PRESS RELEASE

RELATECH: CONSOLIDATED ORDER BACKLOG AS AT APRIL 30, 2022 GROWING BY 87%, EQUAL TO EURO 20.1 MILLION

- **Publication of the 2021 Sustainability Manifesto of the Relatech Group**

Milan, 31st May 2022

Relatech S.p.A., *Digital Enabler Solution Know-how (DESK) Company* and innovative SME listed on the Euronext Growth Milan market (Ticker: RLT), announces that, today, the Company's Board of Directors has examined the order backlog as at 30 April 2022, data not subject to auditing.

Group orders at a consolidated level amounted to Euro **20.1** million, an increase of approximately **87%** compared to Euro **10.7** million at 30 April 2021.

The share of orders deriving from foreign customers stands at **48%** of the Group's backlog and is approximately Euro **9.6** million. Orders from new customers amounted to approximately Euro **2.6** million, accounting for **13%** of the backlog.

Pasquale Lambardi, President and CEO of Relatech, declared: "*We are satisfied with the results presented today, achieved through the synergistic teamwork of an increasingly cohesive Group of companies and with the common goal of positioning itself as a digital player of reference nationwide. Despite the geopolitical turmoil and a complex market situation, the Group was able to expand the order book both through the considerable support of the newly acquired companies and through consistent internal growth. Interesting is the share of orders from international customers equal to approximately 48%, a significant figure for the Group which aims to extend its capillarity also abroad in the medium to long term and to increase the recurrence of revenues.*"

Today, the Company has also published the first 2021 ESG Manifesto of the Relatech Group, which defines and identifies the fundamental pillars on which the Group focuses most in terms of attention to the issues of the *Environment, Sustainability* and *Governance* of today and in the near future. The Manifesto represents the common vision of the sustainability principles that inspire the Relatech Group, which are the basis of the sustainability path that the Group started last year with the first publication of the 2020 ESG Report. The Document contributes, also to identify the main responsibilities that the Company assumes in this area and offers, in

summary, an alignment of the Group with the Sustainable Development Goals (or Sustainable Development Goals - SDGs) of the United Nations.

Pasquale Lambardi, Relatech's President and CEO of Realetch, adds: "*The Sustainability Manifesto published today is the anticipation and testimony of the significant commitment that the Group makes in ESG terms and which it intends to support with the publication of the second Sustainability Report. The 2021 ESG Report, drawn up on a voluntary basis and in compliance with the GRI Standards: Core option, establishes the interest that the Group has in carrying out a non-financial communication that aims to sensitize its internal and external ecosystem towards ESG issues and the Group's business increasingly towards sustainable and cutting-edge systems, in the belief that it can play a crucial role in the country's digital transformation process and generate value for stakeholders.*"

The Sustainability Manifesto is available on the company's website in the dedicated section (www.relatech.com/sustainability/).
