Aquafil at glance

- A global Group with proximity to clients
 - 19 plants in 3 continents and 8 countries
 - in 2020, above 2.600 employees, € 437m of revenues and € 58m of EBITDA
- Market leader in nylon for fiber for carpet flooring (BCF products), fabrics (NTF products) and polymers for EP and molding industries)
- A successful business model based on
 - Proprietary technology with continuous R&D innovation for a uniquely diversified commercial offer
 - Manufacturing and operational excellence focused on high-end segments
- Pioneers of circularity with ECONYL[®], around 37% of fiber turnover
 - A unique Regeneration System to produce sustainable fiber and polymers from nylon 6 waste
 - High barriers to entry for technology and reverse supply chain
 - Significant environmental advantage with a reduction of greenhouse gas emissions by around 90%

FORTUNE

MAGAZINE CHANGE THE WORLD

Fortune's 2019 Change the World List: Companies to Watch

By Matthew Heimer and Erika Fry 19 August 2019

"Burberry and Prada both recently launched collections featuring ECONYL®, a recycled nylon that this Italian yarn manufacturer creates from old fishing nets, fabric scraps, and discarded carpets. The company claims that for every ton of the upcycled material it produces, it saves 7 barrels of crude oil and 5,7 tons of carbon emissions."

Sustainability path – Driven by vision and business model

- Journey to circularity started with a deep business model review to prepare Group to next decades evolution based on cultural sensitiveness to environmental topics and Group R&D and technological strengths
- Aquafil correctly identified future trends which gradually became “secular” change drivers
 - Increasing volatility related to crucial raw materials both in term of availability and prices
 - Production process wastes management
 - Growing attention versus an “environmental” frame in the value chain and among stakeholders
 - Clients sharing the same vision
 - Many different regulators increasing focus to environmental laws all across Group presence countries
 - First steps versus Extended Production Responsibility (“EPR”)
 - Civil society growing sensitiveness
- Eco-Design is next crucial step
 - from the “raw material–product–waste” linear model to the “closing the loop” paradigm
 - products build with raw materials which will become raw materials by themselves

Sustainability path – Driven by vision and business model

Sustainability path – A journey started in 1990

Sustainability path – A journey started in 1990

SUPPORT LOCAL COMMUNITIES

Grow in harmony with local communities, promoting a prosperous and respectful development of their territory.

RETHINKING PRODUCTS IN A CIRCULAR PERSPECTIVE

Innovating products to make them more and more circular, giving new life to waste materials, in an infinite cycle.

PROTECTING THE ENVIRONMENT

Producing consciously and responsibly, pursuing continuous improvement and excellence in every aspect.

ATTENTION TO THE WELL-BEING OF PEOPLE

People who, with commitment and passion, are the foundation of the Group.

SHARED RESPONSIBILITY ALONG THE SUPPLY CHAIN

Collaborate with suppliers and customers to bring about change and environmental sustainability in the entire sector.

SUSTAINABILITY PILLARS	IMPROVEMENT AREAS	TOPICS
 <p>RE THINKING PRODUCTS IN A CIRCULAR PERSPECTIVE</p>	<ul style="list-style-type: none"> • Creation of new sustainable value chains • Research other sustainable value chains 	<ul style="list-style-type: none"> • Creation of a new recycled products/ materials (PP, copper) • Bio bases nylon
 <p>PROTECTING THE ENVIRONMENT</p>	<ul style="list-style-type: none"> • Investment in energy from renewable sources • Improving the impacts of production processes 	<ul style="list-style-type: none"> • Procurement of electricity from renewable sources for the entire Aquafil group • Energy efficiency of the production lines, reduction of the water consumption and discharge, ISO50001 (Energy) and ISO14001 (Environment) certification
 <p>ATTENTION TO THE WELL-BEING OF THE PEOPLE</p>	<ul style="list-style-type: none"> • Minimizing accidents (Zero accidents) • Supporting employees growth 	<ul style="list-style-type: none"> • ISO45001 / OHSAS18001 certification • Hours of training and single use plastic free
 <p>SHARED RESPONSIBILITY ALONG THE SUPPLY CHAIN</p>	<ul style="list-style-type: none"> • Integrating sustainability in purchasing procedures • Spreading the culture of sustainability 	<ul style="list-style-type: none"> • Social Accountability certification (SA8000), ECONYL® qualified project and integration of safety, environmental and social criteria in supplier's qualification • Healthy Seas Project

The ECO PLEDGE® – SDGs and GRI alignment

SUSTAINABILITY PILLARS	SUPPORTED SDGS	SUPPORTED GRI
 <p>RE THINKING PRODUCTS IN A CIRCULAR PERSPECTIVE</p>	  	<p>Until now no GRI related to new material development</p>
 <p>PROTECTING THE ENVIRONMENT</p>	     	 <p>302-1:2016 303-3:2018 303-4:2016 307-1:2016</p>
 <p>ATTENTION TO THE WELL-BEING OF THE PEOPLE</p>	    	 <p>307-1:2016 404-1:2016</p>
 <p>SHARED RESPONSIBILITY ALONG THE SUPPLY CHAIN</p>	    	 <p>307-1:2016 308-1:2018 413-1:2016 414-1:2016</p>
 <p>SUPPORT LOCAL COMMUNITIES</p>	    	 <p>413-1:2016</p>

The ECO PLEDGE® – Re-thinking products

- Eco-Design aim is to create products which “will come back” because are conceived and built to become future resources and not wastes
- Collaboration on the entire value chain is the crucial successful driver

TARKETT
Closing the loop in BCF

The collaboration allowed the development of an innovative technology which separates carpet tiles at the end of life into two main components, maintaining over 95% purity of the yarn. This level of purity ensures that the PA6 yarn can be recycled and transformed into new ECONYL® regenerated nylon

NAPAPIJRI
Closing the loop in NTF

Creation of a completely circular product: the “Skidoo Infinity” jacket is “mono material” - done with ECONYL® yarn and standard nylon - and therefore designed to be completely recycled. Thanks to a take back program, it can be returned after two years of use and recycled into new ECONYL® yarn

CORAL EYEWEAR
Closing the loop in Polymers

“Endangered collection”: glasses and sunglasses made with ECONYL® and completed with frame recycling scheme (2 year-guarantee, after this period frames can be returned for recycling)

The ECO PLEDGE® – Protecting the environment

302-1:2016 | 303-3:2018 303-4:2018 | 305-1:2016 305-2:2016 | 306-3:2020

- Aquafil is committed to respect the environment in every phase of its own production process
- Therefore, activities and to reduce impacts and recover energy are constant among years
 - E.g. installation of new heating systems with heat recovery, or sharing excess thermal energy with structures close to the factories and choosing energy from renewable sources
- From this point of view, below the most relevant Group KPI
 - 2020 data are influenced by volume drop determined by COVID pandemic

	Unit	2015	2019	Change	Comments 2015-2019	2020
ENERGY CARRIER	GJ	2.451.995	2.481.249	1.2%	Efficiency measures and consistent improvement of used “energy mix” mitigate capacity increase	2.205.600
GREENHOUSE GAS EMISSION	tCO ₂ eq	173.850	51.512	(70.4%)	Increase of green energy use	50.408
WATER CONSUMPTION	10 ⁶ liters	4.759	3.119	(34.5%)	Implementation of resources efficiency measure	3.100
WATER DISCHARGE	10 ⁶ liters	4.112	3,176	(22.8%)	Implementation of resources efficiency measure	3.142
WASTE PRODUCTION	t	2015 n.a. 2016: 13.387	13.631	1.8%	Increase of the ECONYL® regeneration System’s capacity	9.859

The ECO PLEDGE® – Supply chain share responsibility

- Aquafil establish solid relationships with its customers and suppliers, based on the commitment and desire to improve together, leveraging on constant comparison and collaboration
- Some example of partnership with customers:

307-1:2016 | 308-1:2016 413-1:2016 | 414-1:2016

ECONYL® Reclaiming Program

Leveraging on an internationally structured partnership network, Group can collect large quantities of waste to be regenerated into new ECONYL® yarn.

PRADA

Prada announced the replacement of all the nylon yarn used for its products with ECONYL® regenerated nylon by 2021. The Group has launched a collection in ECONYL®

5. CORPORATE GOVERNANCE AND OWNERSHIP STRUCTURE	65

- ECONYL® regenerated nylon is 100% recycled yarn made of plastic waste such as fishing nets, industrial scraps and used carpets
- 37% of Aquafil fiber turnover in 2020

ECONYL® – Steps

- **Step 1: rescue**
 - The ECONYL® Regeneration System starts with rescuing waste, like fishing nets, fabric scraps, carpet flooring and industrial plastic from all over the world
 - That waste is then sorted and cleaned to recover all of the nylon possible
- **Step 2: regenerate**
 - Through a depolymerization and purification process, the nylon waste is recycled right back to its original purity
 - That means ECONYL® regenerated nylon is exactly the same as conventional nylon coming from oil
- **Step 3: remake**
 - ECONYL® regenerated caprolactam is processed into polymer and yarn for the fashion and carpet industries
- **Step 3: reimagine**
 - Fashion brands and carpet producers use ECONYL® regenerated nylon to create brand new products
 - And that nylon has the potential to be recycled infinitely, without ever losing its quality

ECONYL® – A consistent growth

- 2015-2019: consistent historical growth delivery
 - average increase was more than 2x total fibres growth
 - % on net sales increased from 32.5% to 37.5%
- 2020 decreased related to COVID impact in BCF
- ECONYL® accelerated growth through
 - Strengthening relationship with consolidated customers
 - Attracting new customers
- In BCF allowed to protect and even increase market share, especially on high end products
- In NTF attraction of new customers was a key element
 - Fashion and luxury brands sharing same “circularity” vision were attracted by ECONYL® value proposition
 - E.g. Burberry, Gucci and Prada

⁽¹⁾ 2015-2019 sales C.A.G.R.

ECONYL® – A consistent growth

- Partner sharing same “circularity” vision were attracted by ECONYL® value proposition

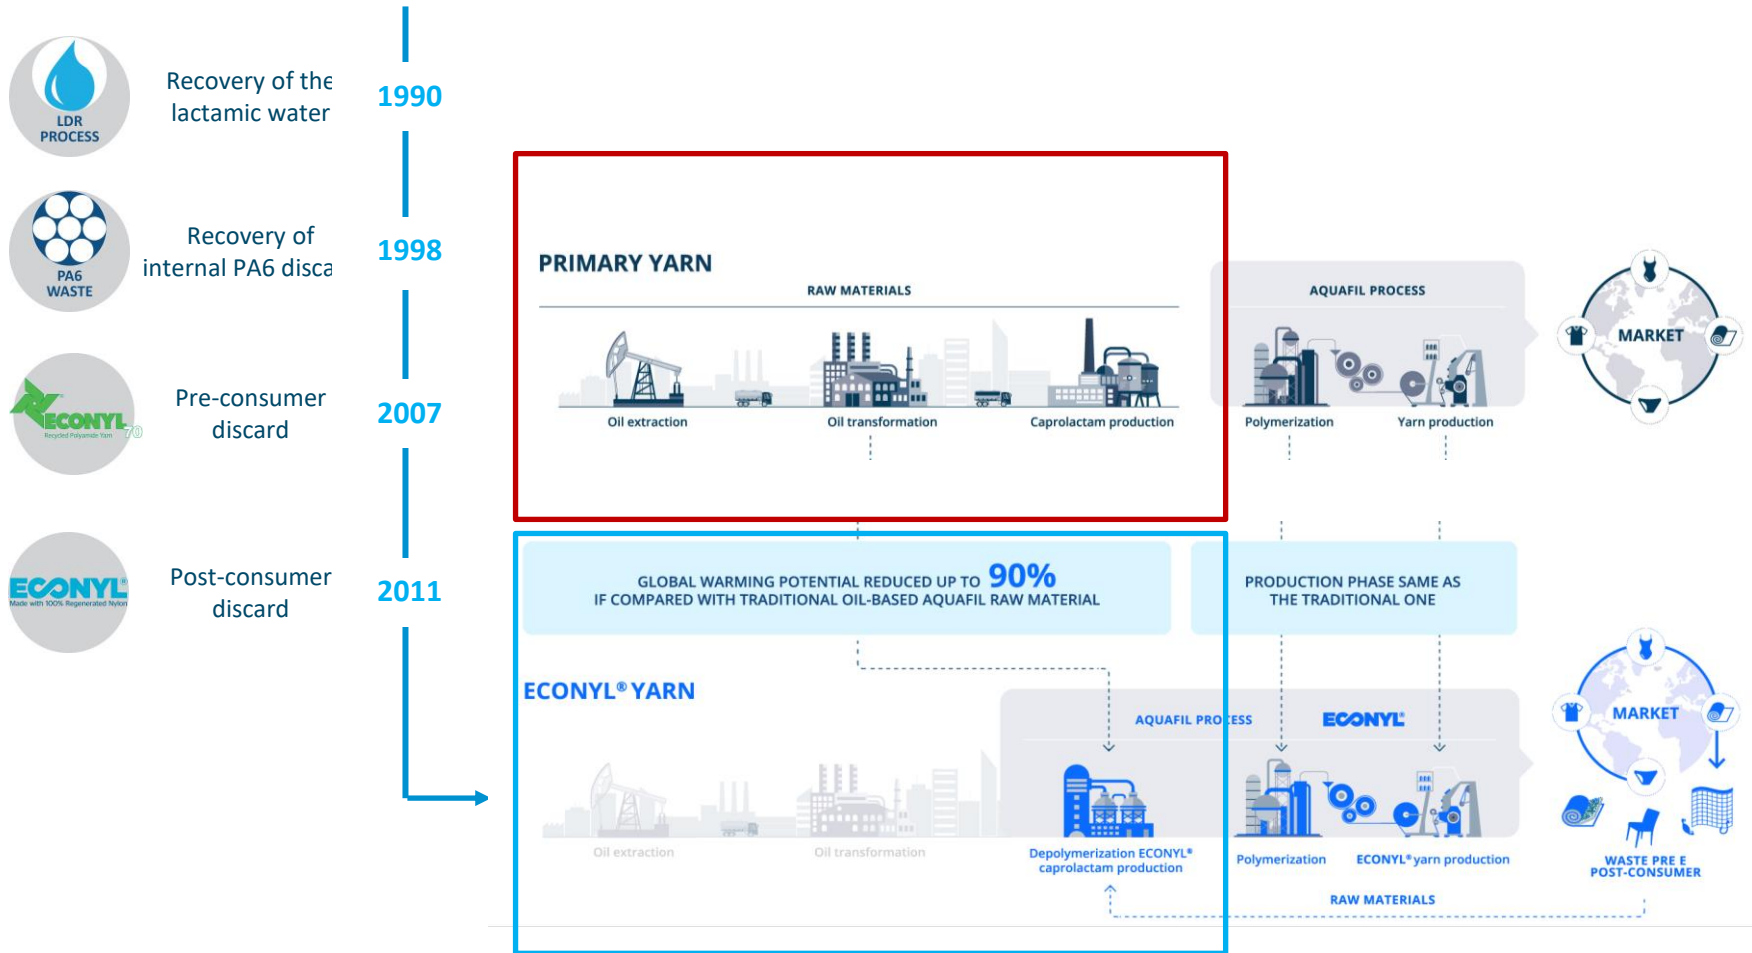

ECONYL® – A consistent growth – Drivers

- Fundamental drivers of these results were
 - R&D activities
 - Industrial capacity increase
 - Creation of nylon waste reverse logistic platform
 - Innovative marketing activities

ECONYL® – A consistent growth – R&D activities

- Usual R&D activities shown us new opportunities in Group production process

ECONYL® – A consistent growth – Industrial capacity increase

- Circularity is one of the milestones of Group CAPEX process
 - Support development and environmental KPI targets achievements
- The capability to increase ECONYL® capacity, especially in Ljubljana, allowed to consistently follow demand growth
- Actual industrial capacity – increased significantly through 2018-2019 - will allow Group to both follow demand recovery and sustain medium-term growth

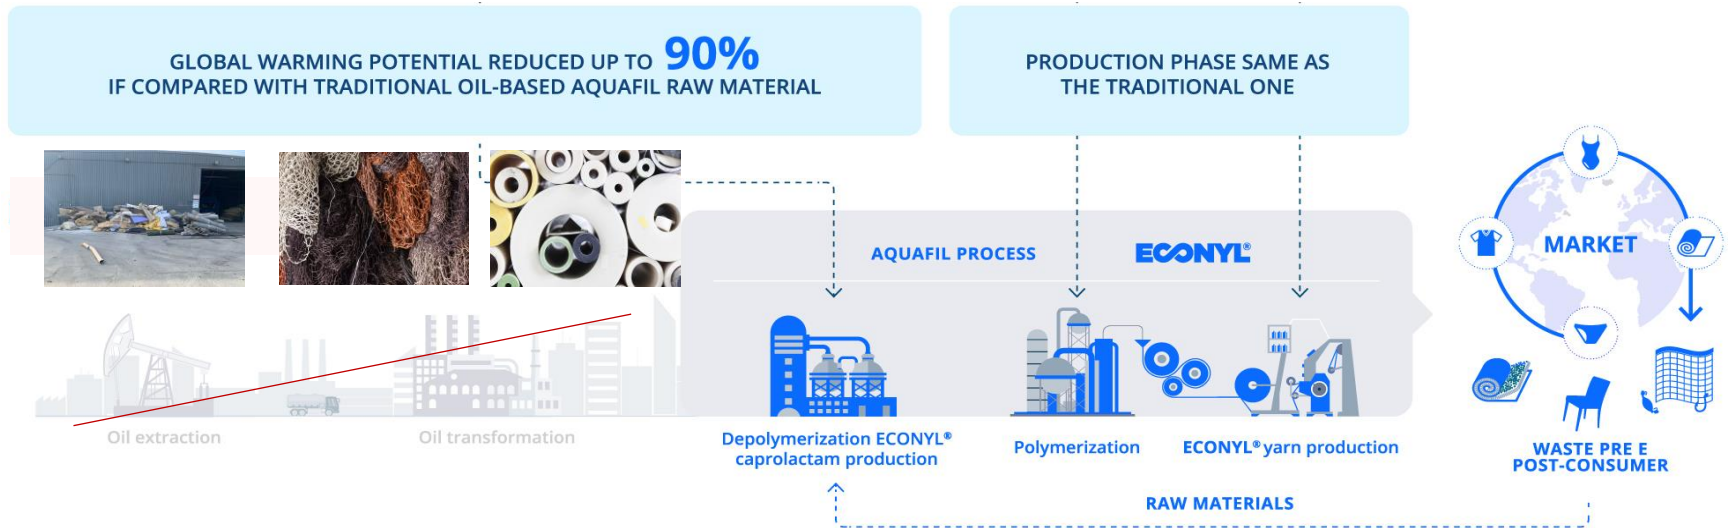

Data in € million

⁽¹⁾ Net CAPEX, IFRS16 impact excluded - % incidence on net sales

ECONYL® – A consistent growth – Nylon waste reverse logistic platform

- Group was able to built a nylon “reverse” supply chain to collect raw materials for ECONYL® to create a stable and competitive quantity of nylon waste to be supplied to the regeneration plant in Slovenia
 - Pre consumer waste
 - Carpets: e.g. December 2020 the acquisition of Planet Recycling, a company with 35 years of experience in recycling residential and commercial carpet waste
 - Fishing nets
 - Cast nylon

ECONYL® – A consistent growth – Innovating marketing activities

- Aquafil products are ingredients incorporated into final client products and therefore are not visible to end consumer
- Since its launch, ECONYL® ingredient proved to be the perfect fit for a different marketing strategy: a strong ingredient branding approach
- This thanks to three main conditions: “fits the category”, “point of parity” and “point of difference”

FITS THE CATEGORY

ECONYL® perfectly fits in the category of “Sustainable Products”

POP

ECONYL® has those points of parity needed for a smooth and quick adoption. The high-quality standards allow the supply chain to easily replace any traditionally oil-based nylon fiber, without any compromise with esthetic, colors and hand fill

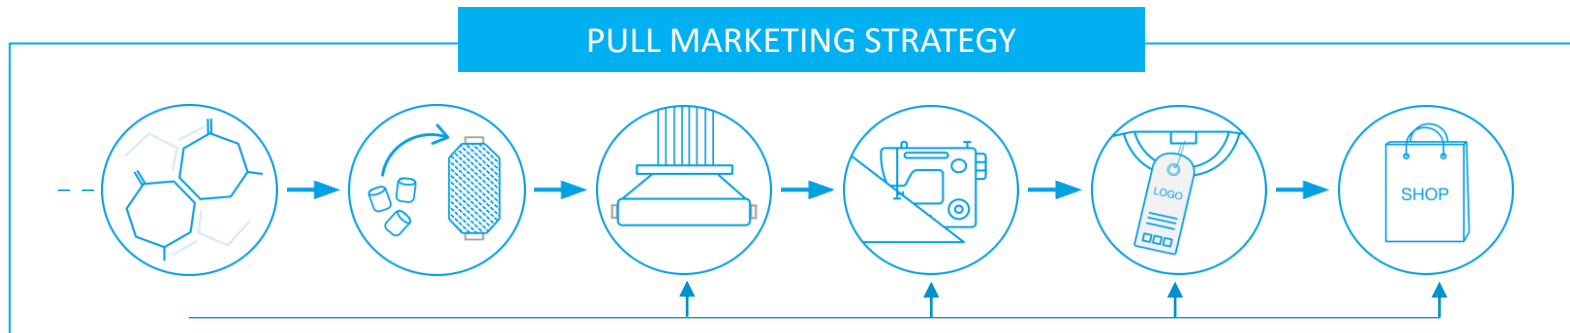

POD

ECONYL® has an edge over the competitors as it holds a unique story of a 100% regenerated nylon fiber from post and pre-consumer waste. The circular model provides a competitive advantage that no other product are able to give

ECONYL® – A consistent growth – Innovating marketing activities

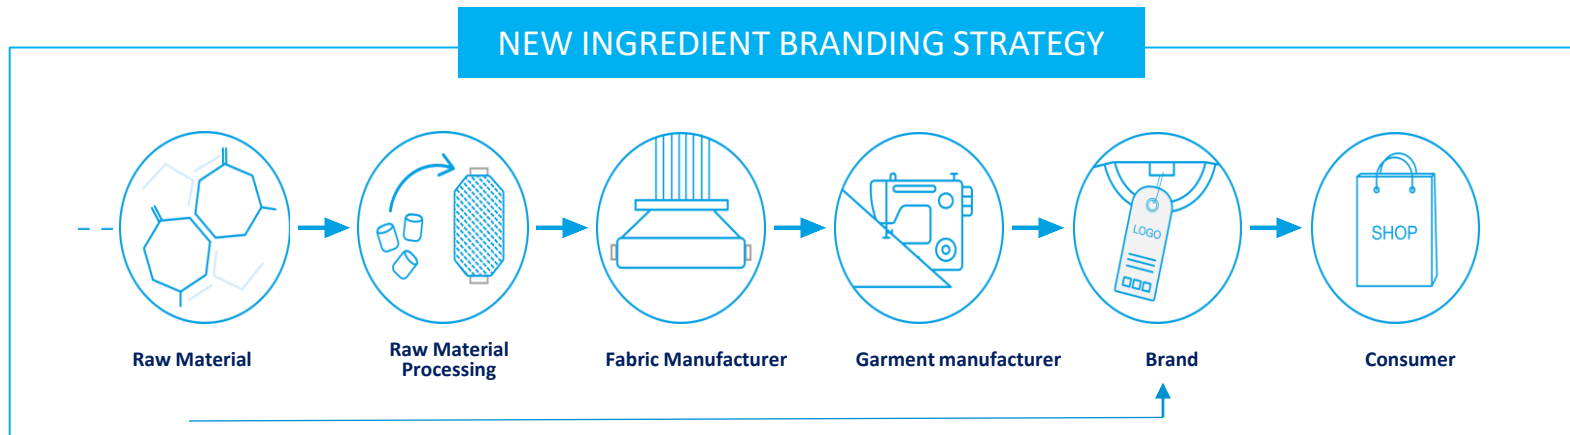

- “Traditional” marketing strategies
 - B2B strategy: building marketing towards chain next link through a narrow and single-sided customer-supplier relationship
 - Multilevel Ingredient strategy (“pull strategy”): product demand is created at different levels through investments and cooperation with all tiers of the supply chain

ECONYL® – A consistent growth – Innovating marketing activities

- ECONYL® branding strategies
 - Targeted only on the final brand, this approach surpasses limitations and dangers of a too narrow and single-sided customer-supplier relationship
 - Selling process is based on partnerships and direct communication with fashion and sportswear brands who are taking the purchasing decision. Cooperation with the entire value chain is thus focus around the ECONYL® ingredient
 - This approach is possible thanks to the ECONYL® POP and POD

2021 Outlook – Trading updating 1H 2021

VOLUMES QUARTERLY and SEMI-ANNUAL VARIATION

- EMEA:** volumes up by more than 10% compared to 2Q2019 and by almost 3% versus 1H2019 (up by almost 90% and by more than 30% compared to 2Q2020 and 1H2020 respectively): (a) BCF: consistent enhancement of “residential” and “automotive”, in 2Q “contract” recovery improved; (b) NTF: strong push from ECONYL® products; (c) Polymers: the growth driver of the region, having benefitted from an outstanding market demand-
- North America:** volumes down by 2% compared to 2Q2019 and in line with 1H2019 ⁽²⁾ (compared to 2Q2020 and 1H2020 up by almost 40% and by around 10% respectively): (a) BCF “automotive” recovery stronger than “contract” one (b) NTF: strong demand in all final application sectors, “home” in particular
- Asia Pacific:** volumes down by 3% compared to 2Q2019 and up almost by 10% compared to 1H2019 (up by 70% compared to 2Q2020 and by 50% up by 1H2020): BCF: good performance of “automotive” in China and “residential” in Oceania, even if the latter recorded a slow down in the final part of the period probably due optimization inventory policies of some customers

⁽¹⁾ Based on “First Grade Product” revenues ⁽²⁾ In BCF, especially in first part of 2019, Group benefitted from the withdrawal by a primary competitor on some types of product while NTF O’Mara acquisition was consolidated since June 2019 ⁽²⁾ Index 100

2021 Outlook – 2021 Group improving expectation enhanced

- The expectations of a positive development in the health crisis caused by the Covid-19 pandemic and the benefits expected from the extension of the vaccine campaign suggest that the expansionary phase of the world economy, already noticeable in recent months at national and European level, may continue during the second half of 2021, despite the persistence of uncertain and changing situations due to the spread of new variants of the virus and the difficulties of administering vaccinations in the world's less developed countries.
- Group expected revenues and clients order entries confirmed 1H2021 positive trends in the different region and for all tree product lines
- On the bases of available data and information, assuming an evolution of the overall scenario consistent with 1H2021, **Aquafil confirms improving expectation for 2021**
 - in details for the 2nd part of 2021 Group expects
 - A sales and EBITDA evolution in line with 1H2021, considering business usual trend in year 2nd Half⁽¹⁾
 - A further improvement of the PFN/EBITDA ratio driven by a progress of both EBITDA and NFP

SALES

Volume up by 5% and 3% compared to 2Q2019 and 1H2019 respectively ⁽¹⁾

Almost neutral impact from Price & sales mix in 2Q2021

EMEA best macro areas
Polymers best product lines

ECONYL® going back to normality

EBITDA

EBITDA in line with 1H2019 results

Margin from 12.1% to 14.3%

2Q2021 one of the best quarter since 2017

Volumes increase and 2019 saving measures and some of COVID-19 actions consolidation as drivers

Not full benefit of pass-through on “selling price” of raw material price increase

NET PROFIT

Strong increase driven by EBIT improvement

Net profit close to € 10.6m of 2019

NFP

16% improvement

Ongoing focus on NWC and CAPEX

Liquidity to € 174m due to gradually release of pandemic countermeasures

NFP/EBITDA LTM to 2.6x from 3.7x of December 2020

⁽¹⁾ Based on “First Grade Product” revenues

Revenues – Components ⁽¹⁾ – Group volumes above 2019

- **2Q2021: volumes up by more than 5% compared to 2Q2019**
 - Volume: up by more than 75% compared to 2Q2020
 - Price & sales mix: still slightly negative impact but having improved thanks to progressive selling price adjustment to raw material price variation
- **1H2021: volumes up by more than 3% compared to 1H2019**
 - Volume: up by more 30% compared to 1H2020
 - Price & sales mix: negative impact, mostly for 1Q2021 trend

2QUARTER and 1HALF SALES BREAKDOWN by COMPONENTS ⁽²⁾

⁽¹⁾ Based on “First Grade Product” revenues

⁽²⁾ Index 100

Revenues – Polymers almost double their weight

⁽¹⁾ O'Mara Incorporated consolidated since 31st May 2019

⁽²⁾ Asia Pacific includes "Rest of the World"

Revenues – ECONYL® – Going back to normality

- 2Q-1H2021: going back to normality after the pandemic impact on ECONYL® demand in 2020
 - between 1Q and 2Q2020 especially BCF “contract” clients-built warehouse stocks to face possible production block due to lockdown measures, having postponed demand drop in 2H2020
- **NTF again better than BCF**
 - BCF demand still influenced by “contract” slow recovery
 - NTF demand drove by agreements with fashion brand

⁽¹⁾ % on Group fibres revenues

P&L – Volume recovery and ongoing efficiency

	2QUARTER			1HALF		
	2020	2021	Δ%	2020	2021	Δ%
REVENUES	82.0	144.1	75.6%	222.7	274.7	23.3%
EBITDA	8.7	21.0	142.7%	26.9	39.3	46.4%
<i>% on net sales</i>	10.6%	14.6%		12.1%	14.3%	
EBIT	(5.3)	8.0	n.s.	(0.1)	14.1	n.s.
<i>% on net sales</i>	n.s.	5.5%		0.0%	5.1%	
EBT	(7.2)	6.3	n.s.	(1.6)	11.0	n.s.
<i>% on net sales</i>	n.s.	4.4%		(0.7)%	4.0%	
NET RESULT	(6.0)	5.4	n.s.	(1.9)	8.9	n.s.
<i>% on net sales</i>	n.s.	3.8%		(0.9)%	3.2%	

- Depreciation & amortization up by around € 1m also due previous year investments
- One off cost: € 0.5m versus € 2.7m for lower restructuring costs and ACR#1&2 improvements

Data in € million

NFP – NPF/EBITDA LTM at 2.6x

- NFP improved by 15.6% compared to December 2020
 - Results of action taken in 2019 and strengthened in the COVID action plan
 - NPF/EBITDA LTM at 2.6x
 - The gradual lifting of emergency measures suggested to make early payments of some medium-to-long-term bank loans: liquidity decreased therefore from € 209m at December 2020 to € 174m at June 2021

Data in € million

⁽¹⁾ Financial covenants are checked on half-yearly and annual bases, 1Q2021 data is given for informative purpose only

NFP – Strong focus on NWC and CAPEX

- CAPEX equal to € 13.9m, almost in line with 1H2020
 - In accordance Group CAPEX guidelines, capacity and technological improvements
- A consistent focus on NWC allowed cash generation despite impact of both turnover growth and raw material price increase

Data in € million

⁽¹⁾ Net CAPEX, IFRS16 impact excluded - % incidence on net sales

Disclaimer

This presentation and any material distributed in connection herewith (together, the “**Presentation**”) prepared by Aquafil S.p.A. (“**Aquafil**” or “**Company**”) do not constitute or form a part of, and should not be construed as, an offer for sale or subscription of or solicitation of any offer to purchase or subscribe for any securities, and neither this Presentation nor anything contained herein shall form the basis of, or be relied upon in connection with, or act as an inducement to enter into, any contract or commitment whatsoever.

The Presentation contains forward-looking statements regarding future events and the future results of Aquafil that are based on current expectations, estimates, forecasts, and projections about the industries in which Aquafil operates and the belief and assumptions of the management of Aquafil. In particular, among other statements, certain statements with regards to management objectives, trends in results of operations, margins, costs, return on equity, risk management are forward-looking in nature. Words such as ‘expects’, ‘anticipates’, ‘targets’, ‘goals’, ‘projects’, ‘intends’, ‘plans’, ‘believes’, ‘seeks’, ‘estimates’, variations of such words, and similar expressions are intended to identify such forward-looking statements. These forward-looking statements are only predictions and are subject to risks, uncertainties, and assumptions that are difficult to predict because they relate to events and depend on circumstances that will occur in the future. Therefore, Aquafil’s actual result may differ materially and adversely from those expressed or implied in any forward-looking statements. Factors that might cause or contribute to such differences include, but are not limited to, economic conditions globally, political, economic and regulatory developments in Italy and internationally. Any forward-looking statements made by or on behalf of Aquafil speak only as of the date they are made. Aquafil does not undertake to update forward-looking statements to reflect any changes in Aquafil’s expectations with regard thereto or any changes in events, conditions or circumstances on which any such statement is based.

No reliance may be placed for any purposes whatsoever on the information contained in the Presentation, or any other material discussed in the context of the presentation of such material, or on its completeness, accuracy or fairness. The information contained in the Presentation might not be independently verified and no representation or warranty, express or implied, is made or given or on behalf of the Company or any of its members, directors, officers or employees or any other person as to the accuracy, completeness or fairness of the information or opinions contained in this document or any other material discussed in the context of the presentation of the Presentation. None of the Company, nor any of its respective members, directors, officers or employees nor any other person accepts any liability whatsoever for any loss howsoever arising from any use of the Presentation or its contents or otherwise arising in connection therewith.

Mr. Sergio Calliari, the Manager in charge of preparing the corporate accounting documents, declares that, pursuant to Article 154-*bis*, paragraph 2, of the Legislative Decree No. 58 dated February 24, 1998, the accounting information contained in the Presentation correspond to document results, books and accounting records.

The reader should, however, consult any further disclosure Aquafil may make in documents it files with the Italian Securities and Exchange Commission and with the Italian Stock Exchange.

<p>«FIRST CHOICE REVENUES»</p>	<p>“First choice revenues” are revenues generated by the sale of fibers and polymers, gross of any adjustments (for example, discounts and allowances), but excluding revenues generated by “non-first choice products”, revenues generated by Aquafil Engineering GmbH and “other revenues”. On the basis of the 2019 figures, these revenues accounted for more than 95% of the Group’s consolidated revenues</p>
<p>EBITDA</p>	<p>This is an alternative performance indicator not defined under IFRS but used by company management to monitor and assess the operating performance as not impacted by the effects of differing criteria in determining taxable income, the amount and types of capital employed, in addition to the amortisation and depreciation policies. This indicator is defined by the Aquafil Group as the net result for the year adjusted by the following components: income taxes, investment income and charges, amortisation, depreciation and write-downs of tangible and intangible assets, provisions and write-downs, financial income and charges, non-recurring items.</p>
<p>NFP</p>	<p>This was calculated as per Consob Communication of July 28, 2006 and the ESMA/2013/319 Recommendations:</p> <ul style="list-style-type: none"> A. Cash B. Other liquid assets C. Projects updating – O’Mara acquisition

- Group acquired O’Mara in June 2019 to enter North American NTF market
 - Focus on interiors (furniture and mattresses application) and sportswear supply chain
- In the first full year inside the Group, Company achieved strong results despite market drop in 1H2020 which drove to at 3 production weeks stop

Data in \$ million

⁽¹⁾ 2008 data from Due Diligence report, 2009 data on FY basis

Projects updating – Bio based nylon project

- A pillar of Group “The ECO PLEDGE®” and one of the most relevant initiatives in which the Group takes part
 - 2 complementary and synergic paths: Genomatica and project EFFECTIVE
- Genomatica
 - Joint technological development to produce the first ever bio-based Nylon 6 from renewable raw materials
 - Collaboration with Genomatica – one of the leading bio-engineering company in the world – started in 2017
 - In 2019-2020, validation of the technology at “pilot” scale through the production of approx. one ton of bio-based intermediate, which was then converted into bio-based caprolactam. Currently under conversion into bio-based Nylon 6
 - 2021 step will be the construction and start-up of a demonstration plant

Projects updating – Bio based nylon project

- Project EFFECTIVE
 - Extending Aquafil-Genomatica initiative to the whole supply chain by validating bio-based polyamides and bio-based polyesters from renewable raw materials into large-consumer products
 - Polymers’ versatility allows application in a wide range of products and sectors (filaments for textile applications, films for packaging, etc.)
 - Started in 2018, supported by the Bio-Based Industry Joint Undertaking (through the EU Horizon 2020 Research Programme), and involving 12 organization from 7 European Countries.
 - Technologies have been already validated at “pilot” scale, and the upscaling of all manufacturing steps (from raw materials up to manufacturing of prototypes of carpets, fabrics and garments) is currently on-going

Projects updating – ACR#1 and ACR#2

2017-2019	2020	2021
<p>Plants and organisations defined and created to have an ECONYL® supply source in North America</p> <p>Technical difficulties arose, as usual during new technologies development process (e.g. metal separation processes)</p>	<p>Pandemic surge impacted demand but not improvement efforts whose benefits became more material in second part of the year</p> <p>In the meantime Group evaluated the most efficient and effective short term setting to enhance long term strategic approach (e.g. capacity utilisation increase by widening carpet type intake)</p>	<p>ACR#1 and #2 activities will be expanded, becoming operating units with a proper identity, business model and reference markets (e.g. post consumer pellets sales outside the Group and check of possible application in EP)</p> <p>Benefit from Planet Recycling acquisition</p>

- In 2021 Group will implement this new approach, leveraging on investments and costs already incurred in previous years
- Consistently with demand recovery
 - ACR#2 will start production, applying improvement activities tested in 2020 on ACR#1
 - ACR#1 will increase production, with a broad range of products (e.g. pellets, chips and fluff)
