(MTA: SFER), parent company of the Salvatore Ferragamo Group, one of the global leaders in the luxury sector, in a meeting chaired by Leonardo Ferragamo, examined and approved the Half Year Financial Report as of 30 June 2021, drafted according to IAS/IFRS international accounting principles (Limited Audit).

To be noted that all performance measures are reported excluding the Fragrance business both from the data relating to 2021 and from the 2020 comparative data, as the licensing of the business, as announced in the press release as of July 7th 2021, is reclassified in the “Non-current Assets Held for Sale and Discontinued Operations”, in accordance with the accounting principle IFRS 5.

Notes to the Income Statement for 1H 2021

Consolidated Revenue figures

As of 30 June 2021 the Salvatore Ferragamo Group reported Total Revenues of 524 million Euros up 44.2% at current exchange rates (+46.2% at constant exchange rates²) vs. the 363 million Euros recorded in 1H 2020. Revenues in 2Q 2021 registered a 91.3% increase at current exchange rates (+90.5% at constant exchange rates²).

The increase in Revenues has been achieved despite the permanence, in some countries, of lockdowns of the commercial activities, bans and restriction on international traffic, due to the Covid-19 pandemic. At 30 June 2021, the Group is operating with 53% of retail stores at full capacity.

Revenues by distribution channel³

As of 30 June 2021, the Group's Retail network counted on a total of 639 points of sales, including 398 Directly Operated Stores (DOS) and 241 Third Party Operated Stores (TPOS) in the Wholesale and Travel Retail channel, as well as the presence in Department Stores and high-level multi-brand Specialty Stores.

In 1H 2021 the Retail distribution channel posted consolidated Revenues up 46.3% (+49.4% at constant exchange rates²).

In 2Q 2021 Retail Revenues increased by 81.4% (+82.9% at constant exchange rates²), with four Areas (Greater China, North America, Latin America and Korea) exceeding the pre-Covid Revenues level.

The direct E-commerce channel continues to consolidate a solid growth at 30 June 2021, with Revenues up 70.6% (+78.3% at constant exchange rates²).

In 2Q 2021 the direct E-commerce increased by 65.8% at constant exchange rates².

Salvatore Ferragamo

The Wholesale channel registered an increase in Revenues of 41.1% (+40.5% at constant exchange rates²) vs. 1H 2020.

In 2Q 2021 Wholesale Revenues were up 134% (+122% at constant exchange rates²) vs. 2Q 2020, despite the still challenging situation of the Travel Retail channel, due to the international travel restrictions as a consequence of the pandemic.

Revenues by geographical area³

The Asia Pacific area is confirmed as the Group's top market in terms of Revenues, up by 35.2% (+34.0% at constant exchange rates²) vs. 1H 2020.

In 1H 2021 the retail channel in Greater China posted a Revenue growth of 45.0% vs. 1H 2020 at constant exchange rates². In particular, the retail channel in China posted an increase in Revenues of 47.4% vs. 1H 2020 at constant exchange rates² and Korea also posted a solid growth trend in 1H 2021 (+21.9% vs. 1H 2020 at constant exchange rates²).

The Japanese market registered a 13.4% increase in Revenues (+18.2% at constant exchange rates²) in 1H 2021, with a positive trend in 2Q 2021, (+55.0% at current exchange rates and +66.9% at constant exchange rates²) vs. 2Q 2020.

Overall the Asian continent represents currently over 50% of total Group's revenues in 1H 2021.

EMEA, still penalized by lock-downs of stores and mainly by the limited tourists' flows in 1H 2021, posted an increase in Revenues of 22.2% (+20.5% at constant exchange rates²) vs. 1H 2020, with 2Q 2021 positive (+113% at constant exchange rates²) vs. 2Q 2020.

North America recorded a Revenue increase of 103% (+122% at constant exchange rates²) in 1H 2021 vs. the same period of last year. In 2Q 2021 Revenues more than quintupled vs. 2Q 2020.

Revenues in the Central and South America in 1H 2021 were up 65.6%, (+73.7% at constant exchange rates²). Revenues increased by 712% at 16 million Euros in 2Q 2021 from 2 million Euros posted in 2Q 2020.

Revenues by product category³

Salvatore Ferragamo

of full price sales, to a more positive geographical, channel and product mix and also to lower provisions for obsolescence.

Operating Costs

In 1H 2021 Operating Costs amounted to 295 million Euros at current exchange rate, substantially stable (+0.6%) vs. 1H2020 (+4.0% at constant exchange rates²).

In 2Q 2021, Operating Costs increased by 13% due to higher variable costs and also to a lower contribution from positive extraordinary components, such as the Government subsidies to labor and rents' relief.

Gross Operating Profit (EBITDA¹)

The Gross Operating Profit (EBITDA¹) amounted to 144 million Euros, from 32 million Euros of 1H 2020, with an incidence on Revenues of 27.5% from 8.8% in 1H 2020.

Operating Profit (EBIT)

The Operating Profit (EBIT) was positive for 66 million Euros vs. 72 million Euros negative (-62 million Euros net of the effect of the impairment test) in 1H 2020.

Profit before taxes

The Profit before taxes in 1H 2021 was positive for 56 million Euros vs. 90 million Euros negative in 1H 2020.

Fragrance Business

All performance measures of the Income Statement are reported, in accordance with the accounting principle IFRS 5, excluding the Fragrance business both from the data relating to 2021 and from 2020 comparative data, following the exclusive licensing agreement to Inter Parfums Inc., whereby an exclusive and worldwide license will be granted for the production and distribution of Ferragamo brand perfumes, as announced in the press release as of July 7th 2021. In 1H 2021 the Fragrance business reported Revenues up 54.6%, at 20.4 million Euros vs 1H2020 and EBIT amounted to -3.8 million Euros vs. -2.8 million Euros in 1H 2020.

Salvatore Ferragamo

The Management of the Company continues to pursue the reinforcement of the competitive positioning of the Salvatore Ferragamo Group among the leaders in the luxury market. The market scenario remains volatile, as a consequence of the pandemic, albeit in a phase of gradual normalization. Therefore the Management of the Company does not deem to provide detailed forecasts regarding the expected performance for the current year, while the improvement in the most important markets in terms of contribution is confirmed.

Notes to the press release

¹ We define EBITDA as operating profit before amortization and depreciation and write-downs of tangible/intangible assets and Right of use assets. EBITDA is an important managerial indicator for measuring the Group's performance. As EBITDA is not an indicator defined by the accounting principles used by our Group, our method of calculating EBITDA may not be strictly comparable to that used by other companies.

² Revenues/Operating Costs at "constant exchange rates" are calculated by applying to the Revenue/Operating Costs of the period 2020, not including the "hedging effect", the average exchange rates of the same period 2021.

³ The variations in Revenues are calculated at current exchange rates including the hedging effect, unless differently indicated.

⁴ Net working capital is calculated (in accordance with CESR Recommendation 05-054/b of February 10, 2005) as inventories, right of return assets and trade receivables net of trade payables and refund liabilities, excluding other current assets and liabilities and other financial assets and liabilities. As net working capital is not an indicator defined by the accounting principles used by our Group, our method of calculating net working capital may not be strictly comparable to that used by other companies.

⁵ Adjusted: not including the IFRS16 effect. The Net financial debt/(surplus) is calculated as the sum of Current and non current interest-bearing loans and borrowings plus Current and non current Lease Liabilities and Other current and non current financial liabilities including the negative fair value of derivatives (non-hedge component), net of Cash and cash equivalents and Other current financial assets, including the positive fair value of derivatives (non-hedge component).
