PRESS RELEASE

GIGLIO.COM TO ENTER THE CRYPTOCURRENCY AND METAVERSE WORLD WITH THE LAUNCH OF ITS GIGLIO TOKEN

Milan, July 26, 2022 - GIGLIO.COM presents Giglio Token, the innovative tool that explores the virtual world and speaks to a new generation of clients

The GIGLIO utility token - a cryptographic asset based on blockchain technology - represents the ultimate innovative tool created by the Company in order to address the new generation of clients: Gen Z. Interests and interactions shift creating new horizons, and the digital world changes, becoming not only a place of socialization but a place of experimentation, learning, and consumption of virtual goods. The Giglio Token enters the metaverse, integrating itself both on a distributed blockchain network and directly on the GIGLIO.COM platform, where it will be issued and used by clients to access exclusive benefits.

As illustrated in the Whitepaper - available on the company's website - the only requirement to receive Giglio Tokens - which will be released during the next promotions - will be having a GIGLIO.COM account, which will include within its ecosystem a wallet compatible with Liquid - the network developed by Blockstream as a Bitcoin sidechain - that guarantees a maximum level of security and reliability for a business network, ensuring minimum transaction costs and quick confirmation times.

The token will allow clients to enjoy a number of benefits in both the virtual and real world, through private promotions and dedicated sales, or exclusive access to digital galleries and augmented reality sections.

GIGLIO.COM takes a step toward a territory largely unexplored by most of the other players in the fashion industry, positioning itself, once again, in a leadership position within digital innovation and confirming its characteristic pioneering spirit.

"Entering the metaverse through the creation of our own cryptocurrency is only the latest innovation of a company with a deeply technological soul. We continue to invest in the future, looking at the new generations and seizing every opportunity to improve our
