# ISP Outside-In Analysis Showed ~€700m of Expected Synergies by 2024...

## Pre-tax annual synergies

Outside-in synergies/integration charges estimates as stated in the Offer Document in June 2020

€ m

...which are now considered as a floor both on the revenue and cost side after initial joint analysis

## Key Considerations

- **No social impact.** All exits will be on a voluntary basis
- **At least ~5,000 expected voluntary exits<sup>(1)</sup>**
- **Hire one new young person for every two voluntary exits**
- **Enhance operational structure** both at headquarter and distribution network levels
- **Alignment of UBI Banca productivity and commercial proposition to ISP best practices**
- **Revenue synergies** benefitting from UBI Banca product factories integration
- **Integration charges** expensed in 2020 covered by part of the negative goodwill arising from the transaction

Strong acceleration in UBI Banca commercial performance in October

(1) Including ~1,000 applications for voluntary exits already received and under valuation by ISP

ISP Is Successfully Managing a Challenging Environment

9M20: Excellent Nine-Month Performance

Combination with UBI Banca

**Final Remarks**

# ISP Is Fully Equipped to Succeed in this Challenging Environment

## ISP is fully equipped for this challenging environment:

- Best-in-class **excess capital**, low **leverage** and strong **liquidity**
- **€1,312m<sup>(1)</sup>** in additional **provisions** already booked in 9M to tackle future COVID-19 impacts
- **Low NPL stock**, with **robust coverage** at 54.4%<sup>(1)</sup>
- Well-diversified and resilient **business model**
- High **strategic flexibility in managing costs**, with Cost/Income ratio at 50.2%<sup>(1)</sup>

## ISP delivered excellent performance in 9M:

- **Second-best 9M Net income since 2008<sup>(1)</sup>** (~€3bn minimum Net income target for 2020 already achieved)
- **Strong recovery in Net interest income and Commissions** in Q3
- **Strong cost reduction**
- **Lowest-ever 9M and quarterly Gross NPL inflow**
- **Common Equity Ratio up ~+100bps in Q3** excluding the negative impact from the combination with UBI Banca

## ▪ Continue delivering best-in-class profitability with:

- Minimum ~€3bn Net income in 2020 assuming cost of risk of ~90bps, without considering the combination with UBI Banca
- Minimum ~€3.5bn Net income in 2021 assuming cost of risk of ~70bps, without considering the combination with UBI Banca
- Minimum ~€5bn Net income starting in 2022, including the benefits from the combination with UBI Banca

## ▪ Maintain a solid capital position (minimum Common Equity<sup>(2)</sup> ratio of 13%, even when taking into account the potential cash distribution from reserves in light of the 2019 Net income allocated to reserves, subject to ECB approval)

- **Deliver payout ratio** of 75% in 2020 and 70% in 2021<sup>(3)</sup>
- On top of the cash dividend from 2020 Net income, ISP will seek ECB approval for a **cash distribution to shareholders** from **reserves** in 2021 in light of the 2019 Net income allocated to reserves in 2020

- **The combination with UBI Banca is well underway and adds significant value by improving asset quality and delivering synergies with no social costs, and with very low execution risk**
- **New Business Plan by the end of 2021, as soon as the macroeconomic scenario becomes clearer**

(1) Excluding UBI Banca

(2) Pro-forma fully loaded Basel 3 (considering the total absorption of DTA related to IFRS9 FTA, goodwill realignment/adjustments to loans/non-taxable public cash contribution of €1,285m covering the integration and rationalisation charges relating to the acquisition of the operations of the two former Venetian banks, the expected absorption of DTA on losses carried forward and arising from the disposal to BPER Banca of a portion of branches and related assets and liabilities relating to the combination with UBI Banca). CET1 ratio fully phased in >12%

(3) Without considering the combination with UBI Banca. The same payout ratios apply when considering the combination with UBI Banca, excluding from 2020 Net income the portion generated by the negative goodwill not allocated to integration costs and accelerated NPL deleveraging
