LETTER OF THE CHAIRMAN OF THE REMUNERATION AND NOMINATIONS COMMITTEE

Shareholders,

on behalf of the Remuneration and Nominations Committee, I am pleased to submit for your review the "2020 Report on the Remuneration Policy and the Compensation Paid in 2019", prepared in compliance with current legislation and approved by the Board of Directors on March 4, 2020.

The Company's remuneration policy aims to align the interests of shareholders and management, as well as the ability to attract the best professional skills to fill strategic managerial roles, enhancing people and ensuring their inclusion and equal opportunities.

With a view to increasing transparency towards the stakeholders and the market, in drafting this policy, we have taken into account the suggestions and indications received from all stakeholders and areas of improvement suggested by the main proxy advisors, with whom we have maintained an open and constructive dialogue.

In line with the indications received, during the year, the Remuneration and Nominations Committee proposed to the Board of Directors a new structure and a new articulation of the objectives contained in the short and long term incentive plans for the Chief Executive Officer/Chief Operating Officer and for strategically important managers, who aim to ensure ever greater alignment between the performance of the management, the medium/long-term objectives of the Company and the interest of Shareholders and stakeholders.

These plans are, among other things, characterized by specific attention to sustainability objectives, in response to growing attention on the part of investors to this issue and in line with the sensitivity towards such issues that Italmobiliare has always cultivated. In fact, in its long history as a holding company of diversified interests in the industrial and financial sectors, Italmobiliare was one of the forerunners in Italy in adopting innovative solutions for sustainable development, having already implemented ambitious policies of sustainability since the 1990s, coordinated by dedicated functions and fully integrated into the strategic development priorities. Italmobiliare considers sustainability, in the broadest economic, social and environmental sense, as an essential lever of competitiveness and value creation for all parties involved.

The changes concerning the structure and objectives of the short and long-term incentive plans were also introduced taking into account the results of a comparative market study conducted with the help of a leading consultancy firm.

Lastly, this report introduces some new elements, listed below, to align policy with national and international best practices, also considering the evolution of European and Italian regulations. In particular, I would like to highlight:

- a clear and exhaustive description of the contribution of the remuneration policy proposed by Italmobiliare to the corporate strategy and the pursuit of long-term interests and the sustainability of the Company.

- identification of the procedural conditions applicable if there is a need to derogate from some elements of the remuneration policy;
- constant improvement in the methods of presenting the remuneration policy and the compensation paid to ensure ever greater transparency towards Shareholders and stakeholders.

I hope this approach meets the approval of the shareholders called to express themselves on this matter, in the conviction that transparency is a vital condition for a calm discussion at the Shareholders' Meeting.

Paolo Sfameni
***Chairman of the Remuneration
and Nominations Committee***

- introduction of a **new long-term "Phantom Stock Grant" incentive plan** which provides for the assignment of a certain number of rights to receive Phantom Stocks linked to the value of the share at the end of the three-year vesting period and which aims to **further align the interests of management and those of the shareholders**, to support the achievement of medium/long-term strategic corporate objectives and to ensure a high level of attraction and retention of key resources by offering remuneration packages in line with market practices.

The changes to this Report implement the new legislation (*Legislative Decree 49/2019 transposing EU Directive 2017/828*) also include:

- the provision of a binding vote on Section I ("Report on the Remuneration Policy") and a non-binding vote, on Section II ("Report on the Compensation Paid") by the Shareholders' Meeting;
- the expansion and strengthening of information regarding the contribution offered by the remuneration policy to the corporate strategy, the pursuit of long-term interests, with attention to sustainability issues;
- greater transparency in Section II on the levels of achievement of the individual objectives for the variable incentive schemes and the related level of payout for each goal.

SHAREHOLDERS' ENGAGEMENT

Italmobiliare recognizes the great importance of constant dialogue and continuous interaction with the main recipients of the Remuneration Policy, aimed at guaranteeing continuous improvement and adoption of market best practices and the implementation of the main areas of improvement indicated by the Shareholders and the Proxy Advisors.

For this reason Italmobiliare devoted its attention during the year to the indications received at the last Shareholders' Meeting and took them into account in adopting the improvements included in this report. In particular, the aim has been for **better presentation of the information and greater transparency** with regard to the incentive schemes and the performances achieved.

With regard to remuneration, the Board of Statutory Auditors expresses opinions required by governing regulations in reference to, in particular, the remuneration of Directors holding particular offices, pursuant to Art. 2389 of the Italian Civil Code, verifying their consistency with the Company's Remuneration Policy. The Board of Statutory Auditors regularly attends the meetings of the Remuneration and Nominations Committee.

PURPOSE AND PRINCIPLES OF THE REMUNERATION POLICY AND HOW IT IS LINKED TO ITALMOBILIARE'S STRATEGY

Italmobiliare' 2020 Remuneration Policy, explained in this report, is defined in accordance with the Company's governance model and the recommendations made by the Corporate Governance Code and has the aim of **ensuring the alignment of management's interests with the interests of all its stakeholders**.

In particular, this policy aims to **attract, retain and motivate staff with the professional qualities** required to manage the Company successfully, **promoting the sustainable creation of value over the medium/long term** and establishing a **direct link between the remuneration accrued and performance achieved** and supporting the Company's main strategic drivers in alignment with the interests of the Shareholders. The Remuneration Policy is also defined taking into account the best market practices adopted by listed companies and a continuous monitoring and control of risk.

Italmobiliare's strategic vision makes available to portfolio companies its own economic resources, management skills and industrial and financial network to provide support for their medium-long term development, economic growth, internationalisation and evolution according to the best practices in terms of management, sustainability and corporate governance.

To this end, each of the components of the remuneration offered to the Company's management team responds to a precise purpose in pursuit of this strategic vision and, thanks to a **suitable balance of fixed and variable components**, helps structure a compensation package that guarantees effective alignment between management's remuneration and shareholders' interests, expressed first and foremost by the proportional nature of the variable components accrued and the results achieved in the short and long term.

In its long history as a holding company of diversified interests in the industrial and financial sector, Italmobiliare was among the **forerunners in Italy in adopting innovative solutions for sustainable development**. As early as the 1990s, it implemented ambitious sustainability policies coordinated by dedicated functions, fully integrated into strategic development priorities.

Thanks to this experience, there has developed a constant commitment to the identification and implementation of best practices in terms of sustainability, both at process and product level, and in the definition of effective reporting tools.

In line with its mission as an investor committed to "playing an active and continuous role in the process of growth and enhancement of the portfolio, combining development, internationalisation and innovation with an effective governance and risk management model", Italmobiliare considers sustainability, in its broadest sense, economic, social and environmental, as an essential lever of competitiveness.

To this end, in 2019 it laid down **a sustainability policy** valid for the three-year period 2020-2022 to take all the necessary steps to guarantee a sustainable approach, not only in the investment evaluation phase, but also in the management of portfolio investments.

In particular, ESG factors have become an integral part of Italmobiliare at three different levels:

1. Selection of investment opportunities, by assessing the exposure to ESG risks of the potential target company;
2. Completion of the investment, through an active dialogue with the portfolio companies with a view to promoting ESG best practices;
3. Adoption of a system of reporting and disclosure of the ESG performance (e.g. Sustainability Report).

The Sustainability Policy is the appropriate tool identified by Italmobiliare to orient active dialogue with the portfolio companies on ESG issues and guide the consequent measurement and evaluation of their performance. The Policy is based on the following **5 Pillars**, which act as guidelines for the direct application of the principles of sustainability:

1. Sustainable growth of the investment portfolio and careful monitoring of risk profiles.
2. Ethics, integrity with current legislation and adoption of the highest standards of transparency in communications.
3. All-round health and well-being for all employees of Group companies.
4. Enhancement and growth of the skills of Group personnel.
5. Promotion of the circular economy, promotion of investments in research aimed at designing products with a view to life cycle, recovery and recycling of materials, re-entry of waste into the production process.

Italmobiliare's remuneration policy is a fundamental tool for pursuing sustainability policies; specific targets have therefore been adopted for 2020 within the scorecard of the short-term incentive plan.

Components of remuneration	Characteristics and purpose
<p style="text-align: center;">Fixed Remuneration</p>	<ul style="list-style-type: none"> ● Includes all fixed annual remuneration (i.e. gross annual pay from employment, directors' fees, compensation for specific offices, etc,...); ● It is defined in such a way as to adequately remunerate the role, i.e. the nature of the activity carried out and the responsibilities assigned to it, even in the event of a reduction or absence of variable components.
<p style="text-align: center;">MBO <i>(Short-term variable incentive)</i></p>	<ul style="list-style-type: none"> ● This is commensurate with the role held, i.e. the nature of the impact on the company's overall performance in the short term; ● It is connected with the achievement of annual quantitative and/or qualitative performance objectives, which can be objectively measured and are consistent with the goals set out in the Company's strategic plan and sustainability policy; ● It is designed in such a way as to reduce or increase proportionally with the degree of performance generated in respect of the goals assigned.
<p style="text-align: center;">LTI <i>(Long-term incentives)</i></p>	<ul style="list-style-type: none"> ● This is commensurate with the role held, i.e. the nature of the impact on the company's overall performance in the medium/long term; ● It is connected with the achievement of multi-year quantitative and/or qualitative performance objectives, which can be objectively measured and are consistent with the primary goal of creating value for shareholders; ● It is designed in such a way as to reduce or increase proportionally with the degree to which the goals assigned are achieved and value is generated.

The Italmobiliare Remuneration Policy, with reference to the type of components of remuneration to be paid to the various categories of policy beneficiaries, is defined in such a way as to be consistent with the indications given in the Corporate Governance Code and the guidelines issued by the main proxy advisors, as well as with market practice. Specifically:

- The remuneration of Non-Executive Directors consists only of **fixed compensation**, so it is not linked to the Company's results;
- the remuneration of the Chief Executive Officer/Chief Operating Officer and Key Management Personnel consists of a **fixed part and a variable part**, with the latter in turn consisting of a short-term and a medium/long-term component;
- the remuneration of the Financial Reporting Officer and the Head of Internal Audit consists of a **fixed part which is predominant with respect to the variable part**. The short-term variable component is primarily linked to goals relating to the role and responsibilities.

1. Pay Mix

The Remuneration Policy, i.e. each of the components of remuneration planned, is defined in such a way as to **guarantee a suitable balance of fixed and variable components** and, of the latter, between short-term (annual) and medium/long-term (multi-year) variable components. The method by which the adequacy of said balance has been defined is connected with the nature of the role, its impact on the pursuit of corporate objectives and market practice for similar roles.

The current pay mix is shown below:

The “target” pay mix refers to the potential full achievement of the performance objectives linked to the annual variable component (MBO) and the long-term variable component (LTI) (100% achievement of objectives). Similarly, the “maximum” pay mix refers to the scenario whereby there is an overperformance of all objectives linked to the annual variable component (MBO) and the long-term variable component (LTI) (maximum score of objective achievement).

It is still up to the Shareholders’ Meeting and the Board of Directors to determine the remuneration as per current regulations (pursuant to art. 2389, paragraph 1 and paragraph 3), in order to ensure that the remuneration policy is implemented in a way that is effective and consistent with best practices and market dynamics, as well as following the logic of attracting and retaining talented people.

Monetary disbursements may also be envisaged that from time to time, through bonuses and one-off discretionary payments, reward certain results or performance that are not already included in the short and medium/long-term variable components of remuneration. The disbursement of one-off cash premiums to particularly strategic management figures who have stood out by making exceptional individual contributions, is an important mechanism by which to differentiate and ensure meritocratic selection and, therefore, to retain excellent resources. These forms of remuneration are assigned by the Board of Directors on the recommendation of the Remuneration and Nominations Committee, after hearing the opinion of the Board of Statutory Auditors pursuant to art. 2389 of the Italian Civil Code, if appropriate.

REMUNERATION OF THE BOARD OF DIRECTORS AND BOARD OF STATUTORY AUDITORS

At the date of this Report, Italmobiliare's Board of Directors consists of an Executive Director, i.e. the Chief Executive Officer/Chief Operating Officer, and Non-Executive Directors. The other Directors who hold particular offices (Chairman, Deputy Chairman) receive additional remuneration approved by the Board of Directors, on the proposal of the Remuneration Committee, after hearing the opinion of the Board of Statutory Auditors, pursuant to art. 2389 paragraph 3 of the Italian Civil Code. Non-Executive Directors only receive a fixed remuneration linked to the office and an attendance fee to be paid on the basis of participation at meetings of the Board Committees, in accordance with the resolutions of the Shareholders' Meeting. Non-Executive Directors do not receive variable components of remuneration.

The Directors are also entitled to reimbursement of the expenses incurred for their office and a D&O (Directors & Officers) liability insurance policy, which covers third-party liability of the corporate bodies in going about their duties. The Chairman may also be assigned specific illness and injury policies.

REMUNERATION OF THE CHIEF EXECUTIVE OFFICER/CHIEF OPERATING OFFICER

Remuneration of the Chief Executive Officer/Chief Operating Officer is defined in line with the powers conferred and the principles and purpose of the Company's Remuneration Policy, as well as in line with market benchmarks for similar positions in comparable companies.

The remuneration package of the Chief Executive Officer/Chief Operating Officer is structured into its various components in such a way as to guarantee:

- Consistency between the results achieved and the variable remuneration schemes implemented by establishing performance objectives that involve a reasonable amount of challenge for the person concerned;
- Alignment with the best market practices in terms of remuneration pay mix (fixed and variable components of remuneration);
- A link between the short- and long-term Company results, in terms of creating value;
- The correct remuneration according to role, powers and responsibilities;
- Long-term loyalty and retention.

The remuneration of the Chief Executive Officer/Chief Operating Officer is defined according to criteria that assure a suitable balance of fixed and variable components of remuneration and, with regard to the latter component, of short- and long-term variable components. This structure promotes a solid alignment between the remuneration disbursed and/or accrued and the creation of value in the long-term.

1. Fixed Remuneration

For the 2017-2019 mandate, the fixed component of the Chief Executive Officer/Chief Operating Officer's remuneration was commensurate to the powers and responsibilities assigned to him and totalled Euro 1,000,000 per year.

The Board of Directors that will be appointed for the 2020-2022 mandate, in line with the decision-making process already described, will determine the remuneration of the Chief Executive Officer/Chief Operating Officer on the proposal of the Remuneration Committee.

In total, the fixed component is determined in such a way as to ensure an adequate and sustainable remuneration, even if the variable component should decline. This is in accordance with the objectives of this policy. The Remuneration Committee conducts regular analyses of the external competitiveness of the fixed remuneration, so as to assess the consistency of the remuneration of the Chief Executive Officer/Chief Operating Officer with respect to the same roles held in comparable companies. This analysis was last carried out in 2016, with the help of Spencer Stuart and the Hay Group as advisors.

The compensation for the roles held in subsidiary companies and/or associates are repaid in full to Italmobiliare.

2. Short-term variable remuneration (MBO)

The Chief Executive Officer/Chief Operating Officer, as well as other Key Managers of the Company, are recipients of an annual incentive scheme (the MBO plan), which entitles them to receive a cash bonus when specific performance objectives are achieved, measured over a time frame of one year and consistent with the Company’s strategic objectives, set annually.

The MBO plan envisages the assignment of objectives that are challenging, possible, measurable, can be influenced by the party to whom they are assigned and which are consistent with their responsibilities. The objectives are a combination of Group economic-financial metrics, strategic and operational objectives that are under the influence of each manager and specific objectives related to ESG factors.

As a rule, the MBO plan’s annual performance scorecard includes between two and five objectives. For each objective, a minimum level is defined, below which it is considered that the objective has not been attained, a target level at which the objective is deemed to have been achieved 100% and a maximum level, set as a for the maximum achievement. The target performance level, achievement of which gives entitlement to receive 100% of the incentive assigned, is, as a rule, defined in line with the company’s budget.

The level of achievement of the MBO card as a whole is defined as the weighted sum of the level of achievement of each objective for the related weight assigned.

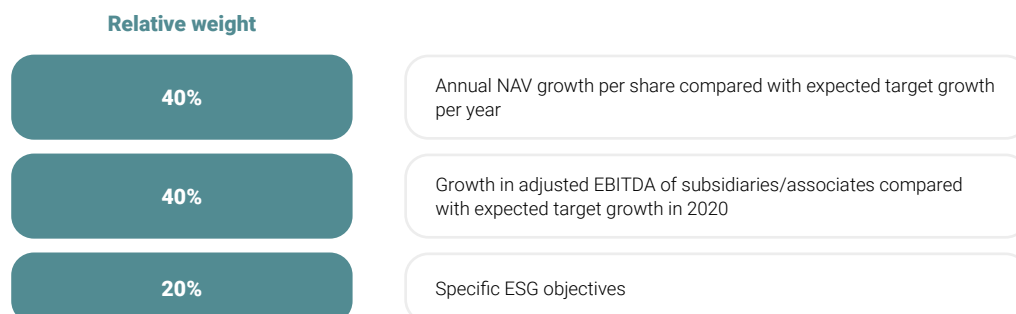

If objectives are achieved at target level, i.e. 100% of performance, the Chief Executive Officer/Chief Operating Officer accrues the right to receive a monetary bonus equal to 100% of the MBO target.

The MBO plan covers payment of a premium in the event that the minimum level of results is achieved, at which the premium accrued is 66% of the fixed remuneration. Achievement of the maximum level of results entails the accrual of a premium equal to 166% of the fixed remuneration.

Below are the objectives that make up the scorecard of the MBO plan, **attributable to profitability, value creation and sustainability requirements**, and which favour the orientation of the main corporate priorities in the short term. These objectives were considered in line with the strategic management priorities in terms of both development and cost control, as well as being in line with best practices as emerged from the analyses carried out with the support of external consultants.

MBO scorecard of the CEO/COO

Starting 2019, the company has decided to **apply claw back clauses** in connection with any premiums accrued and disbursed in connection with the MBO plan. In accordance with the provisions of the Corporate Governance Code, the adoption of such clauses gives the Company the right to request the return of all or part of the variable components of remuneration paid in connection with the MBO plan if any of the following circumstances should arise: (i) the economic-financial data and information on which basis the performance objectives were assessed proves to be clearly incorrect or falsified and/or (ii) the beneficiary is liable for misconduct or negligence that was key to the disbursement of the bonus. The obligation to return shall remain effective for up to 36 months from payment of the incentive.

3. Long-term variable remuneration

A significant component of the Italmobiliare Remuneration Policy is focused on a medium/long-term time frame, so as to **strengthen the link with the shareholders' interest in creating value**. The Chief Executive Officer/Chief Operating Officer, Key Management Personnel and some key managers of the Company selected by the Chief Executive Officer, are recipients of the 2020-2022 Phantom Stock Grant Plan (LTI Plan) whose main characteristics are described below. For more details, please refer to the Disclosure Document available on the Company's website under Governance/Shareholders' Meeting.

The LTI plan's main aim is to link a significant portion of the remuneration of the Chief Executive Officer/Chief Operating Officer as well as of the other beneficiary managers, to the achievement of economic-financial performance that can be sustained over time and is consistent with the primary goal of creating value for shareholders. The LTI plan also strengthens management retention and commitment towards achieving strategic company objectives.

The LTI plan aims to remunerate long-term performance measured by achieving a **target in the form of a certain net asset value (NAV) per share**; this objective, in addition to being in line with best practices as emerged from the analyses carried out with the support of external consultants, was considered in line with the business priorities in terms of both development and cost control, as well as being in line with the short-term goals.

The Plan provides for the assignment of a specific number of Rights to receive **Phantom Stocks linked to the value of the Company's shares** at the end of the Performance Period, **providing the target NAV per share is achieved in the three-year period of reference**.

The final Bonus therefore depends on:

- the number of accrued Phantom Stocks (based on Group performance);
- the value of the Shares, based on stock market performance.

Performance objectives linked to the target NAV per share are set by the Board of Directors in accordance with the Company's strategic objectives.

A result threshold level is envisaged, below which the right is not accrued to receive the incentive, and a maximum limit, upon achievement of which, the maximum incentive is accrued.

In relation to the NAV indicator for the number of Phantom Stock attributable, it will be defined according to the following incentive curve:

- on reaching a minimum level of performance, a number of Phantom Stocks equal to 66% of the rights to receive the assigned Phantom Stocks will be attributed. No Phantom Stock will be attributed below this minimum level;
- on reaching the target performance level (100%), a number of Phantom Stocks equivalent to the number of rights to receive the assigned Phantom Stocks (100%) will be attributed;
- on reaching a maximum level of performance, a number of Phantom Stocks equal to 166% of the rights to receive the assigned Phantom Stocks will be attributed. No additional Phantom Stock will be attributed on reaching a performance level above this cap.
- For intermediate performances between the minimum level and the target, and between the target and the maximum, a calculation by linear interpolation will be applied.

Given the direct connection between the bonus and the value of the share, the impact of any distribution of dividends during the 3-year vesting period has to be taken into account. So, in order to maintain the plan's incentive effect unchanged, at the end of the vesting period a number of additional Phantom Stocks equal to the value of any dividends paid out during the performance period will be assigned.

With the introduction of the new 2020-2022 "Phantom Stock Grant" plan, the Company has decided to adopt clawback clauses for bonuses that may have accrued and been paid under the Plan. In accordance with the provisions of the Corporate Governance Code, the adoption of such clauses gives the Company the right to request the return of all or part of the variable components of remuneration paid if any of the following circumstances should arise: (i) the economic-financial data and information on which basis the performance objectives were assessed proves to be clearly incorrect or falsified; and/or (ii) the beneficiary is liable for misconduct or negligence that was key to the disbursement of the bonus. The obligation to return shall remain effective for up to 36 months from payment of the incentive.

4. Benefits

Non-monetary benefits may be granted, such as company car for both personal and business use. There are also supplementary pension plans, health insurance and life insurance policies to integrate those provided for by the National Collective Labour Agreement for Managers of companies producing goods and services, in line with market practices.

As with other Directors, the CEO/COO benefits from a third-party liability insurance policy has been taken out for events related to the exercise of their functions, in compliance with the provisions set forth with regard to their offices, except in cases of wilful misconduct and fraud.

Italmobiliare already has Welfare Plans in place for Company employees which can also be extended to managers.

REMUNERATION OF KEY MANAGEMENT PERSONNEL

Italmobiliare promotes a remuneration policy for Key Management Personnel that is consistent with that described in the previous section for the Chief Executive Officer/Chief Operating Officer. This policy takes into account:

- recognition of the role and responsibilities in terms of their strategic nature;
- competitiveness with market remunerations;
- internal fairness for figures of similar or comparable level;
- retention and loyalty.

The remuneration policy applicable to Key Management Personnel is structured as follows:

The compensation package is structured in such a way as to assure a suitable balance of fixed and variable components of remuneration and, with regard to the latter component, of short- and long-term variable components. This structure promotes a solid alignment between the remuneration disbursed, the results achieved during the year and the creation of value in the long term.

Italmobiliare has currently chosen the Head of Investment Management, the Administrative Director/Financial Reporting Officer and two managers from the Development and Investment Department, as Key Management Personnel.

1. Fixed Remuneration

The fixed component of the remuneration of Key Management Personnel is the remuneration from employment as Company managers. Fixed remuneration is determined in such a way as to remunerate the role even if the variable remuneration should decline. The Company regularly monitors the consistency of the fixed remuneration with market rates in respect of similar roles in companies comparable with Italmobiliare.

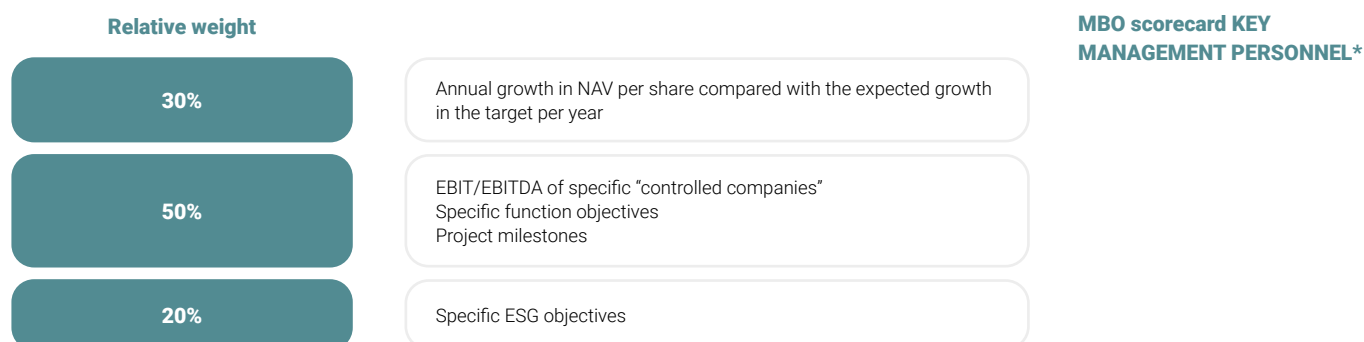

Any compensation received by Key Management Personnel for roles held in subsidiary companies and/or associates are repaid in full to Italmobiliare.

2. Short-term variable remuneration (MBO)

The Key Management Personnel benefit from an annual incentive system (the MBO plan), which entitles them to receive a cash premium where specific performance objectives are achieved, measured over a time frame of one year.

The MBO plan envisages the assignment of **objectives that are challenging, possible, measurable, can be influenced by the party to whom they are assigned and which are consistent with their responsibilities**. The objectives are a combination of economic-financial metrics and strategic and operational objectives coming under the influence and purview of each manager.

The scorecard of MBO plan objectives for 2020 is structured as follows:

In this case too, the objectives that make up the MBO scorecard are linked to profitability, value creation and sustainability requirements.

(*) excluding the Financial Reporting Officer and the Head of Internal Audit for whom a significant portion of the objectives (70% or more) are objectives relating to the adoption of the best governance and control standards and monitoring of regulatory and legal compliance for the Financial Reporting Officer and objectives linked to the activities of the internal control department for the Head of Internal Audit. It is specified that the definition and assessment of objectives for the Head of Internal Audit is carried out by the Control and Risk Committee, in order to guarantee complete independence and avoid onset of potential conflicts of interests.

As a rule, the annual MBO scorecard comprises between two and five objectives. For each objective, a minimum level is defined, below which it is considered that the objective has not been attained, a target level at which the objective is deemed to have been achieved 100% and a maximum level, set as a cap for the maximum achievement. The target performance level, achievement of which gives entitlement to receive 100% of the incentive assigned, is, as a rule, defined in line with the company's budget.

The level of achievement of the MBO card as a whole is defined as the weighted sum of the level of achievement of each objective for the related weight assigned.

The incentive for Key Management Personnel if they achieve the target performance level averages out at between 40% and 80% of fixed remuneration.

The target incentive is lower for the Financial Reporting Officer and the Head of Internal Audit and stands at 21% of fixed remuneration.

Starting 2019, the company has decided to **apply claw back clauses** in connection with any premiums accrued and disbursed in connection with the MBO plan. In accordance with the provisions of the Corporate Governance Code, the adoption of such clauses gives the Company the right to request the return of all or part of the variable components of remuneration paid in connection with the MBO plan if any of the following circumstances should arise: (i) the economic-financial data and information on which basis the performance objectives were assessed proves to be clearly incorrect or falsified; and/or (ii) the beneficiary is liable for misconduct or negligence that was key to the disbursement of the bonus. The obligation to return shall remain effective for up to 36 months from payment of the incentive.

3. Long-term variable remuneration

Similarly to that envisaged for the Chief Executive Officer/Chief Operating Officer, a significant portion of the variable remuneration of the Italmobiliare Key Management Personnel is focused on a medium/long-term time frame, so as to **strengthen the link with the shareholders' interest in creating value**. The Key Management Personnel are recipients of the 2020-2022 **"Phantom Stock Grant" plan** (LTI plan), the main characteristics of which are described in the section which explains the remuneration of the Chief Executive Officer/Chief Operating Officer.

With the introduction of the new 2020-2022 "Phantom Stock Grant" plan, the Company has decided to adopt clawback clauses for bonuses that may have accrued and been paid under the Plan. In accordance with the provisions of the Corporate Governance Code, the adoption of such clauses gives the Company the right to request the return of all or part of the variable components of remuneration paid if any of the following circumstances should arise: (i) the economic-financial data and information on which basis the performance objectives were assessed proves to be clearly incorrect or falsified; and/or (ii) the beneficiary is liable for misconduct or negligence that was key to the disbursement of the bonus. The obligation to return shall remain effective for up to 36 months from payment of the incentive.

4. Benefits

Non-monetary benefits will be recognised (such as a company car for both personal and business use) as well as other supplementary benefits, over and above those on the National Collective Labour Agreement, such as pension plans, healthcare insurance and life insurance policies, in line with market practice for similar managerial positions.

Italmobiliare already has welfare plans in place for Company employees which can also be extended to managers.

SEVERANCE INDEMNITY POLICY

The Company does not envisage any ex ante indemnity in the event of resignation, dismissal or termination of employment and/or mandate of Directors and Key Management Personnel. The Company may agree specific treatment in connection with the termination of an office or employment, which may even be better than the provisions of the National Collective Labour Agreement, for parties with a contract of employment in place. Such agreements shall be defined in compliance with the benchmarks and within the limits defined by case-law and standard practice. More specifically, the indemnity shall not exceed twice the total annual remuneration, in addition to the pay in lieu of notice, fixed remuneration, the value of benefits received in the 12 months prior to the date of termination, the average variable remuneration received in the last three calendar years of service prior to said date, the amount of any compensation received in connection with company offices held in the last 12 months (with the exception of compensation that is repaid).

The effects of the termination of the contract of employment and/or mandate on the rights deriving from the LTI Plan are regulated by the specific company regulation with the aim of avoiding any penalisation of beneficiaries terminating their employment as “good leavers”.

The Company has not non-competition agreements in place for Directors and Key Management Personnel. However, the remuneration policy does include the possibility of stipulating agreements with certain managers, including Executive Directors and/or Key Management Personnel who hold particularly critical professional roles, insofar as they are subject to greater risks of attraction on the market. Any such agreements in the favour of Executive Directors and/or Key Management Personnel will be introduced with the approval of the Board of Directors and on the recommendation of the Remuneration and Nominations Committee.

INFORMATION IN ACCORDANCE WITH ARTICLE 84-BIS OF CONSOB REGULATION 11971/1999

The Board of Directors of Italmobiliare on March 4, 2020, with reference to the "2017-2019 MONETARY INCENTIVE PLAN LINKED TO THE PERFORMANCE OF ITALMOBILIARE S.p.A. SHARES", after the review of the Remuneration and Nominations Committee which met on February 27, 2020 and having verified the achievement of the performance objectives assigned and the degree of achievement, assigned cash incentives for an amount of Euro 9,741,770 to 14 beneficiaries, including the Chief Executive Officer and 4 Key Managers. For details of the plan, refer to the Disclosure Document published on the website www.italmobiliare.it, in the Governance/Shareholders' Meeting Archive/2017 section. It is worth remembering that the aim of the LTI plan was to remunerate long-term performance measured using two key indicators: achievement of a net asset value (NAV) per share target; performance of the Company's share price over a period of three years. The LTI plan assigned beneficiaries a cash incentive if the NAV per share target was achieved during the reference period; this amount is linked to the performance of the Italmobiliare share price over the same period of time.
