Testo del comunicato

Vedi allegato.

Colleferro, 11th July - Approximately two minutes after the Vega launcher's liftoff, shortly after ignition of the second stage (Zefiro 23), a launcher anomaly occurred – leading to the premature end of the mission.

Data analyses are in progress to clarify the reasons for this failure. An independent inquiry commission will be set up in the coming hours.

About Avio

Avio is a leading international group engaged in the construction and development of space launchers and solid and liquid propulsion systems for space travel. The experience and knowhow built up over more than 50 years puts Avio at the cutting-edge of the space launcher sector, solid, liquid and cryogenic propulsion and tactical propulsion. Avio operates in Italy, France and France Guyana with 5 facilities, employing approx. 1000 highly-qualified personnel, of which approx. 30% involved in research and development. Avio is a prime contractor for the Vega programme and a sub-contractor for the Ariane programme, both financed by the European Space Agency ("ESA"), placing Italy among the limited number of countries capable of producing a complete spacecraft.
