1. ISSUER PROFILE

The entrepreneurial model of Sabaf S.p.A. is rendered explicit in its corporate vision, i.e. to combine business decisions and results with ethical values by going beyond family capitalism and opting for a managerial rationale oriented not only towards the creation of value but also towards the respect of values.

The Corporate Governance Model adopted by the Issuer is based, initially, on the decision to strictly separate the interests and choices of the main shareholder – the Saleri family – from those of the Company and the Group, and therefore assign corporate management to managers who are distinct from the main shareholder.

Expansion of the shareholding base following the listing on the stock exchange, admission to the STAR segment (and consequently the Company's voluntary acceptance of stricter transparency and disclosure rules), and the Company's desire to consistently comply with applicable corporate governance recommendations and best practice represent the subsequent steps taken by Sabaf towards compliance by its corporate governance system with a model whose benchmark is that directors act in the Company's interest and with a view to creating value for all the shareholders.

As a further step along this path, Sabaf's management believes that ethics founded on the centrality of the individual and respect for common values, set at the head of the creation of value, are able to help take decisions that are in line with the corporate culture and significantly contribute to assuring the Company's sustainable long-term growth. For this purpose, Sabaf has prepared and published the Charter of Values, prepared in accordance with the existing national and international regulatory principles, guidelines and documents with regard to human rights of corporate social responsibility and corporate governance. The document is the governance tool through which Sabaf clearly explains the Company's values, standards of behaviour and commitments in relations with all the stakeholders – shareholders, employees, customers, suppliers, lenders, the Public Administration, the community and the environment.

The latest version of the Charter of Values was approved by the Board of Directors on 11 February 2014 and is available on the website www.sabaf.it under the section "Sustainability".

In line with the Company's "vision" and in accordance with the Charter of Values, the strategic and operational decisions implemented by the Sabaf Group are intended to ensure sustainable development, by balancing business and financial requirements with social and environmental needs.

Sabaf S.p.A. management and control model

The Board of Directors during the session held on 14 May 2019 gave a mandate to the Executive Director Pietro Iotti to implement the buyback of treasury shares programme, within the limits set by the Shareholders' Meeting resolution.

- offering shareholders an additional tool to liquidate their investments;
- carrying out activities in support of market liquidity.

A further 113,962 treasury shares were sold as part of the acquisition of the majority shareholding in C.M.I. s.r.l., in exchange for 8.5% of the shares of this company. During 2019, the Company did not purchase Sabaf shares.

Diversity criteria and policies

On 26 March 2018, the Board of Directors of Sabaf S.p.A. at the suggestion of the Remuneration and Nomination Committee, with the opinion of the Board of Statutory Auditors, adopted a Policy on the composition of the Corporate Bodies.

This Policy sets out the Company's guidelines on the characteristics considered functional to ensuring an optimal composition of the corporate bodies (Board of Directors and Board of Statutory Auditors), with the aim of guiding the names put forward by the Shareholders when renewing the Corporate Bodies, so that the benefits that can derive from a balanced composition of the Board and Board of Statutory Auditors inspired by criteria of diversity are taken into consideration.

In addition to the provisions of the Laws in force and of Sabaf's Articles of Association, the Policy sets out the characteristics and factors considered necessary for the BoD to be able to carry out its assigned tasks more efficiently, take decisions thanks to the contribution of a number of qualified points of view and examine the issues under discussion from different perspectives, also within the framework of the internal board committees established from time to time. Specifically:

- **Independence.** An optimal composition of the Board of Directors is characterised by the presence of non-executive and independent Directors, such as to ensure that their opinion can have a significant impact on the Board's decisions in terms of number, authority, competence and availability of time. Non-executive Directors contribute their specific competences to the board discussions, helping to take informed decisions and paying particular attention to areas where conflict of interest may occur. All independent Directors must meet the independence requirements envisaged by law and by the Corporate Governance Code, as illustrated in the Corporate Governance Manual of Sabaf. Non-executive directors must be the majority compared to executive directors and independent directors must be at least 3.
- **Training and professional experience** In addition to the provisions of the Corporate Governance Code, (Principle 2.P.1.), also implemented within the Corporate Governance Manual of Sabaf, the Company believes that for an optimal composition of the Board of Directors there must be a mix of professionalism and experience suitable to understand the current management, risks and opportunities of the company, in order to guide and adequately support the Sabaf Group in a long-term sustainable growth. In particular, Sabaf considers the following skills and experience to be fundamental:
 - legal and corporate, also with reference to the legislative and regulatory aspects important for listed companies;
 - economic and financial, ability to analyse and interpret financial statement data prepared in accordance with international accounting standards and to evaluate extraordinary transactions;
 - business and managerial, in the sector in which the Group operates or in adjacent sectors, in the management of international companies, in merger and acquisition transactions;
 - on economic, social and environmental sustainability.
- **Gender.** In addition to the law provisions on gender distribution (Italian Law 120/2011), it is considered essential to create and maintain a gender balance within the collective body, continuing to ensure that at least one third of the Board of

Directors, both at the time of appointment and during the term of office, is made up of Directors of the least represented gender.

- **Age and seniority in office.** With the aim of creating a balance between the need for continuity and renewal of management, it is considered useful to ensure a balanced combination of different seniorities in office - as well as age groups - within the Board of Directors.
- **Numbers.** Taking into account the characteristics described above (including diversity requirements and the presence of an adequate number of independent directors) and, at the same time, the need to ensure the effectiveness and efficiency of the Board's activities, a Board of Directors composed of nine directors is considered to be adequate. Moreover, this plurality guarantees the possibility of setting up within the Board the Committees envisaged by the Corporate Governance Code.

Furthermore, the Policy stresses the need for all Directors to ensure that they have sufficient time to perform their duties diligently and, for this reason, refers to the guidelines adopted by the Board of Directors on the maximum number of positions held in other companies (for more details, see the next paragraph).

The Board of Directors, with the support of the Remuneration and Nomination Committee and the Board of Statutory Auditors, is responsible for monitoring and implementing the Policy on the composition of Corporate Bodies, which is published on the Company's website at www.sabaf.it, in the section "*Investors - Corporate Governance*". The composition of the current Board meets the criteria of diversity, including gender diversity, laid down in the current Policy.

The composition of the current Board of Directors complies with the diversity requirements laid down in the above Policy. With particular reference to gender balance, one third of the Board of Directors is made up of directors of the less represented gender (3 out of 9 directors).

Maximum number of positions held in other companies

To ensure that the position of director is held by subjects that can devote the necessary time to diligently perform their duties, by resolution passed on 15 May 2018, and as provided by the Corporate Governance Manual, the Board of Directors defined the maximum number of positions as director or statutory auditor that each director may hold at companies listed on regulated markets (also overseas), as well as at financial, banking, insurance or other large companies, also taking account of the fact that they may also be members of the various Committees established within the same Board of Directors.

Specifically:

- for executive directors, the maximum number of positions is 3, not including the offices held within the Group;
- for non-executive directors: a maximum of seven offices, not counting the positions held at the financial companies envisaged in Art. 113 of the Italian Consolidated Banking Act ("Testo Unico Bancario").

The Board of Directors confirmed compliance with the above-mentioned criteria for the directors currently in office at its meeting held on 11 February 2020.

Below we disclose the offices held by current Sabaf directors as directors or statutory auditors of other listed companies, financial, banking and/or insurance companies, and/or large companies:

The Chairman of the Board of Directors ensures that, after their appointment and during their term of office, the directors and the statutory auditors take part in initiatives, in the most appropriate forms, aimed at providing them with adequate knowledge of the activity sector in which the Company operates, the enterprise dynamics and their evolution, the principles of proper risk management, as well as the relevant regulatory framework.

In 2019, the Company continued with the induction programme so as to offer the opportunity to members of the Board of Directors and the Board of Statutory Auditors to improve their knowledge of the issuer and its subsidiaries.

Moreover, during the meeting of the Board of Directors on 24 September 2019, the Company invited some external consultants to explain to the members of the Board of Directors and the Board of Statutory Auditors the recent trends of the Italian stock market, with a special reference to the small cap securities.

Please note that the induction sessions were held during regularly minuted meetings.

4.3. ROLE OF THE BOARD OF DIRECTORS (pursuant to Art. 123-bis, (2), (d), TUF)

The Board of Directors met 9 (nine) times during the 2019 financial year. The meetings lasted an average of about three hours and thirty minutes. The percentages of attendance of each director at the meetings are shown in Table 2 of paragraph 4.2.

Seven meetings are planned for 2020, of which two have already been held, on 11 February and 24 March, the date of this report.

In order to allow the Board of Directors to carry out its tasks with an adequate level of organisation and to preliminarily analyse in depth the issues subject matter of the resolution, the "CdA on Board" application is currently in use for the scheduling and management of Board meetings, as well as for sending documentation to Directors and Statutory Auditors. The documentation relating to the items on the agenda is made available on the "CdA on Board" well in advance of the date of the Board meeting (usually three days or more in advance).

The meetings of the Board of Directors, coordinated and presided over by the Chairman, are always attended by the members of the Board of Statutory Auditors and the managers of Sabaf and other group companies, in charge of the relevant corporate functions concerned by the topics dealt with, invited by the Chairman, also upon request by one or more directors and with the consent of those attending, to provide the necessary in-depth analyses in relation to the items on the agenda. - Giuseppe Garzillo (Head of Internal Audit).

*** **

The Board of Directors is responsible for the examination and approval of the long-term plans and the budgets of the Company and the Group, as well as for periodically monitoring their implementation through the information supplied by the CEO in his quarterly reports. In this regard, the Board of Directors viewed and evaluated the risks underlying these plans and the budget and assessed the compatible level of risk, also with reference to the risks that may assume significance in terms of medium-/long-term sustainability.

The Board of Directors is also responsible for the definition of the Company's corporate governance system as well as the structure of the Group pertaining to Sabaf.

For 2019, in compliance with the Guideline on the subject, the Board of Directors assessed the overall adequacy of the general organisational, administrative and accounting structure of the Company and its key subsidiaries, as established by the Internal Control and Risk Committee, with particular reference to the Internal Control and Risk Management System. More specifically, the process involved all the corporate players in charge of planning, implementing and/or monitoring the Group's Internal Control and Risk Management System, by collecting the information supporting the assessment.

The Board of Directors assessed the general business performance, taking into account in particular the information received from the Chief Executive Officer, and by quarterly comparing the results achieved with those planned.

The Corporate Governance Manual envisages that the Board of Directors is responsible for examining and approving in advance any ordinary or extraordinary transactions of Sabaf and its subsidiaries that might have a material impact on its assets, liabilities, operating results and financial position, especially if entailing a potential conflict of interest.

An operational Guideline attached to the Corporate Governance Manual defines the general criteria for identifying transactions of importance, namely:

- transactions reserved to the Board of Directors of Sabaf pursuant to the Articles of Association, namely:

- setting-up or closing of branch offices,
- transferring the registered office in Italy,
- mergers in the cases envisaged by Articles 2505 and 2505-bis of the Civil Code, also as recalled due to splitting of Art. 2506-ter of the Civil Code,
- reducing the share capital if a shareholder withdraws,
- the purchasing or sale of investments, properties and treasury shares,
- the issue of financial instruments,
- the undertaking of unsecured loans, requests to open bank facilities and the release of sureties,
- the undertaking and allocation to third parties of the status of executives, their dismissal, as well as the definition of relations, including economic ones, with executives,
- any other transaction that, separately considered, exceeds the limits set for the Chief Executive Officers of Sabaf.

The Corporate Governance Manual also provides that the Board of Directors is vested with the power to examine and approve any ordinary and extraordinary transactions of Sabaf and its subsidiaries, in which one or more directors have a personal interest or could be bearers of someone else's interest, subject to the opinion of the Control and Risk Committee. For this purpose, an operational Guideline of the Corporate Governance Manual governs the operating methods suitable to facilitate the identification and adequate management of these situations.

Finally, as provided for by Consob resolution 17221 of 12 March 2010 on related-party transactions, and in compliance with the "Procedure regulating related-party transactions" which came into force in January 2011 and was subsequently updated in 2012, 2015 and 2018, the Board of Directors assessed the transactions with related parties carried out in the course of the year. No related-party transaction carried out in the year was considered to be of major significance.

Moreover, the Board of Directors carried out its annual assessment for 2019 of the size, membership (including professional competences, managerial skills and seniority) and activities of the Board of Directors and its Committees. With regard to possible approaches to assessment, Sabaf's Board of Directors opted, as defined under the guideline attached to the Corporate Governance Manual "Assessment of the Board of Directors", for the self-assessment of individual directors through the distribution, filling-in, collection and processing of questionnaires. It then discussed the results at the 17 December 2019 Board meeting. The Company deemed not necessary to avail itself of external consultants.

The Lead Independent Director (Nicla Picchi) is responsible for coordinating the annual assessment and for defining the topics to be discussed at the self-assessment.

The questionnaires distributed to the directors (and compiled in anonymous form) involve the use of multiple criteria (e.g. dimensional, effectiveness, efficiency, professional characteristics, etc.) and cover the following areas of assessment:

- Functioning of the Board,
- Composition and powers of the Board,
- Contributions made by the Board during the reference period,
- Internal Board committees,
- Relations with Top Management (Board of Directors with delegated powers and executives),
- Self-Assessment of individual performance.

The self-assessment questionnaire was completed by all the directors and the results of the assessment were generally positive.

Note that, as described in paragraph 4.2 above, the Board of Directors approved a Policy on the composition of Corporate Bodies, drawn up on the basis of the self-assessments formulated by the Board in previous years.

In 2019, the Shareholders' Meeting did not authorise any exemptions, generally or in advance, to the prohibition on competition required by Article 2390 of the Italian Civil Code.

4.4. DELEGATED BODIES

Chief Executive Officer

The Chief Executive Officer (CEO), Pietro Iotti, is responsible for running the Company according to the strategic guidelines defined by the Board of Directors. The Chief Executive Officer coordinates all corporate functions, guaranteeing a rapid decision-making process and ensuring efficient and transparent management. The CEO has wide-ranging powers with regard to all areas of operation of the company, with powers of attorney for up to one million euros per transaction. The Chief Executive Officer of Sabaf can be identified as the main responsible for the management of the company; the situation of interlocking directorate is not applicable (Pietro Iotti has not undertaken the office of director in another Issuer whose chief executive officer is a director of Sabaf S.p.A.).

Chairman and Vice Chairman of the Board of Directors

The Chairman of the Board of Directors, Giuseppe Saleri, is the reference shareholder of Sabaf S.p.A. On 8 May 2018, the Board of Directors resolved to confer on the Chairman the following powers, to be exercised with individual signature:

- establish the agenda of the Board of Directors, taking into account the proposals of the Chief Executive Officer;
- supervise the carrying-out of the resolutions of the Corporate Bodies of Sabaf;
- propose to the Board the candidates for membership of such committees as the Board may decide to set up;
- represent the Company before public and private bodies and offices;
- represent the Company as plaintiff or defendant.

On 8 May 2018, the Board of Directors granted the Vice-Chairman, Nicla Picchi, the following vicarious powers, to be exercised only in the event of urgency, absence or impediment of the Chairman, with individual signature:

- establish the agenda of the Board of Directors, taking into account the proposals of the Chief Executive Officer;
- supervise the carrying-out of the resolutions of the Corporate Bodies of Sabaf;
- propose to the Board the candidates for membership of such committees as the Board may decide to set up.

Executive Committee (pursuant to Art. 123-bis (2)(d) TUF)

Taking into consideration the characteristics, dimensions and organisational structure of the Issuer, the Board of Directors has not - at the current time - identified the need to set up an Executive Committee.

Information flows toward the Board of Directors

The CEO reports quarterly to the Board of Directors and to the Statutory Auditors on the activities conducted in exercising the powers conferred on him. An operational Guideline of the Corporate Governance Manual regulates the flow of information to the Board of Directors and Statutory Auditors, also in order to comply with the reporting obligations provided by Art. 150 (1) of the TUF; in particular, the Chief Executive Officer summarises periodically through written reports the following activities and operations carried out by Sabaf and its subsidiaries:

- activities carried out in the period,
- transactions with strategic, economic, capital or financial significance for the Group,
- transactions in potential conflict,
- related-party transactions,
- atypical or unusual transactions or those concluded in non-standard conditions,
- any other activity or transaction that he deems it appropriate to communicate.

4.5. OTHER EXECUTIVE DIRECTORS

The current composition of the Board of Directors envisages 1 (one) executive director, Gianluca Beschi, Administration, Finance and Control Director (CFO), in addition to the Chief Executive Officer (Pietro Iotti).

4.6. INDEPENDENT DIRECTORS

The current composition of the Board of Directors includes 4 (four) non-executive and independent directors.

With the abstention of those concerned, the Board of Directors assesses whether the independent directors meet the independence requirements as soon as they are appointed and, subsequently, once a year, paying more attention to substance than to form.

In particular, the Board of Directors assessed whether the independence requirements are met pursuant to the Code and the TUF:

- on 8 May 2018, on the occasion of the appointment of the management and control bodies for the three-year period 2018 to 2020, implemented by the shareholders' resolution on the same date, for the independent directors Renato Camodeca, Nicla Picchi, Daniela Toscani and Stefania Triva;
- on 12 February 2019, for the directors qualified as independent, as well as for the director Carlo Scarpa, appointed by co-optation, on 23 January 2019 following the resignation of the director Renato Camodeca;
- on 11 February 2020, for the directors qualified as independent.

For the purpose of assessing Directors' independence, the Company referred to the criteria set out in Article 3 of the Corporate Governance Code, incorporated within the Corporate Governance Manual.

On 12 March 2019, the Board of Statutory Auditors checked and certified the proper implementation of the criteria and procedures adopted by the Board of Directors to determine the independence of the directors who qualify as such.

On 10 December 2019, the independent directors met without the other directors. One of the main items on the agenda for this meeting was an analysis of the Board of Directors' self-assessment questionnaires for 2019. The Board of Directors was promptly informed of the results of this meeting, formalised in an official meeting minutes.

4.7. LEAD INDEPENDENT DIRECTOR

Since the Chairman of the Board of Directors is the main shareholder of Sabaf, the Board of Directors meeting held on 8 May 2018 renewed the designation of Renato Camodeca as Lead Independent Director. Following the resignation of Director Renato Camodeca, the Board of Directors on 12 February 2019 appointed Nicla Picchi as the new Lead Independent Director.

This person will remain in office for the entire term of the Board of Directors and is a point of reference and coordination for the applications and contributions of non-executive directors, with particular reference to independent directors.

During the financial year, the Lead Independent Director collaborated with the Chairman to ensure that the Directors received complete and prompt information on the adoption of resolutions by the Board of Directors and the exercise of its powers of direction, coordination, and supervision of Company and Group activities.

The Lead Independent Director also coordinated the Board of Directors self-assessment process.

5. HANDLING OF CORPORATE INFORMATION

The CEO manages the processing of confidential information in accordance with a specific procedure, adopted by the Board of Directors, for internal management and external disclosure of documents and information concerning the Company. Special attention is paid to the management of privileged information, as defined by Article 181 of the TUF (or information of a precise nature, not yet made public, concerning Sabaf - directly or indirectly - or one or more financial instruments of the Company and that, if made public, could have a significant effect on the prices of such financial instruments or on the prices of related derivative financial instruments).

In particular, in order to comply with the European provisions on market abuse, as well as the indications of the Consob Guidelines on the Management of Inside Information, on the occasion of the meeting held on 26 June 2018, the Board of Directors of Sabaf approved the "Procedure for the Management of Important and Inside Information", amending and replacing the former "Procedure for the Processing of confidential and inside information" and "Procedure for the Management of the Insider Register".

The aim of this procedure is to ensure that the company handles confidential information carefully, safely and privately, and discloses any insider information in a symmetrical, non-selective, prompt, complete and adequate manner.

Corporate officers are obliged to maintain the confidentiality of information and documents obtained in the performance of their duties and to comply with the procedure referred to in this section.

6. INTERNAL COMMITTEES OF THE BOARD OF DIRECTORS (pursuant to Art. 123-bis, (2)(d) TUF)

The Board of Directors can set up one or more Committees within the Board, such Committees being responsible for making proposals or providing consultancy on specific topics and having no decision-making powers.

Following the appointment of the new administration and control bodies, on 8 May 2018 the Sabaf Board of Directors established the Remuneration and Nomination Committee and Internal Control and Risk Committee with functions also of Related Parties Committee, in line with the provisions of the Corporate Governance Code.

Taking into consideration the characteristics, dimensions and organisational structure of the Issuer, the Board of Directors has - at the current time - deemed it necessary to attribute the functions of the Nomination Committee to the Remuneration Committee thereby establishing the Remuneration and Nomination Committee, composed of 3 non-executive directors, with an independent majority.

The Board of Directors also assigned the functions carried out by the Related-Party Committee to the Internal Control and Risk Committee, especially the duty to support the Board of Directors, through reasoned opinion, in any amendments and supplements to the "Procedure regulating related-party transactions".

No further committees responsible for making proposals and providing advice have been established other than the ones envisaged in the Code.

7. REMUNERATION AND NOMINATION COMMITTEE

The Board of Directors has set up a Remuneration Committee, also with the function of Nomination Committee.

Composition and duties of the Remuneration and Nomination Committee (pursuant to Art. 123-bis, (2)(d) TUF)

With a resolution on 8 May 2018, Remuneration and Nomination Committee was set up by three non-executive, including one independent member, with the knowledge and experience in accounting, finance and remuneration policies that are deemed adequate by the Board of Directors. Subsequently, on 26 June 2018, the Board of Directors resolved to replace, within the Remuneration and Appointments Committee, director Claudio Bulgarelli with director Stefania Triva in order to ensure compliance with the indications set out in Article 6 of the Corporate Governance Code for listed companies; the Committee is therefore composed of non-executive members, the majority of which is independent, with the Chairman chosen amongst the independent members. The composition of the Committee is set out in Table 2 of paragraph 4.2 above.

The work of the Remuneration and Nominations Committee is coordinated by the Chairman and the meetings minutes are regularly drafted. After each meeting of the Committee, the Chairman is responsible for informing the Board of Directors during the first available meeting, reporting on the activities carried out and giving suggestions and recommendations on matters of relevance.

Other directors, employees and experts, as well as the Chairman of the Board of Statutory Auditors and other statutory auditors, may be invited to attend with advisory roles in Committee meetings on a case-by-case basis.

In 2019, the Committee met 6 (six) times, with each meeting lasting, on average, around an hour and thirty minutes. The percentages of attendance of each director at the meetings of the Committee is shown in Table 2 of paragraph 4.2. At the invitation of the Committee, the meetings were attended by the Chief Executive Officer, the Administration, Finance and Control Director and some members of the Board of Statutory Auditors, to discuss the items on the agenda from time to time.

In the course of the financial year, the Committee has analysed final results of the managerial incentive plan (MBO) for the financial year 2018 and prepared the managerial incentive plan for the year 2019, approved by the Board of Directors on 26 March 2019.

Moreover, in 2019, the Committee analysed the trend of the long-term incentive plan for directors and employees of the Company and its subsidiaries through the free allocation of shares ("Stock Grant Plan"), approved by the Board of Directors on 15 May 2018. As a result of the analyses carried out, the Committee formulated proposals aimed at amending the Regulations of the Plan, identifying the beneficiaries not yet identified and the number of rights to be allocated to them. The proposals submitted by the Committee were approved by the Board of Directors on 14 May 2019 and 25 June 2019. For further details, refer to the 2019 Report on Remuneration, available on the Company's website at: www.sabaf.it, in the section "*Investors - Corporate Governance*", and published in the 2015 Annual Report available on the Company's website at: www.sabaf.it, in the section "*Investors - Annual and Interim Financial Statements*".

The Committee met three times in 2020: on 11 February, 18 March and 11 March 2020.

The Company's Corporate Governance Manual assigns the following duties to the Remuneration and Nomination Committee:

On 12 February 2019, the Board of Directors supplemented the composition of the Committee by appointing the director Carlo Scarpa to replace the director Renato Camodeca.

- supporting the evaluations and decisions of the Board of Directors, with adequate preliminary investigations, relating to the management of risks deriving from detrimental events of which the Board of Directors has become aware.

As indicated previously, the Committee, also representative of the Related-Party Committee, is responsible for supporting the Board of Directors, through reasoned opinions, in the initial adoption and subsequent amendments and supplements of the "Procedure regulating related-party transactions" in implementation of Consob Regulation 17221 of 12 March 2010.

Note that the supervision of the effectiveness of the external audit process is referred to the Board of Statutory Auditors, also by virtue of the functions assigned to them by the existing regulations (Legislative Decree 39/2010).

In addition to the above, in 2019, the Committee:

- evaluated, together with the Financial Reporting Officer and the auditors, the correct application of the accounting standards,

- analysed the results of the risk assessment carried out at the end of 2019 and the consequent 2020 Audit Plan Proposal,
- analysed the results of the Internal Audit operations carried out during the year,

In performing its functions, the Control and Risk Committee has access to the information and company departments necessary to fulfil its duties, and may also use external consultants, within the terms established by the Board of Directors.

The Internal Control and Risk Committee has an expenses fund of €30,000 at its disposal, established by the Board of Directors to carry out its duties. This fund was not used in 2019.

10. INTERNAL CONTROL AND RISK MANAGEMENT SYSTEM

The annual process of identifying and assessing the main corporate risks was carried out in the second half of 2019, and was approved by the Board of Directors with the favourable opinion of the Control and Risk Committee having heard the Board of Statutory Auditors and the Director in charge of the Internal Control and Risk Management System, at the meeting held on 17 December 2019. On that occasion, the Issuer took into account not only risks deriving from the external context in which Sabaf operates, but also the strategic, organisational and "execution" risks that may be significant from the point of view of sustainability in the medium/long term.

In the Corporate Governance Manual, the Board of Directors defined the guidelines for the Internal Control and Risk Management System so that the main risks relating to the Issuer and its subsidiaries are properly identified, measured, managed and monitored, as well as being compatible with the strategic objectives of the Group.

The Internal Control and Risk Management System applies to Companies and strategically significant subsidiaries (Faringosi Hinges, Sabaf do Brasil, Sabaf Turchia and Okida), identified as such by the Sabaf Board of Directors on the occasion of the meetings of 8 May and 25 September 2018.

The Internal Control and Risk Management System is the collection of rules, procedures and organisational structures designed to ensure, with reasonable certainty, the achievement of the following objectives:

- adequate control of corporate risks,
- effectiveness and efficiency of corporate operating processes,
- safeguarding capital integrity,
- completeness, reliability and promptness of accounting and management information,
- compliance of corporate behaviour with laws, regulations, directives and corporate procedures.

The fundamental components of Sabaf's Internal Control and Risk Management System and of the strategically significant subsidiaries are based on:

- the organisation of the Internal Control and Risk Management System, created by the collection of players involved to whom different roles and responsibilities are assigned (as specified later on);
- the periodic process of identification, assessment and monitoring of the main risks of the Group (as specified below);
- the methods and mechanisms for the practical implementation of control principles, reflected in the documentation constantly produced and updated by the Company to define the rules of behaviour, the division of tasks and the delegation of responsibilities. This includes the following:

- the Charter of Values,
- the arrangements involving the corporate and organisational structure and the powers granted,
- the segregation of duties in the organisation (also reflected in the corporate information systems), aimed at preventing excessive concentration of decision-making/authorisation, implementation/executive, accounting and verification/control powers and functions,
- the development and professional growth policies for personnel,
- the systems for defining corporate targets and for verifying and monitoring corporate performance,
- the management and economic-financial reporting systems, as well internal and external communication systems,
- the body of corporate procedures, including those under the scope of the Organisational Model adopted by Sabaf to implement Legislative Decree 231/2001 and those established pursuant to Law 262/2005 on the subject of administrative-accounting procedures for the preparation of the financial statements;
- procedures for the preparation of the financial statements, the continuous monitoring and verification procedures conducted at various levels of the organisation, both under the scope of corporate processes and through independent structures.

The Internal Control and Risk Management System for financial information

Sabaf considers the Internal Control and Risk Management System for financial information an integral part of its risk management system.

In this regard, as far back as 2008, Sabaf integrated the activities relating to the management of the Internal Control and Risk Management System on financial reporting in its Internal Audit and compliance process (i) preparing a unique Audit Plan, with a shared programme of tests, organised according to specific control objectives (e.g. operational, compliance with Law 262/2005 and Legislative Decree 231/2001, security and profiling of corporate information systems) and (ii) assigning the carrying-out of the interventions to a unique structure, responsible for reporting the outcomes to the competent control bodies.

In addition to this, the Company carries out an annual risk assessment at the Group level, supplementing it for specific aspects relating to individual areas of compliance, including the one related to Law 262/2005.

With specific reference to the Internal Control and Risk Management System on financial reporting, the Group defined its own Accounting Control Model that defines the rules that the Group follows for the purpose of:

- aligning itself to the regulations on preparing corporate accounting documents, as well as all deeds and communications of an economic, capital or financial nature disclosed to the market,
- describing the components of the Control Model adopted by the Company,

- indicating the responsibilities of the Financial Reporting Officer and other players involved in the process,
- establishing a certification process (for both Sabaf and the subsidiaries),
- guaranteeing dependability, accuracy, reliability and timeliness of the financial information.

During 2019, note that a number of updates were made to the Accounting Control Model with a special attention to administrative and accounting procedures (approved by the Financial Reporting Officer in December 2019). The internal instructions and standards are added to the Model (including, for instance, the powers of attorney system, the reporting instructions, the supporting information systems, the visits to Group company offices) through which the Parent Company guarantees an efficient exchange of data with the Subsidiaries.

The Accounting Control Model relies on the following key elements:

- general control environment,
- identification process of the main risks associated with economic, capital and financial information and the related controls, according to a top down approach which focuses on the main risk areas,
- significant corporate procedures system for the purpose of preparing and disclosing economic, capital and financial information (administrative-accounting procedures),
- regular evaluation of the adequate and effective application of the controls identified,
- internal certification (within the Group) conducted regularly to guarantee the completeness and correctness of the information generated by the processes governed and for information surrounding the changes made to the processes managed,

and this includes the involvement of a large number of players, with some of the main ones listed below:

- Board of Directors,
- Chief Executive Officer,
- Financial Reporting Officer,
- Investor Relator,
- Heads of significant/involved functions,
- Director of Information Systems,
- CEOs and heads of management structures of subsidiaries.

Sabaf keeps its Model updated with regard to changes in operations and/or organisation, the results of the risk assessment, regular audit activities, as well as changes to the systems and processes involving the structure.

There is an annual process under the scope of the Group's Accounting Control Model, formalised and structured - which is the responsibility of the Financial Reporting Officer, supported by the Internal Audit department - aimed at identifying the main corporate processes, significant for the purpose of "262" and the main Group companies that give rise to them are involved.

In line with the best practices, the process of identifying and assessing the processes and organisational units takes into account both qualitative criteria (linked to the visibility of the Financial Reporting Manager and his structure in the individual processes and the degree of

control; the intrinsic risk level of the underlying process; the complexity of calculation and subjectivity of the estimates) as well as quantitative criteria (related to the importance of the values generated by the individual financial reporting processes).

The 2019 evaluation highlighted the significant processes that were subject during the year to timely audit operations with regard to specific control objectives (*existence, completeness and accuracy, evaluation, rights and obligations, presentation and information*).

The outcomes of the audits into the single processes are reported by the Internal Audit department to the Financial Reporting Officer and to Control and Risk Committee, as well as to those attending the meetings with the Control Bodies, who are informed of the results of the interventions at the scheduled meetings.

On an annual basis, the Head of Internal Audit notifies the Control and Risk Committee, through a detailed report, of the adequate and effective operation of the internal control and risk management system relating to the areas/processes that were checked.

For 2019, this report was presented to the Control and Risk Committee at the meeting on 4 February 2020.

Any shortcomings/improvement measures identified during the audits and reported as described above, require the immediate identification of the actions to be taken, as well as regular monitoring of the solution.

Consolidated non-financial statement

The consolidated non-financial statement of the Sabaf Group, prepared in accordance with Legislative Decree 254/2016, contains information on environmental, social, personnel, human rights and anti-corruption issues.

At its meeting of 17 December 2019, the Board of Directors approved the procedure for the preparation of Non-Financial Statement, aimed at regulating the reporting process. This procedure defines the phases, activities, timing and responsibilities relating to the management of the process itself, the collection and validation of the contents of the document.

The procedure applies to Sabaf S.p.A. and all its subsidiaries consolidated on a line-by-line basis.

Annual process of risk assessment and Audit Plan preparation

During 2019, Sabaf carried out the annual process of identifying and assessing the main corporate risks, aimed at updating the previous risk assessment and preparing the risk based Audit Plan for 2020, approved by the Board of Directors with the favourable opinion of the Control and Risk Committee having heard the Board of Statutory Auditors and the Director responsible for the Control and Risk Committee, in the meeting held on 17 December 2019.

The Group risk identification and assessment process, carried out in compliance with the new method developed by Sabaf's Internal Audit, envisaged the broad involvement of all the Parent Company department heads, also in their capacity as representatives for the

Subsidiaries, each for their respective areas, and taking into consideration the risks that may assume significance in terms of medium-/long-term sustainability.

In line with the Guidelines, the potential effects are assessed for each risk measured (in terms of impact and likelihood according to qualitative/quantitative scales), analysing the causes and evaluating the existing strategies and mitigation systems.

For further details on the main risks arising from the analysis carried out, reference is made to the Report on Operations.

Based on the information and evidence collected, and after consulting with the Control and Risk Committee, the Board of Directors believes that the Internal Control and Risk Management System in place in 2019 is adequate and effective in relation to the dimensions and characteristics of the Group and suitable overall for achieving the company targets.

10.1. DIRECTOR IN CHARGE OF THE INTERNAL CONTROL AND RISK MANAGEMENT SYSTEM

The Board of Directors identified CEO Pietro Iotti as the director responsible for supervising the operations of the Internal Control and Risk Management System.

***** ****

Under the scope of the responsibilities entrusted to him by the Board of Directors, the CEO has executed the guidelines and implementation of the Internal Control and Risk Management System, defined by the Board of Directors:

- being responsible for the identification of the main corporate risks, to be regularly submitted for examination by the Board of Directors, taking into account the characteristics of the activities conducted by Sabaf and its subsidiaries;
- implementing the guidelines defined by the Board, taking care of the planning, implementation and management of the internal control and risk management system, constantly checking its adequacy and efficiency;
- updating the Internal Control and Risk Management System with regard to the dynamics of the operating conditions and legislative and regulatory scenario;
- asking, where deemed necessary, the Internal Audit department to conduct checks into specific operational areas and into compliance with internal rules and procedures in the execution of corporate operations, at the same time notifying the Chairman of the Board of Directors, the Chairman of the Internal Control and Risk Committee and the Chairman of the Board of Statutory Auditors;
- promptly reporting to the Control and Risk Committee with regard to problems and criticalities that have emerged when conducting its activities or of which it has been notified, so that the Committee can undertake the appropriate initiatives.

10.2. HEAD OF INTERNAL AUDIT

On 8 May 2018, the Board of Directors, upon the proposal of the Director in charge of the Internal Control and Risk Management System, subject to the favourable opinion of the Control and Risk Committee, as well as after hearing the Board of statutory auditors, renewed the engagement of an independent external company that provides Internal Audit

services, Protiviti s.r.l., to carry out the functions of the Internal Audit Department for the years 2018-2020 as well. It then identified Emma Marcandalli, the company's Managing Director, as Head of that department. This decision has been made because the professional resources to establish such a function are not available internally and also taking into account the greater skills and efficiency that a specialist outside firm can offer with regard to internal control given the size of Sabaf.

Upon engagement renewal, the Board of Directors established the remuneration of the Head of Internal Audit in compliance with corporate policies and market rates, and laid out her functions in line with the Corporate Governance Code.

Following the resignation of Emma Marcandalli from her position as member of the Supervisory Body and Head of Internal Audit, on 25 June 2019, the Board of Directors, upon the proposal of the Director in charge of the Internal Control and Risk Management System, subject to the favourable opinion of the Control and Risk Committee, as well as after hearing the Board of Statutory Auditors, entrusted the Group Internal Audit Function for the period from 1 July 2019 to 31 December 2021 to PricewaterhouseCoopers Advisory S.p.A. (PwC) identifying Giuseppe Garzillo, Partner of the company, as the Head of the function.

The Head of the Internal Audit department is responsible for verifying that the Internal Control and Risk Management System is working properly, and is not responsible for any operational areas and remains in office for the entire term of the Board of Directors which appointed him/her.

The Head of the Internal Audit department reports to the Board of Directors, which approves the Internal Audit Plan, as well as the appointment, and also defines the termination of the engagement.

During the year, the Head of the Internal Audit department:

- had direct access to all information useful for the performance of her duties,

and risk management system and sent these to the Chairmen of the Board of Statutory Auditors and the Internal Control and Risk Committee, as well as the Director in charge of the Internal Control and Risk Management System,

10.3. ORGANISATIONAL MODEL pursuant to Legislative Decree 231/2001

In 2006, Sabaf S.p.A. adopted the Organisational Management and Control Model ("Organisational Model"), as suggested by Legislative Decree 231/2001, aimed at preventing the possibility of significant administrative offences and crimes with regard to the Decree, which involve the administrative responsibility of the Company in cases where certain types of crime are committed by employees or collaborators in the interest or for the benefit of the Company. In the course of 2008, also the Italian subsidiary Faringosi-Hinges s.r.l. adopted its own Organisation, Management and Control Model pursuant to Legislative Decree 231/2001.

Through the adoption of the Organisational Model, Sabaf S.p.A. set itself the goal of acquiring a set of general principles of behaviour and protocols which, in compliance with the system of assigning functions and powers and existing internal procedures, meets the requirements of the Decree in terms of prevention, control of the implementation of the Model and any imposition of penalties.

The Organisational Model comprises a **General Part**, that describes the underlying principles and the aims of Sabaf S.p.A. set itself through its adoption, and a series of **Special Parts**, which identify and regulate specific behaviour in areas identified as potentially at risk for the Company, with regard to different types of offences. The General Part of the Sabaf Organisational Model of is made available on the company website at www.sabaf.it, under the section "*Investors - Corporate Governance*".

In the definition of the Model, Sabaf S.p.A. analysed corporate activities, training processes and the implementation of decisions within the individual corporate areas, as well as internal control systems. Based on the results of the analyses and the areas identified as potentially at risk, Sabaf S.p.A. deemed it appropriate to regulate the processes with regard to the following types of crimes and offences under Legislative Decree 231/2001: Articles 24 and 25 (offences against the Public Administration), Art. 25- *bis* (as regards falsehood in instruments or signs of recognition), Art. 25- *ter* (corporate crimes, including the offence of corruption between private individuals), Art. 26- *sexies* (offences and administrative offences of market abuse), Art. 25- *septies* (offences in the field of safety, hygiene and health at work), Art. 25- *octies* (offences of receiving stolen goods, money laundering and use of money, goods or assets of illicit origin as well as self-laundering), Art. 25- *undecies* (environmental crimes), and Art. 25- *duodecies* (offences regarding the use of third-country nationals whose stay is unlawful).

On 12 November 2019, the Board of Directors approved the amendments made to the "*Information Flows*" protocol attached to the Model.

The Model also includes the mandatory establishment of the Supervisory Body, composed of several people with the members being particularly well qualified and in possession of the requirement of integrity pursuant to Article 109 of Legislative Decree 385 of 1 September 1993.

The Supervisory Body (appointed on 5 May 2015 by the Board of Directors for the three-year period 2015 to 2017, and re-appointed on 8 May 2018 for the three-year period 2018 to 2020) comprises Nicla Picchi, independent director and Vice Chairman of the Company (Chairman) and by Giuseppe Garzillo, Head of the Internal Audit Function, appointed on 25 June 2019 following the resignation of Emma Marcandalli.

Moreover, an annual expense fund of € 20,000 was made available to the Supervisory Body to carry out its tasks, which was not used in 2019.

During the financial year, through the Internal Audit function and in line with its Audit Plan, the Supervisory Body carried out checks on the effective application and awareness of the rules of control and conduct. In addition, during the year specific preliminary investigation activities were carried out, regarding which the Supervisory Body reported to the company's administration and control bodies.

The Body met twice during the year and:

- verified the effectiveness of the Model, both through checks carried out by Internal Audit and through conversations with personnel involved in sensitive activities,
- carried out specific investigation activities regarding the occupational health and safety management processes, held periodic consultation meetings with Company management in order to analyse certain environmental and occupational health and safety matters, as well as issues subject to audits during the year.

10.4. INDEPENDENT AUDITORS

On 8 May 2018, the assignment of external auditing granted to the company Deloitte & Touche S.p.A. for the period 2009-2017 expired. Therefore, the Ordinary Shareholders' Meeting, in consideration of the recommendation prepared by the Board of Statutory Auditors pursuant to Art. 13 of Italian Legislative Decree 39/2010 and Regulation (EU) 537/2014, resolved to grant the external auditing assignment for the period 2018 to 2026 to EY S.p.A.

For more information about the above procedure, please see the full text of same, available on the Company's website: www.sabaf.it, under the section "*Investors - Corporate Governance*".

Moreover, in 2019 the Board of Directors did not examine transactions in which a director had a personal interest and for which the application of the "Significant transactions in which directors have an interest" procedure attached to the *Corporate Governance Manual*.

12. APPOINTMENT OF STATUTORY AUDITORS

On the basis of what is laid down by the Issuer's Articles of Association, the following persons cannot be elected as statutory auditors and, if elected, their office is forfeited: persons not possessing the qualities of professionalism, integrity and independence established by existing laws or else they will find themselves in a situation of ineligibility, incompatibility or forfeiture under the law. In addition, the limits on the maximum number of positions established through the Consob Regulation apply to statutory auditors.

The appointment of the Board of Statutory Auditors takes place based on the lists submitted by holders of voting rights in which the candidates are ranked progressively. Each list has two sections: one for candidates for the office of standing auditor and the other for candidates for the office of alternate auditor.

Only holders of voting rights have the right to submit lists. On their own or together with others, they must overall own shares with voting rights representing at least 2.5% of the share capital with voting rights at the shareholders' meetings for the appointment of members of the administration and control bodies, or the different stake for the presentation of lists for the appointment of the members of the Board of Directors.

Each holder of voting rights, as well as shareholders who are part of a group pursuant to Art. 2359 of the Italian Civil Code, or shareholders who enter into a shareholders' agreement relating to the Company's shares, cannot present – even via interposed persons or trustee companies – more than one list, and cannot vote for several lists.

Each candidate may be included on only one slate, under penalty of ineligibility. Outgoing statutory auditors can be re-elected.

The lists submitted should be filed at the Company's registered office and made available to the public at the registered office and on the Company website, under the terms and conditions of the applicable primary and secondary regulations, and this will be mentioned in the call notice. The lists are accompanied by:

- information on the identity of the shareholders with voting rights who have submitted the lists and the percentages of shareholdings held overall, and certification proving ownership of this shareholding;
- a declaration that the holders of voting rights other than those who can express an absolute majority or relating to the Shareholders' Meeting where they hold, including jointly, a controlling or majority interest, attesting to the absence of relations connecting them to the latter, pursuant to the applicable regulations,
- exhaustive information about the personal and professional characteristics of the candidates, as well as a declaration by said candidates certifying the fulfilment of the requirements laid down by law and by the Articles of Association and the acceptance of the candidature.

The election of statutory auditors takes place according to the following procedure:

- two standing auditors and one alternate auditor are taken from the list which obtained the absolute highest number of votes at the Shareholders' Meeting, based on the progressive order in which they are listed,

- the remaining standing auditor and the other alternate auditor from the list that obtained the greatest number of votes at the Shareholders' Meeting, from the lists submitted and voted on by shareholders who have voting rights and are not connected to the reference shareholders pursuant to the applicable regulations.

If there is a tie in the voting between two or more lists, the most senior candidates in terms of age will be elected.

In case the minimum prescribed number necessary of standing Auditors or Alternate Auditors belonging to the less represented gender is not elected, one shall proceed to the replacement of the most recently elected candidate of the more represented gender of the majority list with the next candidate of the less represented gender who is part of the same list.

If it is not possible to proceed, in full or in part, with the appointments following the above methods, the Shareholders' Meeting will resolve with a majority decision.

If the regulatory and statutory requirements are not met, the statutory auditor's office will be forfeited.

Diversity criteria and policies

On 26 March 2018, the Board of Directors of Sabaf S.p.A. at the suggestion of the Remuneration and Nomination Committee, with the opinion of the Board of Statutory Auditors, adopted a Policy on the composition of the Corporate Bodies.

This Policy sets out the Company's guidelines on the characteristics considered functional to ensuring an optimal composition of the corporate bodies (Board of Directors and Board of Statutory Auditors), with the aim of guiding the names put forward by the Shareholders when renewing the Corporate Bodies, so that the benefits that can derive from a balanced composition of the Board and Board of Statutory Auditors inspired by criteria of diversity are taken into consideration.

In the same way as with the Board of Directors, also with regard to the composition of the Board of Statutory Auditors, the Policy adopted by Sabaf is in addition to (but does not replace) the regulatory requirements and the provisions of law in force and illustrates the characteristics deemed essential for the Statutory Auditors to be able to carry out their duties in the most effective way; specifically:

- a) **Independence, training and professional experience**: Please refer to the requirements of the mandatory regulations and Corporate Governance Code (according to Article 8.C.1, Statutory Auditors may be qualified as independent auditors on the basis of the same criteria as those laid down for Directors).
- b) **Gender**: As already defined in the Articles of Association (which implements the law provisions on gender distribution), gender balance must be guaranteed within the Board of Statutory Auditors.
- c) **Age and seniority in office**: It is considered useful to ensure a balanced combination of different seniorities in office - as well as age groups - within the Board of Statutory Auditors.
- d) **Numbers**: Pursuant to the Articles of Association, the Board of Statutory Auditors is composed of three Standing auditors and two alternate auditors.

Furthermore, the Policy stresses the need for all Statutory Auditors to ensure that they have sufficient time to perform their duties diligently.

The Board of Directors, with the support of the Remuneration and Nomination Committee and the Board of Statutory Auditors, is responsible for monitoring the implementation of the Policy, and monitors its results starting with the renewal of the Corporate Bodies occurred during the Shareholders' Meeting convened on 8 May 2018.

The composition of the current Board of Statutory Auditors complies with the diversity requirements laid down in the above Policy. With particular reference to gender balance, one third of Standing and Alternate Auditors belong to the less represented gender (2 auditors of five).

The Policy on the composition of the Corporate Bodies is published on the company website at www.sabaf.it, under the section "*Investors - Corporate Governance*".

In 2019, and in compliance with the requirements of Article 19 of Legislative Decree 39/2010, the Board of Statutory Auditors analysed the data, information and documents made available by the Company, which fall within the scope of the ordinary control duties of the Board of Statutory Auditors

In 2019, the members of the Board of Statutory Auditors were involved in specific induction activities with the members of the Board of Directors, as defined in section 4.2 of this report, aimed at providing them with adequate knowledge about the sector of activity in which Sabaf operates, corporate dynamics and their development, as well as the regulatory reference framework.

In line with the provisions of the Corporate Governance Manual of the Issuer, the following principles of behaviour apply to the members of the Board of Statutory Auditors:

- they act with autonomy and independence even in regard to the Shareholders who elected them;
- they accept the office when they consider to be able to dedicate the time necessary to the diligent performance of their duties (and in any case after satisfaction of the requisites required by law);
- the remuneration of the Statutory Auditors is commensurate with the required commitment, to the importance of the role and to the dimensional and sectoral characteristics of the undertaking;
- each Statutory Auditor will promptly and exhaustively inform the others and the Chairman of the Board of Directors if they have an interest, of their own or on behalf of third parties, in a given transaction relating to Sabaf or its subsidiaries. During 2019, there were no situations in which the auditors had to make such declarations;
- they are required to maintain confidential the documents and information acquired in the performance of their duties and to comply with the procedure adopted by Sabaf for internal management and external disclosure of such documents and information.

14. SHAREHOLDER RELATIONS

The Company has established a dedicated section in its website, that can be easily identified and accessed, in which the information that is important to shareholders is available so that they can exercise their rights with full knowledge.

Gianluca Beschi is the Investor Relations Manager. A specific corporate structure has not been set up because, even taking into consideration the size of the Company, the functions are directly performed by the Investor Relations Manager.

15. SHAREHOLDERS' MEETINGS (pursuant to Art. 123-bis, (2)(c) TUF)

The operating mechanisms of the Shareholders' Meeting, its main powers, shareholders' rights and how to exercise them, are those provided for by the laws in force and are regulated within the Company Articles of Association and the Shareholders' Meeting Regulations to which reference is made.

In 2010, the Shareholders' Meeting has approved Meeting Regulations governing the orderly and effective carrying-out of the shareholders' meetings; during the 2019 financial year the Meetings Regulations have not changed.

The Meetings Regulation describes, among other things, the manner by which the right of each shareholder to speak on the topics on the agenda for discussion is guaranteed. Specifically:

- the Chairman of the Meeting directs the discussion by giving the floor to the directors, auditors and to those who have requested to speak;
- those entitled to exercise their voting rights may ask to speak only once about the items on the agenda for discussion, making observations and asking for information. Those entitled to exercise their voting rights may also make proposals. The request can be made until the Chairman has declared the discussion on the matter concerned closed.
- the Chairman establishes the procedures for requesting the floor and the order of the floor. The Chairman and, at his invitation, those who assist him, respond to the speakers at the end of all interventions on the items under discussion, or after each intervention, also taking into account any questions made by members prior to the Meeting that have not already been answered by the Company;
- those who have asked for the floor have the right to make a brief reply;
- the Chairman, taking into account the object and the importance of the individual items on the agenda for discussion, as well as the number of requests to speak, and any questions raised by members prior to the Meeting that have not already been answered by the Company, predetermines the duration of interventions and replies in order to ensure that the Meeting can conclude its work in a single meeting.

For more details about the Shareholders' Meeting Regulations mentioned above, please see the complete text available on the website, at: www.sabaf.it under the section "*Investors - Corporate Governance*".

The entire Board of Directors attended the meeting held on 7 May 2019: the Chairman of the Board of Directors Giuseppe Saleri, the Chief Executive Officer Pietro Iotti, the Vice Chairman Nicla Picchi and the Directors Gianluca Beschi, Claudio Bulgarelli, Alessandro Potestà, Carlo Scarpa, Daniela Toscani and Stefania Triva. The Board of Statutory Auditors was also present at the Shareholders' Meeting held on 7 May 2019: the Chairman of the Board Alessandra Tronconi and the Standing Auditors Luisa Anselmi and Giorgio Mauro Vivenzi.

On that occasion, the Shareholders' Meeting resolved to renew Sabaf's Corporate Bodies by appointing the new Board of Directors and Board of Statutory Auditors, in office for the three-year period 2018 to 2020, and also appointed EY S.p.A. as independent auditor for the period 2018 to 2026.

On the occasion of the Shareholders' Meetings, the Board of Directors has reported on the activities carried out and planned and has provided the shareholders with adequate information surrounding the necessary elements so that they can take the necessary decisions with full knowledge of the facts. During the 2019 financial year, there were no significant changes in market capitalisation or in the composition of the shareholding structure for the Board of Directors to assess whether to propose to the Shareholders' Meeting amendments to the Articles of Association concerning the percentages set for exercising the actions and rights provided to protect minority shareholders.

For further details about the Articles of Association, please see the complete text available on the website, at: www.sabaf.it, under the section "*Investors - Corporate Governance*".

**16. OTHER CORPORATE GOVERNANCE PRACTICES
(pursuant to Art. 123-bis, (2)(a) TUF)**

There are no further corporate governance practices to report in addition to the descriptions provided in the previous points of this document.

17. CHANGES SINCE THE END OF THE REPORTING YEAR

There have not been further changes in the structure of Corporate Governance at 31 December 2019 and up to the date of this Report.

18. CONSIDERATIONS ON THE LETTER OF 19 DECEMBER 2019 OF THE CHAIRMAN OF THE CORPORATE GOVERNANCE COMMITTEE

The recommendations made in the letter of 19 December 2019 by the Chairman of the Corporate Governance Committee, although not formally brought to the attention of the Board of Directors and the Board of Statutory Auditors, were examined and taken into consideration by Sabaf, with a view to ensuring full compliance with the best practices of Corporate Governance. In particular, note the following:

1) Sustainability of business activity

For the Sabaf Group, respect for business ethics and socially responsible behaviour are the fundamental elements of its business model. Accordingly, the Group developed a strategy and a governance model that can guarantee sustainable growth over time. For Sabaf, sustainable growth is intended as the ability to combine at the same time:

- economic sustainability, i.e. operate in such a way that company choices increase the value of the company not only in the short term but above all are able to guarantee business continuity in the long term through the application of an advanced model of corporate governance;
- social sustainability, i.e. promote ethical behaviour in business and reconcile the legitimate expectations of the various stakeholders in accordance with common shared values;
- environmental sustainability i.e. produce by minimising the direct and indirect environmental impacts of its production activities to preserve the natural environment for the benefit of future generations in compliance with current laws on the subject.

2) Quality of reporting to the Board of Directors

Aware of the importance of full and timely disclosure of information to Directors and Statutory Auditors, Sabaf takes the utmost care to ensure that documentation is available in advance, while maintaining the utmost confidentiality. The "CdA on Board" application is currently in use, through which the documentation relating to the items on the agenda is made available at least three days before the date of the Board meeting.

The quality of the pre-meeting disclosure and the timeliness in sending the documentation are specifically assessed as part of the annual self-assessment process by the Board of Directors. On these points, also with reference to the year 2019, there was a general and broad appreciation by the Directors.

3) Application of the independence criteria defined by the Code

In the assessment carried out by the Board of Directors regarding the existence and permanence of the independence requirements of its Directors, no cases of exception or non-application of the indications of the Corporate Governance Code were found; none of the Directors qualified as independent is in one of the situations described by principle 3.C.1 of the Corporate Governance Code.

4) Remuneration of non-executive directors and members of the supervisory body

The remuneration paid to non-executive directors and statutory auditors is determined taking into account the professionalism, competence and commitment required in the performance of their duties.

A specific fee is envisaged for the attendance of directors in the Board Committees. Only non-executive directors are also entitled to a token for their physical presence at Board and Committee meetings.

Non-executive directors are not granted any variable fee.

19. CONSIDERATIONS ON THE NEW CORPORATE GOVERNANCE CODE

On 31 January 2020, the new Corporate Governance Code, which is addressed to all companies with shares listed on the MTA (Electronic Stock Market) organised and managed by Borsa Italiana and is applicable from the first financial year beginning after 31 December 2020, was published.

The substantial changes introduced by the Code concern:

- 1) **sustainability:** the board of directors is responsible for integrating sustainability objectives into the business plan, the internal control and risk management system and remuneration policies;
- 2) **engagement:** the chairman of the board is responsible for submitting to the board for approval, in agreement with the CEO, a policy for managing dialogue with all shareholders, ensuring that the board is adequately informed about the development and significant content of the dialogue with all shareholders;
- 3) **proportionality:** some recommendations are addressed only to large companies (capitalisation over €1 billion for three consecutive calendar years), specific simplifications are envisaged by concentrated ownership companies;
- 4) **simplification:** the Code is based on principles that define the objectives of good corporate governance, recommendations subject to the "comply or explain" rule and a neutral approach of best practices with respect to governance models has been developed to make the Code directly usable for all types of corporate model.

Sabaf welcomes the new Code, fully endorses its new features and is committed to evaluating in advance any changes to its governance model that may be appropriate for the full application of the Code from the date of its entry into force.
