2020

LETTER OF THE CHAIRMAN OF THE REMUNERATION AND NOMINATIONS COMMITTEE

Dear Shareholders,

As Chairman of the Remuneration and Nominations Committee, I am pleased to submit for your review the "Report on the Remuneration Policy in 2021 and Compensation Paid in 2020", prepared in compliance with current legislation and approved by the Board of Directors on March 4, 2021.

The purpose of the Company's remuneration policy is to guarantee the alignment of the interests of shareholders and management, as well as the ability to attract the best professional skills to cover strategic managerial roles, enhancing people and ensuring their inclusion and equal opportunities.

This policy was also defined taking into account the corporate events that characterized 2020. In particular, the Shareholders' Meeting of April 21, 2020 resolved the renewal of the Corporate Bodies and of the Remuneration and Nominations Committee, of which I assumed the office of Chairman.

2020 was characterised by significant economic and financial tensions, caused by the emergency situation resulting from the Covid-19 pandemic. Despite this situation, rebalancing the portfolio of investments built up over the years, together with Italmobiliare's management and governance skills, have allowed the Company and the portfolio companies to cope with a particularly critical phase of the economy. The situation is still critical, but towards the end of the year an overall improvement in profitability could be seen, despite a contraction in some company's sales, mainly due to the restrictions imposed by the pandemic.

These positive results were also possible thanks to the timeliness of the actions taken during the emergency, quickly putting in place, at both the holding company and the portfolio companies, all of the measures needed to ensure the health and safety of employees and, at the same time, enable continuity of production.

The pandemic has also increased the sense of urgency, at both the holding company and the portfolio companies, to consolidate an increasingly effective sustainable strategy, aligned with global challenges, consistent with the growing attention of investors and responsive to the expectations of stakeholders. By joining the United Nations Global Compact, the Italmobiliare Group confirms its formal and substantial commitment to promote a healthy, inclusive and sustainable global economy, respectful of human and labour rights, capable of protecting the environment and actively involved in every aspect of business integrity.

The full application of the 10 Principles of the Global Compact in its sphere of influence and the active contribution to the Sustainable Development Goals still require significant steps from the Group, in terms of organisation, processes and action plans. An effective remuneration policy is essential to align efforts and pursue the Group's sustainable success.

In 2020, the Shareholders' Meeting also confirmed their satisfaction with the remuneration policy, the result of the constant commitment shown by the Remuneration and Nominations Committee in defining and proposing to the Board of Directors a policy in line with the expectations of the main shareholders and stakeholders and with market best practices.

In order to ensure greater transparency towards shareholders and the market, as in line with previous years, when drafting this policy, we continued to listen and analyse the suggestions and indications received from all stakeholders, also identifying any areas for improvement suggested by the main proxy advisors with whom we have maintained an open and constructive dialogue.

Furthermore, this Report incorporates the changes introduced in the light of the amendments made to the Issuers' Regulation pursuant to Consob resolution 21623 of December 10, 2020, in accordance with the Shareholders Rights Directive II.

In consideration of the context, the indications received during the year and the recent regulatory changes that have emerged, this report has been prepared in continuity with the policy approved by the previous Shareholders' Meeting, introducing some new elements, aligned with best national and international practices:

- A description of the remuneration approved for the Corporate Bodies by the 2020 Shareholders' Meeting;
- An increase in the weight of the long-term component of variable remuneration of the Chief Executive Officer/Chief Operating Officer, with a view to greater orientation towards the creation of long-term value;
- Strengthening the representation of certain elements of the policy, such as the analysis of market practices and a description of the policies in the event of termination of office or of the employment relationship;
- An improvement in the representation of the performance results achieved by the Company in relation to the compensation paid, with a view to "pay for performance";
- Representation of the change in the compensation paid and the performance achieved by the Company in the years from 2017 to 2019;
- A constant improvement in the methods of representation of the policy and of the compensation paid, in order to ensure increasing transparency towards shareholders and stakeholders.

I would like to take this opportunity to thank my colleagues on the Committee, Chiara Palmieri and Vittorio Bertazzoni, as well as all the members of the Board of Directors, for their enormous support and assistance over the last year.

With the hope that the proposed formulations can meet the favourable orientation of the shareholders called to express themselves on the matter and in the conviction that transparency is the only basis for a pacific discussion at the shareholders' meeting, I thank you for your support for the remuneration policy proposed for 2021.

Marinella Soldi
***Chairman of the Remuneration
and Nominations Committee***

The text of the Report is made available to the public at the registered office, on the authorised storage platform (www.emarketstorage.com) and on the Company's website, no later than the twenty-first day prior to the date of the Shareholders' Meeting called to approve the 2020 financial statements and requested to vote on a binding resolution on Section I and a non-binding resolution on Section II of this Report, in accordance with governing regulations pursuant to art. 123-ter, paragraph 3-ter of the Consolidated Law on Finance.¹

1. Art. 123-ter of Legislative Decree 58 dated February 24, 1998 (the "Consolidated Law on Finance" or CLF, updated on the basis of Legislative Decree 49 of May 10, 2019) provides, in paragraph 3-bis, that "companies submit their remuneration policy to the vote of the shareholders [...] at least once every three years or any time there are changes to the policy". Paragraph 3-ter also says that "the resolution envisaged by paragraph 3-bis is binding" (i.e. on Section I of this document), adding "if the Shareholders' Meeting does not approve the remuneration policy submitted to the vote pursuant to paragraph 3-bis, the company continues to pay remuneration in compliance with the most recent remuneration policy approved by the Shareholders' Meeting or, in the absence thereof, can continue to pay remuneration in accordance with current practices". Lastly, paragraph 6 envisages that "[...] the Meeting [...] resolves for or against the second section of the report provided for by paragraph 4. This resolution is not binding".

REMUNERATION POLICY

SHAREHOLDERS ENGAGEMENT RESULT OF THE 2020 VOTE ON SECTION I – REPORT ON THE REMUNERATION POLICY

Italmobiliare recognizes the great importance of constant dialogue and continuous interaction with the main recipients of the Remuneration Policy, aimed at guaranteeing continuous improvement and adoption of market best practices and the implementation of the main areas of improvement indicated by the Shareholders and the Proxy Advisors.

For this reason Italmobiliare devoted its attention during the year to the indications received at the last Shareholders' Meeting and took them into account in adopting the improvements included in this report. In particular, **better presentation of the information and a greater level of transparency** was sought in relation to the incentive systems and the components of the Policy regarding termination of office/employment.

GOVERNANCE AND PARTIES INVOLVED

The definition of the Remuneration Policy involves multiple parties and corporate bodies, as envisaged by the By-laws, current regulations and the governance model adopted by the Company. Works of the Committee are governed by a regulation approved by the Board of Directors, on the recommendation of the Committee, on September 25, 2018.

In 2021, the Committee met twice up to the date of approval of this Report.

At its meeting held on March 1, 2021 and in line with the recommendations of the Corporate Governance Code, the Committee defined the structure and contents of the Remuneration Policy for the purpose of preparing this Report.

Italmobiliare's 2021 Remuneration Policy was approved by the Board of Directors upon proposal by the Remuneration and Nominations Committee, in the meeting held on March 4, 2021, concurrently with its approval of this Report.

4. Board of Statutory Auditors

With regard to remuneration, the Board of Statutory Auditors expresses opinions required by governing regulations in reference to, in particular, the remuneration of Directors holding particular offices, pursuant to Art. 2389 of the Italian Civil Code, verifying their consistency with the Company's Remuneration Policy. The Board of Statutory Auditors regularly attends the meetings of the Remuneration and Nominations Committee.

PURPOSE AND PRINCIPLES OF THE REMUNERATION POLICY AND HOW IT IS LINKED TO ITALMOBILIARE'S STRATEGY

Italmobiliare's 2021 Remuneration Policy, explained in this Report, is defined in accordance with the Company's governance model and the recommendations made by the Corporate Governance Code and has the aim of **ensuring the alignment of management's interests with the interests of all its stakeholders**.

In particular, this policy aims to **attract, retain and motivate staff with the professional qualities** required to manage the Company successfully, **promoting the sustainable creation of value over the medium/long term** and establishing **a direct link between the remuneration accrued and performance achieved** and supporting the Company's main strategic drivers in alignment with the interests of the Shareholders. The Remuneration Policy is also defined taking into account the best market practices adopted by listed companies and a continuous monitoring and control of risk.

Italmobiliare's strategic vision makes available to portfolio companies its own economic resources, management skills and industrial and financial network to provide support for their medium-long term development, economic growth, internationalisation and evolution according to the best practices in terms of management, sustainability and corporate governance.

To this end, each of the components of the remuneration offered to the Company's management team responds to a precise purpose in pursuit of this strategic vision and, thanks to a **suitable balance of fixed and variable components**, helps structure a compensation package that guarantees effective alignment between management's remuneration and shareholders' interests, expressed first and foremost by the proportional nature of the variable components accrued and the results achieved in the short and long term.

In its long history as a holding company of diversified interests in the industrial and financial sector, Italmobiliare was among the **forerunners in Italy in adopting innovative solutions for sustainable development**. As early as the 1990s, it implemented ambitious sustainability policies coordinated by dedicated functions, fully integrated into strategic development priorities.

Thanks to this experience, there has developed a constant commitment to the identification and implementation of best practices in terms of sustainability, both at process and product level, and in the definition of effective reporting tools.

In line with its mission as an investor committed to "playing an active and continuous role in the process of growth and enhancement of the portfolio, combining development, internationalisation and innovation with an effective governance and risk management model", Italmobiliare considers sustainability, in its broadest sense, economic, social and environmental, as an essential lever of competitiveness.

To this end, in 2019 it laid down **a sustainability policy** valid for the three-year period 2020-2022 to take all the necessary steps to guarantee a sustainable approach, not only in the investment evaluation phase, but also in the management of portfolio investments.

As further confirmation, Italmobiliare formally joined the United Nations Global Compact in 2020, committing itself to apply the 10 fundamental principles in its sphere of influence and to actively contribute to the achievement of the Sustainable Development Goals.

In particular, ESG factors have become an integral part of Italmobiliare at three different levels:

1. Selection of investment opportunities, by assessing the exposure to ESG risks of the potential target company;

2. Completion of the investment, through an active dialogue with the portfolio companies with a view to promoting ESG best practices;
3. Adoption of a system of reporting and disclosure of the ESG performance (e.g. Sustainability Report).

The Remuneration Policy constitutes a fundamental tool for pursuing the sustainable success of Italmobiliare, by implementing the sustainability policies and in line with the adherence to the United Nations Global Compact, which commits Italmobiliare to apply the 10 fundamental principles in its sphere of influence and to actively contribute to the achievement of the Sustainable Development Goals.

For this reason, specific short-term objectives have been adopted within the incentive plan scorecard for 2021, aimed particularly at creating, refining and rationalising the essential elements to consolidate the path, just begun, to integrate ESGs with the Group's internal processes.

Components of remuneration	Characteristics and Purpose
Fixed Remuneration	<ul style="list-style-type: none"> ■ Includes all fixed annual remuneration (i.e. gross annual pay from employment, directors' fees, compensation for specific offices, etc. ...); ■ It is defined in such a way as to adequately remunerate the role, i.e. the nature of the activity carried out and the responsibilities assigned to it, even in the event of a reduction or absence of variable components.
MBO <i>(Short-term variable incentives)</i>	<ul style="list-style-type: none"> ■ This is commensurate with the role held, i.e. the nature of the impact on the Company's overall performance in the short term; ■ It is connected with the achievement of annual quantitative and/or qualitative performance objectives, which can be objectively measured and are consistent with the goals set out in the Company's strategic plan and sustainability policy; ■ It is designed in such a way as to reduce or increase proportionally with the degree of performance generated in respect of the goals assigned.
LTI <i>(Long-term variable incentives)</i>	<ul style="list-style-type: none"> ■ This is commensurate with the role held, i.e. the nature of the impact on the Company's overall performance in the medium/long term; ■ It is connected with the achievement of multi-year quantitative and/or qualitative performance objectives, which can be objectively measured and are consistent with the goals set out in the strategic plan and with the primary goal of creating value for shareholders; ■ It is designed in such a way as to reduce or increase proportionally with the degree to which the goals assigned are achieved and value is generated.

The Italmobiliare Remuneration Policy, with reference to the type of components of remuneration to be paid to the various categories of policy beneficiaries, is defined in such a way as to be consistent with the indications given in the Corporate Governance Code and the guidelines issued by the main proxy advisors, as well as with market practice. Specifically:

- The remuneration of Non-Executive Directors consists only of **fixed compensation**, so it is not linked to the Company’s results;
- The remuneration of the Chief Executive Officer/Chief Operating Officer and Key Management Personnel consists of a **fixed part and a variable part**, with the latter in turn consisting of a short-term and a medium/long-term component and represents a significant part of total remuneration;
- the remuneration of the Financial Reporting Officer and the Head of Internal Audit consists of a **fixed part which is predominant with respect to the variable part**. The short-term variable component is primarily linked to goals relating to the role and responsibilities.

1. Pay Mix

The Remuneration Policy, i.e. each of the components of remuneration planned, is defined in such a way as to **guarantee a suitable balance of fixed and variable components** and, of the latter, between short-term (annual) and medium/long-term (multi-year) variable components. The method by which the adequacy of said balance has been defined is connected with the nature of the role, its impact on the pursuit of corporate objectives and market practice for similar roles.

The current pay mix is shown below:

The "target" pay mix refers to the potential full achievement of the performance objectives linked to the annual variable component (MBO) and the long-term variable component (LTI) (100% achievement of objectives). Similarly, the "maximum" pay mix refers to the scenario whereby there is an overperformance of all objectives linked to the annual variable component (MBO) and the long-term variable component (LTI) (maximum score of objective achievement).

Monetary disbursements may also be envisaged that from time to time, through bonuses and one-off discretionary payments, reward certain results or performance that are not already included in the short and medium/long-term variable components of remuneration. The disbursement of one-off cash bonuses to particularly strategic management figures who have stood out by making exceptional individual contributions, is an important mechanism by which to differentiate and ensure meritocratic selection and, therefore, to retain excellent resources. These forms of remuneration are assigned by the Board of Directors on the recommendation of the Remuneration and Nominations Committee, after hearing the opinion of the Board of Statutory Auditors pursuant to art. 2389 of the Italian Civil Code, if appropriate.

MARKET PRACTICE

The Company regularly monitors the main national and international market practices, also by carrying out specific benchmarking remuneration analyses, carried out by the independent international consultancy firm Willis Towers Watson, in order to verify the competitiveness of its remuneration offer.

REMUNERATION OF THE CHIEF EXECUTIVE OFFICER/CHIEF OPERATING OFFICER

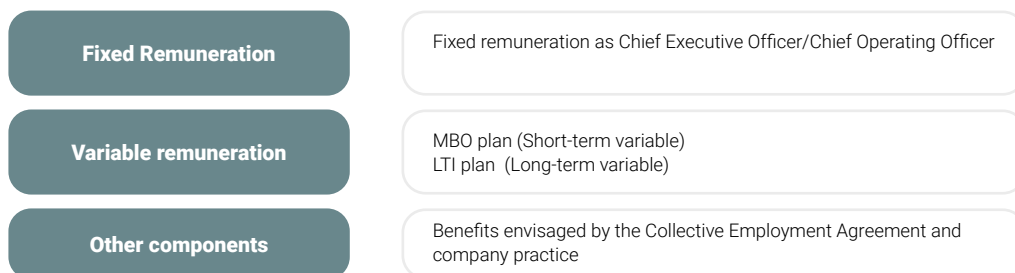

Remuneration of the Chief Executive Officer/Chief Operating Officer is defined in line with the powers conferred and the principles and purpose of the Company's Remuneration Policy, as well as in line with market benchmarks for similar positions in comparable companies.

The remuneration package of the Chief Executive Officer/Chief Operating Officer is structured into its various components in such a way as to guarantee:

- Consistency between the results achieved and the variable remuneration schemes implemented by establishing performance objectives that involve a reasonable amount of challenge for the person concerned;
- Alignment with the best market practices in terms of remuneration pay mix (fixed and variable components of remuneration);
- A link between the short- and long-term Company results, in terms of creating value;
- The correct remuneration according to role, powers and responsibilities;
- Long-term loyalty and retention.

The remuneration of the Chief Executive Officer/Chief Operating Officer is defined according to criteria that assure a suitable balance of fixed and variable components of remuneration and, with regard to the latter component, of short- and long-term variable components. This structure promotes a solid alignment between the remuneration disbursed and/or accrued and the creation of value in the long-term.

The policy for the remuneration of the Chief Executive Officer/Chief Operating Officer is made up as follows:

1. Fixed Remuneration

For the 2020-2022 mandate, the fixed component of remuneration of the Chief Executive Officer/Chief Operating Officer established by the Board of Directors on the proposal of the Remuneration and Nominations Committee was considered commensurate with the powers and responsibilities assigned to him. It was confirmed at Euro 1,000,000 per year.

In total, the fixed component is determined in such a way as to ensure an adequate and sustainable remuneration, even if the variable component should decline. This is in accordance with the objectives of this policy. The Remuneration and Nominations Committee conducts regular analyses of the external competitiveness of the fixed remuneration, so as to assess the consistency of the remuneration of the Chief Executive Officer/Chief Operating Officer with respect to the same roles held in comparable companies. This analysis was carried out most recently in early 2020 with the help of Willis Towers Watson as advisor.

The compensation for the roles held in subsidiary companies and/or associates are repaid in full to Italmobiliare.

2. Short-term variable remuneration (MBO)

The Chief Executive Officer/Chief Operating Officer, as well as other Key Managers of the Company, are recipients of an annual incentive scheme (the MBO plan), which entitles them to receive a cash bonus when specific performance objectives are achieved, measured over a time frame of one year and consistent with the Company's strategic objectives, set annually.

The MBO plan envisages the assignment of **objectives that are challenging, feasible, measurable, able to be influenced by the person to whom they are assigned and which are consistent with their responsibilities**. The objectives are a combination of Group economic-financial metrics, strategic and operational objectives that are under the influence of each manager and specific objectives related to ESG factors.

As a rule, the MBO plan's annual performance scorecard includes between two and five objectives. For each objective, a minimum level is defined, below which it is considered that the objective has not been attained, a target level at which the objective is deemed to have been achieved 100% and a maximum level, set as a for the maximum achievement. The target performance level, achievement of which gives entitlement to receive 100% of the incentive assigned, is normally defined in line with the company's budget.

The level of achievement of the MBO card as a whole is defined as the weighted sum of the level of achievement of each objective for the weight assigned.

If objectives are achieved at target level, i.e. 100% of performance, the Chief Executive Officer/Chief Operating Officer accrues the right to receive a monetary bonus equal to 100% of the MBO target.

The MBO plan envisages payment of a bonus in the event that the minimum level of results is achieved, at which point the bonus accrued is 66% of the MBO target. Achievement of the maximum level of results entails the accrual of a bonus equal to 166% of the MBO target.

Compared to the previous Remuneration Policy, the Board of Directors has approved a change in the MBO target value of the Chief Executive Officer/Chief Operating Officer, reducing it from 100% to 72.5% of the fixed remuneration. This reduction took place at the same time as the increase in the long-term variable component, with the aim of guaranteeing a greater focus on the creation of value and the achievement of the corporate strategic objectives in the medium to long term.

PERFORMANCE CURVE/ PAYOUT

Below are the objectives that make up the scorecard of the MBO plan, **attributable to profitability, value creation and sustainability requirements**, and which favour the orientation of the main corporate priorities in the short term. These objectives were considered in line with the strategic management priorities in terms of both development and cost control, as well as being in line with best practices as emerged from the analyses carried out with the support of external consultants.

MBO SCORECARD FOR THE CHIEF EXECUTIVE OFFICER/CHIEF OPERATING OFFICER

Type	Objectives	Weight
Economic and financial objectives <div style="background-color: #808080; color: white; padding: 5px; border-radius: 10px; text-align: center;">80%</div>	Annual growth in NAV per share compared with the expected growth in the target per year	40%
	Growth in adjusted EBITDA of subsidiaries/investee companies compared with expected target growth in 2021	40%
Sustainability goals <div style="background-color: #808080; color: white; padding: 5px; border-radius: 10px; text-align: center;">20%</div>	Specific ESG objectives	20%

Starting in 2019, the Company has decided to **apply claw back clauses** in connection with any bonuses accrued and paid out under the MBO plan. In accordance with the provisions of the Corporate Governance Code, the adoption of such clauses gives the Company the right to request the return of all or part of the variable components of remuneration paid in connection with the MBO plan if any of the following circumstances should arise: (i) the economic-financial data and information on which basis the performance objectives were assessed prove to be clearly incorrect or falsified, and/or (ii) the beneficiary is liable for misconduct or negligence that was key to the disbursement of the bonus. The obligation to return the money remains effective for up to 36 months from payment of the bonus.

3. Long-term variable remuneration

A significant component of the Italmobiliare Remuneration Policy is focused on a medium/long-term time frame, so as to **strengthen the link with the shareholders' interest in creating value**. The Chief Executive Officer/Chief Operating Officer, Key Management Personnel and some key managers of the Company selected by the Chief Executive Officer are recipients of the "2020-2022 Phantom Stock Grant Plan" (LTI Plan), whose main characteristics are described below. For more details, please refer to the Disclosure Document available on the Company's website in the section on Governance/ Shareholders' Meeting.

The LTI plan's main aim is to link a significant portion of the remuneration of the Chief Executive Officer/Chief Operating Officer as well as of the other beneficiary managers, to the achievement of economic-financial performance that can be sustained over time and is consistent with the primary goal of creating value for shareholders. The LTI plan also strengthens management retention and commitment towards achieving strategic company objectives.

The LTI plan aims to remunerate long-term performance measured by achieving a **target in the form of a certain net asset value (NAV) per share**; this objective, in addition to being in line with best practices as emerged from the analyses carried out with the support of external consultants, was considered in line with the business priorities in terms of both development and cost control, as well as being in line with the short-term goals.

The Plan provides for the assignment of a specific number of Rights to receive **Phantom Stocks linked to the value of the Company's shares** at the end of the Performance Period, **providing the target NAV per share is achieved** in the three-year period of reference.

OBJECTIVE OF THE 2020-2022 PHANTOM STOCK GRANT PLAN

Type	Objectives	Weight
Economic-financial objective	Growth in NAV per share compared with the target growth expected in the 3-year reference period	100%

The final bonus therefore depends on:

- the number of Phantom Stocks accrued (based on Group performance);
- the value of the Shares, based on stock market performance.

Performance objectives linked to the target NAV per share are set by the Board of Directors in accordance with the Company's strategic objectives.

A threshold level is envisaged, below which the right to receive the incentive is not accrued, and a maximum limit, upon achievement of which, the maximum incentive is accrued.

In relation to the NAV indicator for the number of Phantom Stock attributable, it will be defined according to the following incentive curve:

- on reaching a minimum level of performance, a number of Phantom Stocks equal to 66% of the rights to receive the assigned Phantom Stocks will be attributed. No Phantom Stock will be attributed below this minimum level;
- on reaching the target performance level (100%), a number of Phantom Stocks equivalent to the number of rights to receive the assigned Phantom Stocks (100%) will be attributed;
- on reaching a maximum level of performance, a number of Phantom Stocks equal to 166% of the rights to receive the assigned Phantom Stocks will be attributed. No additional Phantom Stock will be attributed on reaching a performance level above this cap;
- for intermediate performances between the minimum level and the target, and between the target and the maximum, a calculation by linear interpolation will be applied.

Compared with the previous Remuneration Policy, the Board of Directors has approved a change in the LTI target value of the Chief Executive Officer/Chief Operating Officer, increasing it from 100% to 150% of the fixed remuneration, resulting in an increase in the weight of the long-term variable component as part of total remuneration. As mentioned previously, this change was based on the desire to increase the focus on the creation of value and on the achievement of the Company's strategic objectives in the medium to long term.

Given the direct connection between the bonus and the value of the share, the impact of any distribution of dividends during the 3-year vesting period has to be taken into account. So, in order to maintain the plan's incentive effect unchanged, at the end of the vesting period a number of additional Phantom Stocks equal to the value of any dividends paid out during the performance period will be assigned.

With the introduction of the new 2020-2022 Phantom Stock Grant Plan, the Company has decided to adopt clawback clauses for bonuses that may have accrued and been paid under the Plan. In accordance with the provisions of the Corporate Governance Code, the adoption of such clauses gives the Company the right to request the return of all or part of the variable components of remuneration paid if any of the following circumstances should arise: (i) the economic-financial data and information on which basis the performance objectives were assessed prove to be clearly incorrect or falsified, and/or (ii) the beneficiary is liable for misconduct or negligence that was key to the disbursement of the bonus. The obligation to return the money remains effective for up to 36 months from payment of the incentive.

4. Benefits

Non-monetary benefits may be granted, such as company car for both personal and business use. There are also supplementary pension plans, health insurance and life insurance policies to integrate those provided for by the National Collective Labour Agreement for Managers of companies producing goods and services, in line with market practices.

As with other Directors, the Chief Executive Officer/Chief Operating Officer benefits from a third-party liability insurance policy that has been taken out for events related to the exercise of their functions, in compliance with the provisions set forth with regard to their offices, except in cases of wilful misconduct and fraud.

Italmobiliare already has welfare plans in place for Company employees which can also be extended to managers.

REMUNERATION POLICY FOR KEY MANAGEMENT PERSONNEL

Italmobiliare promotes a remuneration policy for Key Management Personnel that is consistent with that described in the previous section for the Chief Executive Officer/Chief Operating Officer. This policy takes into account:

- recognition of the role and responsibilities in terms of their strategic nature;
- competitiveness with market remunerations;
- internal fairness for figures of similar or comparable level;
- retention and loyalty.

The remuneration policy applicable to Key Management Personnel is structured as follows:

Fixed Remuneration	Gross annual pay as managers
Variable remuneration	MBO plan (Short-term variable) LTI plan (Long-term variable)
Other components	Benefits envisaged by the Collective Employment Agreement and company practice

The compensation package is structured in such a way as to assure a suitable balance of fixed and variable components of remuneration and, with regard to the latter component, of short- and long-term variable components. This structure promotes a solid alignment between the remuneration disbursed, the results achieved during the year and the creation of value in the long term.

Italmobiliare has currently chosen the Head of Investment Management, the Administrative Director/Financial Reporting Officer and two managers from the Development&Investment Department, as Key Management Personnel.

1. Fixed Remuneration

The fixed component of the remuneration of Key Management Personnel is the remuneration from employment as Company managers. Fixed remuneration is determined in such a way as to remunerate the role even if the variable remuneration should decline. The Company regularly monitors the consistency of the fixed remuneration with market rates in respect of similar roles in companies comparable with Italmobiliare.

Any compensation received by Key Management Personnel for roles held in subsidiary companies and/or associates are repaid in full to Italmobiliare.

2. Short-term variable remuneration (MBO)

The Key Management Personnel benefit from an annual incentive system (the MBO plan), which entitles them to receive a cash bonus where specific performance objectives are achieved, measured over a time frame of one year.

The MBO plan envisages the assignment of **objectives that are challenging, feasible, measurable, able to be influenced by the person to whom they are assigned and which are consistent with their responsibilities**. The objectives are a combination of economic-financial metrics and strategic and operational objectives coming under the influence and purview of each manager.

The scorecard of MBO plan objectives for 2021 is structured as follows:

MBO SCORECARD KEY MANAGEMENT PERSONNEL *

Type	Objectives	Weight
Economic and financial objectives 	Annual growth in NAV per share compared with the expected growth in the target per year	30%
	EBIT/EBITDA of specific "controlled companies" Specific function objectives Project milestones	50%
Sustainability goals 	Specific ESG objectives	20%

(*) excluding the Financial Reporting Officer and the Head of Internal Audit for whom a significant portion of the goals (70% or more) are objectives relating to the adoption of the best governance and control standards and monitoring of regulatory and legal compliance for the Financial Reporting Officer and objectives linked to the activities of the internal control department for the Head of Internal Audit. It is specified that the definition and assessment of objectives for the Head of Internal Audit is carried out by the Control and Risk Committee, in order to guarantee complete independence and avoid onset of potential conflicts of interests.

In this case too, the objectives that make up the MBO scorecard are linked to profitability, value creation and sustainability requirements.

As a rule, the annual MBO scorecard comprises between two and five objectives. For each objecti-

ve, a minimum level is defined, below which it is considered that the objective has not been attained, a target level at which the objective is deemed to have been achieved 100% and a maximum level, set as a cap for the maximum achievement. The target performance level, achievement of which gives entitlement to receive 100% of the incentive assigned, is, as a rule, defined in line with the Company's budget.

The level of achievement of the MBO card as a whole is defined as the weighted sum of the level of achievement of each objective for the weight assigned.

The incentive for Key Management Personnel if they achieve the target performance level averages out at between 40% and 80% of fixed remuneration.

The target incentive is lower for the Financial Reporting Officer and the Head of Internal Audit and stands at 21% of fixed remuneration.

Starting 2019, the Company has decided to **apply claw back clauses** in connection with any bonuses accrued and disbursed in connection with the MBO plan. In accordance with the provisions of the Corporate Governance Code, the adoption of such clauses gives the Company the right to request the return of all or part of the variable components of remuneration paid in connection with the MBO plan if any of the following circumstances should arise: (i) the economic-financial data and information on which basis the performance objectives were assessed proves to be clearly incorrect or falsified and/or (ii) the beneficiary is liable for misconduct or negligence that was key to the disbursement of the bonus. The obligation to return shall remain effective for up to 36 months from payment of the incentive.

3. Long-term variable remuneration

Similarly to that envisaged for the Chief Executive Officer/Chief Operating Officer, a significant portion of the variable remuneration of the Italmobiliare Key Management Personnel is focused on a medium/long-term time frame, so as to **strengthen the link with the shareholders' interest in creating value**. The Key Management Personnel are recipients of the **"2020-2022 Phantom Stock Grant Plan"** (LTI plan), the main characteristics of which are described in the section which explains the remuneration of the Chief Executive Officer/Chief Operating Officer.

With the introduction of the new "2020-2022 Phantom Stock Grant Plan", the Company has decided to adopt clawback clauses for bonuses that may have accrued and been paid under the Plan. In accordance with the provisions of the Corporate Governance Code, the adoption of such clauses gives the Company the right to request the return of all or part of the variable components of remuneration paid if any of the following circumstances should arise: (i) the economic-financial data and information on which basis the performance objectives were assessed proves to be clearly incorrect or falsified and/or (ii) the beneficiary is liable for misconduct or negligence that was key to the disbursement of the bonus. The obligation to return shall remain effective for up to 36 months from payment of the incentive.

4. Benefits

Non-monetary benefits may be granted (such as a company car for both personal and business use) as well as other supplementary benefits, over and above those on the National Collective Labour Agreement, such as pension plans, health insurance and life insurance policies, in line with market practice for similar managerial positions.

Italmobiliare already has Welfare Plans in place for Company employees which can also be extended to managers.

SEVERANCE INDEMNITY POLICY

The Company does not envisage any *ex ante* indemnity in the event of resignation, dismissal or termination of employment and/or mandate of Directors and Key Management Personnel. The Company may agree specific treatment in connection with the termination of an office or employment, which may even be better than the provisions of the National Collective Labour Agreement, for parties with a contract of employment in place. Such agreements shall be defined in compliance with the benchmarks and within the limits defined by case-law and standard practice. In particular, in addition to what is provided by way of notice, the indemnity is equal to a maximum of 2 times the total annual remuneration including the fixed remuneration, the value of the benefits received in the 12 months prior to the date of termination, the average variable remuneration received in the last three calendar years of service prior to the aforementioned date, the amount of any compensation received in relation to the corporate offices held in the last 12 months (with the exception of compensation that is paid over to the Holding Company).

The effects of the termination of the contract of employment and/or mandate on the rights deriving from the LTI plan are regulated by the specific company regulation with the aim of avoiding any penalisation of beneficiaries terminating their employment as “good leavers”. In the event of termination of the Relationship before payment of the Bonus for reasons other than:

- disciplinary dismissal;
- resignation not for just cause;
- revocation of a director for just cause;
- resignation of a director not for just cause;

the right (for the beneficiary or for their heirs or assignees) to receive a portion of the bonus will be maintained by applying the “*pro-rata temporis*” criterion and on the basis of an assessment of the performance results as of the date of termination.

In the event of:

- transfer of the work relationship, collaboration or mandate by the Company to another Group company;
- termination with simultaneous establishment of a new work relationship, collaboration or mandate within the Group;

the beneficiary will retain ownership of the Rights at the same terms and conditions.

There is no provision for the assignment or maintenance of non-monetary benefits in favour of individuals or for the stipulation of consultancy contracts for a period subsequent to termination of the relationship.

The Company does not have any non-competition agreements in place for Directors and Key Management Personnel. However, the remuneration policy does include the possibility of stipulating agreements with certain managers, including Executive Directors and/or Key Management Personnel who hold particularly critical professional roles, insofar as they are subject to greater risks of attraction on the market. Any such agreements in the favour of Executive Directors and/or Key Management Personnel will be introduced with the approval of the Board of Directors and on the recommendation of the Remuneration and Nominations Committee.

In addition, the Company does not provide for the assignment or maintenance of non-monetary benefits in favour of Directors and Key Management Personnel or the stipulation of consultancy contracts for a period subsequent to termination of the relationship.

Business results for 2020

2020 was characterised by significant economic and financial tensions, caused by the emergency situation resulting from the Covid-19 pandemic. Despite the general context, the Company's portfolio of investments, built up substantially in recent years, has shown an equilibrium that is able to cope with particularly critical economic conditions such as the present. Helped by the management and governance know-how provided by Italmobiliare, the various portfolio companies have achieved an overall improvement in profitability, despite a contraction in sales due to the restrictions imposed by the pandemic or other external effects, such as the drop in the price of raw materials in the first half of the year.

In this context, Italmobiliare promptly implemented, both at the holding company level and at the Portfolio Companies, all safety and control measures in favour of employees to limit possible occasions for contagion, guaranteeing their health and safety while, at the same time, favouring continuity of production.

At December 31, 2020 the NAV per share of Italmobiliare was equal to 43.52 euro, with an increase of approximately 5% compared to the previous year after the payment of dividends totalling 1.8 euro per share (of which the ordinary component was 0.6 euro per share), which entails an additional yield of over 4% compared with the NAV at the end of 2019.

Please refer to the annual financial report at December 31, 2020 for an explanation of the main factors that characterised the results of operations in 2020.

Annual change in compensation and performance

In line with the regulatory requirement introduced by Consob with resolution 21623 of 10 December 2020, in light of the remuneration levels just highlighted, the following table compares the annual variation, between 2017 and 2020, of:

- Company results (expressed in terms of NAV per share);
- Total remuneration, calculated as the sum of the fixed, variable short and long term remuneration, other remuneration and benefits, of the Chief Executive Officer/Chief Operating Officer and the Chairman of the Board of Directors;
- Average gross annual remuneration, calculated as the sum of fixed, variable, short and long-term remuneration, other remuneration and benefits, based on the full-time employees of Italmobiliare S.p.A. (headcount), with the exception of the Chief Executive Officer/Chief Operating Officer.

ANNUAL CHANGE IN COMPENSATION AND PERFORMANCE

Board of Directors		2020 vs 2019*	2019* vs 2018	2018 vs 2017	2020 vs 2017
Carlo Pesenti	Chief Executive Officer/Chief Operating Officer	-74.7%	308.5%	-5.0%	-1.9%
Laura Zanetti	Chairman of the Board of Directors	-27.3%	80.2%	31.3%	72%
Group results					
NAV per share		5.0%	22.4%	-3.8%	23.5%
Average remuneration of employees					
Employees of the Parent Company		-33.9%	99.5%	32.1%	74.3%

* The figures considered for 2019 are strongly impacted by the disbursement of the 2017-2019 LTI plan, as explained below.

Moreover, with regard to the members of the Board of Directors, an increase in their remuneration was approved on the renewal of the Board of Directors by the Shareholders' Meeting called to approve the 2019 financial statements. On this occasion, the meeting approved an increase in the remuneration for 2020 compared with the previous year of 50% for the Chairman of the Board, of 7% for the Deputy Chairman, of 11% for each Director, eliminating the Executive Committee and consequently the fee for attending meetings.

No significant changes were made to the remuneration policy of members of the Board of Statutory Auditors during the period.

With regard to the more significant changes that took place during the period, in addition to the changes made to the remuneration for members of the Board of Directors described above, the following matters are worth mentioning:

- The amount paid for the 2017-2019 LTI plan was all accounted for in 2019;

- As regards the position of Chairman of the Board of Directors, a one-off bonus was paid in 2019, in order to recognize her immense professional commitment and the role played by the Chairman during the previous three-year term of office. Her fixed remuneration was also revised to bring it into line with market benchmarks. It should also be noted that the Chairman of the Board of Directors has been in office since April 19, 2017; in the months prior to that date she was only a Director.

For the sake of completeness, the following shows the evolution of the ratio between the total remuneration of the Chief Executive Officer/Chief Operating Office and the average gross annual remuneration of the other employees of the Parent Company, calculated as explained above:
