Cembre S.p.A. and its subsidiaries are not subject to non-Italian law provisions which may affect the structure of the Company's corporate governance.

4. MANAGEMENT AND COORDINATION ACTIVITY

Though under the control of Lysne S.p.A. for the purposes of article 2359 of the Civil Code, the Company does not deem itself to be subject to the management and coordination of its parent pursuant to article 16 of Consob Market Regulation.

The Company deems to operate under full corporate and management autonomy from its parent Lysne S.p.A. In particular, as a non-exhaustive example, the Company manages autonomously its own treasury and relationships with its customers and suppliers, and does not make use of any service provided by its parent company.

Relationships with Lysne S.p.A. are limited to the normal exercise by the same of administrative and ownership rights pertaining to its quality of shareholder.

5. BOARD OF DIRECTORS

5.1. APPOINTMENT AND REPLACEMENT OF DIRECTORS (*ex art. 123-bis*, paragraph 1, letter l), TUF)

The provisions of the Issuer's By-laws that regulate the composition and appointment of the Board (art. 15) were recently modified by means of resolution of the Issuer's Board of Directors of February 25, 2021 drafted by public deed and adopted on the basis of the provisions of art. 2365 of the Italian Civil Code and art. 18 of the By-laws, in order to align these with the regulation on gender balance in the composition of the administration bodies pursuant to art. 147-ter, paragraph 1-ter of the TUF, as recently amended by Law 160/2019, and the related implementing provisions of Consob³. Art. 15,

³ Paragraph 1-ter, of art. 147-ter, of the TUF in force at the date of this report sets forth, inter alia, that the "less represented gender must account for at least two fifths of the elected directors. This distribution criterion applies for six consecutive mandates".

In addition, pursuant to paragraph 3, art. 144-undecies 1 of the Issuers' Regulation, as recently amended by means of Consob Resolution no. 21359 of May 13, 2020, "if the application of the gender distribution criterion does not result in a whole number of members of the administration and control bodies belonging to the less represented gender, this

paragraph 5 of the By-laws in force at the date of this report state that *“lists that present a total number of candidates equal to or higher than three must be composed of candidates from both genders, so that the gender balance set forth in the currently applicable legislation is respected”*.

Pursuant to art. 15, paragraph 5 of the Company's By-laws, lists of candidates to the position of Director must be deposited by Shareholders at the Company Registered Office at least 25 days prior to the date set for the Shareholders' Meeting on first or sole call.

Lists may be submitted only by Shareholders who represent, either individually or jointly with other Shareholders, at least 2.5% of voting rights at any Shareholders' Meeting, or any other limit established by other laws and regulations. Through management decision of the Head of the Corporate Governance Division no. 44 of January 29, 2021, Consob recently determined the stake in share capital required for the submission of lists of candidates for election of the Issuer's administration body at 2.5%.

The mechanism for the appointment to the position of Directors of candidates in the various lists is the following:

- a) all Directors except one are drawn from the most voted list in the order in which they are listed;
- b) the second voted list that is not connected in any way with any of the Shareholders that submitted or voted the most voted list described in paragraph a) above, is used to draw a Director, in the person of the first person listed. In case the minority list referred to in paragraph b) above has not received at least half of the votes required to submit the list according to the above-mentioned rules, all Directors shall be appointed from the most voted list (as in paragraph a) above);

If, through the method described above a sufficient number of Directors possessing requisites of independence equal to the minimum number required by law as a proportion of the total number of Directors is not achieved, the non-independent candidate elected last in the most voted list, as described in paragraph a), will be replaced by the first subsequent independent candidate that has not been elected from the list or, lacking this, by the first independent candidate that has not been elected from the other lists, giving priority to the list according to the number of votes it received. The procedure is followed until the Board comprises a minimum number of Directors possessing the requisites described in article 148, paragraph 3, TUF, equal at least to the minimum number prescribed by Law. In case, finally, such procedure is unable to ensure the result just indicated, the replacement will take place by resolution of the Shareholders' Meeting with the quorum established by Law.

In case, moreover, the candidates elected in the manner indicated above are such that the composition of the Board of Directors does not comply with applicable regulations on the equal representation of genders, the candidate of the most represented gender elected last in the order of names in the most voted list will be replaced by the first candidate of the least represented gender that was not elected in the same list. The replacement procedure will be repeated until the composition of the Board of Directors complies with applicable regulations on the equal representation of genders. In case the above procedure still does not ensure the above stated result, the replacement will take place by resolution of the Shareholder's Meeting passed with a relative majority of votes, after the presentation of a list of candidates of the least represented gender.

In case only a single list or no list is submitted, the Shareholders' Meeting resolves with the quorum established by Law - in compliance with applicable regulations on the equal representation of genders -without following the procedure described above.

In case in the year one or more Directors leave their position, and provided the majority of the Board is still made up by Directors appointed by the Shareholders' Meeting, the following procedure is applied pursuant to article 2386 of the Civil Code:

- i) the Board of Directors, after a resolution of the Board of Statutory Auditors, replaces the Director with a candidate on the same list as the one who has left office, while the Shareholders' Meeting resolves according to the quorum set by Law, following the same criteria;

number is rounded up to the nearest unit, with the exception of corporate bodies formed by three members for which the number is rounded down to the nearest unit”.

ii) in case in the aforementioned list there do not remain candidates that have not already been elected, or candidates possessing the requirements for appointment, or in any case when, for whatever reason, it is not possible to comply with the procedure described in paragraph i) above, the Board of Directors, after a resolution of the Board of Statutory Auditors and subsequently the Shareholders' Meeting according to the quorum set by Law, proceeds with the replacement of the Director without making use of voted lists.

In any case, the Board and the Shareholders' Meeting proceed to the appointment so as to ensure the presence of the minimum number of independent Directors required by regulations in force.

In the event of one or more Directors leaving their position, and provided the resulting majority of the Board is still made up by Directors appointed by the Shareholders' Meeting, the latter may however resolve to reduce the number of Directors to that of Directors still in office for the duration of their term, provided a sufficient number of independent Directors remains in office to ensure compliance with applicable regulations and that the Director appointed from the minority list is still in office.

In case the majority of Directors appointed by the Shareholders' Meeting leaves office, the whole Board is considered as terminated, effective at the time of the appointment of a new Board, and a Shareholders' Meeting must be called without delay by the Directors still in office to appoint a new Board.

When the number of Directors appointed is lower than the maximum set in article 15, paragraph 1, of the By-laws, the Shareholders' Meeting may, throughout the term of the Board, increase the number of Directors up to the limit set in the By-laws. The appointment of further Directors will take place as follows:

- i) additional Directors are appointed from the most voted list by Shareholders at the time of the appointment of Directors currently in office, drawn from candidates that are still eligible, while the Shareholders' Meeting resolves in accordance with the quorum set by Law, following the same criterion;
- ii) in case no candidates remain in the most voted list, or the case provided for in paragraph 5, last paragraph of article 15 of the By-laws occurs, the Shareholders' Meeting proceeds to the appointment without observing the procedure described in paragraph i), with the quorum set by law and without making use of voting lists.

The Shareholders' Meeting may however resolve to reduce the number of Directors to that of Directors in office for the residual term of their mandate, subject to limits set by applicable laws and regulations regarding the composition of Board of Directors.

Where it has not already been appointed by the Shareholders' Meeting, the Board of Directors appoints one of its members as Chair and, where deemed appropriate, one or more Vice Chair having substitute powers to that of the Chair.

Succession plans

In view of the dimension and the organisational structure of the Issuer, in addition to the practice of appointing as Executive Director individuals who have matured a significant experience within the Company, due to the unique characteristics of the sector and the need for specific competence and knowledge, the Board of Directors did not deem it necessary to adopt a plan for the succession of Executive Directors. However, with the entry into force of the Code of Corporate Governance 2020, the adoption of this plan is recommended for large companies, a category to which the Issuer does not belong ⁴.

5.2. COMPOSITION (ex art. 123-bis, paragraph 2, letters d) and d-bis, TUF)

The Shareholders' Meeting held on April 26, 2018 appointed the Board of Directors currently in office, made up of 8 (eight) members, on the basis of the only list of candidates submitted by the majority shareholder Lysne S.p.A. We remind that the share of voting rights required to submit a list for candidates to said position amounts to 2.5%.

Pursuant to article 3 of the Code and of art. 148, paragraph 3, letters b) and c) of the TUF, the possession of prerequisites for independence of Independent Directors currently in office were verified by the Board at its meeting of April 26, 2018 at which they were appointed⁸ and, lastly, also at the meeting held on

references to those of the new Code of Corporate Governance, maintaining the regime applicable to STAR issuers essentially unchanged. In said notice, Borsa Italiana specified that *"the new references are applicable, for each STAR company, from the first year starting after December 31, 2020, in accordance with the application regime set forth in said Code"*.

⁸ Following the Board meeting held on April 26, 2018, the Company disclosed the result of its evaluations through a press release published pursuant to article 144-novies, paragraph 1-bis, of the Consob Issuers' Regulation.

March 11, 2021, taking account of the independence requirements now set forth in Recommendation 7 of the Code of Corporate Governance.

With particular reference to the Director Fabio Fada, the Board, recently at the meeting on March 11, 2021, taking account:

- of the high level of professional experience of Mr. Fada, which proved to be valuable for the company and suited to operating in Cembre's complex legislative and structural context,
- of the ethical qualities and unchanged independence of judgment of the aforementioned Director,

in compliance with the principle of the prevalence of substance over form, decided it was appropriate not to apply application criterion 3.C.1 point e) of the CG Code 2018 and Recommendation 7, letter e) of the Code of Corporate Governance (which establishes that generally a director who has held that position for more than nine years, even non-consecutive, out of the last twelve should not be considered independent) and, as a result, to recognise the fulfilment of the independence requirements pursuant to art. 3 of the CG Code 2018 and Recommendation 7 of the Code of Corporate Governance 2020, as well as art. 148, paragraph 3 of the TUF by Director Fabio Fada.

Independent Directors pledged to maintain their independence throughout their mandate and in any case to inform with no delay the Board of Directors on possible events or situations that may compromise their independence.

Pursuant to art. 15, paragraph 4 of the Company's By-laws, the loss of the requisite for independence of an Independent Director provided for in art. 148, paragraph 3 of TUF, does not determine their revocation in case these requisites continue to hold for a minimum number of Directors that must possess them in accordance with the Law.

In carrying out the above assessments, the Board applied all the criteria provided for in the Code and the Code of Corporate Governance 2020.

At its meeting of April 24, 2020, the Board of Statutory Auditors verified that the criteria and procedures used by the Board of Directors in assessing requisites for independence were applied in a correct manner.

It should be noted that, on November 12, 2020, the Board of Directors, in compliance with the provisions of Recommendation 7 of the Code of Corporate Governance 2020, defined, in the BoD Regulation, the quantitative and qualitative criteria for evaluating the significance of financial, equity or professional relations, pursuant to letters c) and d) of the aforementioned Recommendation 7, capable of compromising the independence of its members. In particular, the Board set forth that:

- with reference to the commercial, financial or professional relations pursuant to letter c), the following quantitative parameter is to be considered: the fee received for the commercial, financial or professional relationship must not exceed €20 thousand per annum (net of VAT and any Social security funds). This parameter is understood to be separate from those pursuant to letter d) and, therefore, the observance of each threshold will be evaluated without the accumulation of the amounts received according to the two items. The parameter must not be exceeded in any of the three years prior to the evaluation of independence;
- With reference to the additional remuneration received in the previous three-year period pursuant to letter d), the amount of €20 thousand per annum (net of VAT and any Social security funds) is to be considered. This parameter is understood to be separate from those pursuant to letter c) and, therefore, the observance of each threshold will be evaluated without the accumulation of the amounts received according to the two items. The parameter must not be exceeded in any of the three years prior to the evaluation of independence.

Independent Directors currently serving on the Board regularly attended all Board meetings held in the year.

During the year, the independent directors took part, on October 21, 2020, in an *ad hoc* meeting called, separate and different from the meetings of the internal Board committees. The meeting was geared towards exchanging opinions and comments regarding the information flows to independent directors.

Minutes of these meeting were regularly kept.

5.8. LEAD INDEPENDENT DIRECTOR

As provided for in the Civil Code and there applying conditions set forth therein, on April 26, 2018, the Board appointed Director Fabio Fada as Lead independent director, to whom the Non-executive Directors, and especially Independent Directors, shall refer for coordination of their action and cooperate with the Chair to ensure that Directors receive a complete and timely information flow.

Said press releases are available on the storage mechanism mentioned in paragraph 15 of the present Report and on the Issuer’s institutional website www.cembre.it in the *Investor Relations* section under *Press Releases*.

Relations with the Press, monitoring Authorities and the financial community are kept and managed by the *Investor Relations* department.

The "Procedure for the disclosure of privileged information" was amended by the Board on March 13, 2018 in order, inter alia, to take into account the latest guidelines issued by the European Securities and Markets Authority, ESMA (including the so-called Questions and Answers on the Market Abuse

In 2016, the Board of Directors, in compliance with article 18, MAR and to the related application and implementation norms of the European Commission that mandates the companies and the persons acting in their name to compile, manage and update a register of persons having access to privileged information, adopted also a "Procedure for the management of the Group Register of persons having access to privileged information" in force from July 3, 2016.

The "Procedure for the management of the Group Register of persons having access to privileged information" was amended by the Board on March 13, 2018 in order, inter alia, to take into account the latest guidelines issued by the European Securities and Markets Authority, ESMA (including the so-called Questions and Answers on the Market Abuse Regulation, recently updated by the ESMA, "Q&A", as well as the recommendations contained in the Guidelines n. 1/2017 on "*Management of privileged information*" adopted by Consob on October 13, 2017.

Said Procedure is aimed at ensuring the highest transparency and homogeneity of the flow of information to the market, subsequently updated in 2007 and in 2013.

During the year the Board adopted a new Internal Dealing Procedure in compliance with article 19, MAR and to the related application and implementation norms of the European Commission in force from July 3, 2016.

The "Procedure for the compliance with Internal Dealing regulations" was updated by the Board on March 13, 2018 in order, among other things, to incorporate the amendments made by Consob to the Issuers' Regulation with Resolution no. 19925 of March 22, 2017.

The detail of operations carried out in the year that require communications pursuant to Internal Dealing regulations, is available on the Company's institutional site at www.cembre.it, in the *Investor Relations* – *Internal Dealing* section.

7. BOARD OF DIRECTORS' INTERNAL COMMITTEES

The Board of Directors appointed the Appointments and Remuneration Committee, the Control and Risk Committee and the Committee for Related Parties Dealing. In this regard, please note that the Appointments

and Remuneration Committee and the Control and Risks Committee appointed on April 26, 2018 consist of two non-executive independent Directors, as permitted by application criterion 4.C.1, point a) of the CG Code 2018 and Recommendation 16 of the Code of Corporate Governance. We refer to paragraph 12 below for information on the Committee for Related Parties Dealing.

Pursuant to Recommendation 11 of the Code of Corporate Governance, at the meeting on November 12, 2020, the Board of Directors adopted the regulations that define the rules of operation of the Appointments and Remuneration Committee and the Control and Risk Committee, including the methods of meeting minute-taking and the procedures for the management of disclosures to directors.

8. APPOINTMENTS AND REMUNERATION COMMITTEE

On April 26, 2018, the Board of Directors resolved to establish, as permitted by the CG Code 2018, a committee with both the functions of appointing directors and remuneration functions and, therefore, to set up an Appointments and Remuneration Committee; this is in order to ensure the company has a Committee also responsible with carrying out the functions of appointment of directors, without burdening the company's governance structure with the formation of an appropriate committee.

At the meetings on November 12, 2020 and February 25, 2021, the Board of Directors firstly approved and subsequently updated the Regulation of the Appointments and Remuneration Committee in order to align its functions with the provisions of Recommendations 19 and 25 of the Code of Corporate Governance 2020.

Composition and functioning of the Appointments and Remuneration Committee (ex art. 123-bis, paragraph 2, letter d), TUF)

The committee in office at the end of the year and the date of this Report was established by Board resolution of April 26, 2018 and consists of two members, exclusively non-executive Directors, all independent, who are:

- Fabio Fada – Independent Director – acting as Chair;
- Paola Carrara – Independent Director.

Functions of the Appointments and Remuneration Committee

In consideration of the attribution to said committee of both the functions of appointing directors and the remuneration functions, it is necessary to distinguish between the functions it performs when acting in one capacity or the other.

(i) **when acting as the Appointments Committee**, supports the Board, at the request of the latter, with the following activities:

- self-assessment of the administration body and its committees;
- any definition of the optimal composition of the administration body and its committees;
- identification of candidates for the office of director in the event of co-optation;
- any presentation of a list by the outgoing administration body;
- any preparation, update and implementation of the plan for the succession of the CEO and other executive directors.
-

(ii) **when acting as the Remuneration Committee** is responsible for:

- supporting the Board with the preparation of the “**Remuneration Policy**” (outlined in Section I of the Remuneration Report);

- preparing proposals or expressing opinions on the remuneration of executive directors and other directors who hold special offices as well as the establishment of the performance objectives related to the variable component of said remuneration;
- monitoring the practical application of the Remuneration Policy and verifying, in particular, the actual attainment of the performance objectives;
- periodically evaluating the adequacy and overall consistency of the Remuneration Policy of directors and top management.

The proposal relating to the compensation to be allocated to the directors vested with special offices is formulated by taking into consideration the mandatory opinion of the Board of Statutory Auditors pursuant to art. 2389 of the Italian Civil Code.

The Committee also formulates proposals for the breakdown of any total compensation established by the Shareholders' Meeting among the individual members of the Board.

The Committee also carries out advisory functions regarding the remuneration that the Board of Directors sees fit to request, from time to time, from the Committee itself.

With regard to the requirements set forth in principle 6.P.3 of the CG Code 2018 and Recommendation 26 of the Code of Corporate Governance with respect to the composition of the committee responsible for remuneration matters, please note that Fabio Fada and Paola Carrara have accounting and financial or risk management experience deemed suitable at the time of appointment. Specifically, the Chair of the Committee, Fabio Fada, has that experience as Registered Accountant (registered in the Public Accountant Register under no. 79351) in addition to holding university teaching positions on business administration.

Pursuant to implementation criterion 6.C.6. of the CG Code 2018 and Recommendation 26 of the Code of Corporate Governance, Directors must abstain from participating in meetings at which their own remuneration is discussed. In defining said remuneration, the Committee duly takes into consideration the consistency of remuneration recognised in previous mandates, the adequacy of commitments undertaken and responsibilities for positions held, professional qualifications held by the persons involved and the size of the Company, the Group and the related growth prospects.

During the year, the Appointments and Remuneration Committee met on March 10, 2020 in order to evaluate the adequacy of the Remuneration Policy, propose an amendment to the Remuneration Policy and issue an opinion on the implementation of an incentive plan based on Cembre shares, adopted by the Company in accordance with art. 114-bis of the TUF. The Committee also examined the self-assessment questionnaires drafted by the members of the Board of Directors in relation to 2019 and evaluated the adequacy of the compensation of the non-executive directors and the statutory auditors, in compliance with the recommendations issued by the Italian Corporate Governance Committee in the communication of December 19, 2019.

The Chair of the Board of Statutory Auditors participated in the meetings. The meeting duration was approximately one hour. The meetings were coordinated by the Chair and minutes were duly taken.

A meeting of the Appointments and Remuneration Committee has already been held on March --, 2021, in which said committee resolved to propose to the Board of Directors - in light of the regulatory changes referred to above - some changes to the Remuneration Policy outlined in Section I of the Remuneration Report, as well as approved the draft Remuneration Report.

In addition, at least one other meeting is planned for 2021.

The Appointments and Remuneration Committee has no expense budget as it normally makes use, in carrying out its tasks, of the resources and structures of the Company. The Committee, where necessary, may avail itself

of the work of independent external consultants, within the limits of the budget determined from time to time by the Board of Directors.

9. REMUNERATION OF DIRECTORS

The remuneration of Directors is set by the Shareholders' Meeting.

Pursuant to article 21, second paragraph, of the By-laws, the Shareholders' Meeting may determine an overall compensation for all Directors, including those holding particular proxies, and can moreover assign compensation, in full or in part, in the form of participation in the profit of the Company or the assignment of rights to underwrite shares of the Company to be issued at a pre-set price.

The “**Remuneration Policy**,” illustrated in Section I of the Remuneration Report, already adopted pursuant to article 6 of the Code by the Board of Directors on November 11, 2011, upon proposal of the Remuneration Committee, was most recently amended on March 11, 2021, also upon the consistent proposal of the Appointments and Remuneration Committee in its capacity as the Remuneration Committee, in order to acknowledge the adjustments made by Consob to the Issuers' Regulation (see art. 84-*quater* and Annex 3A, Scheme 7-*bis*) in implementation of the SHRD by means of Resolution no. 21623 of December 10, 2020.

A more detailed description of the Remuneration Policy and of compensation paid in the year to Directors, other than the summary contained below, is provided in Sections I and II of the Remuneration Report available on the Issuer's website www.cembre.it in the *Investor Relations* section.

10. CONTROL AND RISK COMMITTEE

The Board created a Control and Risk Committee among its members.

The Control and Risk Committee (formerly Internal Control Committee) was originally created with resolution of the Board dated May 14, 2004, pursuant to article 2.2.3, of the Stock Market Regulation. Subsequently to the appointment of the new Board of Directors, it was formed by means of resolution of the Board on April 26, 2018.

The Control and Risk Committee in office at the end of the year and the date of this Report consists of two non-executive independent Directors:

- Fabio Fada – Independent Director – acting as Chair;
- Paola Carrara – Independent Director.

Both Fabio Fada and Paola Carrara have accounting and financial or risk management experience deemed suitable at the time of appointment. Specifically, the Chair of the Committee, Fabio Fada, has that experience as Registered Accountant (registered in the Public Accountant Register under no. 79351) in addition to holding university teaching positions on business administration.

In the course of the year, the Control and Risk Committee met 6 (six) times, on February 27, May 12, June 8, September 3, November 5 and December 3, with all members regularly attending all meetings. The Chair of the Board of Statutory Auditors attended all meetings of the Committee; the meetings held on February 27, 2020 and September 3, 2020 saw the participation of all members of the Board of Statutory Auditors. Participation to the meetings included at times, upon invitation of the Committee, the Managing Director and Appointed Manager Giovanni Rosani, Claudio Bornati, in his capacity of Manager responsible for the preparation of the Company's accounts, Elena Morelli, Manager of the Internal Audit Department, in addition to representatives of the Independent Auditors. Their participation was deemed useful for the purposes of the analysis of some of the items in the agenda.

Minutes of Control and Risk Committee meetings were coordinated by its Chair and minutes of the meetings were regularly kept.

The average duration of meetings was about one hour and thirty minutes.

At least 4 (four) meetings of the Control and Risk Committee are planned for the current year, one of which was already held on February 24, 2021.

Responsibilities attributed to the Control and Risk Committee

The Committee, in supporting the administration body:

The Committee and the Board of Statutory Auditors promptly exchange relevant information for the performance of their respective tasks.

The Control and Risk Committee is required to carry out its tasks in coordination with the Board of Statutory Auditors, the manager in charge of the Internal Audit department and the Managing Director holding proxies for internal control.

Within individual functions attributed to it, in the year the Control and Risk Committee verified the internal control system with particular regard to:

- progress made in the action plan for 2020 audit activities;
- the updating of the risk assessment;
- the update of risk scoring, as per Law 262/05;

The Control and Risk Committee met with the Independent Auditors and the Board of Statutory Auditors to discuss the results of the auditing of the accounts of the parent company and the consolidated accounts. The Control and Risk Committee also invited to participate to meetings the Manager responsible for the preparation of the Company’s accounts and the manager of the Internal Audit department to discuss the update of internal audit activities in compliance with Law 262/2005 and Legislative Decree 231/2001.

At the Board meetings of February 27, 2020 and September 3, 2020, the Committee read the report on the activity carried out and the state of the internal control system and the Report of the Control and Risk Committee, respectively.

In carrying out its tasks, the Control and Risk Committee is entitled to access information and departments of the Company that may be necessary for the tasks assigned, in addition to making use of external consultants, at the conditions set by the Board of Directors.

The Control and Risk Committee has no expense budget as it makes use in carrying out its task of means and structures of the Company.

11. INTERNAL CONTROL AND RISK MANAGEMENT SYSTEM

The Board defines the nature and level of risk compatible with the strategic objectives of the issuer - including in its evaluations all the risks that may take on significance with a view to the medium/long-term sustainability of the issuer’s activities - and defines the guidelines for the internal control and risk management system, intended as a set of rules aimed at monitoring the efficiency of company operations, the reliability of financial information, the respect for laws and regulations, and the protection of the Company’s assets.

To such end, the Board, having received the opinion of the Control and Risk Committee:

- (i) sets the guidelines for the internal control and risk management system aimed at ensuring that these risks are correctly identified and adequately measured, monitored, managed and evaluated, also in relation to the safeguard of company assets and the correct conduct of the Company, in line with the strategic objectives set;
- (ii) verifies periodically, and in any case at least annually, the adequacy, efficacy and effective functioning of the internal control and risk management system.
- (iii) approves, at least annually, the plan prepared by the manager of the Internal Audit department, having heard the Board of Statutory Auditors and the Director in charge of the internal control and risk management system;
- (iv) evaluates, after consulting with the Board of Statutory Auditors, the comments of the Independent Auditing firm in the letter of suggestions, where issued, and in the auditing letter issued by the legal audit.

The Board of Directors, moreover, upon proposal of the Managing Director in charge of the Internal Control System (the “**Appointed Director**”), and after having heard the opinion of the Control and Risk Committee and that of the Board of Statutory Auditors:

- (a) appoints and revokes the responsible for Internal Audit;
- (b) ensures that the same has adequate resources to carry out their task;
- (c) sets their remuneration in line with corporate policies.

In line with international models and best practices (COSO Report), Cembre’s internal control system is based on the following key elements:

- a) **Control environment:** it is the environment in which individuals operate and it represents the internal control culture that permeates the organization. It is made up by the following elements: corporate organisational chart, system of proxies, organisational rules, procedure for disclosure to the public of privileged information, procedure for relevant transactions with related parties, procedure for the compliance with internal dealing requirements, organisation, management and control model as per Legislative Decree 231/2001, inclusive of Code of Conduct, of which it is an integral part.
- b) **Identification and assessment of risks:** it is the periodic process through which the Company identifies, analyses and manages main risks faced by the Group (e.g. risks pertaining to the industry in general, financial risks, risks relating to operations, etc.) and the related control instruments. Particular attention is dedicated to the analysis of administrative and accounting risks, relating to financial reporting, and of the monitoring of risks identified.
- c) **Control activities:** it is the set of control rules and procedures put in place to allow the monitoring and control of corporate risks to reduce them to an acceptable level and ensure the achievement of corporate objectives. It consists of the following elements:
 - a. Administrative and accounting control procedures: set of corporate procedures for the preparation and disclosure of accounting information (e.g. Group accounting manual, related administrative and accounting procedures and in particular financial statements and reporting in general, managerial accounting forms);
 - b. Relevant corporate procedures for the prevention and monitoring of operating risks, such as: UNI EN ISO 9001:2015 quality management system, UNI EN ISO 14001:2015 environmental management system, OHSAS 18001 health and safety management system, etc.
- d) **Information and communication:** is the process created to ensure the accurate and timely collection and communication of corporate information. With reference to financial information, the Accounting Control Model adopted by the Company pursuant to Law 262/2005, sets rules and procedures for the correct drafting of accounting records (see the next chapter below for more information);
- e) **Monitoring activities:** is the set of activities necessary to verify and evaluate periodically the adequacy, operational efficiency and efficacy of internal controls. With particular regard to financial information, it currently focuses on the periodic valuation and reporting process regarding the adequacy and effective application of procedures and controls on financial reporting, such as to allow the Managing Director and the person in charge to issue the attestations and statements required pursuant to article 154-*bis*, TUF (see the next chapter below for more information).

Main characteristics of the risk management and internal control systems in connection with financial reporting

- Foreword

As an integral part of its internal control system, Cembre defined its own Administrative-Accounting Control Model in which rules for the management of risk and internal control relating to financial reporting are set forth.

The system is aimed at ensuring a reasonable credibility, accuracy, reliability and timeliness of financial information.

- Organisation of the risk management and internal control system in connection with financial reporting

Based on the content of the Administrative-Accounting Control Model, the main characteristics of the risk management and internal control system in connection with financial reporting are described below:

a) Phases of the risk management and internal control system regarding the financial reporting process

a1. Identification and evaluation of risks on financial reporting

The risk identification and evaluation process (risk assessment) relating to accounting and financial reporting is carried out at least yearly by the Director in charge of the Internal Control System, if necessary with the help of the Person in charge of Internal Audit and shared with the Managing Director.

The risk assessment process consists of the following activities:

- **analysis and selection of relevant accounting information** disclosed to the market (analysis of last statutory and consolidated annual report or last half-year report available, to identify main risk areas and related relevant processes);
- **identification of relevant subsidiaries and significant administrative and accounting areas**, for each item in the consolidated financial statements, based on set quantitative criteria;
- **identification and valuation of risks inherent to** significant administrative and accounting areas in addition to the related processes and flows upstream from the same, based on the analysis of qualitative and quantitative indicators (including the risk of errors that may affect to a relevant degree financial reporting);
- **communication**, to the sectors involved, of the **target areas** for which it is necessary to prepare and/or update administrative and accounting procedures.

a2. Identification of controls on risks identified

Cembre devised a system of administrative and accounting procedures to comply with requirements regarding the drafting of accounting documents pursuant to article 154-*bis*, TUF, introduced by Law 262, December 28, 2005.

The set of procedures defines “Matrices for the administrative and accounting control”, describing existing control procedures for each administrative and accounting process selected through periodic risk assessments, indicating, among other items:

- **objective of control in connection with financial reporting;**
- **description of current control;**
- **person in charge of the control;**
- **frequency.**

The matrix indicates “key checks”: these are controls whose absence can represent a deficiency in the administrative and accounting internal control system. Controls described in the matrices can be considered an integral part of the Group’s administrative and accounting internal control system. These matrices must be used as an instrument for the selection of controls applied in the periodic assessments of the administrative and accounting internal control system. Matrices are continuously updated by the persons in charge of Internal Control who communicate to the Director in charge of the Internal Control any relevant change occurred, sharing decisions on the necessary update to be carried out.

A minimum set of controls based on *Process Level Matrix Template* (PLM) and elaborated on the control matrices applied for the parent company were set for subsidiaries. These will be used as a documentation and evaluation instrument for the respective administrative and accounting internal control system.

a3. Evaluation of controls for risks identified:

The verification and periodic evaluation of the adequacy, operation and effectiveness of administrative and accounting controls is structured into the following three phases:

- **Continuous supervision**, on the part of managers of the Function/Company which is incorporated in the framework of current operations (e.g. verification of consistency within the Group’s administrative and accounting procedures; verification of the update of matrices for administrative and accounting controls used; information provided to the Director of accounting and financial control regarding periodic verifications carried out on the update of procedures and of matrices, etc.).

- **“Independent testing”**, carried out by the Appointed Director and the Internal Audit function and aimed at evaluating the adequacy of the design and the efficient operation of controls performed. Testing activity is carried out on the basis of the General Audit Plan prepared by the Appointed Director and integrated with specific “262” actions included in the General Audit Plan, reviewed and approved by the Appointed Director, the Control and Risk Committee and the Managing Director.
- **Monitoring**, carried out by the Manager in charge of drafting the Company’s accounts on the basis of information provided by the Internal Audit Department, to supervise the update of the set of procedures and the actual implementation of controls identified through administrative and accounting procedures.

The result of verifications described above regarding the adequacy and operating effectiveness of the accounting control system is communicated by the Manager in charge of drafting the Company’s accounts to the Board through a continuous flow of information.

b) **Roles and positions involved**

The Organisation, Management and Control Model describes the roles and responsibilities of persons involved to various degrees in the drafting and/or control of financial reporting of the Cembre Group.

In particular we list below the main responsibilities of persons involved in supervising the correct functioning of the system:

- the **Board of Directors** is responsible for appointing the Manager in charge of drafting the Company’s accounts and ensuring that the same possesses adequate requisites (in terms of authority, professional profile and independence), powers and means to carry out the tasks assigned; promoting a periodic flow of information through which the Manager in charge of drafting the Company’s accounts may report on the results of activities carried out and possible critical factors emerged, with the aim of sharing decisions on action to be taken to overcome critical factors. In carrying out its task, the Board of Directors is assisted by the **Control and Risk Committee** that has both a consulting and prompting function, with reference also to the internal administrative and accounting control system;
- the **Managing Director** is responsible for implementing and monitoring the correct application of the accounting control model and of the related Internal Control System, with particular reference to the administrative and accounting procedures; for validating, in agreement with the Appointed Manager, the results of the periodic risk assessment activity; for evaluating the efficacy of procedures implemented, keeping into account information gathered by the Appointed Manager; for reviewing all other financial information disclosed to the market (among which, in particular, quarterly reports);
- the **Manager in charge of drafting the Company’s accounts and records**, in addition to the responsibilities assumed jointly with the Managing Director, is required to evaluate and monitor the level of adequacy and operative efficiency of the internal administrative and accounting control system, through adequate information gathering;
- the Internal Audit Department supports the Managing Director and the Manager in charge of drafting the Company’s accounts in evaluating the stage of formalisation and update of procedures and matrices for the administrative and accounting controls; it is also responsible for providing advice on control principles, reference methods and models; for carrying out independent control, analysis and supervision, both at the central and local level, presenting results to the Managing Director, the Manager in charge of drafting the Company’s accounts and to management, providing suggestions as to how to devise corrective action and monitoring the implementation of corrective action defined by management in the context of analysis and verifications made, through successive follow-up phases.

Persons in charge of Internal Control and of subsidiaries that are involved in the drafting and management of accounting and financial information, are responsible for the correct functioning and update of the accounting control system limited to all processes and flows under their responsibility, in agreement with the Appointed Manager.

In the year and specifically at the meetings held on March 11 and September 10, 2020, the Control and Risk Committee reported to the Board on its activity, the results of verifications carried out and the functioning of the internal control system, highlighting how the latter resulted appropriate in view of the dimensions and organisational and operating structure of the Company.

At the meeting held on March 11, 2021, the Board of Directors resolved, pursuant to article 7.C.1, letter b) of the Code, to deem the internal control and risk management system adequate, effective and functioning in view of the characteristics of the Company and the risk profile assumed, based on the support of the Control and Risk Committee and the verification of managing directors and directors holding proxies.

11.1. EXECUTIVE DIRECTOR IN CHARGE OF THE INTERNAL CONTROL AND RISK SYSTEM

On April 26, 2018, the Board appointed Managing Director Giovanni Rosani as Appointed Director in charge of Internal Control and Risk Management (the “**Appointed Director**”).

The Appointed Director in charge of overseeing the internal control and risk management system:

(i) carried out the identification of main risks to which the Company is typically exposed (strategic, operational, financial and relating to compliance), taking into account its characteristics and those of its subsidiaries, in addition to the sector in which they operate;

(ii) implemented – through the design, management and monitoring of the internal control system – the guidelines set by the Board of Directors, reporting on its activity, where required, to the Board.

(iii) overseen the adaptation of the system to the operating conditions and the legal and regulatory framework in which it is applied;

(iv) reported with no delay to the Control and Risk Committee (or the Board of Directors) on problems and critical situations emerged in the course of his activity or of which it had in any case knowledge, so that the Committee (or the Board) could take appropriate action.

The Appointed Director may also request the Internal Audit Department to carry out controls on specific operational areas and to verify compliance with internal rules and procedures in the carrying out of company operations, giving immediate notice to the Chair of the Board of Directors, the Chair of the Control and Risk Committee, and the Chair of the Board of Statutory Auditors; no event requiring the exercise of this power occurred in the year.

In the exercise of these functions, the Appointed Director made use of the cooperation of the Person in charge of Internal Audit.

11.2. MANAGER OF THE INTERNAL AUDIT DEPARTMENT

Starting with the 2016 financial year, the Issuer created an Internal Audit Department appointing a manager responsible from the ranks of the Company. In particular, on November 13, 2015, the Board of Directors, upon proposal of the Appointed Manager and prior opinion of the Control and Risk Committee, having consulted the Board of Statutory Auditors, appointed Ms. Elena Morelli, a Registered Accountant registered under no. 130984 in the National Public Accountant Register as Manager of the Internal Audit Department, effective January 1, 2016.

The Manager of the Internal Audit Department reports directly to the Appointed Director and defines an annual “risk based” action plan based on the analysis and prioritisation of main risks. The audit plan is illustrated and shared with the Control and Risk Committee with the cooperation of the Manager in charge of drafting the

Company's accounts. The Board of Directors, after consulting with the Board of Statutory Auditors and the Appointed Director, in addition to receiving the opinion of the Control and Risk Committee, on March 11, 2020 approved the action plan prepared by the Manager of the Internal Audit Department for the year, while approving on March 11, 2021 the work plan prepared by the Person Responsible for Internal Audit for 2021.

The Manager of the Internal Audit Department reported quarterly to the Control and Risk Committee, to whose opinion it also submits the action plan and the results of controls carried out.

The Manager of the Internal Audit Department is attributed the following tasks and powers:

- (a) to verify, both as an ongoing process and in relation to specific needs and in compliance with international standards, the operation and adequacy of the internal control and risk management system through an audit plan approved by the Board of Directors based on a structured process for the analysis and prioritisation of main risks;
- (b) to draft periodic reports containing adequate information on the activity carried out, the manner in which risks are managed and the compliance with plans set for the containment of said risk. Periodic reports contain an assessment of the appropriateness of the internal control and risk management system;
- (c) issue in a timely manner reports on events of particular importance;
- (d) deliver the reports in paragraph (b) and (c) above to the Chair of the Board of Statutory Auditors, that of the Control and Risk Committee, and the Appointed Director in charge of the internal control and risk management system;
- (e) verify, within the audit plan, the reliability of information systems, including accounting systems.

On February 24, 2021, the Manager of the Internal Audit Department delivered to the Chair of the Board of Directors, as well as to the Appointed Manager, the Chair of the Control and Risk Committee and the Chair of the Board of Statutory Auditors a report on the completeness, adequacy and effective functioning of the internal control and risk management system of the Cembre Group. The report also focused on the main results of the audits carried out by the Internal Audit Department regarding, among other things, the monitoring of operating processes, the follow-up verification of the implementation of the proposed corrective measures, actions regarding subsidiaries, the support given to the Manager responsible for the preparation of the Company's accounts, the update of the perimeter of application of Law No. 262/2005 and the periodic testing of relevant administrative and accounting procedures, activities carried out, also through external consultants, in support of the Supervisory Body, the review of verification of IT systems and compliance on other matters (Integrated Management System and of adjustment into line with the GDPR on personal data protection). As a result of audits carried out, the Manager of the Internal Audit Department concluded that no shortcomings or irregularities have emerged such as to suggest that the internal control and risk management system of the Company and of the significant subsidiaries is not complete, inadequate, ineffective or non-functional.

The Manager of the Internal Audit Department may access directly all information that it may deem useful to carry out its tasks.

The Manager of the Internal Audit Department is not in charge of any operating area and is hierarchically dependent on the Board of Directors, while it does not report to any head of operating department, including therein the Administration and Finance area.

11.3. ORGANISATION MODEL PURSUANT TO LEGISLATIVE DECREE 231/2001

The Issuer adopted a first version of the Organisation, Management and Control Model (the “Model”) aiming at preventing crimes set forth in Legislative Decree 231/2001 as subsequently amended, taking into account the requirements of the same Decree in addition to the Guidelines issued by the Italian Industrial Association (Confindustria).

The exemption from administrative responsibilities provides for the mandatory creation of a Supervisory Body within the Issuer, having autonomous powers of initiative and control, responsible for verifying the Model execution and observance, overseeing its update.

The current Supervisory Body was appointed on April 26, 2018 and its term expires with the approval of the Financial Statements at December 31, 2020; it is made up by Fabio Fada (Independent Director, acting as Chair), Paola Carrara (Independent Director), and Elena Morelli (Person in charge of Internal Audit). In this regard, please note that at the same meeting the Board of Directors deemed that, although the law allows for the attribution to the Board of Statutory Auditors of the functions of the Supervisory Body, a body established *ad hoc*, different from the Company’s control body, is capable of providing more efficient and effective oversight.

The offences envisaged by the Decree on which the company saw fit to focus most attention based on its specific operations (as described in particular in the Model itself) are: crimes against the public administration (art. 25) and its property (art.24); cyber-crime and unlawful data processing crimes (art.24-*bis*); organised crime (art. 24-*ter*); crimes relating to counterfeiting of coins, falsification of public credit cards and revenue stamps and identification instruments and distinctive signs (art.25-*bis*); crimes against industry and trade (art. 25-*bis* 1); corporate crimes (art.25-*ter*); crimes for the purposes of terrorism and subversion of the democratic order (art.25-*quater*); practising of female genital mutilation (art. 25-*quater* 1); crimes against the individual (art.25-*quinquies*), market abuse crimes (art. 25-*sexies*); manslaughter or actual or grievous bodily harm committed with a violation of the workplace health and safety regulations (art. 25-*septies*); crimes involving the receipt of stolen goods, money laundering or use of money, assets or utilities of illegal origin, as well as self-laundering (art.25-*octies*); crimes involving copyright infringement (art.25-*novies*); inducement to not make statements or make false statements to the Judicial Authorities (art.25-*decies*); environmental crimes (art.25-*undecies*); employment of illegally staying third-country nationals (art.25-*duodecies*); crimes of racism and xenophobia (art. 25-*terdecies*); sport and gambling fraud (25-*quaterdecies*); transnational crimes (art.10, Law no. 146 of March 16, 2006); tax crimes (art. 25-*quinquedecies*) as well as the crime of contraband (art. 25 – *sexiesdecies*).

The Model was recently updated by the Board of Directors at the meeting on November 12, 2020, in order to adjust it into line with the new crimes introduced by the legislator to the sphere of Legislative Decree 231/2001, in particular, Tax Crimes and Crimes of contraband, introduced respectively by Law 157/2019 of December 19, 2019 and Legislative Decree 75/2020, as well as the integration of predicate offences as a result of the acknowledgement of EU directive no. 1371 of 2017 aimed at “protecting financial interests”.

The Model contains a number of Protocols that summarise controls currently carried out by Cembre to monitor and limit risks relating to crimes. Protocols are communicated to all employees also through specific training courses.

The Company has also adopted a Group Code of Ethics, last updated at the Board meeting of November 14, 2018, which constitutes an integral part of the Organisation, Management and Control Model.

The Model provides for sanctions in case of violations of the Code of Conduct or the Model, as a fundamental requisite for the same.

During the year, the Supervisory Body, supported by the Internal Audit department and external consultants, planned and carried out specific checks on the correct application of Protocols contained in the Model (in particular, on the following selection protocols: hiring and management of personnel, the Management of trademarks and patents, Management of monetary, financial and cash flows, as well as intercompany transactions, Health and Safety in the Workplace, Purchase of goods and services, advisory services and professional services, Protection of the environment and Management of accounts, financial statements and reporting).

During the meetings of the Board of Directors of March 11, 2020, September 10, 2020 and March 11, 2021, the periodic report with the action plan for 2020 of the Supervisory Body and the periodic Report of the Supervisory

Body for the first half of 2020 and the periodic Report of the Supervisory Body for the second half of 2020 with the action plan for 2020, were read respectively.

In the performance of its current duties, the Supervisory Body is authorised to spend up to €10,000.00 per individual transaction, with no need for authorization, and is subject to authorization by the Board for higher amounts.

The Model and the Code of Conduct are available for consultation on the Issuer's institutional site www.cembre.com under the Cembre Group section.

11.4. INDEPENDENT AUDITORS

11.5. MANAGER IN CHARGE OF DRAFTING THE ACCOUNTING AND CORPORATE RECORDS AND OTHER CORPORATE ROLES

The manager in charge of drafting the accounting and corporate records of the Issuer on a permanent basis is Claudio Bornati, employed by the Issuer as Director of Administration, Finance and Control, appointed by the Board at the meeting on June 26, 2007.

Pursuant to article 16.7 of the By-laws, the manager in charge of drafting the accounting and corporate records must possess, in addition to the requisites of integrity prescribed by current regulations for those who cover administrative and directive positions, requisites of professionalism characterised by specific competence in administration and accounting. The Manager in charge of drafting the accounting and corporate records is appointed by the Board of Directors, based on a prior mandatory opinion of the Board of Statutory Auditors.

Upon the appointment, the Board endowed the Manager in charge of drafting the accounting and corporate records with adequate powers and means to fulfil his assignment. In particular, he is therefore entitled to:

- access all the information deemed necessary to fulfil his tasks, both within the Issuer and other Group companies, with the authority to view all documents relating to the drafting of the accounting and corporate records of the Issuer and of other Group companies, with further authority to request clarifications from all subjects involved in the formation of the accounting records of the Company and of all other Group companies. It is moreover provided that the Managing Director and the managers of the Issuer and of other Group companies are required to inform without delay and to keep informed at all times the manager in charge of drafting the accounting and corporate records of any deed, fact or event that may influence, also potentially, the accounting records mentioned above;
- attend, without participating in, Board meetings;

- use for control purposes the Company's information systems.

In the performance of his current duties, the manager in charge of drafting the accounting and corporate records is authorised to spend up to €10,000.00 per individual transaction, with no need for authorization, but is subject to authorization by the Board for higher amounts.

It should be noted that in the Issuer's organisational chart, in addition to the roles and company functions indicated in the previous paragraphs, the "Integrated Management System" is present in the Technical-Industrial Function, with specific tasks regarding control and management of risks relating to quality, safety and environment, also for the purposes of the ISO 9001, ISO 14001 and ISO 18001 certifications obtained by the Issuer.

11.6. COORDINATION AMONG ENTITIES INVOLVED IN THE INTERNAL AUDIT AND RISK MANAGEMENT SYSTEM

Coordination among the various entities involved in the internal audit and risk management system (Board of Directors, Appointed Director, Control and Risk Committee, Board of Statutory Auditors, Person responsible for Internal Audit, Appointed Manager and Independent Auditing Firm) is ensured through a continuous flow of information between these entities and planned periodic meetings, allowing adequate visibility to potential corporate risks managed by the Cembre Group in addition to problems that have emerged and were brought to the attention of the various monitoring and control boards.

On March 11, 2021, the Board of Directors, in compliance with criteria 7.C.1 of the Code, expressed a positive opinion on the adequacy of the coordination between entities involved in the internal audit and risk management systems.

12. INTEREST OF THE DIRECTORS AND TRANSACTIONS WITH RELATED PARTIES

On November 11, 2010, the Board of Directors, having acknowledged the opinion in favour issued by the Board of Statutory Auditors and the Independent Directors, approved unanimously, with the abstention from time to time of the interested parties, the procedure for dealing with related parties (the "**Related Parties Procedure**") adopted pursuant to the Consob Related Parties Regulation in force at said date.

The Company applies the Related Parties Procedure, also taking into account Consob's Communication no. DEM/10078683 published on September 24, 2010 and containing "Guidelines and orientations for the application of the Regulation on Related Parties Dealing adopted with Resolution no. 17221 of March 12, 2010, as subsequently amended".

The Related Parties Procedure was most recently amended by the Board of Directors on May 14, 2018, after obtaining the positive opinion of the Independent Directors, to ensure that the same Committee may consist of a variable number of non-executive directors, provided that the majority are independent, also taking into account the composition of the Board of Directors at the time of appointment.

The Related Parties Procedure regulates the identification, approval and management of transactions with related parties. In particular, the Procedure:

- regulates the methods for the identification of related parties, defining procedures and timing for the drafting and update of the list of related parties, naming the corporate structures in charge;
- sets the rules for the identification of transactions with related parties prior to their conclusion;
- regulates the procedures for the carrying out of transactions with related parties by the Company, also through its subsidiaries as defined by article 93 of TUF, or any other company that is subject to its direction or coordination (“**Subsidiaries**”);
- sets the procedures and timing for the compliance with disclosure requirements with respect to corporate bodies and the market.

The Related Parties Procedure has been handed down as an instruction to all of Cembre’s subsidiaries pursuant and for the purposes of art. 114, paragraph 2, TUF.

Pursuant to article 5 of the Related Parties Procedure, Directors who have a vested interest in a transaction must provide in a timely manner full information regarding the existence of a vested interest and the circumstances of the same to the Board, evaluating on a case by case basis the opportunity of leaving the meeting at the time at which the resolution is taken and to abstain from voting on the matter. If relating to the Managing Director, the latter shall abstain from carrying out the transaction. In these cases, the resolutions of the Board of Directors shall adequately explain the reasons and economic attractiveness of the transaction for the Company.

The Related Parties Procedure and the related enclosures may be consulted on the Company’s institutional website www.cembre.it in the *Investor Relations* section.

It should be noted that Consob, by means of Resolution no. 21624 of December 10, 2021, adopted the amendments to Consob Related Parties Regulation and the Consob Market Regulations in order to acknowledge, also at secondary legislation level, the contents of the SHRD. The aforementioned Resolution no. 21624 will enter into force on July 1, 2021 and makes provision for a temporary period, ending June 30, 2021, by which companies must adjust their procedures into line with the new provisions of the Consob Related Parties Regulation. In the current year 2021, the Company will therefore adjust the Related Parties Procedure.

12.1 COMMITTEE FOR RELATED PARTIES DEALING

At its meeting of November 11, 2010, the Board of Directors resolved to create within itself a Committee for Related Parties Dealing, made up by at least three non-executive Directors, the majority of which independent, attributing to it all the responsibilities provided for by the Related Parties Procedure and, in particular, the task of providing the Board, prior to the vote on a transaction with a related party, with a motivated non-binding opinion on the interest of the Company in the conclusion of the transaction and the correctness of the related operations.

The Board of Directors which met on May 14, 2018, after obtaining the favourable opinion of the Independent Directors, approved an amendment to the Related Parties Procedure to ensure that the same Committee may consist of a variable number of non-executive directors, provided that the majority are independent, also taking into account the composition of the Board of Directors at the time of appointment.

At the same meeting on May 14, 2018, the Board of Directors thus resolved to (i) establish that the Committee for Related Parties Dealing would have two members; (ii) appoint, as members of the Committee:

- Fabio Fada – Independent Director – acting as Chair;
- Paola Carrara – Independent Director.

During the year, a meeting of the Committee for Related Parties Dealing was held on February 24, 2021.]

13. APPOINTMENT OF STATUTORY AUDITORS

The appointment and replacement of Statutory Auditors is regulated by currently applicable norms and by article 23 of the Company's By-laws. The provisions of the By-laws were recently amended by means of resolution of the Issuer's Board of Directors of February 25, 2021 drafted by public deed and adopted on the basis of the provisions of art. 2365 of the Italian Civil Code and art. 18 of the By-laws, in order to align these with the regulation on gender balance in the composition of the administration bodies pursuant to art. 148, paragraph 1-bis of the TUF, as recently amended by Law 160/2019, and the related implementing provisions of Consob⁹.

Art. 23 of the By-laws in force at the date of this report state that *"lists that present a total number of candidates equal to or higher than three must be composed of candidates from both genders, so that the gender balance set forth in the currently applicable legislation is respected"*.

Pursuant to article 23 of the Issuer's By-laws, lists submitted by Shareholders must be deposited at the Company's registered office at least twenty five days prior to the first call of the shareholders' meeting.

The appointment of Statutory Auditors is based on lists submitted by the Shareholders that shall comply with current regulations regarding the equal representation of genders. No Shareholder, or Shareholders participating in a Shareholders' agreement relevant pursuant to article 122 TUF, as well as the parent company, any subsidiary or company under joint control pursuant to article 93 TUF, can submit or contribute to the submission, either through a third party or trust company, of more than one list, nor vote on different lists.

Lists may be submitted only by Shareholders who represent, either individually or jointly with other Shareholders, at least 2.5% (two point five per cent) of share capital voting rights at the ordinary Shareholders' Meeting, or any other percentage limit established or referenced by other laws and regulations. Through management decision no. 44 of January 29, 2021, Consob set the stake in share capital needed for submitting lists of candidates for the election of the Issuer's Board of Statutory Auditors at 2.5%. Statutory Auditors are elected as follows:

- a) two Permanent Statutory Auditors and one Substitute Statutory Auditor are drawn from the most voted list based on the order in which they are listed;
- b) one Permanent Statutory Auditor and one Substitute Statutory Auditor are drawn from the second voted list that is not connected, either directly or indirectly, in any way with any of the Shareholders that submitted the most voted list, based on the order in which they are listed;

In case of a tied vote between two or more lists, Statutory Auditors will be appointed by seniority.

If through the above procedures it is not possible to obtain a composition of the Board of Statutory Auditors in compliance with current regulations on the gender balance, provision will be made, in relation to the candidates for the office of permanent auditor from the list that obtained the highest number of votes, for the necessary replacements, according to the sequential order in which the candidates are elected.

The Chair of the Board of Statutory Auditors shall be appointed pursuant to applicable rules and regulations.

The above provision regarding the appointment of Statutory Auditors does not apply to Shareholders' Meetings for which a single list is submitted or a single list is voted upon. In such cases the Shareholders' Meeting resolves on simple majority, without prejudice to respect for the currently applicable regulation on gender balance.

In case, at the expiration of the term for the presentation of lists, only one list has been submitted or only lists submitted by Shareholders that are connected in a manner that is relevant pursuant to applicable regulations are

⁹ Paragraph 1-bis, of art. 148 of the TUF in force from the date of this report sets forth, inter alia, that the *"certificate of incorporation of the company also establishes that the distribution of members pursuant to paragraph 1 is carried out to ensure that the less represented gender obtains at least two fifths of standing members of the Board of Statutory Auditors. This distribution criterion applies for six consecutive mandates"*.

In addition, pursuant to paragraph 3, art. 144-undecies.1 of the Issuers' Regulation, as recently amended by means of Consob Resolution no. 21359 of May 13, 2020, *"if the application of the gender distribution criterion does not result in a whole number of members of the administration and control bodies belonging to the less represented gender, this number is rounded up to the nearest unit, with the exception of corporate bodies formed by three members for which the number is rounded down to the nearest unit"*.

deposited, additional lists may be submitted for a term of three days subsequent to the expiration of the first term. In this case the minimum shareholding threshold required for list submission is halved.

At least two Permanent Statutory Auditors and at least one Substitute Statutory Auditor appointed must be registered accountants who must have exercised the accounting audit profession for at least three years. Statutory Auditors who do not possess the above requisite are chosen among professionals who have had at least three years of experience in:

- (a) management or control, with management appointments in joint stock companies with a capital stock of at least €2 million, or;
- (b) the exercise of professions or university teaching in the field of law, economics, finance or technical and scientific subjects, relating to the production and sale of electromechanical products, electric connectors and mechanical products in general, or;
- (c) management positions in public offices or the public administration in the banking, financial and insurance field, or in any case in the electromechanical sector.

Statutory Auditors are removed from their office in cases where they no longer meet the requirements set forth by the By-laws for their appointment.

Statutory Auditors may not hold administration and control positions beyond the limits established by applicable laws and regulations. Where it does not result in separation, exceeding these limits constitutes just cause for revocation of the Statutory Auditor.

With no prejudice to other applicable rules and regulations, in the event of replacement of a Statutory Auditor, his/her place will be taken by the Substitute Auditor appointed from the same list as the one it replaces, while in the event of the replacement of the Chair of the Board of Statutory Auditors, the successor will be chosen from auditors appointed from the list of the replaced Chair.

14. STATUTORY AUDITORS (*ex art. 123-bis*, paragraph 2, letters d) and d-bis), TUF)

The Board of Statutory Auditors currently in office was appointed by the Shareholders' Meeting on April 26, 2018 on the basis of the single list of candidates submitted by the majority shareholder Lysne S.p.A. and will remain in office until the date of the Shareholders' Meeting called to approve the Financial Statements at December 31, 2020. The list submitted by the majority shareholder Lysne S.p.A. obtained 13,751,023 votes in favour, equal to 100% of the voting capital.

For further information on lists of candidates to the Board of Statutory Auditors submitted, and view the curricula of Statutory Auditors, we refer to the Company's institutional site www.cembre.it in the *Investor Relations* section, where these are published.

Self-evaluation of the Board of Statutory Auditors

In compliance with the provisions of the Rules of Conduct of the Board of Statutory Auditors of Listed Companies, issued by the National Institute of Chartered Accountants, the Board of Statutory Auditors carried out an evaluation in relation to:

- the suitability of the members and adequate composition of the body, with reference to the professionalism, competence, integrity and independence requirements set forth in the legislation;
- the availability of adequate time and resources in keeping with the complexity of the engagement.

The Board of Statutory Auditors prepares the document relating to its self-evaluation which outlines the methodology and the individual phases the self-evaluation process is composed of:

- the parties involved;
- the results obtained, highlighting any strengths and weaknesses;
- the necessary corrective actions proposed by the Statutory Auditors;
- the progress status or degree of implementation of any corrective measures defined in the previous self-evaluation.

The self-evaluation document presented to the Board of Statutory Auditors for approval is then shared with the Board of Directors.

During the meeting of August 6, 2019, the Board of Statutory Auditors established the qualitative-quantitative criteria and methods for being able to proceed with the self-evaluation of the functioning, composition and size of the Board and prepared and delivered a questionnaire to each statutory auditor. The questions formulated therein involve the analysis (i) of the size and composition of the Board of Statutory Auditors also with reference to the professional characteristics and experience of the statutory auditors; (ii) its functioning; (iii) the organisation of its work; (iv) the role and responsibility of its members; (v) respect for compliance with the law and the company by-laws, respect for correct administration and of company procedures, the adequacy of the organisational structure and of the internal control system and the adequacy and functioning of the administrative-accounting system.

The process then continued through the compilation of these questionnaires, whose results were analysed and discussed by the Board of Statutory Auditors at the meeting held on January 29, 2021.

To complete the procedure, at the same meeting, the Board prepared the Self-Evaluation Report, the Self-Evaluation Document and each Statutory auditor filled in and produced a self-certification showing that they possess the professional requirements and skills, the list of positions held and their CVs. The above documentation was shared by the Chair of the Board of Statutory Auditors with the Chair of the Board of Directors on February 5, 2021.

In conclusion of its self-evaluation process, the Board deems that (a) the requirements of professionalism, competence and experience of each member of the control body are adequate, (b) the independence requirements of all members in office of the Board of Statutory Auditors are truthful, (c) the availability of the time dedicated by its members in relation to the methods of fulfilment of the engagement is appropriate, (d) the number of positions held by each individual member does not prejudice the normal functioning of the control body, (e) the composition of the entire Board of Statutory Auditors with respect to gender and age is adequate and (f) the information exchanged between the different members, committees and corporate bodies is exhaustive and prompt.

Lastly, again at the time of the self-evaluation, the Board of Statutory Auditors reported some aspects aimed at further improving the activities carried out, in order to ensure even greater effectiveness of its role in the Company.

As it is deemed to be an ethical responsibility to inform other Statutory Auditors and the Chair of the Board of Directors whenever individual auditors have, either directly or through third parties, an interest in an operation involving the Issuer, no provision was made for a specific obligation in this regard.

Legislative Decree no 39/2010 as last amended by Legislative Decree 135/2016, attributes to the Board of Statutory Auditors the function of committee for internal control and auditing (the “**Committee for Internal Control and Auditing**”) which, in particular, has the following tasks:

- to inform the competent body of the results of the legal audit and transmit to the same the additional report pursuant to art. 11 of Regulation no. 537/2014, accompanied by any comments;
- to monitor the financial reporting process and make recommendations or proposals aimed at guaranteeing its integrity;
- to monitor the effectiveness of the internal quality control and risk management systems of the Company and, if applicable, of the internal audit, as regards the financial information of the audited entity, without violating its independence;

- - to monitor the independent audit of the Financial Statements and of the Consolidated Financial Statements, taking into account results and conclusions of the quality controls carried out by Consob pursuant to art. 26, paragraph 6, of the Regulation n. 537/2014, where available;
- to verify and monitor the independence of statutory auditors or independent audit firms pursuant to articles 10, 10-bis, 10-ter, 10-quater and 17 of Legislative Decree 39/2010 and of art. 6 of Regulation no. 537/2014, in particular with regard to the adequacy of the provision of services other than auditing, pursuant to art. 5 of said Regulation;
- to be responsible for the procedure for selecting the statutory auditors or the independent auditors and making recommendations for statutory auditors or legal auditing firms to be appointed pursuant to art. 16 of Regulation no. 537/2014.

Further detail on the activity carried out in the year by the Board of Statutory Auditors is provided in the report issued by the same, enclosed in the financial statements.

The Board of Statutory Auditors, in addition to carrying out its customary monitoring role, formally requested, through its Chair, on February 7, 2020 and on February 5, 2021, the Independent Auditors to disclose the nature and extent of possible services other than accounting audit provided to the Issuer and its subsidiaries by the same Independent Auditors and other connected entities.

19. CONSIDERATIONS ON THE LETTER OF DECEMBER 22, 2020 OF THE CHAIR OF THE CORPORATE GOVERNANCE COMMITTEE

The letter dated December 22, 2020, sent by the Chair of the Corporate Governance Committee to the Chairs of the Boards of Directors of Italian listed companies, was brought to the attention of the Control and Risk Committee and the Board of Statutory Auditors at the meeting on February 24, 2020, as well as to the Board of Directors of the Issuer at the meeting on March 11, 2021.

In light of the recommendations contained therein, the Board:

- confirmed that the theme of sustainability is an integral and fundamental part of the definition of Cembre's business strategies, the internal control and risk management system and the remuneration policy, as demonstrated, among other things, by the attention to the environmental impact during the phase of new product design (e.g. in relation to the characteristics of the materials and the production processes used and the gradual migration from traditional, more polluting, power tools, to battery-powered ones), as well as in the construction of new high-energy efficiency buildings (equipped with photovoltaic and geothermal plants) and with a low impact on the environment and on the local area;
- evaluated the adequacy of the management of information flows to the Board of Directors (see paragraph 5.3 of this Report), having established, in the BoD Regulation, the terms for sending the documentation, with no exceptions allowed purely for confidentiality requirements, and confirmed their effective observance during the year;
- evaluated the methods of application of the principles of independence of individual directors (see paragraph 5.7 of this report) and determined the quantitative criteria to be used to assess the significance of the business relations subject to examination for the purposes of the independence of the directors, in compliance with the provisions of TUF, the CG Code 2018 and the Code of Corporate Governance (2020);
- evaluated its contribution to the definition of the strategic plans and supervised the board review process;
- provided an accurate account of the activities performed by the Appointments and Remuneration Committee;
- evaluated the adequacy of the compensation attributed to the executive directors and members of the control body (see paragraph 9 of this report and Remuneration Report prepared in accordance with art.

123-ter of the TUF), comparing them with the compensation attributed to similar figures by the companies belonging to the FTSE-MIB sector and considering them, *mutatis mutandis*, appropriate to the competence, professionalism and commitment required for the purposes of fulfilling the engagement, as well the size and complexity of the company.

- strengthened the link between variable remuneration and performance objectives, both financial and non-financial, considered strategic for the company's growth.
