Bologna, 12 February 2021

The Board of Directors of UnipolSai Assicurazioni S.p.A., which met yesterday under the chairmanship of Carlo Cimbri, analysed the preliminary consolidated results for 2020. The definitive results will be examined by the governing body at its meeting scheduled for 18 March next.

In a year marked by the outbreak of the Covid-19 emergency, the Group supported significant projects in favour of the community, customers, the agency distribution network and employees.

UnipolSai donated €20m to the **community** during the year to help tackle the Coronavirus emergency.

In the areas most affected in Italy, Unipol, in close cooperation with the authorities and the civil protection authority, allocated said resources to increase the number of beds in hospitals, especially in intensive care and semi-intensive care units, and to purchase the necessary healthcare equipment to help stop the epidemic from spreading.

With regard to **customers**, the Group established a Coronavirus medical consultation service available 24/7 for its policyholders through the UniSalute Medical Centre. UnipolSai launched #UniSalutePerTe healthcare coverage to address the possible consequences of Covid-19 and offered it at no additional cost to all its customers.

UnipolSai also created the #AndràTuttoBene healthcare protection product especially for companies for the protection of their employees, and launched the #UnMesePerTe campaign to reimburse 10 million customers for an amount equal to a month's car insurance by using vouchers when renewing their policies.

With regard to the **agency distribution network**, significant financial support measures were introduced along with support to ensure safe working conditions. Mechanisms were also developed to communicate with customers via digital means, especially for the payment systems and electronic signatures on contracts.

Starting from March 2020, WFH mechanisms were introduced to safeguard the health of all the Group **employees** using technological solutions implemented in just a few weeks to enable over 9,300 people to work on a more flexible basis; these mechanisms are still in use.

Economic-financial results

In 2020, UnipolSai made a **consolidated net profit** of €853m, significantly up (+18.3%) on the figure of €721m achieved in 2019, whose result did not include the one-off charges related to agreements made with trade union organisations for the solidarity fund and other forms of voluntary redundancy (amounting to €66m after taxes).

Direct insurance income, including reinsurance ceded, stood at €12,210m, down by 12.9% from the figure at 31 December 2019 (€14,014m). 2020 was strongly affected by the consequences of the healthcare emergency caused by the Covid-19 pandemic which influenced both commercial activities and claims.

NON-LIFE BUSINESS
FINANCIAL STATEMENTS 2020

In the **Non-Life Business**, direct income in 2020 amounted to €7,882m, with a 3.5% reduction on the figure of €8,167m recorded in 2019.

MV premium income stood at €3,985m compared to €4,178m in 2019 (-4.6%) reflecting the effects of the #UnMesePerTe campaign which gave a month's car insurance discount to all customers who had policies with the company and due to competitive pressure on average MV liability premiums. Income amounted to €3,896m in the **Non-MV** business (-2.3% compared to the figure of €3,989m in

2019), with less of a fall-off, due in part to the sale of specific products linked to the healthcare emergency.

UnipolSai S.p.A. income recorded non-life premiums of €6,772m, down 3.1% mainly due to the fall-off in MV premiums. Linear, the other main insurance company in the Group operating in the MV business, recorded a total of €185m in premiums, an 0.6% increase thanks to growth in its customer base. UniSalute increased its income to €483m (+7.7%) thanks to the acquisition of significant new corporate contracts.

In the non-life bancassurance business, Arca Assicurazioni posted €140m in premiums, an increase of 3.0% over the previous year thanks to the good performance of its non-life and third-party insurance business.

The reduction in road traffic had a positive influence on claims due to the containment measures put in place against the Covid-19 pandemic. There was therefore a reduction in both the frequency of MV liability claims, although with higher rates of serious loss, and the frequency of claims related to other vehicle-related insurance cover. Compared to 2019, the year was impacted to a lesser extent by loss from weather events, even though similar levels were sustained in the face of less reinsurance recovery.

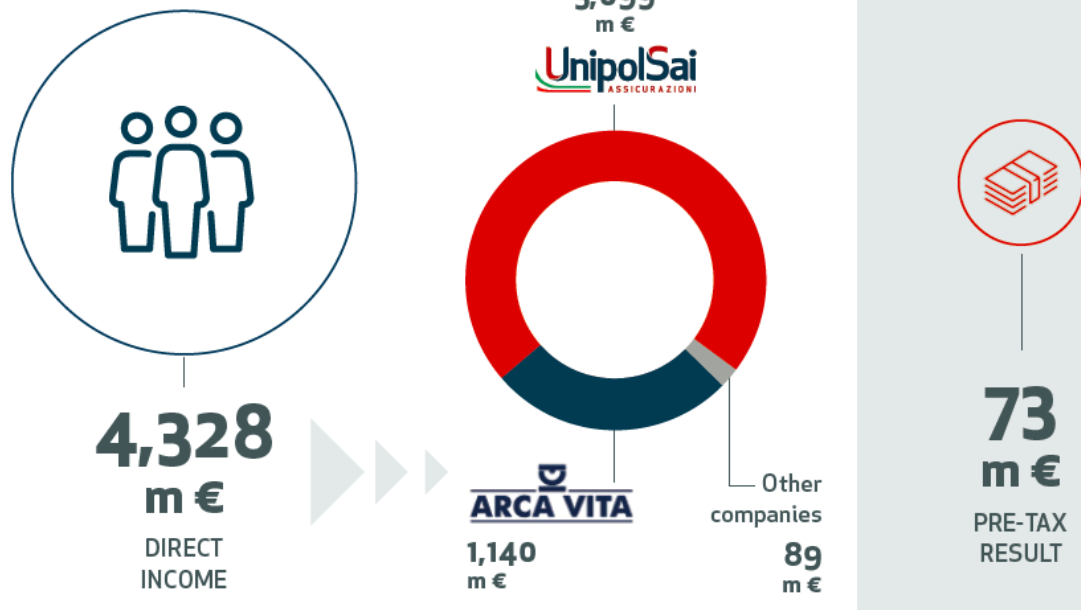

The company continues to be a European leader in the number of **black boxes** installed in vehicles which amounted to 4.2 million in 2020. For the first time in Italy, the telematics applied to the insurance meant that the Group could reimburse customers with an amount equal to a month's worth of their MV liability policy, with a voucher to be used when renewing their contract.

In this context, as at 31 December 2020, the UnipolSai Group recorded a **combined ratio**¹ of 87.0% (85.4% direct business), an improvement on the figure of 94.2% recorded in 2019 (93.7% direct business). The **loss ratio**¹ stood at 58.8% (66.3% as at 31 December 2019). The **expense ratio**¹ amounted to 28.2% (27.9% the previous year).

The **pre-tax result** for the non-life business amounted to €1,105m (€698m in 2019, €782m net of the one-off charges linked to the solidarity fund).

LIFE BUSINESS

FINANCIAL STATEMENTS 2020

In the **Life business**, the UnipolSai Group reported direct income of €4,328m in 2020, down 26.0% (€5,847m in 2019) due to both the effects of the healthcare emergency and more especially the commercial policies employed during the period aimed at reducing risk, and compared to 2019 when there was a high volume of production, also following the acquisition of high-value contracts in the pension fund division.

More specifically, UnipolSai S.p.A. reported €3,099m in direct income (-24.0%), while in the bancassurance channel, Arca Vita, along with its subsidiary Arca Vita International, reported direct income of €1,140m (-32.0% compared to the figure of €1,676m in 2019).

The **pre-tax result** for the Life business amounted to €73m down from the normalised³ figure of €239m in 2019 due to the lower contribution from investment management which suffered higher losses on sales in 2020.

³ Normalised figure, calculated by excluding from the profit of the previous period the one-off charges arising from agreements signed with the trade union organisations for the solidarity fund and other forms of voluntary redundancy and amounting to €66m.

Real Estate and Other Businesses

The **real estate business** continued to revolve around the development of the real estate assets owned by the company in various places in Italy, with the aim of renovating the buildings so that they can generate income. A number of targeted acquisitions were also made of high-profit assets. Torre Velasca was sold, but the sale will be recorded in the 2021 accounts.

With regard to the **other sectors** that the Group operates in, the Covid-19 emergency is having a highly adverse effect on the Gruppo UNA, as with the entire hotel business in the country. There was only a limited number of hotels opened. For the most part, the other Group businesses broke even.

There was a **pre-tax loss** in the real estate and other businesses of €60m (-€52m as at 31 December 2019).

Financial Management

With regard to the **management of financial investments**, the gross return on the Group's portfolio continued to be significant, amounting to 3.0% of the invested assets, of which 3.1% relating to the coupon and dividend component. With a view towards reducing the solvency ratio volatility, the asset allocation was significantly revised during the year, with the percentage of Italian government securities falling from 51.0% to 43.2% in the portfolio and the sale of some risky equity investments in favour of "core Europe" government securities, high-rated corporate bonds and real assets.

Balance Sheet

As at 31 December 2020, the **consolidated shareholders' equity** amounted to €8,144m (€7,153m as at 31 December 2019), of which €7,881m attributable to the Group.

The **individual solvency** ratio amounted to 312%⁴ of the capital requirement (284% as at 31 December 2019), taking account of the proposed dividend payment.

The **consolidated solvency** ratio based on the economic capital, amounted to 277%² of the capital requirement (252% as at 31 December 2019), net of the dividends.

⁴ Figure calculated on the basis of the partial internal model to be considered as preliminary since the supervisory authorities will be notified of the definitive results in accordance with the legally imposed deadlines.

Dividends

Considering the individual accounting records of UnipolSai Assicurazioni S.p.A., and the overall financial strength, a dividend payment of €0.19 per share will be proposed, 18.7% higher than 2019.

The approval of the draft statutory and consolidated financial statements of UnipolSai as at 31 December 2020, and the proposed dividend payment to submit to the Shareholders' Meeting is scheduled for 18 March next. Therefore, the information in this document is to be considered preliminary and referring to today's date. The independent auditors have not yet completed the audit of these figures needed to issue their audit reports.

Since the Shareholders' Meeting to approve the 2020 financial statements is scheduled for 28 April 2021, any dividend payment based on the results of the year will be scheduled for May.

Business Outlook

The Covid-19 pandemic is also having an effect on the 2021 financial year.

The continued upsurge in infections and delays in vaccinations pose a threat to the long-awaited economic recovery.

Insurance business trends are in line with those of the end of 2020 as they are still conditioned by the effects of the pandemic on the commercial activities and on claims.

The consolidated operating results for the year, excluding events that cannot be presently forecast and including those linked to a deterioration of the market context, are expected to be positive and in line with the goals defined in the 2019-2021 Industrial Plan.

Presentation of results to the financial community

A conference call will be held at 12:00 p.m. today during which financial analysts and institutional investors may submit questions to the Group CEO and senior management on the results at 31 December 2020.
