PRESS RELEASE CONCERNING COVID-19

Colleferro, 25th February 2020. Concerning the CoronaVirus outbreak currently ongoing, first of all Avio expresses its solidarity to the communities and the people hit by the emergency.

In the meantime, Avio has activated a range of procedures and actions oriented to safeguard the health and safety of its employees, clients, and suppliers, and to mitigate the impacts on its industrial activities, in compliance with the guidelines of the Italian Government and Health Authorities.

As an example, these include the sanification and disinfestation of the offices and production facilities, the limitation of travels not deemed essential for the business, and home working.

At the moment, all the operations at Avio's facilities, in particular in Colleferro and in French Guiana, continue regularly to allow the achievement of the operating objectives.

Avio will communicate additional information to provide the latest developments as soon as available.

Avio S.p.A.

Avio is a leading international group operating in the manufacturing and development of space launchers and propulsion systems. The experience and knowhow built up over more than 50 years puts Avio at the cutting edge of the space launcher sector, solid, liquid and cryogenic propulsion and tactical propulsion. Avio operates 5 industrial facilities in Italy, France and France Guyana, employing approx. 1,000 highly-qualified personnel, of which approx. 30% involved in research and development. Avio is a prime contractor for the Vega programme and a sub-contractor for the Ariane programme, both funded by the European Space Agency ("ESA"), placing Italy among the limited number of countries capable of producing a complete spacecraft.
