GIMA TT estimates for 2019

On the basis of the order book at December 31, 2018 and the trend in orders in the first three months of 2019, if current conditions are confirmed in the coming months, **GIMA TT** estimates **revenue** of around 110 million euros and a **gross operating margin (EBITDA)** of around 40 million euros.

In commenting on the Company's performance at December 31, 2018, **Sergio Marzo, Chairman of GIMA TT**, declared: *“The year ended with an increase in revenue, margins and profits, strengthening the Company's leadership and its ability to offer highly innovative solutions for the packaging of tobacco products. We are satisfied with the growth that GIMA TT has achieved: in 2018, GIMA TT accelerated the process of diversifying its customer base, concluding an important contract with Shanghai Tobacco Machinery Co. Ltd. and expanding its product range, with a first line for the packaging of electronic cigarettes (vaping products). We continue to invest in R&D, both machines for packaging conventional products and solutions for new-generation, reduced-risk products: indeed, innovation is the driving force behind our growth. The market of reference for the last few months guarantees lower visibility linked to the slowdown in the penetration of new generation products by our customers. The 2019 forecast takes this into account but does not diminish our confidence, nor that of the controlling shareholder, in the Company's growth prospects in a highly profitable sector still with considerable potential in the medium term. The Shareholders' Meeting approved the distribution of a dividend unchanged from last year. Management is highly motivated and focused on the development of new markets, taking advantage of the Company's propensity for innovation and its design capacity, in order to seek out new business opportunities that allow diversification of the portfolio, reducing dependence on the tobacco market alone”* - the Chairman concluded.

New plan to buy and sell treasury shares approved

The Shareholders' Meeting renewed the **authorisation to buy and sell treasury shares** up to the maximum limit permitted by law. The proposed purchase price is equal to the average stock price posted by the shares in the five days prior to the purchase (+/-10%), whereas the proposed selling price will be at least equal to the average purchase price. As of today's date, GIMA TT owns 440,500 treasury shares.

Remuneration Report

The Shareholders' Meeting also voted in an advisory capacity to approve the first section of the **Remuneration Report** prepared in accordance with art. 123-ter, para. 6 of the Legislative Decree 58/1998.

The manager responsible for the preparation of the Company's accounting documents, Lorenzo Giorgi, declares in accordance with article 154 bis paragraph 2 of the Consolidated Finance Act that the accounting information contained in this press release agrees with the books of account, the accounting entries and supporting documentation.
