international best practices, whilst also taking on board the suggestions of the various stakeholders.

Even the amendment to the information notice of the long-term share-based plan received broad consent, confirming the validity of the proposal to extend the perimeter of beneficiaries.

The Remuneration Report contained the policy guidelines defined with the aim of attracting, retaining and motivating a management team equipped with high professional qualities, recognising the responsibilities attributed, the results achieved and the quality of the contribution provided, promoting the creation of value over the medium and long term.

As usual, the Report sets out the objectives for 2019. The Committee has worked to define objectives that can meet the strategic challenges of the Group. In addition to the profitability, efficiency and investment objectives, the Company will also focus its efforts on developing the new businesses, and in particular the development of Biomethane and new business opportunities abroad.

Also as regards sustainability, an in-depth analyses was conducted which led to the definition of an accident objective which, in addition to the frequency index, also contemplates the severity index.

The second section of the Report contains all the information on the changes made to remuneration in 2018 in line with the remuneration policy set out in that year.

I hope that the actions taken will be welcomed and reflected in the advisory vote you are asked to cast on the first section of the Report. I would also like to thank you in advance for any comments you may wish to make at the Shareholders’ Meetings and in all other discussions.”

In light of the results of the votes and considering the contents of the slates presented and the proposals contained therein, Ms Chiara Contarino, representing the shareholder CDP Reti S.p.A., proposes that the appointment of Luca Dal Fabbro to the office of Chairman of the Board of Directors be put to the vote, ahead of any alternative proposal.

He therefore announced his support for the slate submitted by the aforementioned shareholder.

Rodinò welcomed the reconfirmation of Mr Alverà, who had achieved excellent results, opening the Company up to green investments, even in mobility.

As none asked to speak, the Chair, in relation to the type of topics on the agenda, proposed to discuss the items in points 10) to 12) together. Naturally the votes would be separate for each item on the agenda.

No-one took the floor.

The Chair moved on to the discussion of items from 10) to 12) on the agenda of the Shareholders' Meeting: 10) *Appointment of the Statutory Auditors*; 11) *Appointment of the Chairman of the Board of Statutory Auditors*; 12) *Determination of the remuneration of the Chairman of the Board of Statutory Auditors and the Standing Auditors*.

The Secretary, at the request of the Chair, with the consent of those in attendance, read out the proposed resolutions.

Agenda item 10 - Proposed resolution

Dear Shareholders,

pursuant to art. 20 of the By-laws, the Board of Statutory Auditors is appointed by the Shareholders' Meeting based on slates in which the candidates are listed by progressive number.

The slate of candidates for the Board of Statutory Auditors presented by shareholder CDP Reti S.p.A., representing 30.37% of the capital of Snam, is composed as follows:

○ for the office of Statutory Auditor:

1. Gianfranco Chinellato;
2. Donata Patrini.

○ for the office of Alternate Auditor:

1. Maria Gimigliano.

The shareholders listed in detail in the documentation that accompanies the slate (all related to savings management companies) collectively representing 2.075% of the capital of Snam, have jointly presented the following slate of candidates for the office of auditor of Snam S.p.A.:

○ for the office of Statutory Auditor:

1. Stefano Gnocchi.

○ for the office of Alternate Auditor:

Agenda item 11 - Proposed resolution

“Dear Shareholders,

pursuant to art. 20.3 of the Bylaws, the Shareholders' Meeting appoints as the Chairman of the Board of Statutory Auditors the Standing Auditor elected, with the procedures set out in art. 13.5, letters b) and b-bis), of the Bylaws, from the minority slates or with the procedures set out in art. 20.3 of the Bylaws.

Dear Shareholders,

the Standing Auditor indicated in the minority shareholders' list, who will obtain the greatest number of votes shall be Chairman of the Board of Statutory Auditors.

If, for any reason, there are no minority slates or no Statutory Auditors are appointed with the procedures set out in art. 20.3 of the Bylaws, you are invited to appoint as Chairman of the Board of Statutory Auditors the candidate proposed by the Shareholders elected with the same procedures”.

Agenda item 12 - Proposed resolution

“Dear Shareholders,

you are invited to approve the proposal to fix the gross annual compensation due to the Chairman of the Board of Statutory Auditors and each Statutory Auditor, respectively, in Euro 80,000.00 and Euro 60,000.00, plus reimbursement of the expenses”.

As no one asked to speak, the Chief Executive Officer proceeded with the answers to the questions put forward by the Shareholders.

In particular, with regard to the questions put by the shareholders Rodinò and Loizzi, the Chief Executive Officer first pointed out that the outlook to 2040 is that of an energy world divided, at global level, into coal, oil and gas for 25% each, and the remaining 25% divided up among nuclear, traditional hydroelectric, photovoltaic and wind power. Each increase of gas over coal produces a significant benefit in term of CO2. The European objective is to eliminate emissions by 2050: a study promoted by Snam together with other European gas operators indicates that this scenario can be achieved also through the use of renewable gas and that it would permit savings in bills of around 220 billion euros per year. From this perspective, he continued, the testing consisting of injecting hydrogen into the network is certainly very important. This testing has involved two factories belonging to Snam customers, and the first impressions are that this combustion works even better. Naturally, in general terms, the fact remains that the timing of the shift from conventional methane to clean methane will be dictated by policy.

As regards the sources of supply, the Chief Executive Officer pointed out that many European deposits are running out, and how North Africa internally is consuming ever greater quantities of gas. If the aim is not to increase dependency on Russia, it is therefore essential to search in the south-east Mediterranean: hence the importance of the acquisition made in Greece and the recent discoveries made in Egypt and Cyprus. The grand scheme, he pointed out, is to attempt to become a hub for the whole of Europe.

Moving on to the fundamental principles of the plan, the Chief Executive Officer recalled that the main component is that of investments in Italian assets, as the RAB depends on them. The plan is to make investments for 5.7 billion; this undertaking will make it possible to increase the RAB by around 2.5% per year. The profit, in turn, will grow by 4%, with the consequent increase in the dividend of 5% per year. On this point, he specified that the increase in the dividend's growth rate does not imply a rise in the debt, which is defined as the ratio between the debt and RAB.

SnamTec, he continued, is a project based on four pillars: first of all biomethane, hydrogen and the decarbonisation of methane, then sustainable mobility, then energy efficiency, and finally technology in general. The technology aspect is the part that absorbs most of the resources, with a pronounced focus on innovation on the existing infrastructure. Going forward, therefore, replacements and upgrading will represent an ever greater component with respect to development, as the network at this point has reached its maximum extension. On the other hand, around 9000 km of network will be fully amortised by the end of the Plan and it will therefore be time to replace this stretch. Biomethane and sustainable mobility, he added, are investments that are connected for the way the relative incentives are regulated. As for internationalisation, the Chief Executive Officer mentioned the agreements completed in China, and the project of Snam *Global Solutions*. The key point is the conviction that the best way to enter new markets is to offer one's expertise, creating relationships and seeking to acquire margins from consultancy: thereafter, the focus can be placed on capital investments. Whereas, as regards the increase in activities at the Panigaglia plant, he recalled that the LNG scenario is in fact evolving, above all thanks to the price which is now also competitive in Europe. Europe and Italy are lucky to have large storage basins, and LNG is sent all over the northern hemisphere. The gas stored in the summer season is then used throughout Europe in the winter months, and this reinforces the idea of being able to become a global gas hub, even as a global storage centre.

The Chief Executive Officer, continuing in response to the questions put forward by Bonatti for the shareholder Etica SGR, provided his assurance of the willingness to organise meetings to discuss "*just transition*" issues, and reassurance that Snam was not beset by layoffs, or skills that are disappearing.

Even the testing of hydrogen could make the network more technological and more complex, but it will not require fewer people. Naturally, there will be work to be done on the conversion and on learning new skills, and the initiative of the Snam Institute is focused on this very purpose.

He also pointed out that the Group will continue to study photovoltaic. Snam's network is therefore a network that is mainly underground, leaving little space for the installation of photovoltaic plants. The Company, in actual fact, is however doing much more, and in particular, with Terna, it is studying how to make gas compression more efficient. The pressure of the pipes can in fact raise the pressure up to 70 bar, but the obligations of redelivery to businesses are set at 5 bar: this difference can be a resource and it can provide the system, in coordination with the electricity infrastructure, with great flexibility and great support in reducing emissions, thanks to the conversion of compression plants operated by gas to dual fuel gas and electricity. Once again, he stated that Snam is assessing whether to introduce the SA 800 certification.

As for investments in the social chain, the Chief Executive Officer recalled that each year a day dedicated to suppliers was organised, referred to as *Partners Day*, where presentations were given of the Group's development programmes in order to allow suppliers to organise themselves in time. On these occasions, the social supply chain was also spoken about, an area in which the Company also intends to make greater commitments. Finally, as regards the Company's undertaking to ensure that directors receive an adequate induction on ESG matters, the Chief Executive Officer confirmed that this commitment will also continue under the new Board.

At this point, as no one else had asked to speak, the Chair declared the discussion closed and asked the Secretary to start the voting procedure on the various items discussed.

The Secretary invited those present not to leave the room for each vote and, again for each vote, invited them to report any deficiencies in entitlements to vote pursuant to the current law, company bylaws and regulations. No-one took the floor.

The outcome of the votes (11.35 a.m.) was as follows:

Assemblea Straordinaria e Ordinaria di Snam S.p.A.

2 aprile 2019

Risposte a domande pervenute prima dell'Assemblea
ai sensi dell'art. 127-ter del d.lgs. n. 58/19981

Domande pervenute dal Socio

Marco Bava

1) *CHE RAPPORTI ABBIAMO CON IL GOVERNO EGIZIANO ED ABBIAMO FATTO PRESSIONI PER FARE CHIAREZZA SULL'OMICIDIO DI REGENI?*

Le risorse scoperte nel Mediterraneo orientale (Egitto, Israele e Cipro) hanno innescato dinamiche di sviluppo regionale nel settore del gas naturale. Snam ne sta monitorando gli sviluppi, in stretto raccordo con il Governo Italiano e le nostre rappresentanze diplomatiche nell'area.

2) *Come mai non ci siamo costituiti parte civili nel processo milanese sulla tangenti?*
Snam, allo stato, non è parte di alcun "processo milanese sulle tangenti" e non rientra tra i soggetti che possono costituirsi parte civile ai sensi di legge.

3) *I certificatori di bilancio fanno anche una consulenza fiscale?*

Nessuna consulenza fiscale è attribuita alla società di revisione del bilancio da parte di Snam e delle società controllate e consolidate. E' vietato sia dalla normativa che dalle regole interne.

4) *A chi bisogna rivolgersi per proporre l'acquisto di cioccolatini promozionali?*

Snam lavora solo con fornitori qualificati. Il processo di qualifica, semplice e trasparente, è aperto a tutti. Per poter avviare tale processo basta iscriversi sul portale fornitori di Snam www.snam.it

5) *Avete intenzione di realizzare iniziative in favore degli azionisti come i centri medici realizzati dalla BANCA D'ALBA?*

È opportuno ricordare che rispetto all'esempio citato Snam non è una società cooperativa. Snam, attraverso la Fondazione nata nella seconda metà del 2017, ha avviato e avvierà una serie di iniziative per i propri stakeholder, in particolare in favore dello sviluppo dei territori nei quali opera. Ad esempio, la Fondazione ha siglato un accordo triennale con Fondazione Cariplo per progetti di rigenerazione urbana e lotta alla povertà educativa nel quartiere Corvetto di Milano, dove si trovano degli uffici di Snam e a poche centinaia di metri dalla sede centrale di San Donato Milanese.

6) *TIR: TASSO INTERNO DI REDDITIVITA' MEDIO e TIP = TASSO INTRESSI PASSIVI MEDIO?*

Nell'anno 2018 il tasso medio degli interessi passivi è stato pari a circa 1,5%, mentre il tasso interno di redditività medio (calcolato sull'equity, ROE o Return on Equity) è stato pari a circa il 16%, calcolato come rapporto tra Utile Netto Reported al 31 dicembre 2018 (960 milioni di euro) ed il Patrimonio Netto di Gruppo (5.985 milioni di euro) alla stessa data.

7) AVETE INTENZIONE DI CERTIFICARVI BENEFIT CORPORATION ed ISO 37001?

Snam sta approfondendo questi temi e valuterà una eventuale adesione qualora possano creare una maggiore razionalizzazione e una effettiva efficienza con i sistemi già presenti in azienda volti al continuo miglioramento della sostenibilità e della trasparenza.

8) Avete intenzione di fare le assemblee anche via internet?

Da anni Snam consente di assistere all'Assemblea, con una differita di pochi minuti, attraverso il sito web della Società. Lo Statuto Snam, viceversa, non prevede l'intervento in assemblea mediante mezzi di telecomunicazione.

9) A quanto sono ammontati i fondi europei per la formazione e per cosa li avete usati?

La Società non usufruisce di fondi europei per la formazione.

10) Avete in progetto nuove acquisizioni e/o cessioni?

Snam ha tassi di crescita organici tra i migliori nel panorama delle società europee di infrastrutture gas, con una grande visibilità anche nel lungo termine. Pertanto Snam non ha necessità di guardare a sviluppi inorganici per supportare la propria crescita. Inoltre di recente è stata rivista la politica dei dividendi offrendo una crescita del 5% fino al 2022. Con riferimento a possibili acquisizioni Snam monitora comunque il mercato nel caso si dovessero presentare possibili opportunità inorganiche alle quali saranno applicati i propri criteri di investimento illustrati al mercato.

11) Il gruppo ha cc in paesi ad alto rischio extra euro?

Il Gruppo Snam non ha conti correnti in Paesi ad alto rischio o al di fuori dell'area Euro.

12) Avete intenzione di trasferire la sede legale in Olanda e quella fiscale in GB? se lo avete fatto come pensate di comportarvi con l'uscita della GB dall'EU?

La Società non ha intenzione di trasferire la sede sociale e fiscale.

13) *Avete intenzione di proporre le modifiche statutarie che raddoppiano il voto?*

Allo stato la Società non ha esaminato o valutato proposte di modifiche statutarie per introdurre il voto maggiorato.

14) *Avete call center all'estero? se si dove, con quanti lavoratori, di chi e' la proprietà?*

Non abbiamo call center all'estero.

15) *Siete iscritti a Confindustria? se si quanto costa? avete intenzione di uscirne?*

Sì. Nel 2018 il contributo di Snam a Confindustria è ammontato a 155mila euro, incluso quello territoriale (31 province). La stima per il 2019 è sostanzialmente in linea con l'anno precedente. In particolare, in alcune aree geografiche, il contributo allo sviluppo del business è determinante.

16) *Come e' variato l'indebitamento e per cosa?*

L'indebitamento finanziario netto al 31 dicembre 2018 (11.548 milioni di euro) rimane sostanzialmente invariato rispetto all'anno precedente (11.550 milioni di euro). Il cash flow operativo e i flussi netti dovuti a TAP finanziano interamente l'esborso per investimenti tecnici, le acquisizioni, il dividendo distribuito e lo share buyback effettuato nell'anno. Le informazioni di dettaglio sulla variazione delle poste che compongono l'indebitamento finanziario netto sono fornite alle pagine 122 e 123 della Relazione finanziaria annuale 2018 pubblicata sul sito internet.

17) *A quanto ammontano gli incentivi incassati come gruppo suddivisi per tipologia ed entità?*

Intendendosi per incentivi i contributi pubblici a titolo gratuito ricevuti ed incassati, risultano pari a zero nel corso del 2018.

18) *Da chi e' composto l'odv con nome cognome e quanto ci costa?*

L'Organismo di Vigilanza è attualmente costituito dai seguenti tre componenti esterni, esperti in tematiche giuridiche, societarie, di economia e organizzazione aziendale, uno dei quali con funzioni di Presidente: Gianluigi Tosato (Presidente), Giovanni Maria Garegnani, Ugo Lecis.

Il compenso annuo lordo, allo stato, è stabilito in euro 50.000 per il Presidente ed euro 30.000 per ciascuno degli altri componenti.

19) *Quanto costa la sponsorizzazione il Meeting di Rimini di CI ed EXPO 2015 o **altre**? Per cosa e per quanto?*

Snam non ha sponsorizzato né il Meeting di Rimini 2018 né EXPO 2015. Nel 2018 il costo complessivo per liberalità, sponsorizzazioni e iniziative per il territorio è ammontato a circa 400mila euro.

Ogni proposta di liberalità, di sponsorizzazione e di iniziativa per il territorio è preventivamente valutata secondo regole di rilevanza, interesse, congruità e trasparenza.

20) *POTETE FORNIRMI L'ELENCO DEI VERSAMENTI e dei crediti AI PARTITI, ALLE FONDAZIONI POLITICHE, AI POLITICI ITALIANI ED ESTERI?*

Il Codice Etico Snam vieta la possibilità di erogare contributi, diretti o indiretti, sotto qualsiasi forma, a partiti, movimenti, comitati e organizzazioni politiche e sindacali, a loro rappresentanti e candidati. Tali indicazioni sono altresì ribadite nella Linea Guida Anticorruzione di cui il Gruppo si è dotato.

Non vi sono stati, pertanto, finanziamenti diretti o indiretti a partiti, movimenti, comitati e organizzazioni politiche e sindacali, a loro rappresentanti e candidati, in Italia e all'estero. Tutti i Documenti citati sono disponibili sul sito web della Società anche in inglese.

21) *AVETE FATTO SMALTIMENTO IRREGOLARE DI RIFIUTI TOSSICI?*

Non abbiamo smaltito irregolarmente rifiuti tossici.

22) *QUAL E' STATO l'investimento nei titoli di stato, GDO, TITOLI STRUTTURATI?*

Non vi sono investimenti in titoli di Stato o titoli strutturati.

23) *Quanto e' costato lo scorso esercizio il servizio titoli? e chi lo fa?*

Il cosiddetto "servizio titoli" è svolto da un soggetto terzo specializzato Computershare S.p.A. Il costo del servizio ammonta a circa 60 mila euro l'anno.

24) *Sono previste riduzioni di personale, ristrutturazioni? delocalizzazioni?*

Fatte salve quelle già in atto ex art.4 legge Fornero e che si concluderanno entro il 2019 (110 lavoratori in uscita) non abbiamo in previsione al di là del fisiologico turn over riduzioni di personale/ristrutturazioni/delocalizzazioni.

25) *C'e' un impegno di riacquisto di prodotti da clienti dopo un certo tempo? come viene contabilizzato?*

Non esiste alcun impegno di riacquisto di prodotto da clienti.

26) Gli amministratori attuali e del passato sono indagati per reati ambientali, RICICLAGGIO, AUTORICLAGGIO O ALTRI che riguardano la società? CON QUALI POSSIBILI DANNI ALLA SOCIETA'?

I contenziosi penali sono descritti nella sezione "Garanzie, impegni e rischi - Contenziosi e altri provvedimenti" della Relazione Finanziaria Annuale 2018 (pag. 281), pubblicata sul sito internet della Società.

27) Ragioni e modalità di calcolo dell'indennità di fine mandato degli amministratori.

Per l'Amministratore Delegato, in coerenza con le prassi dei mercati di riferimento, è prevista un'indennità per la cessazione del rapporto di amministrazione e del rapporto dirigenziale; alla risoluzione contestuale di entrambi i rapporti, in connessione con il mancato rinnovo del mandato alla sua scadenza o con la risoluzione anticipata del mandato, sono previste due annualità della remunerazione fissa annuale integrata della media dell'Incentivo Monetario Annuale erogato nell'ultimo triennio, e salvo quanto risultante dall'applicazione delle disposizioni del Contratto nazionale dei Dirigenti di aziende produttrici di beni e servizi. L'indennità non è dovuta se la risoluzione dei rapporti di lavoro avviene per giusta causa o per il licenziamento con preavviso per ragioni di carattere soggettivo integranti la nozione di giustificatezza ai sensi del contratto collettivo o nel caso di dimissioni.

Per gli altri amministratori non è previsto alcun accordo di fine mandato.

28) Chi fa la valutazione degli immobili? Quanti anni dura l'incarico?

In accordo con quanto previsto dalle nostre regole interne, la valutazione degli immobili in occasione di operazioni di compravendita viene effettuata da advisor convenzionati con i quali esistono specifici accordi quadro, tutti in scadenza durante l'anno in corso (a breve verrà effettuata una gara per due nuovi accordi che avranno la durata di 2 anni + ulteriori 2 opzionali).

29) Esiste una assicurazione D&O (garanzie offerte importi e sinistri coperti, soggetti attualmente coperti, quando è stata deliberata e da che organo, componente di fringe-benefit associato, con quale broker è stata stipulata e quali compagnie la sottoscrivono, scadenza ed effetto scissione su polizza) e quanto ci costa?

Il 18 aprile 2008 l'Assemblea degli Azionisti ha autorizzato il Consiglio di Amministrazione a estendere la polizza assicurativa, prevista per il management a copertura dei rischi professionali, agli amministratori e ai sindaci di Snam S.p.A. secondo i termini e le condizioni standard della prassi del mercato assicurativo.

Snam è dotata di una polizza D&O a copertura delle richieste di risarcimento danni da parte di terzi per atti compiuti nello svolgimento delle proprie mansioni da amministratori, sindaci e ogni altra figura manageriale della società. a. I BENEFICI NON MONETARI ED I BONUS ED INCENTIVI COME VENGONO CALCOLATI?

Benefit: per gli amministratori non esecutivi non sono previsti benefit; per l'Amministratore Delegato e gli altri dirigenti è prevista l'iscrizione al Fondo di previdenza complementare (FOPDIRE o PREVINDAI), al Fondo di assistenza sanitaria integrativa (FISDE) e a forme di copertura assicurativa a fronte del rischio morte e invalidità, nonché l'assegnazione di un'autovettura ad uso promiscuo.

Incentivi: l'incentivazione variabile di breve termine (Piano di Incentivazione Monetaria Annuale - IMA) è determinata in connessione ai risultati conseguiti da Snam nell'esercizio precedente rispetto agli obiettivi definiti e con riferimento ad un livello di incentivazione target (performance = 100) e massima (performance = 130) rispettivamente pari al 50% (target) e 65% (max) della remunerazione fissa per l'Amministratore Delegato. È fissato un livello di soglia (performance = 85) sotto al quale l'incentivo di breve termine non è erogato. Per gli altri Dirigenti l'incentivo variabile annuale è determinato per una parte (25%) dai risultati aziendali rispetto agli obiettivi assegnati all'Amministratore Delegato dal Consiglio di Amministrazione e, per l'altra parte (75%), da una serie di obiettivi individuali (focalizzati sulla performance economico/finanziaria, operativa ed industriale, sull'efficienza interna, su tematiche relative al modello delle competenze manageriali) assegnati in relazione al perimetro di responsabilità del ruolo ricoperto, in coerenza con quanto previsto nel Piano di performance della Società;

l'incentivazione di lungo termine prevede un piano basato sull'attribuzione di azioni ordinarie della Società (c.d. Performance Share), approvato dall'Assemblea ordinaria degli azionisti dell'11 aprile 2017. Il Piano di Incentivazione di Lungo Termine 2017-2019 (ILT), riservato ai titolari dei ruoli manageriali a maggior impatto sui risultati aziendali, prevede l'attribuzione annuale di azioni gratuite in misura variabile in funzione del ruolo ricoperto. L'eventuale erogazione è prevista dopo tre anni (periodo di vesting) in misura

connessa ai risultati ottenuti (Ebitda, con peso del 60%, Utile netto adjusted, con peso del 30%, Sostenibilità, con peso del 10%).

Per ulteriori dettagli si rimanda a quanto descritto nella Relazione sulla Remunerazione.

b. *QUANTO SONO VARIATI MEDIAMENTE NELL'ULTIMO ANNO GLI STIPENDI DEI MANAGERS e degli a.d illuminati, rispetto a quello DEGLI IMPIEGATI E DEGLI OPERAI?*

La remunerazione fissa dell'Amministratore Delegato è stata definita al momento della nomina e non è variata nel corso del mandato. L'aumento del costo del lavoro dei managers si attesta al 3,1%; per il resto della popolazione si attesta al 2,7%.

Le iniziative di efficienza hanno portato un beneficio in termini di riduzione dei costi operativi tra 2017 e 2018 di 17 milioni di euro principalmente grazie alla riduzione di costi di acquisto e revisione e ottimizzazione dei processi. L'incremento del costo lavoro è principalmente dovuto all'effetto degli adeguamenti riconosciuti dal contratto nazionale del lavoro. Si tenga infine presente l'ampliamento del perimetro delle attività a seguito delle acquisizioni dell'anno che ha determinato un incremento, in volume, del costo lavoro.

69) vorrei conoscere. *VI SONO SOCIETA' DI FATTO CONTROLLATE (SENSI C.C) MA NON INDICATE NEL BILANCIO CONSOLIDATO?*

70) vorrei conoscere. *CHI SONO I FORNITORI DI GAS DEL GRUPPO QUAL'E' IL PREZZO MEDIO.*

Con riferimento al rischio connesso alle variazioni di prezzo del gas naturale, in virtù del quadro regolatorio vigente, la variazione del prezzo del gas naturale a copertura del Fuel Gas e delle perdite di rete non rappresenta un fattore di rischio rilevante per Snam, poiché tutto il gas per attività strumentali è fornito dagli Shipper in natura. Simili coperture di rischio sono garantite dalle regolazioni dei Paesi dove operano le consociate estere o dai relativi contratti di trasporto.

Gli acquisti di gas, per le esigenze del Trasportatore diverse rispetto a quelle relative al bilanciamento, sono gestiti attraverso procedure concorsuali tramite la piattaforma MGS (Mercato per la negoziazione del Gas in Stoccaggio) gestita dal GME.

Le esigenze di acquisto del Trasportatore sono relative a:

- **Gas necessario alla copertura di GNC**
- **Gas necessario per imbottimenti di nuovi metanodotti**

- **Gas necessario per l'erogazione del Servizio di Default Trasporto**
Nell'anno solare 2018 abbiamo acquistato un totale di 1.806.358 MWh (170.679.493 Smc@38,1) per un controvalore economico di 47.155.001 € (prezzo medio ponderato 26,105 €/MWh).
