PRESS RELEASE

BANCA IMI: FINAL RESULTS AS AT 31 DECEMBER 2019 APPROVED

- Consolidated net profit exceeds 1.4 billion euro, the highest ever achieved since Banca IMI was established
- Consolidated total income of 2,659 million euro (+58.1% on 31 December 2018)
- Net interest income rose sharply (+51.9%) and profits from the management of financial assets doubled
- Operating profit of 2,186 million euro (+79.6% on 31 December 2018)
- Consolidated profit for the year of 1,415 million euro, up 76.2% from 803 million euro as at 31 December 2018
- Total assets rose to 192 billion euro, up 16% from 165 billion euro as at 31 December 2018
- CET1 ratio at 10.2% and Total Capital Ratio at 15%, without taking account of the result of the period in any way

Milan, 4 February 2020 - The Board of Directors of Banca IMI, the investment bank within the Intesa Sanpaolo Group, led by CEO **Mauro Micillo** and General Manager **Massimo Mocio**, has approved the separate and consolidated financial statements as at 31 December 2019 in a meeting held today and chaired by **Gaetano Miccichè**.

Consolidated profit for the year amounted to **1,415 million** euro - an unprecedented performance in the Company's history - up more than 76% from 803 million euro at 31 December 2018. Profits were driven by the growth in revenues, characterised by a robust level of net interest income - which have risen steadily since the beginning of the year (+51.9% over the same period last year) - and profits from the management of financial assets which doubled to 1,363 million euro.

The revenues recorded in 4Q19 of 570 million euro saw a sharp increase in net fee and commission income and are once again very high, bringing the **total income** for the year to **2,659 million** euro (+58.1%, an increase of 977 million euro). **Capital Markets** assets contributed **2,225 million** euro and **Investment Banking** and **Structured Finance** assets contributed **434 million** euro.

Thanks to a well-controlled operating cost structure (473 million euro), the effect of higher revenues flowed entirely to **operating profit** which rose to **2,186 million** euro (up +79.6% compared to 31 December 2018), bringing the **cost/income ratio** to a noteworthy **17.8%** from the previous 27.7%.

Impairment losses, provisions and **other operating expenses** accounted for a total of **88 million** euro. This amount includes 59 million euro for contributions paid for 2019 to the European and Italian Single Resolution Funds.

A factor contributing to the economic performance was the growth in **total assets**, which rose to 192 billion euro from 165 billion euro as at 31 December 2018. In addition to the organic growth of the securities portfolios in the banking book with more than 16 billion euro in new net investments during the year, there was also an increase in on-balance sheet structured finance loans with 2 billion in new net production since the end of the previous year. The growth in banking book assets together with the increase in market risk requirements brought the Risk-Weighted Assets to 34 billion euros at the end of the quarter.

Own funds for regulatory purposes equal **5.1 billion** euro and do not consider the financial result for the year in any way.

For the second year and in compliance with the approach adopted by the Intesa Sanpaolo Group, the calculation of own funds implements the option of mitigating the impact of first-time-adoption of the new IFRS 9 with regard to the impairment share accounted for (the "static" approach).

The Common Equity Tier 1 Ratio, Total Capital Ratio and Leverage Ratio so calculated reached 10.2%, 15.0% and 4.85%, respectively. In compliance with the provisions set out in (EU) Regulation 2017/2395 of 12 December 2017, information regarding own funds for regulatory purposes and prudential ratios of Banca IMI, both with and without application of the transitional rules set out in the regulation, are provided below.
