PRESS RELEASE

SUSTAINALYTICS UPGRADES DOVALUE RATING TO LOW RISK

Rome, July 11th, 2022 – doValue S.p.A. (“doValue”, the “Company” or the “Group”) is pleased to inform that Sustainalytics (a company belonging to the Morningstar Group) has upgraded the Group’s ESG Risk Rating from “Medium Risk” to “Low Risk”, in line with the continuous improvement trajectory followed by the Company since the first rating assigned by Sustainalytics in October 2020.

Less than a year after the approval of its first Sustainability Plan, doValue further advances in its path of integrating its sustainability strategies by strengthening its ESG Governance, the Diversity & Inclusion, Privacy and Cybersecurity programs as well as its attention to people and the environment.

In fact, the upgrade received from Sustainalytics confirms the strong and persistent commitment of doValue in adopting high quality standards and in acting responsibly to promote the creation of sustainable value in the medium-long term in the interest of all stakeholders.

The operational excellence and the concrete commitment to sustainability are also demonstrated by the excellent ratings assigned to the Company by MSCI ESG Ratings (AA rating) and Vigeo Eiris (“limited risk” rating) as well as by the Servicer Ratings published by Fitch Ratings and Standard and Poor’s where doValue has reached and maintained exceptional results over time.

Sustainability is one of the five pillars of the Group Business Plan 2022-2024 approved and presented to the financial community in January 2022, an area on which the Group will continue to focus according to the best international standards.
