HEADING IV

MANAGEMENT OF THE COMPANY

Article 14

Board of Directors

14.1 The Company is managed by a Board of Directors consisting of a number of at least three and no more than nine members, including the Chairperson. The shareholders' meeting, in accordance with the requirements regarding gender balance, determines the number of members, at the time of appointment, within the aforementioned limits, as well as the duration of their appointment, which cannot exceed three financial years. Directors may be re-elected. The Directors must possess the requisite professionalism and probity under the relevant prevailing laws, under penalty of ineligibility or forfeiture of appointment should these requisites be found to be lacking subsequent to their appointment. The composition of the Board of Directors must reflect an adequate level of diversity amongst other things in terms of competences, experience, age, gender and international profile.

To co-opt Directors to the Board, the Board of Directors must ascertain in advance the optimum qualitative and quantitative composition to identify and justify the theoretical profile (including the proven and continuing professionalism and independence) of the candidates.

A specific internal regulation governs the criteria for the self-appraisal of the entire Board of Directors, for

co-option and for verifying the limit to the total number of administrative positions is respected by all members of the Board. If, however, the limit for the total number of administrative positions held is stricter under enacted law and regulations, this must be respected. Adherence to the limit to the total number of administrative positions must be verified annually by the Board of Directors. Any Director who becomes aware that he/she has exceeded the limit for the total number of administrative positions held under the present Article must within 10 (ten) days of becoming aware inform the Company of the reason why the total has been exceeded and, within 90 (ninety) days of becoming aware that the limit has been exceeded must resign from one or more of the positions held. Within five days of resigning from one or more positions, the member of the Board of Directors must notify the Company of the position from which he/she has resigned.

14.2 The majority of the members of the Board of Directors must possess the necessary independence required for Statutory Auditors under enacted law and also under the Code of Corporate Governance of Borsa Italiana S.p.A. Independent Directors must possess, according to documentation proving their experience, the professionalism to ensure a high level of internal discussion in the Board of Directors and to make an effective contribution to the decision-making process of the Board. The Board of Directors will ascertain that the requirements for independence have been met: (i) when a new Director who qualifies as independent is first appointed; (ii) when any Director who qualifies as independent has his/her position renewed. The Board of Directors will ascertain annually that the requirements for independence of Directors that have already been appointed are still being met. In all cases, evaluation that the requirements of independence are met by each Director that is certified as independent must be carried out by the Board of Directors under the principle of substance over form. Should the requirements for independence, as defined above, be found to be lacking in one of the independent Directors he/she will forfeit his/her position except when the majority of the Board of Directors still meets the requirements for independence. The independent Director that fails to meet the requirements of independence during his/her mandate must immediately inform the Board of Directors. Furthermore, the requirement of independence will be considered not to have been met if a Director has held three consecutive mandates as a Director of the Company.

14.3 If, due to resignations or other causes, the majority of directors become unavailable, the other directors' appointments will lapse and the shareholders' meeting must be convened without delay to appoint the Board of Directors.

14.4 Appointment of members of the Board of Directors takes place based on lists presented by shareholders who, alone or with other shareholders, represent at least 2.5% (two point five percent) of the Company share capital or any other percentage specified by Consob in implementation of prevailing legislation. Each shareholder or shareholders belonging to a shareholder agreement under Article 122 of Italian Legislative Decree no. 58/1998 and subsequent amendments and additions may present, or participate in presenting, and vote for just one list. Support and votes cast in breach of this constraint will not be attributable to any list.

Each candidate may appear on just one list or else be considered ineligible. Each list contains a maximum of nine candidates listed with sequential numbers.

Lists with three or more candidates must include candidates of both genders in order to ensure that at least the number of candidates established by the *pro tempore* applicable legislative and regulatory provisions

belongs to the least represented gender.

The majority of candidates in each list must possess the requirements of independence described in the preceding paragraph 14.2.

The lists must be lodged at the Company's registered office by the twenty-fifth day prior to the date fixed for the first convocation of the shareholders' meeting. The lists must also be made available to the public in accordance with the provisions of law and with Consob rules at least twenty-one days prior to the date fixed for the shareholders' meeting. Ownership of the minimum number of shares required to present a list is determined by the number of shares registered in the name of the shareholder on the day on which the lists are presented to the Company. As proof of ownership of the necessary number of shares to present lists, shareholders must present within the time period required for the publication of the lists by the Company the necessary certification given in accordance with law by authorised intermediaries. Together with each list, within the deadlines indicated above, must be deposited (i) information related to the identities of the shareholders presenting the list and the shares held by such shareholders; (ii) statements in which individual candidates, of their own responsibility, accept their candidacy and testify to the absence of causes of ineligibility and incompatibility, and to the existence of the requisites for taking office laid down by current regulations, including an indication by said candidates of the prerequisites of independence; as described above and a list of administrative and control positions held in other companies, including those that are not listed. The statements must indicate that each candidate possesses the capacity for free expression and must also include a specific undertaking from each candidate that he/she will maintain his/her ability for independent judgement free of any external influence for the duration of the mandate, as well as a specific undertaking to dedicate an amount of time to the position consistent with a correct and diligent fulfilment of the role and not to assume other administration and control positions that violate the internal regulation of the Company regarding the limit to the total number of positions held under the present Article; (iii) the personal and professional curriculum vitae of each candidate, with an indication of the directorships and positions as statutory auditor held, currently and in the past, in other companies. Notices of shareholders' meetings may also specify the need to present additional documentation and must indicate the level of shareholder investment required for the presentation of such lists. Lists that fail to comply with the above shall not be recognised as having been presented.

Each entity with voting rights may vote for just one list. The votes obtained by each list will subsequently be divided by one, two, three, etc., according to the number of directors to be elected. The numbers thus obtained will be sequentially assigned to the candidates on each list in the order in that list and will then be arranged in just one ranking in descending order. The candidates obtaining the highest numbers will be considered to be elected.

In the case of a tie in numbers for the last director to be elected, preference will go to the list receiving the highest number of votes and, in the case of a tie in votes, to the director most senior in terms of age.

In any event, at least one director must be taken from the minority list that obtains the greatest number of votes and that is no way connected, directly or indirectly, with the shareholders that presented, took part in presenting, or voted for the list receiving the highest number of votes.

If the composition of the Board of Directors does not meet the regulatory requirements on gender balance

in the present Articles of Association, the last candidate of the gender with most appointees to be elected from the list that obtained the highest number of votes will be replaced by the first candidate of the least represented gender that failed to be elected. The replacements will be made progressively until the composition of the Board of Directors meets the gender balance requirements contained in the *pro tempore* applicable legislative and regulatory provisions. If this procedure fails to give the required result, following the presentation of candidates from the least represented gender, replacements will be made with the majority approval of the Shareholders' Meeting.

14.5 In the event of that the majority of the members of the Board of Directors appointed does not have the requisites of independence as described above, the non-independent candidate(s) elected last in the list presented by the majority shareholder shall be replaced, in order, by the first (and, if necessary, second) independent candidate(s) not elected from that same list, while always respecting the requirements on gender balance contained in the present Articles of Association and under prevailing law.

14.6 If just one list is presented or if no list is presented or if it is not an election of the entire Board of Directors, the Shareholders' Meeting approves resolutions pursuant to, and with the majorities envisaged by law and meeting the requirements on gender balance and independence under the present Articles of Association and any further requirements under prevailing law.

If during the course of the financial year one or more directors become unavailable for any reason, the Board of Directors will take action under Article 2386 of the Italian Civil Code to adhere to the rules governing the composition of the Board of Directors under prevailing law and the present Articles of Association.

14.7 Directors are subject to the restriction indicated in Article 2390 of the Italian Civil Code unless they have been exempted from this by the shareholders' meeting.

Article 15

At the time of appointment, the shareholders' meeting determines the annual remuneration payable to statutory auditors. Statutory auditors have the right to reimbursement of expenses incurred in the performance of their duties.

20.2 Statutory auditors are appointed on the basis of lists submitted by shareholders adopting the procedures indicated in the following paragraphs, which are in two sections: one for the appointment of standing statutory auditors and the other for the appointment of substitute statutory auditors. The lists contain a number of candidates not exceeding the number or members to be elected, listed in sequential order. The lists must include candidates of both genders. Each candidate may present him/herself in just one list on pain of ineligibility.

Shareholders who alone or together with other shareholders represent at least 2.5% (two point five percent) of the Company share capital, or other percentage specified by Consob in implementation of prevailing legislation, have the right to submit a list. Each shareholder, shareholders that are part of a shareholder agreement under article 122 of Italian Legislative Decree no. 58/1998 and subsequent amendments and additions, subsidiaries and joint ventures in accordance with Article 93 of said decree, including through trust companies or other intermediaries, may present, or take part in presenting, and vote for just one list. Support and votes cast in breach of this restriction will not be attributable to any list.

Unless another deadline is applicable under the law, the lists must be lodged at the Company's registered office by the twenty-fifth day prior to the date fixed for the first convocation of the shareholders' meeting. The lists must also be made available to the public in the ways provided by law and by Consob rules at least twenty-one days prior to the date fixed for the shareholders' meeting. Ownership of the minimum number of shares required to present a list is determined by the number of shares registered in the name of the shareholder on the day on which the lists are presented to the Company. As proof of ownership of the necessary number of shares to present lists, shareholders must present within the time period required for the publication of the lists by the Company the necessary certification given in accordance with law by authorised intermediaries. When deposited, within the deadlines indicated above, each list must be accompanied by (i) information relating to the identities of the shareholders presenting the list and the shares held by such shareholders, as well as the certificate testifying to the ownership of such shares; (ii) statements in which individual candidates accept their candidacy and testify, of their own responsibility, to the absence of causes of ineligibility and incompatibility, including the limit to the number of positions held as specified under point 20.1, to the existence of the requisites for taking office laid down by current regulations, plus (iii) the personal and professional curriculum vitae of each candidate, with an indication of the directorships and positions as statutory auditor held currently and in the past in other companies. In addition to the above, in the event a list is presented by shareholders that do not, including jointly, hold a controlling or majority interest in the Company, this list must be accompanied by a declaration by the shareholders presenting the list testifying to the absence of relations with one or more reference shareholders as defined by prevailing legislation. Notices of shareholders' meetings may also specify the need to present additional documentation and must indicate the level of shareholder investment required for the presentation of such lists. Lists that fail to comply with the above shall not be recognised as having been presented.

Those elected as standing auditors are the first two candidates on the list obtaining the highest number of votes and the first candidate on the list second in terms of the number of votes and which is not connected, directly or indirectly, as required by enacted laws and regulations, with the shareholders that presented or voted for the list obtaining the greatest number of votes. Those elected as substitute statutory auditors are the first candidate of the list obtaining the highest number of votes and the first candidate of the list second in terms of number of votes and which is not connected, directly or indirectly, as required by enacted laws and regulations, with the shareholders that presented, took part in presenting, or voted for the list obtaining the greatest number of votes.

In the case of a tie in number of votes between the first two lists, the shareholders will vote again, with voting only eligible for these two lists. The same rule applies in the event of a tie in the number of votes for the lists obtaining the second-highest number of votes and that are not connected, directly or indirectly, as required by enacted laws and regulations, with the shareholders that presented, took part in presenting, or voted for the list obtaining the greatest number of votes. In the event of another tie in number of votes,

the list presented by the shareholders representing the greatest equity interest or, failing that, presented by the greatest number of shareholders shall be selected. When the composition of the Board of Statutory Auditors, and its two sections of Standing Statutory Auditors and Substitute Statutory Auditors, does not meet the requirements for gender balance, taking account of the order in which the candidates are listed in each section, the last to be elected from the list that obtained the highest number of votes and who belongs to the gender that is most represented must be replaced by the first candidate on the same list and in the same section that was not elected but that belongs to the least represented gender in order to ensure the requirements are met.

The Chairperson of the Board of Statutory Auditors is the first candidate on the list obtaining the second highest number of votes and which is not connected, directly or indirectly, as required by enacted laws and regulations, with the shareholders that presented, took part in presenting, or voted for the list obtaining the greatest number of votes.

If a Statutory Auditor ceases to meet the requisites required by the regulations or under the present Article, he/she may no longer hold office.

In the case of substitution of a standing statutory auditor elected by the list receiving the greatest number of votes, the first substitute statutory auditor belonging to the same list shall take his/her place. In the case of substitution of a standing statutory auditor elected by the list obtaining the second highest number of votes and which is not connected, directly or indirectly, as required by enacted laws and regulations, with the shareholders that presented, took part in presenting, or voted for the list obtaining the greatest number of votes, the first substitute statutory auditor belonging to the same list shall take his/her place. Failing this, the unelected candidate in second place on the same list or, failing even that, the candidate in order of presentation from the minority list that obtained the second highest number of votes shall be selected.

In the event it should be necessary to appoint additional standing and/or substitute statutory auditors to the Board of Statutory Auditors following the replacement of a standing and/or substitute statutory auditor taken from the list obtaining the greatest number of votes, the shareholders shall determine by legal majority and without limitations concerning the list whether the application of the criteria described above are not appropriate for selecting such additions to the committee.

Should it be necessary to appoint statutory auditors selected from the list obtaining the second highest number of votes and which is not connected, directly or indirectly, as required by enacted laws and regulations, with the shareholders that presented, took part in presenting, or voted for the list obtaining the greatest number of votes, the shareholders shall do so by a legal majority to be reached without counting the votes of shareholders who, in accordance with communications provided pursuant to applicable law, hold directly, indirectly, or together with other shareholders through a significant shareholder agreement under Article 122 of Italian Legislative Decree 58/98 a majority of the exercisable voting rights, nor the votes of shareholders who control, are controlled by, or are subject to joint control of same.

The replacement procedures under the preceding paragraphs must in all cases meet the requirements regarding gender balance. If just one list is presented, or no list is presented, the shareholders' meeting decides according to the majorities defined by law ensuring that there is a balance between the genders of

the appointees.

Meetings of the Board of Statutory Auditors may be held in teleconference or videoconference, on condition that all participants can be identified with certainty and are able to follow proceedings and intervene in real time in discussion of the matters addressed, and also to peruse and transmit documents. In this case, the presence of several members of the Board or their auxiliaries in the same place is not required.
