PRESS RELEASE

BANCA IMI: RESULTS AS AT 31 MARCH 2020 APPROVED

- Consolidated profit for the year of 411 million euro (+71.1% compared to the results as at 31 March 2019)
- Consolidated total income of 766 million euro (+48.1% on 31 March 2019)
- Strong growth in net interest income (+23.7%) and profits from the management of financial assets almost doubled (+84.4%)
- Operating profit of 653 million euro (+63.1% on 31 March 2019)
- Total assets rose to 217 billion euro, up +13% from 192 billion euro as at 31 December 2019
- CET1 ratio at 11.96% and Total Capital Ratio at 17.95%, without taking account of the result of the period in any way

Milan, 5 May 2020 - The Board of Directors of Banca IMI, the investment bank within the Intesa Sanpaolo Group, led by CEO Mauro Micillo and General Manager Massimo Mocio, has approved the separate and consolidated financial statements as at 31 March 2020 in a meeting held today and chaired by Gaetano Miccichè.

The quarter ended with a consolidated profit of **411 million** euro, an increase of 71.1% compared to the 240 million euro as at 31 March 2019. Profits featured a robust level of net interest income (+23.7% over the same period last year) and profits from the management of financial assets.

In the challenging scenario of financial markets, triggered at the end of the quarter by the effects of the Covid-19 pandemic, asset management strategies focused on creating portfolios of investments in securities over the medium/long term, while at the same time taking targeted defensive actions to protect the economic value of trading assets and de-risking actions for those measured at fair value against equity.

Special diligence and caution were followed to determine the fair value of financial assets and liabilities, considering the potential forward-looking effects on securities values that could result from the continuing global economic and financial crisis.

Total income for the period stands at **766 million** euro (+48.1%, an increase of 249 million euro). **Capital Markets** assets contributed **676 million** euro and **Investment Banking** and **Structured Finance** assets contributed **90 million** euro.

Thanks to a well-controlled operating cost structure (112 million euro), the effect of higher revenues flowed entirely to **operating profit** which rose to **653 million** euro (up +63.1% compared to 31 March 2019), bringing the **cost/income ratio** to a noteworthy **14.7%** from the previous 22.5%.

Impairment losses, provisions and other operating expenses accounted for a total of 35 million euro. This amount reflects estimated costs for 45 million euro as contribution to the European Single Resolution Fund for 2020. Reversals of impairment losses of 10 million euro recorded on loans to customers and other assets reflect, on the one hand, an improvement in the quality of lending and, on the other hand, the implementation of management actions during the quarter, designed to reduce the incidence of non-performing loans (down to 1.3% from 1.7% previously) and transfer the management of specialist lending to the Parent Company, in a synthetic manner and in line with the planned corporate integration process.

A factor contributing to the overall economic performance was the growth in **total assets**, which rose to 217 billion euro from 192 billion euro as at 31 December 2019. This increase is due to the prevalence of interest-bearing assets: repurchase agreements, securities, interbank assets. During the quarter, the new model for the production and distribution of guaranteed capital retail investment products was implemented. This is aimed at creating a stable funding base with designation at fair value; the stock of instruments issued as at 31 March 2020 exceeded 700 million euro.

All the strategies and the operating performance during the quarter took Risk Weighted Assets to 26.7 billion euro, down from the previous 34 billion euro, despite the aforementioned increase in total assets. **Own funds** for regulatory purposes are close to **4.8 billion** euro and do not currently consider the financial result for the period.

The Common Equity Tier 1 Ratio, Total Capital Ratio and Leverage Ratio so calculated reached 11.96%, 17.95% and 4.21%, respectively. In compliance with the provisions set out in (EU) Regulation 2017/2395 of 12 December 2017, information regarding own funds for regulatory purposes and prudential ratios of Banca IMI, both with and without application of the transitional rules set out in the regulation, is provided below.

Banca IMI is the investment bank of Intesa Sanpaolo, a leading Banking Group in Italy with a strong international presence. Banca IMI has the main aim of assisting its customers - institutional investors, financial networks, corporations and public administrations - by offering products and services that aim for excellence. Backed by the professionalism and expertise of over 800 professionals, Banca IMI operates in investment banking, structured finance and capital markets on the main national and international markets via its offices in Milan, its branches in Rome and London, and the subsidiary Banca IMI Securities Corporation in New York (*). It is a leader in investment banking in Italy and M&A Advisory activities, with a strong presence in the placement of shares and bonds. Banca IMI is the historical leader in the Italian structured finance market with a solid international track record, utilising the relationships built up by the Intesa Sanpaolo Group in Italy and the rest of the world. Banca IMI is one of the most important players in the brokerage of shares and bonds, and has relations with listed companies, providing an efficient Corporate Broking service and specialist advisory services to customers for the management of financial risks. Banca IMI is known for its expertise in structuring and creating investment products for retail customers and, through its Market Hub, the innovative proprietary market access platform, dynamically searches for the best execution of MiFID-compliant orders, allowing over 350 Italian and international institutional customers to access more than 70 national and international markets (equity, bond and derivatives markets).

Banca IMI has a Moody's rating of Baa1, S&P rating of BBB and Fitch rating of BBB.

* Entities operating in the United States are asked to contact Banca IMI Securities Corporation directly.
