— Q & A

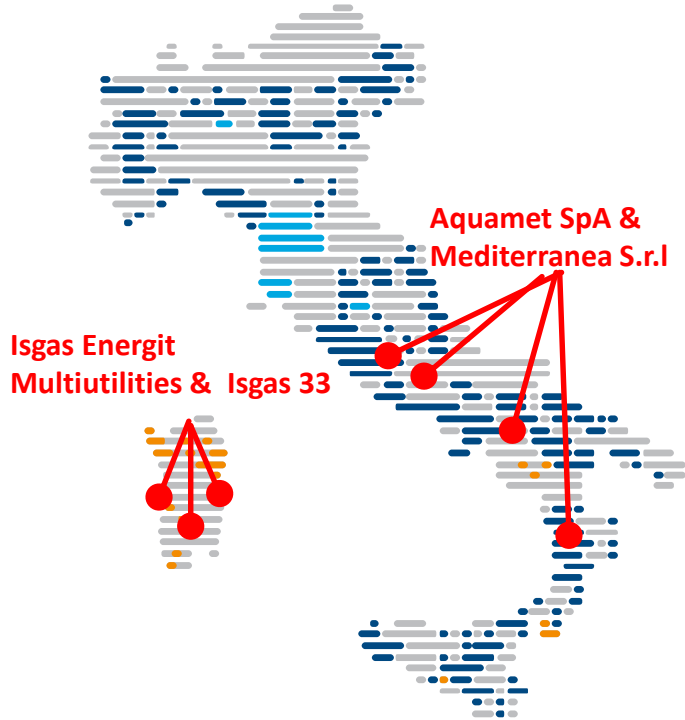

— Annexes

— Conscoop - Transaction overview

- Over 50,000 users acquired
- Total valuation (EV) €68.6 mln with total RAB aligned to EV

The transaction perimeter includes the following:

- ✓ **Natural Gas users⁽¹⁾ ~ 27,400 RdP** in 15 concessions in Central-Southern Italy (Lazio, Campania, Basilicata, Calabria)
- ✓ **LPG users ~ 22,300 RdP** in 3 concessions in Sardinia from **Isgas Energit Multiutilities**
- ✓ **A 10% stake in Isgas 33 (€0.3 mln)** holding one concession in Sardinia with **600 users** temporarily served with LPG with a put/call option for the remaining 90% (at RAB value) once converted to natural gas (LNG)

(1) Of which ~ 23,800 users from Aquamet S.p.A business going concern and ~ 3,600 users from the 100% stake in Mediterranea S.r.l.

— Picarro: Innovative Laser Technology

Main advantages :

- Laser absorption spectroscopy technology
- Sensitive not only to methane (CH_4) but also to ethane (C_2H_6) (can identify biogenic natural gas for example coming from sewers or pools)
- Much higher sensitivity (parts per billion = $\mu\text{g}/\text{kg}$) 1,000 times higher than current laser systems (ppm: parts per million = mg/kg)
- Dispersion can be detected even at about 150-200 m depending on wind speed
- The vehicle can travel at the same speed as other vehicles without obstructing traffic

— Disclaimer

Italgas's Manager, Giovanni Mercante, in his position as manager responsible for the preparation of financial reports, certifies pursuant to paragraph 2, article 154-bis of the Legislative Decree n. 58/1998, that data and information disclosures herewith set forth correspond to the company's evidence and accounting books and entries.

This presentation contains forward-looking statements regarding future events and the future results of Italgas that are based on current expectations, estimates, forecasts, and projections about the industries in which Italgas operates and the beliefs and assumptions of the management of Italgas.

In particular, among other statements, certain statements with regard to management objectives, trends in results of operations, margins, costs, return on equity, risk management are forward-looking in nature.

Words such as 'expects', 'anticipates', 'targets', 'goals', 'projects', 'intends', 'plans', 'believes', 'seeks', 'estimates', variations of such words, and similar expressions are intended to identify such forward-looking statements.

These forward-looking statements are only predictions and are subject to risks, uncertainties, and assumptions that are difficult to predict because they relate to events and depend on circumstances that will occur in the future.

Therefore, Italgas's actual results may differ materially and adversely from those expressed or implied in any forward-looking statements. Factors that might cause or contribute to such differences include, but are not limited to, economic conditions globally, political, economic and regulatory developments in Italy and internationally.

Any forward-looking statements made by or on behalf of Italgas speak only as of the date they are made. Italgas does not undertake to update forward-looking statements to reflect any changes in Italgas's expectations with regard thereto or any changes in events, conditions or circumstances on which any such statement is based.

The reader should, however, consult any further disclosures Italgas may make in documents it files with the Italian Securities and Exchange Commission and with the Italian Stock Exchange.
