19/05/2022 PRESS RELEASE

FINANCIAL INFORMATION AT 31 MARCH 20221

# Excellent profitability with growth in premiums and operating result. Extremely solid capital position. Net result affected by impairments on Russian investments

- → Gross written premiums increased to €22.3 billion (+6.1%), up in the P&C (+6.4%) and Life (+6%) segments. Life net inflows, entirely focused on the unit-linked and protection lines, grew to €3.9 billion (+19.3%)
- → Operating result rose to €1.6 billion (+1.1%), thanks to the positive performance of the Life, P&C and Holding and other businesses segments. The Combined Ratio was at 90.4% (+2.4 p.p.) and the New Business Margin was excellent at 4.94% (+0.53 p.p.)
- → Net result reached € 727 million (€802 million 1Q2021), affected by impairments on Russian investments amounting to € 136 million. Excluding this impact, the net result would have been €863 million
- $\rightarrow$  Solvency Ratio remained extremely solid at 237% (227% FY2021)

**Generali Group CFO Cristiano Borean** commented: "The results for the first quarter confirm the excellent performance of Generali, despite a context characterised by uncertainty due to the conflict in Ukraine. The business development in the most profitable segments demonstrates the Group's ability to consistently generate value, while maintaining a solid and industry leading capital position. In the first three months of the year, the Group also launched the new strategic plan 'Lifetime Partner 24: Driving Growth', focused on strong growth in earnings per share, increased cash generation and higher dividends.

The Group will continue to stand in solidarity and remain close to the people impacted by the conflict in Ukraine, helping them thanks to an emergency donation of  $\in$  3 million and a global fundraising campaign carried out by employees and through The Human Safety Net Foundation, to back UNICEF in its efforts to support those suffering due to this war."

<sup>&</sup>lt;sup>1</sup> Changes in premiums, Life net inflows and new business were presented on equivalent terms (at constant exchange rates and consolidation scope); as a result, the contribution of the Cattolica group was neutralised in the calculation for changes on equivalent terms. Changes in the operating result, general account investments and Life technical provisions excluded any assets under disposal or disposed of during the same period of comparison; as a result, they considered the contribution from the Cattolica group in percentage changes.

## EXECUTIVE SUMMARY

### **Key Figures**

	1Q 2022	1Q 2021	Change
Gross written premiums (€mln)	22,322	19,714	6.1%
Consolidated operating result (€mln)	1,626	1,608	1.1%
Life operating result	842	785	7.2%
P&C operating result	699	690	1.2%
Asset & Wealth Management operating result <sup>(1)</sup>	260	305	-14.5%
Holding and other businesses operating result	-10	-105	-90.5%
Consolidation adjustments	-165	-67	n.m.
New Business Margin (% PVNBP)	4.94%	4.44%	0.53 p.p.
Combined Ratio (%)	90.4%	88.0%	2.4 p.p.
Net result <sup>(2)</sup> (€mln)	727	802	-9.3%
Adjusted EPS <sup>(2)</sup> (€)	0.46	0.51	-9.6%
	1Q 2022	YE 2021	Change
Group's shareholders' equity (€ mln)	25,639	29,308	-12.5%
Total Assets Under Management (€mln)	680,460	709,617	-4.1%
Solvency Ratio (%)	237%	227%	10 p.p.

<sup>(1)</sup> As from 1Q2022, the Asset Management segment changed its name to become Asset & Wealth Management: in line with new managerial responsibilities, it also included the Banca Generali group that was previously represented in the Holding and other businesses segment. <sup>(2)</sup> 1Q2022 net result and EPS were equal to the 1Q2022 adjusted net result and adjusted EPS, defined as net result and EPS without the impact of gains and losses

<sup>(2)</sup> 1Q2022 net result and EPS were equal to the 1Q2022 adjusted net result and adjusted EPS, defined as net result and EPS without the impact of gains and losses related to acquisitions and disposals.

Milan - At a meeting chaired by Andrea Sironi, the Board of Directors of Assicurazioni Generali approved the Financial Information at 31 March 2022<sup>2</sup>.

The Group's **gross written premiums** increased by 6.1% to  $\leq 22,322$  million thanks to growth in both the Life and P&C segments. Life net inflows rose to  $\leq 3.9$  billion (+19.3%) and confirmed the positive trend in the unit-linked and protection lines of business. Life technical provisions were  $\leq 423.4$  billion, essentially stable (-0.3%) compared to FY2021 reflecting the performance of financial markets on the unit-linked component, despite the increase in net inflows.

The Group's **operating result** reached €1,626 million (+1.1%).

The Life segment showed an increase in the operating result by 7.2% and confirmed excellent technical profitability, with the New Business Margin at 4.94% (4.44% 1Q2021).

The operating result of the P&C segment was positive (+1.2%), also thanks to the contribution of the Cattolica group. The Combined Ratio stood at 90.4% (+2.4 p.p.), mainly reflecting a higher loss ratio.

The operating result of the Asset & Wealth Management segment decreased to  $\in$  260 million (-14.5%), solely due to the reduction in performance fees in the Banca Generali group compared to the significant result in the first three months of 2021, also following the performance of financial markets.

The operating result of the Holding and other businesses segment improved, mainly thanks to the results from real estate.

<sup>&</sup>lt;sup>2</sup> The Financial Information at 31 March 2022 is not an Interim Financial Report according to the IAS 34 principle.

The Group's **non-operating result** stood at  $\in$  -375 million ( $\in$  -275 million 1Q2021) due to impairments on Russian available for sale investments.

The **net result** was  $\in$  727 million. The decrease of 9.3% reflected the aforementioned impairments, including the impact of  $\in$  96 million related to Russian fixed income instruments<sup>3</sup> directly held by the Group and  $\in$  40 million for the stake in Ingosstrakh. Without this impact, the net result would have reached  $\in$  863 million.

The Group's **total Assets Under Management** amounted to €680.5 billion, down 4.1% compared to FY2021, mainly due to the performance of financial markets.

Regarding the Group's exposure in Russia, following impairments in the quarter, the stake in Ingosstrakh and fixed income instruments directly held by the Group amounted to  $\in$  176 million ( $\in$  384 million FY2021) and to  $\in$  40 million ( $\in$  188 million FY2021), respectively.

The Group also had negligible Russian and Ukrainian indirect investments and unit-linked investments, which amounted to  $\in$  43 million ( $\in$  111 million FY2021) and to  $\in$  34 million ( $\in$  117 million FY2021), respectively.

The **Group's shareholders' equity** was  $\in$  25,639 million (-12.5% compared to FY2021). The change was due to a  $\in$  -4,797 million decrease in the AFS reserves, deriving mainly from the performance of fixed income instruments.

The Group confirmed its excellent capital position, with the **Solvency Ratio** at 237% (227% FY2021). The 10 p.p. increase mainly reflected the positive market variances of the quarter (driven by the rise in interest rates and the narrowing of spreads on government bonds, only partially offset by the fall in the equity market, the increase in volatility and inflation) which, coupled with the sound contribution from normalised capital generation, more than offset the negative impacts deriving from M&A transactions, dividend provision for the period, and the anticipated regulatory changes of the quarter (linked to EIOPA changes on the risk-free reference rates definition).

<sup>&</sup>lt;sup>3</sup> Under IAS 39, each change in fair value in the coming quarter will be accounted in the Income Statement.

### LIFE SEGMENT

- Life net inflows increased to €3.9 billion (+19.3%)
- The New Business Margin was excellent at 4.94% (+0.53 p.p.); the New Business Value (NBV) rose to €639 million (+11.9%)
- The operating result was €842 million (+7.2%)

#### Life Key Figures

euro min	1Q 2022	1Q 2021	Change <sup>(1)</sup>
VOLUMES			
Gross written premiums	14,432	12,829	6.0%
Net inflows	3,889	3,020	19.3%
PVNBP	12,925	12,434	0.0%
PROFITABILITY			
New Business Value	639	552	11,9%
New Business Margin (% PVNBP)	4.94%	4.44%	0.53 p.p.
Life operating result	842	785	7.2%

<sup>(1)</sup> Changes in premiums, Life net inflows and new business were presented on equivalent terms (at constant exchange rates and consolidation scope).

**Life net inflows**, entirely focused on the unit-linked and protection lines, stood at  $\in$  3.9 billion<sup>4</sup> (+19.3%). The increase in the unit-linked line (+12.5%) was driven above all by the development in Italy, France and Germany. The protection line also made a positive contribution (+1.9%), thanks to the trends observed in almost all the main areas of operation. In line with the Group's strategy, net inflows for the savings and pension line were negative and amounted to  $\in$ -106 million ( $\notin$ -346 million 1Q2021); the partial recovery compared to the first three months of 2021 was mainly attributable to the trend observed in Asia.

**Gross written premiums** of the Life segment rose to  $\in$  14,432 million (+6.0%). The unit-linked line grew significantly (+13.3%), particularly in Italy, Germany and France. The protection line also grew (+3%), mainly in Italy, France, Germany and ACEE<sup>5</sup>, as well as the savings and pension line (+3.3%), above all in Asia.

**New business** (expressed in terms of **PVNBP** - present value of new business premiums) stood at  $\in$  12,925 million, stable compared to the first three months of 2021. The relevant increase in the unit-linked business (+17%), boosted by the significant contribution from hybrid products, offset a fall in the protection (-8.7%) and savings (-8.4%) lines, that recorded a particularly high production in the first quarter of 2021.

The **New Business Margin** on PVNBP rose to 4.94%, a significant increase compared to the first three months of 2021 (+0.53 p.p.) thanks to the rebalancing of the business mix towards the most profitable unit-linked components, the continuous improvement in the features of new products and the rise in interest rates.

Thanks to stable premiums and an improved margin, the New Business Value (**NBV**) stood at €639 million (+11.9% compared to the first three months of 2021).

The **operating result** of the Life segment rose by 7.2% to €842 million. The technical margin, net of insurance expenses, increased (+19.7%) thanks to the growth in unit-linked and protection products. The net investment result (-2.1%) decreased due to lower net realized gains.

<sup>&</sup>lt;sup>4</sup> The contribution from the Cattolica group was €191 million, almost all from bancassurance agreements.

<sup>&</sup>lt;sup>5</sup> As from 1Q2022, the ACEER area changed name in ACEE, following the Group's decision to close its Moscow representative office, resign from positions held on the Board of Directors of the Russian insurer Ingosstrakh and wind down Europ Assistance business in Russia.

### P&C SEGMENT

- Premiums rose to  $\in$ 7,889 million (+6.4%)
- The Combined Ratio stood at 90.4% (+2.4 p.p.)
- The operating result increased to €699 million (+1.2%)

### P&C Key Figures

euro min	1Q 2022	1Q 2021	Change <sup>(1)</sup>
VOLUMES			
Gross written premiums	7,889	6,885	6.4%
PROFITABILITY			
Combined Ratio (%)	90.4%	88.0%	2.4 p.p.
Nat Cat impact (%)	1.4%	0.8%	0.6 p.p.
P&C operating result	699	690	1.2%

<sup>(1)</sup> The change in premiums was presented on equivalent terms (at constant exchange rates and consolidation scope).

**Gross written premiums** of the P&C segment amounted to  $\in$  7,889 million<sup>6</sup> (+6.4%), boosted by the performance of both lines of business.

The motor line rose by 2.5%, particularly in France, ACEE and Argentina (also following adjustments for inflation), the performance of which more than offset the reduction in Italy and Germany.

The non-motor line strongly improved (+8.2%), observing widespread growth in almost all of the Group's main areas of operation.

The premiums of Europ Assistance, which in 2021 were still impacted by the pandemic, especially in the travel business, continued to rise (+66.5%) also thanks to new partnerships.

The **Combined Ratio** was 90.4% (+2.4 p.p.), reflecting the higher loss ratio (+2.2 p.p.). In particular, the contribution from prior years decreased, and was -2.7% (+1 p.p.). The natural catastrophe loss ratio increased by 0.6 p.p.; during the first three months of 2022, natural catastrophe claims were  $\in$  87 million ( $\in$  43 million 1Q2021), including claims for storms that hit Germany, ACEE and France. The non-catastrophe current year loss ratio rose (+0.6 p.p.), due to the trend in the motor line, which in the first three months of 2021 had still benefitted from the lockdown effects in some of the Group's areas of operation. Large man-made claims were stable.

The expense ratio increased to 28.9% (+0.2 p.p.), showing a rise in the administration costs component (+0.2 p.p.), which entirely reflected the line-by-line consolidation of the Cattolica group as from November 2021.

The **operating result** of the P&C segment stood at  $\in$  699 million (+1.2%). The fall in the technical result (-12.6%), which reflected the cited trend of the Combined Ratio, was partly offset by the improvement in the investment result (+39.1%), which also benefited from higher dividends from private equity and Banca Generali.

<sup>&</sup>lt;sup>6</sup> The contribution from the Cattolica group was €521 million.

### ASSET & WEALTH MANAGEMENT SEGMENT

- The operating result of Asset Management rose to €170 million (+24.9%) and the net result<sup>7</sup> to €117 million (+27.1%)
- The operating result of the Banca Generali group was € 90 million (-46.5%) due to the reduction in performance fees

#### Asset & Wealth Management Key Figures

euro min	1Q 2022	1Q 2021	Change
Operating result	260	305	-14.5%
Asset Management	170	136	24.9%
Banca Generali group <sup>(1)</sup>	90	168	-46.5%

<sup>(1)</sup> Operating contribution from the Banca Generali group as per Generali's view.

The **operating result** of the Asset & Wealth Management segment stood at €260 million (-14.5%).

In particular, the operating result of Asset Management grew to  $\in$ 170 million (+24.9%), boosted by the increase in operating revenues (+16.8%) thanks to both higher beginning of period Assets Under Management level and higher non-recurring performance fees, which rose to  $\in$ 38 million ( $\in$ 13 million 1Q2021).

The operating result of the Banca Generali group was  $\in$  90 million (-46.5%); the change reflected the performance of financial markets in the period that led to a reduction in performance fees from  $\in$  111 million in 1Q2021 to  $\in$  14 million. Excluding the impact of performance fees, the operating result would have strongly increased. Net inflows reached an excellent level of  $\in$  1.5 billion in 1Q2022.

#### Focus on Asset Management

euro min	1Q 2022	1Q 2021	Change
Operating revenues	275	235	16.8%
Operating expenses	-105	-99	5.7%
Net result <sup>(7)</sup>	117	92	27.1%
euro bin	1Q 2022	YE 2021	Change
Assets Under Management	552	575	-4.1%
of which third-party Assets Under Management	109	113	-3.5%

The net result<sup>7</sup> of Asset Management segment stood at €117 million (+27.1%).

The value of **Assets Under Management** of Asset Management companies was €552 billion (-4.1% FY2021). **Third-party Assets Under Management** of Asset Management companies stood at €108.9 billion compared to €112.9 billion at year-end 2021.

The decrease reflected the negative performance of financial markets during the first quarter of 2022, following the volatility caused by the war in Ukraine.

Net inflows from third-party clients amounted to €1,097 million, despite the difficult context resulting from the ongoing war and the volatility of financial markets.

<sup>&</sup>lt;sup>7</sup> After minorities.

### HOLDING AND OTHER BUSINESSES SEGMENT

- The operating result increased to €-10 million
- Positive contribution from real estate

#### Holding and Other Businesses segment Key Figures

euro min	1Q 2022	1Q 2021	Change
Holding and Other Businesses segment operating result	-10	-105	-90.5%
Other businesses <sup>(1)</sup>	118	28	n.m.
Holding operating expenses	-128	-133	-3.8%

<sup>(1)</sup> Including other financial businesses, pure financial holdings, international service activities and any other non-core businesses.

The **operating result** of the Holding and other businesses segment reached  $\in$  -10 million ( $\in$  -105 million 1Q2021 excluding the contribution from the Banca Generali group, that is currently represented in the Asset & Wealth Management segment).

Other businesses also provided a positive contribution. In particular, the result from real estate, which was impacted also by the ongoing pandemic restrictions in 2021, improved.

Holding operating expenses decreased (-3.8%), reflecting the reduction in expenses especially in the International area.

### OUTLOOK

The global insurance sector may be affected by uncertainty due to an economic slowdown, an increase in inflation and the risks of escalation following the Russian invasion of Ukraine.

In this context, the Group confirms and continues with its strategy to rebalance the Life portfolio to further increase its profitability, with more efficient capital allocation, also as interest rates continue to rise. Simplification and innovation will continue to be key, with the introduction of a range of modular product solutions, designed for the specific requirements and new needs of customers, and marketed through the most suitable, efficient and modern distribution channels. In the P&C segment, the Group's objective for the mature insurance markets in which it operates is to maximise profitable growth and, in parallel, gain ground in high growth potential markets by expanding our presence and offer. In the Asset & Wealth Management segment, on the one hand, Asset Management activities identified for the new plan will continue, with the aim of extending the product catalogue, in particular for real assets & private assets, and enhancing distribution competences; on the other hand, the Banca Generali group will be focused on the targets for size, profitability and shareholders' remuneration defined in its strategic plan announced in February.

The Group confirms its commitment to pursue sustainable growth, enhance its earnings profile and lead innovation in order to achieve a compound annual growth rate in earnings per share<sup>8</sup> between 6% and 8% in the period 2021-2024, to generate net holding cash flow<sup>9</sup> exceeding  $\in$  8.5 billion in the period 2022-2024 and to distribute a cumulative dividend<sup>10</sup> to shareholders for an amount between  $\in$  5.2 billion and  $\in$  5.6 billion in the period 2022-2024, with a ratchet policy on dividend per share.

<sup>&</sup>lt;sup>8</sup> 3 year CAGR; adjusted for impact of gains and losses related to acquisitions and disposals. Target based on current IFRS accounting standards.

<sup>&</sup>lt;sup>9</sup>Net holding cash flow and dividend expressed in cash view.

<sup>&</sup>lt;sup>10</sup> Subject to regulatory recommendations.

### SIGNIFICANT EVENTS AFTER 31 MARCH 2022

The 2022 Shareholders' Meeting approved the 2021 financial statements and appointed the new Board of Directors, that is composed of: Andrea Sironi (subsequently appointed as independent Chairman), Clemente Rebecchini, Philippe Donnet (subsequently appointed as Managing Director and Group CEO), Diva Moriani, Luisa Torchia, Alessia Falsarone, Lorenzo Pellicioli, Clara Furse, Umberto Malesci, Antonella Mei-Pochtler, Francesco Gaetano Caltagirone, Marina Brogi and Flavio Cattaneo.

Generali completed the acquisition from Future Enterprises Limited of 25% of the shares of Future Generali India Insurance (FGII) and will now hold a stake of around 74% in FGII. Generali received the approval from the relevant regulatory and competition authorities.

Moody's upgraded Generali's Insurer Financial Strength (IFS) rating to A3 from Baa1 and the Group's debt ratings by one notch. The outlook was stable.

On 12 May, the Board of Directors of Assicurazioni Generali resolved to establish the Board Committees and appoint their members, also ascertaining their compliance with the requirements of good standing, professionalism and independence set by the Italian laws for insurance companies. The Directors Marina Brogi, Francesco Gaetano Caltagirone and Flavio Cattaneo renounced, at that time, to be part of the Board Committees, requesting the establishment of a Board Committee for the prior assessment of strategic transactions. The Board of Directors instructed the Appointments and Governance Committee to prepare a proposal in light of the request, considering the benchmark from market best practice.

Please refer to the press releases available to download on the <u>website</u> for further events.

The **glossary** and the description of **alternative performance indicators** are available in the <u>Annual</u> <u>Integrated Report and Consolidated Financial Statements 2021</u>.

### Q&A CONFERENCE CALL

The **Group CFO**, **Cristiano Borean**, will participate to the Q&A session conference call for the Financial Information at 31 March 2022, which will take place on 19 May 2022 at 12:00 CEST.

\*\*\*

To follow the conference call, in a listen only mode, please dial +39 02 802 09 27.

The Manager in charge of preparing the company's financial reports, Cristiano Borean, declares, pursuant to paragraph 2, article 154 bis of the Consolidated Law on Finance, that the accounting information in this press release corresponds to the document results, books and accounting entries.

#### THE GENERALI GROUP

Generali is one of the largest global insurance and asset management providers. Established in 1831, it is present in 50 countries in the world, with a total premium income of  $\in$  75.8 billion in 2021. With more than 75,000 employees serving 67 million customers, the Group has a leading position in Europe and a growing presence in Asia and Latin America. At the heart of Generali's strategy is its Lifetime Partner commitment to customers, achieved through innovative and personalised solutions, best-in-class customer experience and its digitalised global distribution capabilities. The Group has fully embedded sustainability into all strategic choices, with the aim to create value for all stakeholders while building a fairer and more resilient society.
