This communication does not constitute an offer or an invitation to subscribe for or purchase any securities.

Forward-looking statements contained in this presentation regarding future events and future results are based on current expectations, estimates, forecasts and projections about the industries in which Saipem S.p.A. (the “Company”) operates, as well as the beliefs and assumptions of the Company’s management.

These forward-looking statements are only predictions and are subject to known and unknown risks, uncertainties, assumptions and other factors beyond the Company’ control that are difficult to predict because they relate to events and depend on circumstances that will occur in the future. These include, but are not limited to: forex and interest rate fluctuations, commodity price volatility, credit and liquidity risks, HSE risks, the levels of capital expenditure in the oil and gas industry and other sectors, political instability in areas where the Group operates, actions by competitors, success of commercial transactions, risks associated with the execution of projects (including ongoing investment projects), the Coronavirus outbreak (including its impact across our business, worldwide operations and supply chain); in addition to changes in stakeholders’ expectations and other changes affecting business conditions.

Therefore, the Company’s actual results may differ materially and adversely from those expressed or implied in any forward-looking statements. They are neither statements of historical fact nor guarantees of future performance. The Company therefore caution against relying on any of these forward-looking statements. Factors that might cause or contribute to such differences include, but are not limited to, economic conditions globally, the impact of competition, political and economic developments in the countries in which the Company operates, and regulatory developments in Italy and internationally. Any forward-looking statements made by or on behalf of the Company speak only as of the date they are made. The Company undertakes no obligation to update any forward-looking statements to reflect any changes in the Company’s expectations with regard thereto or any changes in events, conditions or circumstances on which any such statement is based. Accordingly, readers should not place undue reliance on forward-looking statements due to the inherent uncertainty therein.

The Financial Reports contain analyses of some of the aforementioned risks.

Forward-looking statements neither represent nor can be considered as estimates for legal, accounting, fiscal or investment purposes. Forward-looking statements are not intended to provide assurances and/or solicit investment.

The Company, its advisors and its representatives decline all liability (for negligence or any other cause) for any loss occasioned by the use of this presentation or its contents.

The Manager responsible for preparing the Company’s financial reports declares, in accordance with art. 154- bis, para. 2, of the “Consolidated Financial Act” (Legislative Decree No. 58/1998), that the accounting information contained in this document corresponds to documentary records, ledgers and accounting entries.

(M€)

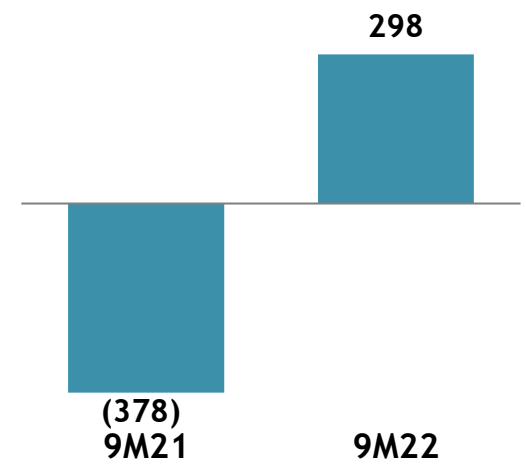

E&C Offshore

Revenues

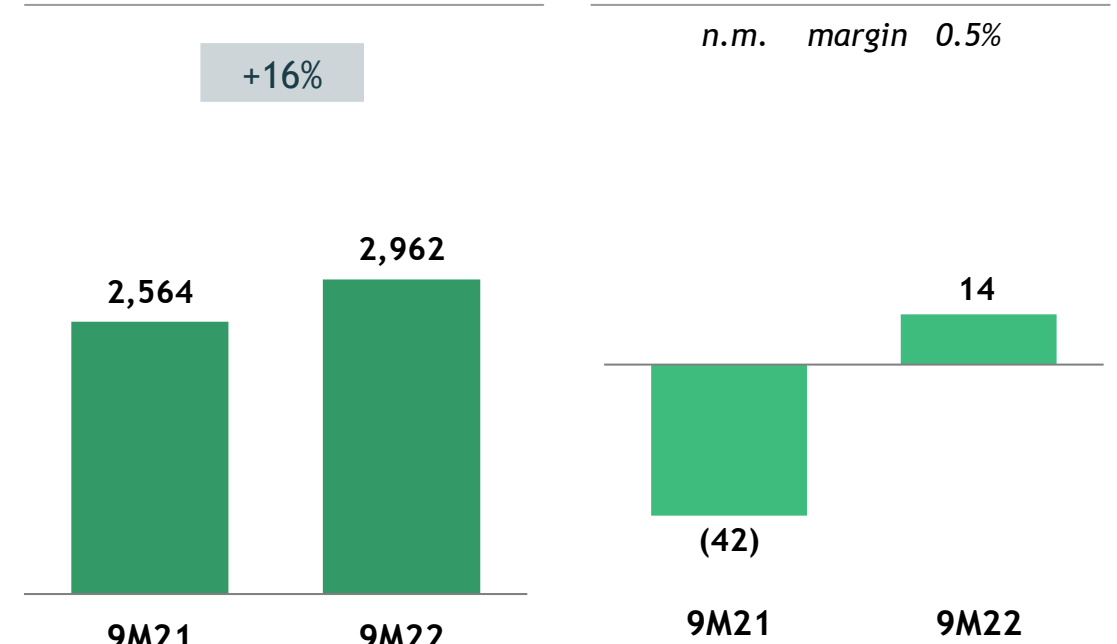

Adjusted EBITDA

n.m. margin 8.1%

E&C Onshore

Revenues

Adjusted EBITDA

n.m. margin 0.5%

- Revenue increased by 85% YoY; 3Q strong acceleration with substantially no vessel idleness
- Higher volumes across all regions, driven by Middle East
- Oil & gas project progress more than offset offshore wind, driving adjusted EBITDA up
- Results in 9M 2021 impacted by execution issues in specific wind farm project and fabrication bottlenecks in Far East also due to pandemic

- Revenue increase YoY driven by project progress in Asia Pacific, Americas, Middle East and Sub-Saharan (Nigeria); Mozambique decreased due to suspension from April 2021
- Adjusted EBITDA driven by higher progress in Middle East, higher profitability in APAC and positive outcome from negotiations
- Backlog review impact weighed on adjusted EBITDA margin
- Mozambique project still suspended with residual backlog at 3.5 B€ 9

9M 2022 results - Drilling (M€)

Drilling Offshore

- Revenue boosted by zero idleness and the start of operations of new drillship Santorini
- Adjusted EBITDA reflects revenue increase and higher fleet utilization
- Performance improvement driven by business recovery and increasing rates

Discontinued operations¹

Drilling Onshore

- Revenue increase due to higher activity mainly in Middle East and partly in Latin America
- Adjusted EBITDA and margin reflect revenue trend
- Restart of further rigs in Middle East expected to further support margin

1. Drilling Onshore has been classified as *discontinued operations* following the sale agreement with KCA Deutag (announced on 1 June 2022). Closing confirmed by 31 October 2022 for Middle East and by 31 March 2023 for Americas
