**Interim Report on Operations as at 30 September
2022**

Foreword

Statement of compliance with International Accounting Standards

This Interim Report on Operations as at 30 September 2022 is prepared on a voluntary basis in order to ensure continuity with the previous disclosures provided during the current year, also by virtue of the recent listing transaction finalized in June 2022, as the obligation to provide periodic financial disclosure in addition to the annual and half-yearly disclosure no longer applies, due to the wording of art. 154-ter, paragraph 5, of Italian Legislative Decree 58/1998 ("Consolidated Law on Finance" or "TUF") introduced by Legislative Decree 25/2016 implementing the Transparency Directive 2013/50/EU.

This Interim Report on Operations of Generalfinance S.p.A. as at 30 September 2022, with regard to recording and evaluation criteria, was prepared in accordance with the international accounting standards (IAS/IFRS) issued by the International Accounting Standards Board (IASB), approved by the European Commission pursuant to EU Regulation no. 1606 of 19 July 2002, taking into account the relevant interpretations of the International Financial Reporting Interpretations Committee (IFRC), as expressed in the section "Preparation criteria and accounting standards" of the Notes to the Financial Statements as at 31 December 2021.

The Interim Report on Operations as at 30 September 2022 consists of the Statement of Financial Position, the Income Statement, the Statement of Comprehensive Income, the Statement of Changes in Equity, the Statement of Cash Flows and is also accompanied by a Report on Operations, on the economic results achieved and on the equity and financial position of Generalfinance.

In terms of financial reporting, being prepared pursuant to the aforementioned art. 154-ter, paragraph 5, of the Consolidated Law on Finance as well as for the purposes of determining regulatory capital (own funds), this Report does not include some explanatory notes that would be required to represent the equity and financial position and the economic result for the period in compliance IAS 34 Interim Financial Reporting.

The Interim Report on Operations as at 30 September 2022 do not disclose all the information required in the annual financial statements. For this reason, it is necessary to read them together with the financial statements as at 31 December 2021.

This Report is accompanied by the certification of the Financial Reporting Officer, pursuant to art. 154-bis of the Consolidated Law on Finance, and the financial statements are subject to a limited audit by Deloitte & Touche S.p.A. in order to include the interim result in own funds.

Events after the reference date of the Interim Report on Operations

No events or circumstances have occurred since the end of the first nine months of the financial year 2022 that would appreciably alter what has been presented in this Interim Report on Operations.

Pursuant to IAS 10, the date on which this Report was authorised for publication by the Company's Directors is 4 November 2022.

The factoring market in 2022⁽¹⁾

In the second quarter of 2022 the factoring market recorded a turnover of approximately EUR 140 billion, up 16.59% compared to the same period of the previous year, improving the growth trend compared to the first quarter.

The turnover from Supply chain finance transactions amounted to EUR 13.29 billion, up 17.05% compared to the previous year.

The sector operators expect a positive trend for 2022 for all the main factoring indicators; in particular, total turnover is expected to grow, on average, by +11.65%.

1 The chapter mentions and/or reports extensive extracts from Assifact, Assifact Statistical Circular 47-22 "Factoring in figures - Summary of June 2022 data" and Circular 55-22 "Factoring in figures - Summary of August 2022 data"

In the second quarter of the year, there was a net change in advances of close to EUR +7 billion, which brings the advances disbursed to a total of more than EUR 52 billion and more than 15% compared to the same period of 2021.

Purchases of trade receivables from the public administration amounted to over EUR 9.1 billion in June 2022. Outstanding loans amounted to EUR 8.5 billion, of which EUR 3.5 billion were past due.

In the second quarter of 2022, turnover was up by 16.59% compared to the same period of the previous year.

Despite the historical time of high uncertainty due to the strong geopolitical tensions underway, the sector experienced further growth in the second quarter. At the end of the third quarter of 2022, Associates expected turnover growth to continue, albeit at a more moderate rate equal to +11.23% compared to the same period of 2021.

For the year 2022 as a whole, operators expect, on average, positive growth (+11.65%).

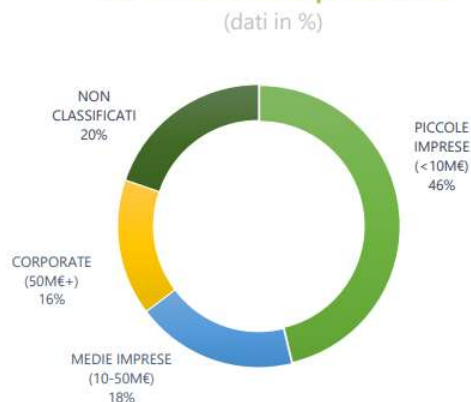

Over 31,000 companies use factoring, 64% of which are SMEs.

It is used predominantly in the manufacturing sector.

Advances and fees paid, amounting to EUR 52,10 billion, showed a net increase compared to the same quarter of the previous year.

Non-performing loans at the end of the second quarter of 2022 (3.62%) were down compared to the first quarter.

The policies for hedging non-performing loans are, as usual, very prudent with respect to probable bad and non-performing loans.

Operating performance and result

Shareholding structure

The share capital amounts to EUR 4,202,329 and is divided into no. 12,635,066 ordinary shares with unexpressed nominal value, pursuant to art. 2346 of the Italian Civil Code and art. 5 of the current Articles of Association. Following the listing of the Company's shares on Euronext Milan, organized and managed by Borsa Italiana S.p.A., Euronext STAR Milan segment, the share capital - as at 30 September 2022 - is broken down as follows:

- **GGH - Gruppo General Holding S.r.l. (GGH)**, which holds approximately 41.37% of the share capital (52.627% of the voting rights taking into account the increased vote);
- **Credit Agricole Italia (CAI)**, which holds approximately 16.29% of the share capital (approximately 20.441% of the voting rights taking into account the increased vote);

- **First4Progress S.p.A. (F4P)**, which owns approximately 5.14% of the share capital (approximately 3.272% of the voting rights);
- (floating) **market**, which overall holds an approximately 37.20% of the share capital (approximately 23.660% of total voting rights).

It should be noted that, on 29 June 2017, in execution of agreements between shareholders, GGH established a first degree pledge on 1,271,766 ordinary shares of Generalfinance owned by it in favour of CAI and that on 20 January 2021 and in compliance with the provisions of the deed of incorporation of the pledge - CAI agreed to the release from restriction on 423,992 Generalfinance shares. As at today's date, therefore, the restriction continues to be in place on the additional 847,844 shares owned by GGH. However, it does not entail any limitation on the rights of GGH as, in derogation from art. 2352 of the Italian Civil Code, the right to vote on the shares encumbered by the pledge is regularly exercised by GGH, both in ordinary and extraordinary shareholders' meetings. Similarly, the Parent Company maintained the right to receive any amount due from Generalfinance in relation to the shares encumbered by the pledge.

In addition, on 21 July 2022 GGH established a first degree pledge in favour of Banca Nazionale del Lavoro S.p.A. on a number of ordinary shares of Generalfinance owned by it corresponding to a countervalue, at the grant date, of EUR 9,100,080.00 to guarantee the obligations assumed with a credit line/special credit agreement within 28 months.

Main performance indicators

Generalfinance closed the first nine months of 2022 with a net profit of EUR 8.4 million (+28% compared to 30 September 2021) - including approximately EUR 1.2 million of non-recurring operating costs related to the stock market listing process, mainly professional expenses - and further growth in the *distressed financing* sector. Including advance payments on future receivables, turnover reached EUR 1,431 million (+55%) with EUR 1,183 million disbursed (+60%). Net of future receivables, the turnover was equal to EUR 1,367 million.

In order to provide a clear and immediate view of the Company's economic performance, the following tables show some indicators for the year, compared with the figures for the previous year.

Main reclassified income statement data (in thousands of Euro)

Income for:	30/09/2022	30/09/2021	Change
- Interest margin	5,681	4,490	+ 27%
- Net fee and commission income	17,101	12,453	+ 37%
- Net interest and other banking income	22,784	16,945	+ 34%
- Operating costs	(9,827)	(7,079)	+ 39%
- Pre-tax profit from current operations	12,656	9,621	+ 32%
- Profit for the year	8,432	6,597	+ 28%

	30/09/2022	30/09/2021
Cost/Income ratio (%)	43%	42%
ROE (%)	24%	39%
Net interest income/Net interest and other banking income (%)	25%	26%
Net fee and commission income/Net interest and other banking income (%)	75%	73%

These results are particularly significant as they were achieved in a challenging year marked by the impacts, in particular on the business system, relating to the effects of the ongoing conflict between Russia and Ukraine and the additional

macroeconomic factors that emerged in the last part of the semester (inflation rate, increase in the cost of money and energy).

Turnover

Including data referring to future credit advances, turnover reached EUR 1,431 million as at 30 September 2022, up by 55% compared to the same period of 2021. With reference to the annual "LTM - Last Twelve Months" turnover (September 2021 - September 2022), the breakdown by nationality of the transferred debtors shows an increasing relative weight of international *factoring*, which accounts for roughly 23.6% of business volumes, with significant diversification by country, reflecting the high level of service that the Company is able to provide to export-oriented customers.

With reference to the Transferors' registered offices show that the Company has a deeply rooted presence in the North of the country, with a particular focus on Lombardy (54.7% of turnover), Veneto (14.2%), Lazio (7.4%) and Emilia-Romagna (6.5%). Overall, these four regions account for approximately 82,9% of turnover, highlighting the significant presence of Generalfinance in some of the most productive areas of the country.

Note: LTM data

From a sector point of view, manufacturing represents the most important portion of turnover developed with respect to the transferors, with approximately 59,7%; this positioning is consistent with the "DNA" of Generalfinance as a reference factor for manufacturing SMEs affected by turnaround processes. The activity is mainly represented by factoring with recourse, which accounts for approximately 93.5% of volumes, with a residual portion of factoring without recourse (definitive purchase, for around 6.5%).

Lastly, approximately 72% of the turnover is generated with regard to “distressed” transferors, i.e. those engaged in restructuring projects (arrangement with creditors, recovery plan, restructuring agreement, extraordinary administration and new.co within the context of turnaround plans).

Economic data

The interest margin stood at EUR 5.7 million, a significant increase (+27%) compared to the first nine months of 2021, thanks in particular to the growth in loans disbursed, to an overall stability in the average rate on advances granted and the controlled trend of the cost of funding.

Net fee and commission income amounted to EUR 17.1 million, up compared to EUR 12.5 million in the first nine months of 2021 (+37%). The trend in these two aggregates was affected by the particularly positive trend in turnover (+55% over the previous year), the contained reduction of commission rates, reflecting the excellent commercial and operating performance of the Company.

Net interest and other banking income amounted to approximately EUR 22.8 million (+34%) while operating costs, equal to EUR 9.8 million, represented a 39% increase. Under operating costs, roughly EUR 1.2 million of non-recurring costs were recorded, related to the stock market listing process, of which EUR 0.2 million under personnel expenses and EUR 1 million - consistently with the provisions of IAS 32 - under other administrative expenses.

Taking into account the particularly low cost of risk (net value adjustments equal to EUR 0.3 million, with a cost of risk at 3 basis points, despite the effects of the adjustment of the IFRS 9 policy with reference to the estimate of the ECL of future receivables, with a one-off impact of approximately EUR 0.1 million) and taxes of EUR 4.2 million, the net result for the period amounted to approximately EUR 8.4 million (+28%) against of EUR 6.6 million recorded in the first nine months of 2021.

Cash and cash equivalents - largely represented by loans to banks - amounted to approximately EUR 56 million - reflecting the prudent profile of liquidity management - while total assets statements amounted to EUR 403.6 million in the financial statements, compared to EUR 365.3 million at the end of 2021.

Property, plant and equipment amounted to EUR 4.7 million, compared to approximately EUR 4.9 million in 2021. Intangible assets amounted to EUR 1.8 million, compared to approximately EUR 1.7 million in 2021.

Financial liabilities measured at amortised cost, equal to EUR 327.1 million, are made up of payables of EUR 289.6 million and securities issued of EUR 37.6 million.

Payables are mainly represented by the pool loan (EUR 133.3 million) stipulated in January 2019 with some Italian banks and renewed early during the half-year period until January 2025, in addition to the other bilateral lines with banks and factoring companies (EUR 60 million). In addition, the item includes the payable to the vehicle (EUR 93.7 million) relating to the securitization transaction concluded in December 2021, which saw BNP Paribas and Intesa Sanpaolo as senior lender.

The securities consist of two subordinated bonds (12.5 million) issued in the second half of 2021, in addition to the outstanding commercial papers (25 million).

The total for this item therefore amounts to Euro 289,574,460.

Payables to banks refer to:

Technical form	Amount
Current account exposures for SBF advances	19,304,630
Pool loan	133,329,085
Total	152,633,715

With regard to the pool loan agreement, it should be noted that the Company – in the context of funding strategies – has obtained a prorogation of the contract's expiry from the credit institutions of a further 2 years, to January 2025.

Payables for loans to financial companies mainly refer to payables for advances on Italian and foreign invoices (refactoring transactions).

Other payables to financial companies refer to payables to the special purpose vehicle relating to the securitisation transaction concluded in December 2021 and relating to a revolving portfolio of receivables deriving from with and without recourse factoring contracts owned by the Company.

Payables to customers refer to amounts to be paid to transferors deriving from collections of transferred receivables, to payables for leases, recognised following the adoption of the new accounting standard "IFRS 16 Leases".

With regard to bonds, during the months of September and October 2021, the Company issued and placed two Tier 2 subordinated bonds.

The first, with a duration of six years and maturity on 30 September 2027, was issued for an amount of EUR 5 million with an annual coupon at a fixed rate of 10%.

The second, with a duration of five years and maturity on 28 October 2026, was issued for an amount of EUR 7.5 million and with an annual coupon at a floating rate equal to the 3-month Euribor plus a spread of 800 basis points.

The bonds - subscribed by institutional investors - were entered into the centralised management system at Monte Titoli S.p.A. and subject to the dematerialisation regulations.

The other securities are commercial paper admitted in dematerialised form in Monte Titoli and traded on the ExtraMOT PRO, Professional Segment of the ExtraMOT Market, multilateral trading system managed by Borsa Italiana S.p.A.

In particular, at the reporting date, three bonds with similar characteristics were issued. The first, with a three-month duration, was issued for a total of EUR 15 million - zero coupon - at a fixed annual rate of 0.80%. The second, with a duration of six months, was issued for a total of EUR 5 million - zero coupon - at a fixed annual rate of 1%. The third and last, with a three-month duration, was issued for a total of EUR 5 million - zero coupon - at a fixed annual rate of 1.90%.

Payables and subordinated securities

The item "Debt securities issued" includes subordinated securities relating to the issue of Tier 2 bonds for a nominal amount of EUR 12.5 million.

Impact resulting from the conflict between Russia and Ukraine

Also with reference to what is indicated by ESMA in the public statement "Implications of Russia's invasion of Ukraine on interim financial reports" on 14 March 2022 and to the CONSOB communication of 19 March 2022 "Conflict in Ukraine: CONSOB warnings

for supervised issuers on financial reporting and on the obligations related to compliance with the restrictive measures adopted by the European Union against Russia, as well as on the obligations of managers of online portals", in the context of the constant monitoring of its loan portfolio the Company has paid particular attention, on the geopolitical front, to the developments of the conflict between Ukraine and Russia, which resulted in the invasion by Russia of the Ukrainian territory starting on 24 February 2022 and in the adoption of economic sanctions by the Union European, Switzerland, Japan, Australia and NATO countries vis-à-vis both Russia and Belarus and some representatives of these countries; in the half-year, conflict and sanctions have had significant negative repercussions on the global economy, also taking into account the negative effects on the trend in raw material costs (with particular reference to the prices and availability of electricity and gas), as well as on the performance of the financial markets.

In said context, it should be stressed that Generalfinance has zero direct presence in the Russian/Ukrainian/Belarusian market (areas directly impacted by the conflict), since the Company has factoring relations solely with transferors active in Italy. With reference to the Transferred Debtors based in Russia, Ukraine and Belarus, Generalfinance has a limited overall exposure, as at 30 September 2022, of EUR 0.3 million, significantly down on the exposure as at 31 December 2021 (EUR 2.6 million); this exposure accounts for 0.08% of gross receivables from customers and at present no significant critical issues have been identified in relation to the collection of the exposure itself. Since the invasion of Ukraine, Generalfinance has suspended the credit lines relating to Transferred Debtors operating in the countries directly involved in the conflict.

As regards the indirect effects of the conflict, the Company has classified a Transferor among the unlikely to pay (gross exposure equal to EUR 0.7 million, of which EUR 0.4 million guaranteed by the insurance company), as the main transferred debtor has initiated a restructuring process determined by the indirect effects of the conflict.

In this context, however, due consideration must be given to the anti-cyclical nature of Generalfinance's business, which benefits from difficult times in the economic situation; specifically, the persistence of market volatility following the invasion of Ukraine could have a negative impact on the risk appetite of the traditional banking system (partly exposed to a significant extent to the countries mentioned), which would reasonably lead to a reduction in the availability of credit by banks to the most vulnerable SMEs, creating potential new business opportunities for Generalfinance. Furthermore, the impact of the crisis scenario on the cost of raw materials (with particular reference to the prices and availability of electricity and gas) could determine the need, on the part of client companies, for increases in their available credit lines/ portfolios, in order to increase available liquidity, increasing the turnover volumes of Generalfinance.

The persistence, over a prolonged period, of the crisis scenario could then determine an increase in the number of companies with a lack of liquidity, fuelling the Company's reference market. The nature of the Company's business and the market niche in which it operates is anti-cyclical and, generally, it benefits from situations of tension on the financial, banking and real economy markets.

Shareholders' equity and capital ratios

Shareholders' equity as at 30 June 2022 amounted to EUR 54.3 million, compared to EUR 32 million as at 31 December 2021. A significant share capital increase was completed during the half-year period for a total of EUR 20.2 million in the context of the listing transaction. In line with IAS 32, part of the costs connected with the listing transaction were recognised in a negative shareholders' equity reserve (under the item "Issue premiums") for EUR 1.7 million, net of the associated taxes.

Generalfinance's *capital ratios* - including profit for the period net of the expected dividend, calculated by taking into account a *target pay-out* of 50%, in line with the Company's dividend policy - highlight the following values:

- 16.66% CET1 ratio;
- 16.66% TIER1 ratio;
- 20.43% Total Capital ratio.

The ratios are well above the minimum regulatory values set forth in Bank of Italy Circular no. 288 of 3 April 2015.

Own funds

Qualitative information

1. Tier 1 capital

It should be noted that - in accordance with Article 26(2) of Regulation (EU) No. 575/2013 of the European Parliament (the "CRR") - the Tier 1 Capital includes the net profits resulting from the financial statements for the period related to the first nine months of 2022, net of expected dividends.

For the purposes of the above, please note that:

- the profits were verified by entities independent from the entity responsible for auditing the entity's accounts, as required by Article

26 (2) of the CRR. In this regard, Deloitte & Touche SpA was appointed to prepare a limited scope audit report (review report) for the purpose of including undistributed profit in own funds; this report will be issued in time for the submission of prudential reports to the Supervisory Body;

- the profits were valued in compliance with the standards established by the applicable accounting regulations;
- all foreseeable charges and dividends were deducted from the amount of profits;
- the amount of dividends to be deducted was estimated in accordance with applicable regulations.

The amount referred to the so-called “Quick Fix” with which the value of the assets in the form of software to be deducted from the Common Equity Tier 1 capital and the amount referred to intangible assets in progress was also deducted from Tier 1 capital.

2. Tier 2 capital

Tier 2 capital includes subordinated bonds that the Company issued in 2021, net of the amortisation charge calculated in accordance with art. 64 of the CRR (EU Regulation no. 575/2013).

Capital adequacy

Qualitative information

Generalfinance assesses the adequacy of own funds to support current and future assets, in line with its own risk containment policy. In the context of the ICAAP process, Generalfinance defines the components of total capital (capital components to cover internal capital, i.e. the capital requirement relating to a given risk) on the basis of the prudential methodology. The components of total capital therefore coincide with the items of shareholders’ equity and with those of own funds.

The Company measures the following types of risk: credit, operational, concentration, interest rate on the banking book, liquidity. With regard to the first four types, the Company determines the internal capital necessary to hedge the risks generated by current and future assets. Pillar I risks are measured with similar criteria to those used to determine the minimum prudential requirements and, in particular, the standardised method for credit risk and the basic method for operational risk. With reference to the second pillar risks, Generalfinance uses the following quantitative measurement tools proposed in Bank of Italy Circular no. 288/15:

- for concentration risk (by parties and by groups of connected customers), the simplified method proposed in Bank of Italy Circular no. 288/15 under Title IV, Chapter 14, Annex B;
- for interest rate risk on the banking book, the simplified method envisaged by Bank of Italy Circular no. 288/15 in Title IV, Chapter 14, Annex C;
- for liquidity risk, the funding risk measurement maturity ladder model, envisaged by Bank of Italy Circular no. 288/15.

The other Pillar 2 risks are subject to qualitative assessment.

Information on business prospects with particular reference to the going concern basis

As regards the assumption of going concern, in light of the main economic and financial and equity indicators, liquidity position and the foreseeable business outlook, the Board of Directors has the reasonable certainty that the Company will continue to operate in the foreseeable future.

Transactions with related parties

The accounting standard of reference is IAS 24, the new version of which, approved by the IASB on 4 November 2009, was endorsed with Regulation no. 632 of 19 July 2010. This version defines a related party as a person or entity related to the one preparing the financial statements. Two entities cannot be included among related parties simply because they share a director or another manager with strategic responsibilities.

Information on remuneration of key management personnel

In addition to the directors, two executives with strategic responsibility have been identified, namely the CFO and the CLO. The gross annual remuneration of executives with strategic responsibility amounts to a total of EUR 260,000.

This amount does not consider allocations to the employee severance indemnity provision, the employee severance indemnity provision paid to supplementary pension funds, the non-competition agreement and any variable bonuses determined on the basis of the Company's results.

Furthermore, during the current year they benefited from an extraordinary bonus related to the success of the stock exchange listing process.

Loans and guarantees issued in favour of directors and statutory auditors

It should be noted that the company has no receivables due from directors and statutory auditors and that no guarantees have been issued in favour of directors and statutory auditors.

Information on transactions with related parties

The following table shows the amounts relating to the balance sheet and income statement transactions with related parties in the first nine months of 2022 as defined above on the basis of the provisions of IAS 24.

Significant events after the end of the quarter

No significant events or circumstances have occurred after the end of the quarter that would appreciably alter what has been presented in this Interim Report on Operations.

Business outlook

In the current context, with reference to the prospects for 2022, we need to take into consideration possible further impacts, particularly on the business system, of the ongoing conflict between Russia and Ukraine and of other macroeconomic factors that emerged in the last part of the first half-year period (marked increase in the rate of inflation, marked increase in energy costs and in the cost of borrowing).

In said general framework still characterised by critical elements for the real economy, the sales activities developed by Generalfinance in the first nine months of 2022 - trend in turnover and customer base - shows significantly rates of growth at least in line with those recorded in 2021, with a better performance than the one envisaged in the Business Plan in force with reference to the current year. Also on the credit quality front, the first nine months of the year shows an excellent risk profile, with better indicators than those planned. These elements allow us to predict a business performance and related net profitability for 2022 at least in line with the levels determined in the budget.
